Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 2, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and notes receivable from participants, and executes the related transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *Nexteer Automotive Hourly 401(k) Retirement Plan* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

The Plan was established with an effective date of January 1, 2011. The Plan is a defined contribution plan covering eligible hourly employees of *Nexteer Automotive Corporation* (the “Corporation”). Hourly employees are eligible to participate in the Plan and receive employer contributions in accordance with the terms of the applicable collective bargaining agreement by and between the Corporation and United Automobile Aerospace and Agricultural Implement Workers of America. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year participants may contribute up to 60% of their eligible compensation as either pre-tax 401(k) contributions or Roth 401(k) contributions, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Corporation makes matching contributions to the Plan equal to 30% of each eligible participant’s contribution, up to a maximum of 7% of each participant’s eligible wages. The Corporation also makes nonelective contributions to eligible participants in an amount equal to 5.4% of their eligible wages and \$0.50 per each eligible hour worked.

Effective July 1, 2016, pursuant to the applicable collective bargaining agreement by and between the Corporation and United Automobile Aerospace and Agricultural Implement Workers of America, the Corporation makes matching contributions to the Plan. If eligible, a participant may receive a matching contribution equal to: (a) 30% of his elective deferral contribution, up to a maximum of 7% of eligible wages, or (b) 50% of his elective deferral contribution, up to a maximum of 6% of eligible wages.

Effective July 1, 2016, pursuant to the applicable collective bargaining agreement by and between the Corporation and United Automobile Aerospace and Agricultural Implement Workers of America, the Corporation makes nonelective contributions to the Plan to eligible participants in an amount equal to 5.4% of eligible wages and \$.50 per each eligible hour worked.

NEXTEER AUTOMOTIVE HOURLY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, separately managed accounts, and common collective trusts as investment options for participants. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Corporation's matching and nonelective contributions and an allocation of the Plan's net earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions. Participants in the Plan as of January 1, 2016 are immediately vested in their Corporation matching and nonelective contributions. Participants first becoming eligible to participate in the Plan on or after January 1, 2016 will become vested in their Corporation matching and nonelective contributions after three years of vesting service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates at the time the notes are issued, as determined periodically by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments only if the participant is subject to a lifetime required minimum distribution, as defined by the Plan agreement. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service withdrawal of vested balances may be elected by participants who have reached 59 ½ years of age. The Plan also permits withdrawals of active participants' elective contributions, rollover contributions, Corporation matching contributions, and nonelective contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Transfer to Other Plan

The Plan recognized participant account balance transfers totaling \$376,847 and \$203,495 in 2015 and 2014, respectively, for those participants now eligible to participate in the Nexteer Automotive Salaried 401(k) Retirement Plan. Those transfers are recognized in the statements of net assets available for benefits as "transfer to other plan."

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses and Legal Costs

The Plan's administrative expenses and legal costs are paid by the Corporation and qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment management fees and investment operating expenses are charged to the Plan for investments and are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management fees and investment operating expenses are reflected as an addition to net depreciation or a reduction of net appreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become the obligations of the Corporation.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. This ASU removes the requirement to make certain disclosures as well as categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") as a practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Plan management has elected to adopt the ASU for the year ended December 31, 2015. Other than the change to disclosures, the adoption of this standard did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part I also clarifies the definition of a fully benefit-responsive investment contract. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Part II early and other than the change to disclosures, the early adoption of this standard did not have a material impact on the financial statements.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2015, the most recent statement of net assets

NOTES TO FINANCIAL STATEMENTS

available for benefits presented herein, through October 14, 2016, the date these financial statements were available to be issued. No such significant events or transactions were identified, except for the items disclosed above.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, N.A. ("Wells Fargo"), as trustee, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, (2) the December 31, 2015, schedule of assets (held at end of year), and (3) the related investment activity reflected in the statements of changes in net assets available for benefits during 2015 and 2014. Wells Fargo has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the years ended December 31, 2015 and 2014.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NEXTEER AUTOMOTIVE HOURLY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Separately managed accounts: These investments are valued using the NAV of units held by the Plan at year-end as provided by the Wells Fargo and are not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the NAV of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units held by the Plan. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value and, as a result, are not assigned a level in the fair value hierarchy. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NEXTEER AUTOMOTIVE HOURLY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Certain investments are measured at NAV per share (or its equivalent) on a non-active market and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2015			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Separately managed accounts	\$ 50,094,137	\$ -	Daily	Daily
Common collective trusts	1,418,232	-	Daily	Daily

Separately managed accounts	\$ 45,894,664	\$ -	Daily	Daily
Common collective trusts	1,525,080	-	Daily	Daily

The following is a description of the investment strategies for separately managed accounts and common collective trusts at December 31, 2015 and 2014:

Separately Managed Accounts

Moderate allocation: These funds seek to provide a high level of current income and growth of capital, with greater emphasis on providing current income. Investors typically have a moderate tolerance for risk, a medium time horizon for investing, and can withstand the market risk of fixed income and equity investments.

Conservative allocation: These funds seek to provide a high level of current income, with a minor potential for growth of capital. Investors typically have a relatively low tolerance for risk and/or a relatively shorter time horizon for investing, as well as the ability to withstand some market risk from fixed income and equity investments.

Growth allocation: These funds seek to provide capital preservation and growth of capital, with greater emphasis on growth of capital. Investors typically have a relatively high tolerance for risk but want it balanced with current income, medium to longer time horizon for investing, and can withstand the market risk of equity and fixed income investments.

Aggressive allocation: These funds seek to provide growth of capital. Investors typically have a higher tolerance for risk and/or a longer time horizon for investing, as well as the ability to withstand the market risk of a portfolio invested mostly in equities.

NEXTEER AUTOMOTIVE HOURLY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Common collective trusts: These funds include investments that seek an investment return that approximates as closely as practicable the performance of certain Index over the long term by investing in a portfolio that owns units of one or more portfolios that hold securities of the S&P 500 Index, S&P Mid-Cap Index, or Barclays U.S. Aggregate Bond Index.

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Shepherd Kaplan LLC, and Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Investment operating expenses are charged to the Plan for investments and are deducted from income earned on a daily basis and are not separately reflected. Investment management fees are also paid by the Plan.

5. TAX STATUS

The Corporation's management adopted the Wells Fargo Defined Contribution Prototype Plan and Trust Agreement plan document. The Plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Corporation may determine.

NEXTEER AUTOMOTIVE HOURLY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

7. RISKS AND UNCERTAINTIES

The Plan invests in mutual funds, separately managed accounts, and common collective trusts with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
