Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Participants and Administrator
United Technologies Corporation Employee Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of United Technologies Corporation Employee Retirement Plan (the Plan), which comprise the statements of net assets available for plan benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for plan benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2014, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Prudential Retirement Insurance and Annuity Company and Metropolitan Life Insurance Company (the Insurance Companies) and the information summarized in note 7, which was certified by The Bank of New York Mellon, N.A., the Trustee, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Insurance Companies and Trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the Insurance Companies and Trustee as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the plan administrator by the Insurance Companies and Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (held at end of year) as of December 31, 2015 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(1) Description of the Plan

(a) General

The United Technologies Corporation Employee Retirement Plan (the Plan) is a defined benefit retirement plan and, except for former participants of the Sundstrand Electric Power Systems Retirement Plan and certain former participants of the Kidde (US) Pension Plan, is noncontributory. The Plan covers certain domestic salaried employees of United Technologies Corporation and its subsidiaries (UTC) (the Plan Sponsor) and former members of the Goodrich Corporation Employees' Pension Plan. The Plan also covers the hourly paid employees at certain of UTC's factory locations which are not covered by a collective bargaining agreement. Employees are eligible to participate after completing 1,000 hours of eligible service and the earlier of attaining (i) age 21 after January 1 or (ii) age 20½ after July 1 and six months of continuous service. The Plan is administered by UTC (the Plan Administrator) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective July 1, 2002, a hypothetical account is to be maintained for each new salaried participant in which contributions are credited for the benefit of the individual and for all active salaried participants as of June 30, 2002 who selected the Cash Balance formula for future benefits. Participants who chose the Cash Balance formula for future benefits will receive benefits under a final average earnings formula for service through the date of election and under the cash balance formula for service subsequent to the date of election. Active participants as of June 30, 2002 who did not select the Cash Balance formula will continue to accrue benefits under the Final Average Earnings formula until December 31, 2014. All benefits under the Final Average Earnings formula were frozen effective December 31, 2014. Affected participants were eligible to continue to participate in the Plan under the Cash Balance formula beginning January 1, 2015.

All UTC salaried employees hired after December 31, 2009 are not eligible to participate in the Plan with the exception of certain excluded employees.

The following brief description of the Plan is provided for general information purposes only. More complete information is provided by the Summary Plan Description and Plan Document, which are available from the Plan Administrator.

(b) Vesting and Benefit Provisions

Final Average Earnings

Under the terms of the Plan, participants eligible for the Final Average Earnings formula are fully vested after 5 years of service and are eligible for pension benefits upon retirement. Generally, participants are eligible for retirement at age 65. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or other actuarially equivalent annuity. Under the final average earnings formula, at retirement, eligible employees are entitled to monthly pension benefits based on either a percentage of final average earnings (as defined) multiplied by years of credited service, subject to reductions determined by applying a specified percentage to the participant's social security amount, or a fixed benefit multiplied by the years of credited service. Eligible participants will receive early retirement benefits, reduced in a manner set forth in the plan document, based upon

UNITED TECHNOLOGIES CORPORATION

age and service at termination. If, upon termination, the present value of the pension benefit as of the participant's normal retirement age is equal to or less than \$5,000, the vested portion of the benefit will be transferred to an IRA account if the participant does not elect otherwise. The Plan also provides for disability and pre-retirement death benefits for certain groups of employees. As noted above, all benefits under the Final Average Earnings formula were frozen effective December 31, 2014.

Cash Balance

Under the terms of the Plan, participants eligible under the Cash Balance formula are fully vested after three years of service and are eligible for pension benefits upon the earlier of termination after vesting and retirement. Under the cash balance formula, for each calendar month, a pay credit will be added to the participant's cash balance account in an amount equal to the pay credit rate for the plan year times the earnings paid to the participant during the month. For each calendar month, an interest credit will be added to a participant's cash balance account in an amount equal to his or her cash balance account as of the last day of the immediately preceding calendar month times the monthly applicable interest rate for the calendar month. Under the cash balance formula of the Plan, certain participants may elect single lump-sum payments, rollover their single lump sum payment, or receive monthly annuity payments. Other participants may only choose to receive monthly benefit payments from the Plan upon retirement. If, upon termination, the present value of the pension benefit as of the participant's normal retirement age is equal to or less than \$5,000, the vested portion of the benefit will be transferred to an IRA account if the participant does not elect otherwise. The Plan also provides for disability and pre-retirement death benefits.

(2) Summary of Accounting and Reporting Policies

The significant accounting and reporting policies followed by the Plan are summarized below:

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

(b) Payment of Benefits

Benefits are recorded when paid.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the dates of the financial statements, the changes in net assets available for plan benefits during the reporting periods, and other amounts reported in the financial statements and accompanying notes. The actuarial present value of accumulated plan benefits and contributions to the Plan are estimates which are based upon the actuarial methods and assumptions selected regarding salary rates, employee termination rates, mortality rates and other factors. Actual results could differ from those estimates.

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(d) Funding Policy

UTC's funding policy is to make periodic contributions to the Plan in amounts that will meet or exceed the annual ERISA minimum funding requirement. UTC's contributions, for the years ended December 31, 2015 and 2014 have met the minimum funding requirements of ERISA.

Participants of the Plan who were former Sundstrand Electric Power Systems Retirement Plan participants may elect to contribute annually 1.5% of their total compensation. Participants of the Plan who were former employees of Kidde Dual Spectrum and were former Kidde (US) Pension Plan participants may elect to contribute annually 3% of their total compensation. Other participants are not eligible to contribute to the Plan.

(e) Administrative Expenses/Related Party Transactions

Expenses incurred in the administration of the Plan including fees paid to third-party administrators and other expenses, primarily actuarial fees, and Pension Benefit Guaranty Corporation (PBGC) premiums, are paid from the Plan's assets.

Certain plan investments are managed by The Bank of New York Mellon, N.A. (the Trustee) and Prudential Retirement Insurance and Annuity Company and Metropolitan Life Insurance Company (the Insurance Companies). These transactions qualify as party-in-interest transactions. For the years ended December 31, 2015 and 2014, fees paid by the Plan or allocated to the Plan in the Master Trust for investment advisory services and trustee services to the Trustee amounted to \$55,593 thousand and \$33,013 thousand, respectively. For the years ended December 31, 2015 and 2014, fees paid by the Plan for investment advisory services, trustee and administrative expenses to the Insurance Companies amounted to \$1,356 thousand and \$1,461 thousand, respectively.

(f) Investments in Insurance Contracts and Pooled Separate Accounts

The Plan's investments in insurance contracts are reported based upon unaudited statements certified by the Insurance Companies (see note 6). Under these contracts a portion of the investments are held in Immediate Participation Guarantee (IPG) Funds and pooled separate accounts. The IPG Funds are reported at contract value based on the deposited assets plus interest on such assets less costs of administration and payment of benefits. Interest is credited to the IPG Funds in accordance with the estimated allocation procedures of the Insurance Companies. Investments in pooled separate accounts are valued at fair value. The Insurance Companies have discretionary authority concerning investment of such deposits. The investments held in the IPG Funds were established prior to March 20, 1992 and therefore are reported at contract values as permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 960, *Plan Accounting – Defined Benefit Pension Plans*. Pooled separate account investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(g) Master Trust

The Plan's interest in the UTC Master Trust (Master Trust) is based upon the value of units of participation as certified by the Master Trust Trustee (see note 7). Master Trust investments are

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of the Plan's interest in investment income (loss) and realized and unrealized appreciation (depreciation) in the market value of the invested assets of the Master Trust, net of investment advisory and trustee fees, is allocated to the Plan by the Trustee based on the Plan's proportionate interest in the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned. UTC performs ongoing due diligence reviews of the Master Trust's investments and has retained a consultant to provide quarterly reports, including a performance review.

(h) *Risks and Uncertainties*

The investment managers retained by the Plan Administrator have discretion to invest Master Trust assets in derivative financial instruments to manage risk as well as to enhance yields. These derivatives are primarily in the form of forward foreign exchange contracts, and various equity and interest rate futures. Such derivative instruments are reported at fair value within the Master Trust, and the changes in fair value are reported currently in the net appreciation (depreciation) of the Master Trust and not deferred. The future foreign exchange contracts represent an obligation to receive or disburse the change in the market value of the index. A portion of the Master Trust's assets are invested in international securities. As a result, the Master Trust assets are exposed to risk from fluctuations in foreign exchange rates.

By nature, all financial instruments involve risk, generally market risk, arising from changes in stock and bond prices, interest rates or currency exchange rates, credit risk, and the risk that an issuer or counter party will default on an agreed-upon transaction.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(i) *Fair Value Measurement*

U.S. GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- **Level 1** – The types of instruments classified as Level 1 are valued based on quoted market prices in active markets.

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

- **Level 2** – The types of instruments classified as Level 2 are valued based on inputs other than quoted prices that are observable for the asset, such as quoted prices for similar instruments in active markets or similar instruments in markets that are not active and model-based valuations for which all significant assumptions are observable or can be corroborated by observable market data.
- **Level 3** – Investments classified as Level 3 have inputs based on unobservable price data. They typically trade infrequently and therefore have little or no price transparency. Fair value pricing is developed based on the best information available which can include the reporting entity's own data.

An asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers between levels, if any, are recorded as of the date the transfer occurred.

(j) Recently Adopted Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This pronouncement eliminates the requirement to categorize investments for which fair values are measured using the net asset value per share practical expedient and also limits disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early application permitted. In 2015, the Plan adopted this provision of ASU 2015-07 and applied the provision retrospectively. As a result, the Plan's investment in limited partnerships and real estate funds have been removed from the fair value hierarchy.

In June 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-10, Technical Corrections and Improvements ("ASU 2015-10"), which contains amendments that will affect a wide variety of topics in the accounting standards codification. One such amendment states that an equity security that is an investment in a mutual fund, or in a structure similar to a mutual fund, has a readily determinable fair value if the fair value per share is determined and published and is the basis for current transactions. In 2015, the Plan adopted this provision of ASU 2015-10 and applied the provision retrospectively. As a result, the Plan's investment in common/collective trusts have been reclassified from Level 2 to Level 1 in the fair value hierarchy.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

III) Measurement Date Practical Expedient. Part I is not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Part II early.

(3) Plan Merger

In July 2014, UTC completed its acquisition of Precision Component International, Inc. ("PCI"). Effective at midnight on December 31, 2015, the Precision Component International, Inc. ("PCI") Pension Plan was merged into the Plan. As a result, assets totaling \$39,709 thousand were transferred into the Plan effective December 31, 2015.

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered as of the actuarial valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation to determine benefit obligations as of December 31, 2014 were:

	2014
a. Discount rate	3.9% per year
b. Mortality table	RP-2014
c. Retirement age	Decrement averaging at age 61

The present value of accumulated plan benefits as of December 31, 2014 increased by \$2,301 million due to changes in actuarial assumptions mainly as a result of a decrease in the discount rate assumption from 4.80% at December 31, 2013 to 3.90% at December 31, 2014.

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(5) Plan Termination

Although UTC has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets generally will not be available on a pro rata basis to provide for participant's benefits. The maximum amount of PBGC guaranteed benefits for terminations in 2015 at age 65 is \$5,011 per month. Whether all plan participants receive their full plan benefits, should the Plan terminate at some future time, would depend on the priority of these benefits and the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the existing plan assets and the PBGC guarantee while other benefits may not be provided for at all.

Upon termination, UTC shall give notice to the PBGC and shall comply with its procedures and lawful orders. As soon as it may do so, UTC thereupon shall cause all amounts in the hands of the Trustee and Insurance Companies to be allocated and distributed in the manner and order set forth in Section 4044 of ERISA to the extent of the sufficiency of the Plan's assets.

Additional information concerning the priority order of participants' claims to the assets of the Plan upon termination can be obtained from the Summary Plan Description, which is available from the Plan Administrator.

(6) Immediate Participation Guarantee (IPG) Funds and Pooled Separate Accounts (Unaudited)

A portion of the Plan's assets are held in IPG Funds and pooled separate accounts ("separate accounts") with the Insurance Companies. Amounts invested in IPG Funds are primarily invested in Prudential's General Account under a contract established on January 1, 1978 and earn the same rate of return that Prudential's general fund achieves. The remaining assets in IPG Funds and pooled separate accounts are held by the Insurance Companies under various contracts. These contracts continue in perpetuity. Under the terms of the IPG Funds' contracts, the Insurance Companies maintain separate accounting of investment income and expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan Administrator does not believe that any events would limit the Plan's ability to transact at contract value.

The following is a summarization of the unaudited amounts held under the contracts certified by the Insurance Companies in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

The following tables set forth by level, within the fair value hierarchy, the plan's assets in separate accounts held at fair value as of December 31, 2015 and 2014. The following tables do not include the plan's interest in the Master Trust because that information is presented in a separate table (See note 7).

Separate Accounts are valued at fair value based on underlying fixed income securities that are generally valued using current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. There have been no changes in the methodologies used at December 31, 2015 and 2014, and there were no transfers between levels for the year ended December 31, 2015.

(7) Investment in Master Trust (Unaudited)

UTC has entered into a Master Trust agreement with The Bank of New York Mellon, N.A. as Trustee. Under this agreement, certain pension plans of UTC and its subsidiaries combine certain of their investments in the Master Trust.

Participating plans receive units of participation in this pool of investments based on their contributions to the Master Trust. The plans redeem units of participation to meet plan requirements to pay pension benefits and administrative expenses.

UTC stock held in the Master Trust had a fair value of \$944,912 thousand and \$831,328 thousand at December 31, 2015 and 2014, respectively. UTC stock held in the Master Trust represents approximately 4.0% and 4.8% of the Master Trust's Net Assets at December 31, 2015 and 2014, respectively.

During the years ended December 31, 2015 and 2014, the Master Trust's investments (including investments bought and sold, as well as investments held during the year) appreciated (depreciated) as follows:

Other	33,208	28,595
	<u>\$ (423,550)</u>	<u>1,907,627</u>

The following is a description of the valuation methodologies used for assets measured at fair value. Except for revision resulting from the adoption of ASU 2015-10 and ASU 2015-07, there have been no changes in the methodologies used at December 31, 2015 and 2014.

Quoted market prices are used to value equity and certain actively traded debt investments when available. Investments in securities traded on national and foreign securities exchanges are valued using the pricing services' reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices.

Forward currency contracts, futures and options are valued at the exchange rates and market prices prevailing on the last business day of the year. Both exchange rates and market prices are readily available from published sources. Temporary cash investments are stated at fair value.

The Plan's interest in certain common collective trusts and limited partnerships are reported at the net asset value (NAV) reported by the fund managers. NAV is used to estimate the fair value of the Plan's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of December 31, 2015, the Plan had no specific plans or intentions to sell investments at amounts different than NAV.

For securities that have no quoted market price, including those valued using NAV, many factors are considered in arriving at that fair market value, which include the following:

Common collective trusts invest in other public or private individual assets as determined and managed by the fund. The Plan's interest in the common/collective trust funds are based on the fair values of the underlying investments. Investments in collective trust funds are valued at their respective NAV per share/unit on the valuation date. There are no unfunded commitments and investments can be redeemed monthly with 30-120 days notice.

Notes to Financial Statements

December 31, 2015 and 2014

Limited partnerships, valued using NAV per share practical expedient, principally private equity investments, are valued quarterly by the general partner using various valuation methods such as discounted cash flows, earnings multiples and market multiples. Valuation adjustments occur which reflect changes in operating results, financial condition, or prospects of the applicable portfolio company. Since valuation estimates are typically lagged a quarter, a fourth quarter roll-forward valuation process is used for fund level partnerships. This process takes into account latest reported valuation, monthly capital calls, management fees, return of capital, income distributions, and realized gains/losses.

For fixed-income securities, the market approach pricing methodology is primarily used where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar investments.

Real estate investments are valued on a quarterly basis; principally, rental property subject to long-term leases has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved. These valuation estimates are supplemented by third-party appraisals on an annual basis.

Fair value information for investments that are measured at fair value on a recurring basis is as follows at December 31, 2015 and 2014 (in thousands):

Notes to Financial Statements

December 31, 2015 and 2014

In preparing its fair value disclosures, the Plan has considered the nature of the underlying investments in classifying its investments by type and valuation level. The classification of investments in the Master Trust statement of net assets reflects a classification based on the structure of the investment. As an example, real estate held within a limited partnership structure may be classified differently. The Plan believes the presentation of investments by valuation levels is representative of the required disclosures.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Master Trust's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2015, and the significant unobservable inputs and the ranges of values for those inputs (in thousands):

Level 3 investment	Fair value	Principal valuation technique	Significant unobservable inputs	Range of significant input values
Real estate	\$ 1,346,715	Discounted Cash Flow Analysis	Revenue Growth Rate Discount Rate Exit Cap Rate	0% - 11% 6.5% - 9.5% 5.75% - 9%

In estimating fair value of the investments in level 3, the Plan Administrator may use third-party pricing sources. In substantiating the reasonableness of the pricing data provided by third parties, the Plan Administrator evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Derivative Financial Instruments

Derivatives in the plan are primarily used to manage risk and gain asset class exposure while still maintaining liquidity. Derivative instruments mainly consist of equity futures, interest rate futures, interest rate swaps and currency forward contracts.

UNITED TECHNOLOGIES CORPORATION
EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

At December 31, 2015 and 2014, the Master Trust had open foreign currency contracts to purchase approximately \$508 million and \$182 million, respectively, and sell approximately \$508 million and \$182 million, respectively, of various foreign currencies.

(8) Tax Status of the Plan

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated July 9, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits in progress for any tax periods.

(9) Related Party and Party in Interest Transactions

As described in note 7, certain plan investments are shares of UTC stock. As described in note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

(10) Subsequent Events

In October of 2016, the plan administrator completed an annuity purchase program that is estimated to reduce the Plan's net assets by \$0.5 billion during 2016. The plan administrator also launched a term vested lump sum offering that is estimated to reduce the Plan's net assets by \$0.7 billion during 2016.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality-Healthy and Disabled	
► Funding	Separate rates for non-annuitants (based on RP-2000 “Employees” table without collar or amount adjustments, projected to 2030 using Scale AA) and annuitants (based on RP-2000 “Healthy Annuitants” table without collar or amount adjustments, projected to 2022 using Scale AA).
Termination	Rates varying by age and service See Exhibit A
Disability	Rates varying by age See Exhibit B
Retirement	Rates varying by age See Exhibit C
Benefit commencement date for terminated vested participants	For Goodrich, 40% of those eligible for unreduced benefits at age 62 commence at age 62. Otherwise, commencement assumed at age 65.

Schedule SB, Part V—Statement of Actuarial Assumptions and Methods

Form of payment	<p>For Non-Rep cash balance participants (other than HMR cash balance): for retirement and death, immediate lump sum; for vested termination, 75% immediate lump sum and 25% deferred to age 55 lump sum;</p> <p>For Goodrich: Five year certain and continuous annuity for pay-related formulas. Lump sum for Rohr salaried cash balance benefit. Life annuity for all other dollar per month formulas;</p> <p>For all other groups: 50% life annuity and 50% CA benefit (equally split between option 50% and option 100% CA).</p>
Percent married	<p>100% at age 55 for subplans with the 100% CA annuity that allows non-spouse beneficiaries; 81% for all others in Non-Rep.</p>
Spouse age	<p>Females three years younger than males.</p>
Covered pay	<p>For current year hires, pay rate. For participants on leave of absence, pay rate. For all other participants, prior year's pensionable earnings increased with the applicable salary scale.</p>
Administrative expenses	<p>For Non-Rep: 0.2% of the fair value of assets;</p>
Loads	<p>For Non-Rep vested terminations, the PPA liability is increased by 0.5% to estimate the impact of the optional forms.</p>
At-risk assumptions	<p>N/A</p>
Timing of benefit payments	<p>Annuity payments are payable monthly at the beginning of the month.</p>

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions attachment were valued. Towers Watson has reviewed the plan provisions with United Technologies Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.</p>
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2013 to September 2014.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>For Non-Rep, the assumption that 10% of termination rates are assumed to be layoffs was eliminated in conjunction with the freeze of all final average earnings related benefits as of December 31, 2014.</p>

Assumptions Rationale - Significant Economic Assumptions

Funding discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Crediting rate on cash balance accounts	<p>The cash balance interest crediting rate under the UTC plans is generally based on the applicable months' 30-year US Treasury yield in the prior year, subject to plan-specific minimum rates -- 3.80% (UTC Non-Rep salaried), 5.25% (UTC Non-Rep Rocketdyne), 4.00% (UTC Non-Rep HMR). UTC has reviewed the historic spread between the long-term high quality (AA) corporate bond yields and U.S. 30 year Treasury yields and has set and maintained the spread between the discount rate and interest crediting rate at 100 basis points.</p> <p>After examining historical variability in this rate, and considering the increase in interest crediting expected to be caused by the minimum interest credit, we believe that the selected assumption does not significantly conflict with what would be reasonable based on market conditions at the measurement date.</p>
Annuity / Lump Sum conversion rate	The assumed annuity conversion rate is equivalent to the discount rate; We believe that the selected assumption does not significantly conflict with what would be reasonable.
Rates of increase in compensation, future Social Security Wage bases, and statutory limits on compensation	Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP they represent an estimate of future experience. We believe that the selected assumption does not significantly conflict with what would be reasonable.
Administrative expenses	Administrative expenses are estimated based on historical experience.

Assumptions Rationale - Significant Demographic Assumptions

Termination / Retirement / Disability	The assumptions were selected by UTC based on prior reviews of participant experience data combined with expectations for future changes in termination and retirement patterns due to the change in plan formula and elimination of company subsidized retiree medical.
Benefit commencement date for deferred benefits	The assumptions were selected by UTC based on prior reviews of participant experience data combined with expectations for future changes in commencement ages.
Form of payment	The form of payment for the traditional UTC plans (non-cash balance) was set by UTC based on a prior review of actual participant elections. For the cash balance plan, due to the limited amount of data available, UTC elected to assume a 100% lump sum election (with a 25% deferral assumption).
Marital Assumptions	
▶ Percent married	The assumed percentage married was set based on UTC's observations regarding its employee population. For plans that permit a non-spouse beneficiary, a 100% married assumption was selected to account for the additional benefits available for a non-spouse beneficiary.
▶ Spouse age	The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in this attachment, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of Plan Provisions

**United Technologies Corporation
Employee Retirement Plan (UTC Non-Rep)
All Salaried Employees**

Effective January 1, 2010, UTC salaried employees hired after December 31, 2009 will not be eligible to participate in the pension plan and will receive an company automatic fixed contribution in the UTC savings plan instead. Newly hired hourly management represented and Puerto Rico exempt employees will continue to be eligible to participate in the Non-Rep Pension Plan.

Effective January 1, 2015, all final average earnings related benefits under the Non-Rep Plan will be frozen. Affected participants will be eligible to continue to participate in the Plan under the UTC 3%-8% Cash Balance Plan beginning January 1, 2015.

**United Technologies Corporation
Employee Retirement Plan (UTC Non-Rep)
All Salaried Employees
Cash Balance Plan**

1. Eligibility

- a. Eligible Employees: Salaried employees of United Technologies Corporation who were hired between June 30, 2002 and December 31, 2009 or who elected the cash balance formula during My Pension.My Choice. to be effective as of April 1, 2003 (or as of a later cash balance effective date, where applicable). Select GE Security employees are eligible to participate beginning January 1, 2011. Beginning January 1, 2015, all participating Salaried, non-union employees of United Technologies Corporation receive the Cash Balance formula, regardless of date of hire.
- b. Participation Requirements: Eligible Employees become participants on the earlier of:
- January 1 coincident with or following age 21
 - July 1 coincident with or following age 20 & 1/2 and 6 months of eligibility service

2. Accrued Benefit

- a. Formula: Cash balance account, equal to the sum of (i), (ii), minus (iii), if applicable; plus (iv), if applicable:
- (i) Pay Credits: Upon becoming an eligible participant, pay credits accrue from the date of hire or, for participants who elected the cash balance formula during My Pension.My Choice., from the cash balance effective date. Pay credits are added to the cash balance account at the end of each month and are expressed as a percentage of monthly earnings. Pay credits are based on attained age as of December 31 of the current year according to the table below:

<u>Age as of December 31</u>	<u>Pay Credit as Percent of Earnings</u>
Up to age 30	3%
Age 30 to 34	4%
Age 35 to 39	5%
Age 40 to 44	6%
Age 45 to 49	7%
Age 50 and above	8%

Pay credits stop accruing when the participant retires, terminates or dies, that is, when the participant's credited service ends.

- (ii) Interest Credits: An interest credit is added to the account at the end of each month. It is equal to the product of the account balance as of the end of the prior month and $1/12$ [or $(1+i)^{(1/12)}-1$] of the annual interest rate in effect for the year, but not less than 3.8%. The annual interest rate is set each January 1 and is based on the average yield on 30-year Treasury Bonds during the month of November of the prior year. Interest credits continue until the date payments begin.

Schedule SB, Part V – Summary of Plan Provisions

- (iii) The cash balance account of (a) certain Carrier Enterprises participants and (b) certain Otis participants will be offset by the amounts described below:
 - (a) For Carrier Enterprises participants who participate in the profit sharing plan (part of UTC Savings Plan II), the value of the post-March 31, 2003 notional profit sharing account will be offset.
 - (b) For Otis Group or Otis Local Group participants who participate in the National Elevator Industry Multi-Employer Pension Plan (NEI Pension Plan), the value of the NEI Pension Plan benefit attributable to service on or after April 1, 2003 will be offset.
- (iv) If the Participant elected the cash balance formula during My Pension.My Choice., the accrued benefit under the prior Final Average Earnings (FAE) formula, frozen as of April 1, 2003 (or as of a later cash balance effective date, where applicable), will be paid under the rules of that prior formula. In general, any prior FAE benefit is only available as an annuity commencing at age 55 or later.

b. Definitions

- (i) Earnings: Total compensation including overtime, bonuses, performance-related awards, shift differential payments, pre-tax contributions to the UTC Savings Plan, and pre-tax contributions for UTC Choice benefits, but excluding special awards (other than performance awards), foreign service premiums and allowances, stock option benefits, company contributions to other benefit plans, pay in lieu of vacation, severance pay, reimbursements, payments related to relocation expenses, amounts credited under a deferred compensation arrangement, or payments received instead of these items. Annual earnings are limited each year to the applicable Section 401(a)(17) pay limit, as indexed (\$265,000 for 2015).
- (ii) Maximum Benefit: A participant's benefit will not exceed the Section 415 limit, as indexed.
- (iii) Continuous Service (service): The total period of a participant's employment, including service after Normal Retirement Date, as well as an approved leave of absence, illness, disability, or layoff not exceeding one year (two years for a child care leave or, if re-employed, two years for a layoff or military leave).
- (iv) Credited Service: Continuous Service or, for participants who elected the cash balance formula during My Pension.My Choice., Continuous Service on or after the cash balance effective date, but excluding:
 - a break in service which exceeds 30 days,
 - leaves of absence without compensation in excess of one year,
 - service counted as Credited Service under any other defined benefit retirement plan of the company,
 - service prior to January 1, 1985 for former Plan A participants, and
 - for layoffs occurring after December 31, 2004, any period of time following the date of layoff.
- (v) Annuitization Basis (to convert cash balance account to life annuity): The annuitization basis is set each January 1 for the year, and is based on the IRS 417(e) basis for the month of November of the prior year, and the 417(e) government mandated mortality table.

- a. Formula: Cash balance account, equal to the sum of (i) and (ii), plus (iii), if applicable:
- (i) Pay Credits: Upon becoming an eligible participant, pay credits accrue from the later of date of hire or January, 1 2005. Pay credits are added to the cash balance account at the end of each month and are expressed as a percentage of monthly earnings. Pay credits are based on attained age as of December 31 of the current year according to the table below:

<u>Age as of December 31</u>	<u>Pay Credit as Percent of Earnings</u>
Up to age 30	3%
Age 30 to 34	4%
Age 35 to 39	5%
Age 40 to 44	6%
Age 45 to 49	7%
Age 50 and above	8%

Pay credits stop accruing when the participant retires, terminates or dies, that is, when the participant's credited service ends.

- (ii) Interest Credits: An interest credit is added to the account at the end of each month. It is equal to the product of the account balance as of the end of the prior month and $1/12$ [or $(1+i)^{(1/12)}-1$] of the annual interest rate in effect for the year. The annual interest rate is set each January 1 and is based on the average yield on 30-year Treasury Bonds during the month of November of the prior year. Interest credits continue until the date payments begin.
- (iii) Prior Plan Frozen Benefit: The frozen benefit accrued as of December 31, 2004 under the Onity, Inc. Pension Plan.

b. Definitions

- (i) Earnings: Total compensation including overtime, bonuses, performance-related awards, shift differential payments, pre-tax contributions to the UTC Savings Plan, and pre-tax contributions for UTC Choice benefits, but excluding special awards (other than performance awards), foreign service premiums and allowances, stock option benefits, company contributions to other benefit plans, pay in lieu of vacation, severance pay, reimbursements, payments related to relocation expenses, amounts credited under a deferred compensation arrangement, or payments received instead of these items. Annual earnings are limited each year to the applicable Section 401(a)(17) pay limit, as indexed (\$265,000 for 2015).
- (ii) Maximum Benefit: A participant's benefit will not exceed the Section 415 limit, as indexed.
- (iii) Continuous Service (service):
Prior to November 1, 2004: Continuous service is equal to credited service earned under the prior Onity, Inc. Pension Plan
On or after November 1, 2004: The total period of a participant's employment, including service after Normal Retirement Date, as well as an approved leave of absence, illness, disability, or layoff not exceeding one year (two years for a child care leave or, if re-employed, two years for a layoff or military leave).
- (iv) Credited Service: Continuous Service, but excluding:
 - a break in service which exceeds 30 days,
 - leaves of absence without compensation in excess of one year,
 - service counted as Credited Service under any other defined benefit retirement plan of the company, and
 - for layoffs occurring after December 31, 2004, any period of time following the date of layoff.
- (v) Annuitization Basis (to convert cash balance account to life annuity): The annuitization basis is set each January 1 for the year, and is based on the IRS 417(e) basis for the month of November of the prior year, and the 417(e) government mandated mortality table.

3. Normal Retirement

- a. Date: First of the month following the date on which a participant attains age 65.
- b. Benefit: Cash balance account converted to an equivalent annuity payable monthly, or a lump sum payment option equal to the cash balance account.

Former Onity participants will also receive their frozen benefit accrued under the Onity, Inc. Pension Plan.

4. Early Retirement

- a. Date: First of the month following retirement after the attainment of age 55 and the completion of 5 years of service, but before Normal Retirement Date.
- b. Benefit: Cash balance account converted to an equivalent annuity payable monthly, or a lump sum payment option equal to the cash balance account.
Former Onity participants will also receive their frozen benefit accrued under the Onity, Inc. Pension Plan. This benefit will be reduced 6% per year prior to age 65 commencement.

5. Postponed Retirement

- a. Date: First of the month following retirement after the Normal Retirement Date.
- b. Benefit: Cash balance account converted to an equivalent annuity payable monthly, or a lump sum payment option equal to the cash balance account.
Former Onity participants will also receive their frozen benefit accrued under the Onity, Inc. Pension Plan.

6. Vested Termination

- a. Eligibility: Termination of employment after completing three years of service, but before becoming eligible for early, normal or postponed retirement.
- b. Benefit: Cash balance account at termination, increased with accumulated monthly interest credits to the date payments commence, converted to an equivalent annuity payable monthly, or else a lump sum payment option equal to the cash balance account. A participant can commence payment of the benefit on the first day of any month following termination.
Former Onity participants will also receive their frozen benefit accrued under the Onity, Inc. Pension Plan.

7. Disability Benefit

- a. Eligibility: Disability after completing ten years of service and qualified to receive Social Security disability benefits.
- b. Benefit: Cash balance account continues to earn pay credits, using base earnings at the date of disability, as well as interest credits during the period of disability, but not beyond the Normal Retirement Date. The cash balance account can be paid at any time, but, once paid, the pay credits and the interest credits will stop.
Former Onity participants will also receive their frozen benefit accrued under the Onity, Inc. Pension Plan, payable under the early or normal retirement provisions of the Onity, Inc. Pension Plan, provided the participant has commenced their cash balance.

8. Pre-retirement Death Benefits

- a. Eligibility: If a vested participant (or former participant) dies before receiving a retirement benefit, the following survivor benefit is payable:
- b. Benefit: If the participant dies after becoming vested, the spouse or beneficiary will receive the full account balance if the death occurs before the cash balance payments are scheduled to begin. The spouse can elect an annuity or to defer payment to as late as when the participant would have attained age 65.
Former Onity participants will also receive their benefit accrued as of December 1, 2004, under the Onity, Inc. Pension Plan provisions, payable as a 50% contingent annuity, as early as the participant's earliest retirement date.

Schedule SB, Line 25 – Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been modified in minor ways (e.g., to change the methodology for counting days) as part of our harmonization of our valuation software systems, and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Schedule SB, Line 24 – Change in Actuarial Assumptions

The non-prescribed actuarial assumptions were reviewed and modified to reflect my best estimate of future plan experience. As a result, the following changes were made:

The assumption that 10% of termination rates result in a UCEB has been removed as a result of the 1/1/15 change in plan formula. As of 1/1/2015, future participants on layoff status do not receive any additional credited service under the Plan.
