INDEPENDENT AUDITORS' REPORT

The 401(k) Committee
Real Alloy Union Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Real Alloy Union Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (the "Trustee"), except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the year ended December 31, 2015, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplemental Schedules

The supplemental schedules, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2015, and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015, is required by the DOL's Rules and Regulations for Reporting Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on such supplemental schedules.

Other Matter

The financial statements of the Plan as of and for the year ended December 31, 2014, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting Disclosure under ERISA, the Plan Administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Trustee. Their report, dated October 5, 2015, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements; and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting Disclosure under ERISA.

Real Alloy Union Savings Plan
Notes to Financial Statements
December 31, 2015

1. Description of the Plan

The following description of the Real Alloy Union Savings Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan document for a complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all collectively bargained eligible employees of Real Alloy Specification, Inc. (the “Plan Sponsor”), a subsidiary of Real Alloy Recycling, Inc. (the “Company”) at the Wabash, Indiana plant, except for those employees classified as ineligible (as defined in the Plan). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan allows for participation upon ninety days of eligible service (as defined in the Plan) (or one year if the employee is not expected to work at least 1,000 hours in the first year of employment).

Plan Administration

Overall responsibility for administering the Plan rests with the Plan Sponsor’s Benefits Committee (the “Plan Administrator”), which is appointed by the Board of Directors of the Company. The trustee of the Plan is Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (the “Trustee”), and is responsible for the management and control of the Plan’s assets.

Contributions

Participants may contribute up to 50% of their total compensation to the Plan in increments of 1% through pretax (salary reduction) contributions. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan. An employee’s contributions made to the Plan on a pretax basis may not exceed certain Internal Revenue Service (“IRS”) maximum amounts. The maximum amount was \$18,000 and \$17,500 for the years ended December 31, 2015 and 2014, respectively. Employees who were 50 years of age or older by the end of the Plan year, and were making the maximum elective contribution for the year, were entitled to make additional pretax contributions (“Catch-up Contributions”) of up to \$6,000 and \$5,500 for the years ended December 31, 2015 and 2014, respectively. Catch-up Contributions are matched by the Company.

The matching contribution for participants is an amount equal to 50% of an employee’s salary deferral (not to exceed \$50.00 per month). The Company also contributes an amount equal to \$1.15 per hour worked (for employees with credited service prior to March 15, 2005) or \$0.50 per hour worked (for all other employees). These Company contributions are determined each payroll period.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, Company contributions, rollover contributions and allocations of actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Participant Loans

The Plan permits participants to borrow from their account a minimum of \$500 up to the lesser of \$50,000, reduced by the highest outstanding loan balance during the prior one-year period, or the greater of 50% of their vested account balance or \$10,000, reduced by the outstanding loan balance on the date the new loan is made. The number of outstanding loans is limited to two. Loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence (in which case the loan repayment period will be the lesser of 10 years or a payment period consistent with commercial home loan practices). The loans are secured by the balance in the participant’s account and each loan shall bear a reasonable fixed rate of interest as determined by the Plan Administrator. A loan is deemed to be in default if principal and interest are not paid 90 days after the loan payment is due.

1. Description of the Plan (continued)

Vesting Provision

Participants become vested in the Company's contributions based on the following table:

Completed Years of Service	Percentage of Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Upon separation from the Plan Sponsor, participants receive the full current value of their contributions and the vested portion of the Company's contributions. Participants who separate for reasons of retirement (upon reaching normal retirement age), death or disability become fully vested in the value of the Company's contributions under the Plan at the time of such separation. Participants who separate for any other reason forfeit the unvested portion of the value of the Company's contributions. Such forfeitures may be returned to the participant's account if the participant returns to work before five full years elapse. If a participant does not return before five years elapse, any forfeited amounts are used to offset administrative expenses paid by the Plan or to reduce the Company's contribution for other participants at the end of the Plan year.

Forfeited Accounts

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired and becomes an eligible employee under the Plan, they may have their forfeited account balance reinstated subject to repayment of their distributed vested balance in accordance with plan provisions. Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce expenses of the Company incurred in the operation of the Plan; and third, to reduce future Company contributions. There was \$1,940 and \$5,284 remaining in the forfeiture account as of December 31, 2015 and 2014, respectively. For the year ended December 31, 2015, \$3,247 was used to reduce Company contributions or pay administrative expenses.

Withdrawals during Employment

Withdrawal of before-tax contributions requires the existence of specific conditions of financial hardship as defined in the Plan. Participants who have applied for withdrawal of before-tax contributions are suspended from making further contributions for the next six months.

Benefits Provision

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) could elect to receive their vested balance in a rollover or lump-sum distribution.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participant accounts shall be fully vested and nonforfeitable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Real Alloy Union Savings Plan
Notes to Financial Statements
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In conformity with Accounting Standards Codification 820, *Fair Value Measurement*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The Plan invests in the Principal Stable Value Fund (the "Fund"), a common trust fund. The Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the Statements of Net Assets Available for Benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. There are no unfunded commitments or redemption restrictions on this investment.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Real Alloy Union Savings Plan
Notes to Financial Statements
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments in insurance company contracts (unallocated general account) are stated at contract value, which approximates fair value. Investment income is recorded on an accrual basis. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Adjustments, deductions, of the investments from fair value to contract value were \$3,043 and \$13,440, respectively as of December 31, 2015 and 2014.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize all investments for which fair value is measured using the net asset value per share practical expedient within the fair value hierarchy. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 is effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments will be applied retrospectively to all periods presented. The adoption of ASU 2015-07 is not expected to have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2015, the FASB issued ASU 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the FASB Emerging Issues Task Force* ("ASU 2015-12"). ASU 2015-12 (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a measurement date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II will be applied retrospectively to all periods presented, while the amendments in Part III will be applied prospectively. The adoption of ASU 2015-12 is not expected to have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Evaluation of Subsequent Events

Plan management has evaluated subsequent events through October 14, 2016, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that occurred through such date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Investments (unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2015 and 2014, and net change in the fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2015, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by the Trustee.

3. Investments (unaudited) (continued)

Individual investments representing 5% or more of the Plan's net assets available for benefits are as follows:

	December 31,	
	2015	2014
Investment at fair value as determined by quoted market prices:		
Vanguard Windsor II Funds Admiral Shares	\$ 1,119,112	\$ 1,323,569

Principal Lifetime 2020	447,794	562,768
Principal Stable Value Select	1,157,710	1,278,195

The contract value of the Vanguard Windsor II Funds Admiral Shares as of December 31, 2015 and 2014 was \$1,154,667 and \$1,264,755, respectively. During the year ended December 31, 2015, the Plan's investments increased (decreased) in fair value as follows:

Pooled separate accounts	\$ (13,582)
Common trust fund	3,715
Mutual funds	(97,068)
Net investment losses	<u>\$ (106,935)</u>

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described in Note 2.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. The following are descriptions of the valuation techniques and inputs used for each major class of assets measured at fair value.

Pooled separate accounts: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund and are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation date. These investments are classified within Level 2 of the fair value hierarchy.

Common trust fund: Valued at fair value estimated by the issuer, which has been determined by the market value of its underlying investments. These investments are classified within Level 2 of the fair value hierarchy.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at the reporting date based on quoted market prices and are classified within Level 1 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following tables reflect the Plan's assets carried at fair value as of December 31, 2015 and 2014, by level within the fair value hierarchy:

Large U.S. equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, United States (“U.S.”) companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. There are no redemption restrictions or unfunded commitments on this investment. This investment has been categorized within Level 2 of the fair value hierarchy as the Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

International equity: This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the U.S. These investment options often carry more risk than large U.S. equity investment options, but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. There are no redemption restrictions or unfunded commitments on this investment. This investment has been categorized within Level 2 of the fair value hierarchy as the Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

4. Fair Value Measurements (continued)

Fixed income: This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. There are no redemption restrictions or unfunded commitments on this investment. This investment has been categorized within Level 2 of the fair value hierarchy as the Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

Balanced funds: This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. There are no redemption restrictions or unfunded commitments on this investment. This investment has been categorized within Level 2 of the fair value hierarchy as the Plan has the ability to redeem the investment at the NAV (or its equivalent) in the near term.

Short-term fixed income: This asset class is generally comprised of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. There are no redemption restrictions or unfunded commitments on this investment. This investment has been categorized within Level 2 of the fair value hierarchy as the Plan has the ability to redeem this investment at the NAV (or its equivalent) in the near term.

5. Administrative Expenses

All administrative expenses are paid by the Plan, except for audit fees that are paid by the Company.

6. Tax Status

The IRS determined and informed the Company by a letter dated June 14, 2012, that the Plan and related trust were designed in accordance with applicable sections of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

7. Transactions with Parties in Interest

Several investments of the Plan are investment funds managed by the Trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor. These party-in-interest transactions are exempt from the prohibited rules under ERISA.

9. Prohibited Transactions

As required by Section 2510.3-102 of ERISA, the Plan Sponsor is required to segregate participant contributions from its general assets and remit such contributions to the Plan as soon as practicable, but in no event longer than 15 business days following the end of the month in which amounts are withheld from wages. During 2015, the Plan Sponsor failed to timely remit certain contributions within the prescribed period due to administrative errors. Such contributions totaled \$13,907 and the Plan Sponsor determined that affected participants suffered approximately \$27 of potential lost earnings as a result of the delay, which the Plan Sponsor will remit in 2016.
