Plan Management
Rico Industries, Inc. 401(k) Profit Sharing Plan & Trust
7000 North Austin Avenue
Niles, Illinois 60440

Dear Ladies and Gentlemen,

This letter is intended to communicate certain matters related to the planned scope and timing of our audit of Rico Industries, Inc. 401(k) Profit Sharing Plan & Trust (the Plan) financial statements as of and for the year ended December 31, 2015.

**Communication**

Effective two-way communication between our Firm and the Plan Committee is important to understanding matters related to the audit and in developing a constructive working relationship.

Your insights may assist us in understanding the Plan and its environment, in identifying appropriate sources of audit evidence, and in providing information about specific transactions or events. We will discuss with you your oversight of the effectiveness of internal control and any areas where you request additional procedures to be undertaken. We expect that you will timely communicate with us any matters you consider relevant to the audit. Such matters might include strategic decisions that may significantly affect the nature, timing, and extent of audit procedures, your suspicion or detection of fraud, or any concerns you may have about the integrity or competence of senior management.

We will timely communicate to you any fraud involving senior management and other fraud that causes a material misstatement of the financial statements, instances of noncompliance with laws and regulations that come to our attention (unless they are clearly inconsequential), and disagreements with management and other serious difficulties encountered in performing the audit. We will also communicate to you and to management any significant deficiencies or material weaknesses in internal control that become known to us during the course of the audit. Other matters arising from the audit that are, in our professional judgment, significant and relevant to you in your oversight of the financial reporting process will be communicated to you in writing after the audit.

**Independence**

Our independence policies and procedures are designed to provide reasonable assurance that our Firm and its personnel comply with applicable professional independence standards. Our policies address financial interests, business and family relationships, and non-audit services that may be thought to bear on independence. For example, partners and professional employees of Cassell, Inc. are restricted in their ability to own direct financial interest or a material indirect financial interest in a client or any affiliates of a client. Also, if an immediate family member or close relative of a partner or professional employee is employed by a client in a key position, the incident must be reported and resolved in accordance with Firm policy. In addition, our policies restrict certain non-audit services that may be provided by Cassell, Inc. and require audit clients to accept certain responsibilities in connection with the provision of permitted non-attest services.

**The Audit Planning Process**

Our audit approach places a strong emphasis on obtaining an understanding of how your plan functions. This enables us to identify key audit components and tailor our procedures to the unique aspects of your plan. The development of a specific audit plan will begin by meeting with you and with management to obtain an understanding of your objectives, strategies, risks, and performance related to the Plan.

As part of obtaining an understanding of your Plan and its environment, we will obtain an understanding of internal control. We will use this understanding to identify risks of material misstatement, which will provide us with a basis for designing and implementing responses to the assessed risks of material misstatement. We will also obtain an understanding of the users of the financial statements in order to establish an overall materiality level for audit purposes. We will conduct formal discussions among engagement team members to consider how and where your financial statements might be susceptible to material misstatement due to fraud or error.

**The Concept of Materiality in Planning and Executing the Audit**

We apply the concept of materiality both in planning and performing the audit, evaluating the effect of identified misstatements on the audit, and the effect of uncorrected misstatements, if any, on the financial statements and in forming the opinion in our report. Our determination of materiality is a matter of professional judgment and is affected by our perception of the financial information needs of users of the financial statements. We establish performance materiality at an amount less than materiality for the financial statements as a whole to allow for the risk of misstatements that may not be detected by the audit. We use performance materiality for purposes of assessing the risks of material misstatement and determining the nature, timing, and extent of further audit procedures. Our assessment of materiality throughout the audit will be based on both quantitative and qualitative considerations. Because of the interaction of quantitative and qualitative considerations, misstatements of a relatively small amount could have a material effect on the current financial statements as well as financial statements of future periods. We will accumulate misstatements identified during the audit, other than those that are clearly trivial. At the end of the audit, we will inform you of all individual unrecorded misstatements aggregated by us in connection with our evaluation of our audit test results.

**Our Approach to Internal Control Relevant to the Audit**

Our audit of the financial statements will include obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. Our review and understanding of the Plan's internal control is not undertaken for the purpose of expressing an opinion on the effectiveness of internal control.

**Timing of the Audit**

We have scheduled preliminary audit field work for June 2016. Management's adherence to its closing schedule and timely completion of information used by us in performance of the audit is essential to timely completion of the audit.

**Closing**

We will be pleased to respond to any questions you have about the foregoing. We appreciate the opportunity to be of service to the Plan.

This communication is intended solely for the information and use of the Plan Committee and is not intended to be and should not be used by anyone other than these specified parties.

**Note 1. Plan Description**

The following brief description of the Rico Industries, Inc. (the Company) 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of the Company except for employees covered by a collective bargaining agreement. Employees must complete three months of service and must be age twenty-one or older to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrolment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designate balanced fund until changed by the participant.

The Company contributes 100 percent of the first 4 percent of the eligible participant compensation, as defined, contributed to the Plan. The Company make may make an additional discretionary matching or profit sharing contributions as determined annually. No discretionary matching or profit sharing contributions were made in 2015. Contributions are subject to limitations.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, and allocations of the Company discretionary match or profit sharing contribution, if any, and Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, Company matching contributions plus actual earnings thereon. Vesting in the Company's discretionary matching or profit sharing contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants who attain normal retirement age or who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence, in which case the repayment period is set by plan management. The loans are secured by the balance in the participant's account. The loan interest rate is set at one percent above the prime rate, as defined (4.25 percent at December 31, 2015). Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

**Note 1. Plan Description (Continued)**

Forfeited accounts: At December 31, 2015 and 2014, forfeited non-vested accounts totaled $108 and $102, respectively. Forfeited non-vested accounts may be used to pay for Plan expenses. Forfeitures of contributions that are not used to pay plan expenses are to be used to reduce Company contributions. In 2015, no forfeitures were used to pay for plan expenses or reduce Company contributions.

**Note 2. Summary of Accounting Policies**

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement* (Topic 820): *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Plan management has elected to early adopt ASU 2015-07.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

**Note 2. Summary of Accounting Policies (Continued)**

• The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent five percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

• The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management has elected to adopt ASU 2015-12 as applicable.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 30, 2016, the date the financial statements were available to be issued.

**Note 3. Investments Certified or Provided by Charles Schwab Bank, Trustee**

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules that were prepared by or derived from information provided by Charles Schwab Bank (Charles Schwab), the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications by Charles Schwab that the information provided to the Plan Administrator by Charles Schwab related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income:

| | 2015 | 2014 |
|---|---|---|
| Shares of registered investment companies | $ 3,634,703 | $ 3,308,005 |
| Notes receivable from participants | 118,605 | 109,835 |
| Net depreciation in fair value of investments | (87,552) | |
| Interest and dividends | 47,111 | |
| Interest income on notes receivable from participants | 3,494 | |

**Note 4. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

*Shares of registered investment companies*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

| | 2015 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Shares of registered investment companies | $ 3,634,703 | $ - | $ - | $ 3,634,703 |

| | 2014 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Shares of registered investment companies | $ 3,308,005 | $ - | $ - | $ 3,308,005 |

**Note 5. Related Party Transactions**

Certain Plan investments are shares of registered investment companies managed by Charles Schwab. Charles Schwab is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Alliance Pension Consultants and Morgan Stanley provide certain administrative services to the Plan. Transactions with Alliance Pension Consultants and Morgan Stanley qualify as party-in-interest transactions. Fees paid by the Plan for these services amounted to $20,011 for the year ended December 31, 2015.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

**Note 6. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

**Note 7. Tax Status**

The Plan has adopted a volume submitter plan sponsored by Sunguard Business Systems LLC, which stated that the volume submitter plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan has been amended since the adoption date. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
