INDEPENDENT AUDITORS' REPORT

To the Retirement and Benefits Committee of
Johns Manville Corporation:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Johns Manville Employees Retirement Plan (the "Plan"), as of December 31, 2015 and 2014, and for the year ended December 31, 2015, listed in the foregoing table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Johns Manville Employees Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

General — The Plan is a noncontributory defined benefit pension plan sponsored by Johns Manville Corporation and offered through its wholly owned subsidiary Johns Manville (the "Company") covering salaried and certain nonunion hourly employees of the Company who were employed as of December 31, 2006. On January 1, 2007, the Plan was closed to new hires. On January 1, 2008, the Plan was amended to freeze participants' Plan benefits as of December 31, 2007 (Freeze Date). Upon freezing the Plan, all participants will continue to earn vesting (accumulated) service; however, only the benefit service and compensation earned prior to January 1, 2008, will be considered for calculation of the retirement benefit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company maintains the Johns Manville Master Pension Trust (the "Master Trust") fund to provide pension, disability, and pre-retirement death benefits to eligible employees in accordance with the provisions of the Plan.

Pension Benefits — Participants who were employed as of December 31, 2006, were eligible to participate in the Plan after one year of service. Employees terminating before rendering five years of accumulated service and who are less than 55 years of age forfeit the right to receive pension benefits upon retirement. Eligible employees with five years of accumulated service (as defined by the Plan) or who are age 55 and older are entitled to pension benefits upon retirement based primarily upon years of service, age and the employees' average salary during the five highest consecutive years in the last 10 calendar years of employment prior to January 1, 2008, except for certain participants who were participants as of December 31, 1988, who have been grandfathered in their December 31, 1988, accrued benefit under the previous plan. For such participants, their Plan benefit will be the higher of the amount as of December 31, 1988, or the amount upon termination or retirement from employment with the Company. This group can receive early retirement benefits at less than 55 years of age.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles, generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of the Plan's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan and Master Trust utilize various investment securities including U.S. government securities, corporate fixed income, other fixed income, short-term investments and common stocks. Investment securities in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect balances in the Master Trust and the amounts reported in the financial statements.

Investment Valuation of Master Trust Fund and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. The Master Trust is included in a bank-administered Master Trust fund. The Bank of New York Mellon Trust Company, N.A. (the "Trustee") reports the total net asset value of the Master Trust and the net asset value of each Plan's related share. The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. As of December 31, 2015 and 2014, the Plan had a 57% and 58% interest in the Master Trust respectively. Purchases and sales of securities are reflected as of the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Any gain or loss on the sale of securities is based on average cost. Net depreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Administrative Expenses — All administrative expenses are paid by the Plan, except for certain administrative expenses that are required to be paid by the Company under ERISA. Plan administrative expenses, paid directly by the Company to the Plan's Trustee and outside consultants, are not included in the Plan's financial statements.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events were evaluated through October 14, 2016, the date the financial statements were available to be issued.

Accumulated Plan Benefit — As permitted by the Financial Accounting Standards Board (FASB) Accounting Standards Codification 960-205, *Plan Accounting — Defined Benefit Pension Plans*, all accumulated plan benefit information is presented as of the beginning of the Plan year.

New Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Topic 820). The update removes the requirement to categorize within the fair value hierarchy all investments measured using the net asset value per share practical expedient and related disclosures. The update is effective for annual periods beginning after December 15, 2015, and early adoption is permitted for all entities. Reporting entities are required to adopt this standard retrospectively. The Plan early adopted this standard for the year ended December 31, 2015, and removed investments measured using the net asset value per share practical expedient from the fair value hierarchy table in Note 5.

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the FASB Emerging

Issues Task Force) ("ASU 2015-12"), which simplifies certain aspects of employee benefit plan ("EBP") accounting by (I) requiring EBPs to use contract value as its only measurement for fully benefit-responsive investment contracts, (2) eliminating certain investment related disclosure requirements including disaggregating the fair value of investments by nature characteristics, and risk, individual investments that represent 5% or more of the Plan's net assets available for benefits, and appreciation and depreciation of plan investments by type, and (3) by providing a measurement date practical expedient allowing EBPs with fiscal year ends to measure defined benefit pension plan assets and obligations as of the month-end that is closest to the EBPs' fiscal year end. The new accounting guidance is effective for annual reporting periods beginning after December 15, 2015, and early adoption is permitted for all entities as of the beginning of interim or annual reporting periods. In adopting this ASU, requirements (1) and (2) require retrospective application and (3) require prospective application. The Plan early adopted this standard for the year ended December 31, 2015. The adoption of this standard did not have an impact on the Plan's statements of net assets available for benefit or statement of changes in net assets available for benefits.

3. FUNDING POLICY

The Company's funding policy is to make cash contributions to the Plan in the amounts estimated by the Plan's actuary such that, when combined with the net return on investments, all participants' benefits will be fully provided for by the time they are eligible to receive such benefits. The Company's contributions as determined for the years ended December 31, 2015 and 2014, met or exceeded the minimum funding requirements of ERISA.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments payable under the Plan's provisions that are attributable to the participants based upon service that has been rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. Participants' Plan benefits were frozen as of December 31, 2007, so that only benefit service and compensation prior to January 1, 2008, will be considered for calculation of the retirement benefit.

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. There was a Second and Third Amendment added to the Plan for the years ended January 1, 2015 and 2014 respectively. The Second Amendment is regarding section 4.10 Maximum Benefit Limitation and the Third Amendment is regarding section 5.02 Optional Forms of Payment.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, separation, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations were as follows:

- The interest rate was 6.5% for January 1, 2015 and 2014, which reflects the expected rate of return on Plan assets as of each valuation date.

- The life expectancy of healthy participants as of January 1, 2015 and 2014 for Pre-Commencement Mortality was calculated using the RP-2014 employee white collar table back projected to 2007 using Scale MP-2014, projected generational based on Mercer's modified MP-2014 projection scale (MMP-2007).

  The life expectancy of healthy participants as of January 1, 2015 and 2014 for Post-Commencement Mortality was calculated using the Mercer Industry Longevity Experience Study (MILES) 2010 *Basic Materials and Paper & Packaging* (BMPP) white collar employee table projected generational based on Mercer's modified MP-2014 projection scale (MMP-2007). For spouses and beneficiaries, the table is Mercer's MILES All Industry table projected with MMP-2007.

  The life expectancy of disabled participants as of January 1, 2015 and 2014 for Post-Disability Mortality was calculated using the RP-2014 disabled generational mortality table using Mercer's modified MP-2014 projection scale (MMP-2007). For spouses and beneficiaries of disabled participants, the table is Mercer's MILES All Industry table projected with MMP-2007.

- The form of payment assumption for active retirements, future vested deferred, future disabilities and current vested deferred participants is 60% electing a life annuity and 40% electing a 100% joint and survivor for January 1, 2015 and 2014.

- It is assumed that employees will retire between the ages of 55 and 70. The assumed rate of retirement varies depending on the participant age with an assumed rate of 10% at age 55 up to 100% at age 70.

The actuary determined the Company's contributions for the Plan using the traditional unit credit method based upon the same assumptions except using mandated interest and mortality based on the plan sponsor's elections under the Pension Protection Act as modified by MAP-21. Since the Plan was frozen as of December 31, 2007, no assumptions are necessary for the expected increases in annual salary, increases in the Social Security cost-of-living adjustments and wage base limitations in the funding calculation.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the plan were to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

5. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Master Trust's policy is to recognize significant transfers between levels at the end of the reporting period. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation

methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Investments in Collective U.S. Government Short Term Investment Funds (Collective Funds) — Valued based upon the redemption price of units held by the Plan, which is based on the current fair value of the collective funds underlying assets. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Investments in collective funds are categorized as Level 2.

Common Stocks — Valued at the closing price reported on the active market on which the individual securities are traded. Investments in common stocks are categorized as Level 1.

U.S. Government Securities — Valued using pricing models maximizing the use of observable inputs for similar securities. Investments in U.S. government securities are categorized as Level 2.

Corporate Fixed Income — Valued at estimated fair value. Many factors are considered in arriving at estimated value. In general, however, corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in corporate fixed income are categorized as Level 2.

The following tables set forth by level within the fair value hierarchy and the major categorization for debt and equity securities on the basis of the nature and risk of the investments a summary of the Master Trust's investments measured at fair value on a recurring basis as of December 31, 2015 and 2014.

	Master Trust Assets Fair Value Measurements as of December 31, 2015			
	Active Markets for Identical Assets (Level 1)	**Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**	**Total**
Collective U.S. government short-term investment funds	$ -	$79,373,521	$ -	$ 79,373,521

Corporate fixed income: BBB credit rating	-	5,870,500	-	5,870,500
Total Master Trust	$1,004,433,417	$91,606,088	$ -	$1,096,039,505

	Master Trust Assets Fair Value Measurements as of December 31, 2014			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Collective U.S. government short-term investment funds	$ -	$52,287,203	$ -	$ 52,287,203
Total common stocks	1,111,607,131	-	-	1,111,607,131
U.S. government securities	-	7,812,910	-	7,812,910
Corporate fixed income: BBB credit rating	-	6,090,900	-	6,090,900
Total Master Trust	$1,111,607,131	$66,191,013	$ -	$1,177,798,144

The valuation methods as described herein and in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. PLAN INTEREST IN MASTER TRUST

The Plan's investments are held in a trust account at the Trustee and consist of an interest in an investment account of the Master Trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets of the Plan and the Johns Manville Hourly Retirement Plan for investment and administrative purposes. Although assets of both plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investments is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets and investments of the Master Trust as of December 31, 2015 and 2014, are summarized as follows:

	2015	2014
Investments — whose fair value is determined based on quoted market prices —		
Total common stocks	$1,004,433,417	$1,111,607,131
Investments — at estimated fair value —		
Short-term investments — Collective U.S. government short-term investment funds	79,373,521	52,287,203
Corporate fixed income (individually less than 5% of assets)	5,870,500	6,090,900
U.S. government securities:		
Total U.S. government securities	6,362,067	7,812,910
Total investments	1,096,039,505	1,177,798,144
Accrued income receivable	163,515	855,864
Net assets of the Master Trust	$1,096,203,020	$1,178,654,008
Plan's interest in net assets of the Master Trust	$ 626,187,550	$ 678,313,750

The net investment income of the Master Trust for the years ended December 31, 2015 and 2014, are summarized below:

	2015	2014
Net appreciation (depreciation) in the fair value of investments	$(36,004,944)	$40,797,690
Dividends	17,633,381	15,972,006
Interest	772,597	1,049,175
Investment income (loss) of the Master Trust	$(17,598,966)	$57,818,871

7. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 31, 2013, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. During the 2015 and 2014 Plan years, the Plan had certain operational and administrative issues occur. In order to prevent the Plan from incurring a qualification defect, the Plan's sponsor has taken the necessary corrective action in accordance with the acceptable correction methods of the Employee Plans Compliance Resolution System (EPCRS). The Plan Sponsor believes the Plan has maintained its tax-exempt status. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Company and the Plan Administrator believe the Plan is currently designed and operated in compliance with the applicable requirements of the code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan documents.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of

those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

9. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2015 and 2014, and for the years then ended, included in the Plan's financial statements, which were prepared by or derived from information prepared by the Trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following information is complete and accurate.

	2015	2014
Statements of net assets available for benefits —		
Investments at fair value — Plan's interest in Master Trust	$626,187,550	$678,313,750
Statements of changes in net assets available for benefits —		
Plan's interest in Master Trust investment income:		
Net appreciation (depreciation) in fair value of investments	(20,581,411)	23,639,832
Dividends	10,115,000	9,223,200
Interest	443,081	606,328

Notes 5 and 6 — All investment balances and investment information, excluding the classification and level of investments in Note 5.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of collective trust funds managed by The Bank of New York Mellon Trust Company, N.A. The Bank of New York Mellon Trust Company, N.A., is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Aon Hewitt provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

- **Insurance contracts**: The plan does not have any insurance contracts.

- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants. Participants who become disabled before retirement continue to earn vesting service during their disability. We have valued these participants using the assumption that they will remain disabled until normal retirement.

- **Transferred participants**: The liabilities for employees who have transferred into the Johns Manville Hourly Retirement Plan have been included with the liabilities for active participants.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of Major Plan Provisions

Effective date and plan year	Original plan: 1941 Restated plan: January 1, 2011 Plan year: Calendar year
Status of the plan	The plan is frozen as of December 31, 2007.
Significant events that occurred during the year	None.
Definitions	
• Participation	One year of service. Plan is closed to new entrants hired after December 31, 2006.
• Employee contributions	Discontinued January 1, 1986; provide supplemental benefit and minimum cash refund from the plan.
• Accumulated service	Elapsed time.
• Benefit service	Elapsed time. No Benefit Service is earned after December 31, 2007.
• Average final salary (AFS)	The average of the participant's salary (limited by Code Section 401(a)(17)) during the five highest consecutive years in the last ten calendar years of employment. AFS is frozen as of December 31, 2007.
• Covered Compensation	35 year average of maximum taxable wage bases ending with the calendar year prior to year of termination or retirement. Covered Compensation is frozen as of December 31, 2007.
• Transfers to/from Participating Employers	Earns Benefit Service as an employee under this plan, earns Accumulated Service with nonparticipating employer.
• Transfers between Plans	Earns Benefit Service as an employee under this Plan; earns Accumulated Service while covered under the Hourly Plan. No Benefit Service is earned after December 31, 2007.
• Accrued benefit	Calculated same as normal retirement benefit, but based on Average Final Salary and Benefit Service at the date of calculation. No additional benefits are earned after December 31, 2007.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
• Eligibility	Age 65
• Plan Benefit	1.02% times AFS up to Covered Compensation plus 1.40% times AFS in excess of Covered Compensation all times Years of Benefit Service up to 35 years plus 1.33% times AFS times years of Benefit Service in excess of 35 years plus 2.5% times participant's 1/1/1986 accumulated contributions with interest projected to participant's normal retirement date using 5% annual interest assumption.
• Minimum Benefit	$20 times years of Benefit Service; some participants also have frozen 1986 and 1988 minimum benefits and/or frozen 1993 minimum accrued benefits.
Early retirement	
• Eligibility	Age 55 and ten years of Accumulated Service at the time of termination.
• Benefit	Accrued benefit reduced 4% per year prior to age 65 (reduced from age 62 if 25 years of Accumulated Service).
Late retirement	
• Eligibility	Over age 65
• Benefit	Accrued Benefit

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	Age 55 or five years of Accumulated Service.
• Benefit	Accrued benefit payable at age 65 or reduced benefit payable anytime after age 55 (age 50 for participants on 12/31/1988); reduction factors per following table:

Age Benefit Commences	Reduction Factor
50	0.26
51	0.28
52	0.30
53	0.33
54	0.36
55	0.39

59	0.55
60	0.61
61	0.67
62	0.74
63	0.81
64	0.90

Disability	
• Eligibility	If hourly non-union employee, 10 years of Accumulated Service, mentally or physically incapable of employment, eligible for Social Security disability benefits and not eligible for LTD plan. If salaried employee, eligible for LTD plan.
• Benefit	Accrued benefit determined at earlier of December 31, 2007 or date of termination. Continue to earn Accumulated Service to age 65.
Pre-retirement death	
• Eligibility	Eligible for vested or retirement benefit.
• Benefit prior to early retirement eligibility	Spouse benefit payable had the participant terminated on his date of death, elected benefit commencement with a 50% contingent annuitant option when first eligible and died on the following day.
• Benefit after early retirement eligibility	Immediate benefit is payable to spouse as if participant retired and elected 100% contingent annuitant option on date of death.
Post-retirement death	
• Eligibility	N/A
• Benefit	Based on the form of payment chosen.

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	Reduced 50% contingent annuitant annuity.
• Optional forms	100%, 75%, 50%, 25% contingent annuitant annuity or life annuity. If the present value of the member's accrued benefit is less than $5,000, the member can elect a single lump sum payment. During 2012, vested terminated participants were able to elect to receive their benefits under the plan payable as a lump sum.
• Optional form conversion factors	Actuarial basis for conversion to optional forms based on the 1989 Buck Mortality Table blended 95% male and 5% female for the employee and blended 5% male and 95% female for the contingent annuitant. The factors are determined with an 8% interest rate. The actuarial basis for the lump sums paid in 2012 used a lookback month of August.
• Retroactive annuity starting dates	The plan includes a retroactive annuity starting date provision.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2015, the limit is $265,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is $210,000.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2011 and amended through the Second Amendment, are included in this valuation.

- **Most recent plan amendments included:** Second Amendment executed on August 26, 2014.

- **Plan amendments excluded:** The Third Amendment is excluded because it was adopted after the valuation date.

- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Aon Hewitt provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

- **Insurance contracts**: The plan does not have any insurance contracts.

- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants. Participants who become disabled before retirement continue to earn vesting service during their disability. We have valued these participants using the assumption that they will remain disabled until normal retirement.

- **Transferred participants**: The liabilities for employees who have transferred into the Johns Manville Hourly Retirement Plan have been included with the liabilities for active participants.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
