LEARFIELD 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 1. DESCRIPTION OF PLAN:

The following description of the BGKR Ventures Inc. (Company) 401(K) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan was adopted and became effective as of November 1, 1984 and was amended and restated effective as of January 1, 2009. The Plan is a defined contribution plan covering all employees of the Company whom have one year of service and are twenty-one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants are permitted to enter the plan the first day of the Plan Year or the first day of the seventh month of the Plan Year coinciding with or next following their fulfillment of the eligibility requirements. The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions

Each year, participants may contribute a portion of pretax annual compensation, not to exceed maximum amounts as defined in the Plan and as stated in the Internal Revenue Service Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. There were no participant contributions in 2015 and 2014.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various registered investment companies (e.g. mutual funds) and an insurance investment contract as investment options for participants.

Matching contributions into the Learfield 401(K) Retirement Plan are determined annually at the discretion of the Company's Board of Directors. In 2015 and 2014, there was no discretionary employer contribution.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Employees vest in employer contributions as follows:

<u>Years of Vesting Service</u>	<u>Vesting</u>

NOTE 1. DESCRIPTION OF PLAN (continued):

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Distributions to plan participants are available upon death, disability, termination from employment, or retirement. A participant may elect to receive either: (1) a single lump-sum payment; (2) installments over a period of not more than their assumed life expectancy; or (3) partial withdrawals of at least \$1,000.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$0. Forfeitures are used to reduce Plan administration fees.

Merger

On December 14, 2015, the Board of Directors of Learfield Communications, Inc., a controlling party of BGKR Ventures, Inc., approved the merger of this Plan into the Learfield 401(K) Retirement Plan, effective December 14, 2015. As a result, all investments were transferred from the Plan into the Learfield 401(K) Retirement Plan on that date.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Date of management review

Subsequent events were evaluated through October 12, 2016, which is the date the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are stated at aggregate fair values that are determined by quoted market price as of the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Charges for administrative expenses are allocated to participant accounts and paid through the Plan. Fees for auditing the Plan are paid by the Company.

Investment and securities transactions

The Plan's investments are stated at fair value. All Plan assets were transferred to the Learfield 401(K) Retirement Plan before close of business on December 14, 2015.

NOTE 3. RELATED PARTY TRANSACTIONS:

The Company, through a committee appointed by the board of directors, serves as trustee for the Plan. The Plan has a contract with Sentinel Plan Administration, Inc., to provide professional and administrative services. The agreement provides for the investment of contributions as designated by each participant in mutual funds. The Plan paid \$450 to Sentinel Plan Administration, Inc. for the year ended December 31, 2015. Transamerica Retirement Solutions Corporation provides third party administrative services to the Plan. They maintain the individual participants' accounts, including cash transactions, and provides records of balances and transactions quarterly to the plan administrator. Certain Plan investments are investment choices managed by Transamerica. Fees paid by Plan participants to Transamerica were \$390 for the year ended December 31, 2015. These transactions qualify as party-in-interest transactions.

Investment management services were provided by Securities America Advisors and Cambridge Investment Group. Fees paid by the Plan to Securities America and Cambridge Investment Group were \$26,250 and \$8,745, respectively for the year ended December 31, 2015. These transactions qualify as party-in-interest transactions.

The Company pays the audit fees related to the retirement plan. Learfield 401(k) Retirement Plan was paid \$25,919 for reimbursement of applicable plan expenses from the revenue sharing account.

BGKR Ventures, Inc. was the Plan sponsor through December 14, 2015. Learfield Communications, Inc. was the Plan sponsor from December 15, 2015 through December 31, 2015.

LEARFIELD 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 3. RELATED PARTY TRANSACTIONS (continued):

As documented at Note 7, the Plan contracts with Transamerica Life Insurance Company to provide a guaranteed investment contract. Fees paid for the year ended December 31, 2015 were \$6,097.

NOTE 4. TAX STATUS:

The Plan obtained its latest determination letter in May 2003, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). As appropriate, the plan has been amended since receiving the determination letter.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 5. FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE 5. FAIR VALUE MEASUREMENTS (continued):

Level 1 Fair Value Measurements

The fair values of mutual funds are generally obtained from a file feed from the National Securities Clearing Corporation, and/or directly from the fund house, or a secondary pricing source, such as Interactive Data Corporation.

Level 2 Fair Value Measurements

The Stable Value Option investment choice is a non-tradable obligation of Transamerica. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis. This investment is considered fairly valued at contract value.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using the contract value less any contingent deferred sales charge, if applicable.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 2015 and 2014.

The Plan administrator instructed us not to perform any auditing procedures with respect to the information summarized below. NOTE 8. FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACTS:

The Plan entered into a fully benefit-responsive investment contract with Transamerica Life Insurance Company. An investment contract is considered fully benefit-responsive if all five of the criteria listed below are met for that contract, when analyzed on an individual basis. Transamerica's Stable Value Option investment choices meet all of these criteria.

The Stable Value Option investment choices in Transamerica's Group Annuity Contract comply with the Financial Accounting Standards Board's (FASB's) fully benefit-responsive requirements, and thus are reportable at contract value in the defined contribution plan's financial statements. The Stable Value Option investment choices are not considered a guaranteed interest contract.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 8. FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACTS (continued):

Fully benefit-responsive requirements are based on the following characteristics, and are reportable at contract value in the defined contribution plan's financial statements:

1. The Stable Value Option investment choice is a non-tradable obligation of Transamerica. The investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of Transamerica.
2. The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable—for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive.
3. The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other investment choices within the plan.
4. Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable.
5. The Stable Value Option investment choice allows a participant reasonable access to their assets.

Prior to January 1st and July 1st the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum interest rate for the Stable Value Option investment choices. The average interest rate was .50% at December 31, 2015 and 2014.

The Transamerica Stable Value Option investment choices are backed by the general account of TLIC or TFLIC. While TLIC or TFLIC declare rates periodically and back the principal and interest of these investment choices, any guarantees are subject to the claims paying ability of the insurance company. This investment choice is not guaranteed by the FDIC or any other government agency. Although plan participants generally may withdraw assets from the Stable Value Option investment choice without restrictions, TLIC or TFLIC may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

These investment choices seek to protect against any loss of principal while providing returns in excess of money market funds and one-year U. S. Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. The effective

guaranteed credited interest rate is set on a semi-annual basis and announced at least 45 days in advance of the date the new rate becomes effective. The guaranteed rate of interest shall not change during the six month period for which it is effective.

The following table reconciles the beginning and ending balances of the fully benefit-responsive investment contract with the insurance company for the years ended December 31, 2015 and 2014.

The current value of the Plan's interest under this contract that was held in separate accounts at December 31, 2015 and 2014 was \$0 and \$41,484, respectively.

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2015 and 2014, are reported in net appreciation in fair value of investments. Unrealized gains/(losses) from the guaranteed investments contract are not reported in the statement of changes in net assets available for benefits as the contract is recorded at contract value for presentation in the net assets available for benefits.

The Plan's policy is to recognize transfers into and out of Level 2 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2015, the net of transfers out of Level 2 was \$185,434.

NOTE 9. RISKS AND UNCERTAINTIES:

The Plan invests in various mutual funds. Mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
