INFOSTRETCH 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan:

The following description of the InfoStretch 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan established on April 1, 2012, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan provides benefits for all eligible employees of Infostretch, Inc. (the “Company”).

The Company is the Plan Administrator and retains the services of third parties to assist in the administration of the Plan. Through December 31, 2015, the Plan’s custodian was Mid Atlantic Trust Company (“Mid Atlantic”) and the Plan’s third party administrator was Leading Retirement Solutions (“LRS”).

Eligibility - The Plan is a defined contribution plan covering all employees of the Company and related groups except for certain members of a collective bargaining unit (unless the terms of the bargaining agreement otherwise provides), non-resident aliens, leased employees and independent contractors. Employees may enter the Plan on the first day of the following month of their employment.

Participant contributions - Participants may elect to contribute up to 100% of their compensation, as defined in the Plan, excluding reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation and welfare benefit. Contributions are subject to the annual limits specified under the Internal Revenue Code (“IRC”). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers). Deferrals consist of pretax and/or Roth 401(k) contributions. Participants direct the investment of their account balances into various investment options offered by the Plan.

Employer contributions - The Company may make a discretionary matching contribution under the Plan. For the year ended December 31, 2015, the Company’s match policy is 30% of the participant’s deferral amount up to a maximum of \$1,500 for the year. Participants are eligible to receive employer matching contributions beginning on the first day of the following month of employment. The Company made matching contributions of approximately \$95,000 for the year ended December 31, 2015. Additionally, the Company may make discretionary non-elective contributions to the Plan. The Company made no discretionary non-elective contributions for the year ended December 31, 2015.

INFOSTRETCH 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan (continued):

Participant accounts - Each participant's account is credited with the participant's contribution, Company contributions, and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options - Investments of the Plan are held by Mid Atlantic and invested solely on instructions received from participants into a number of investment options. Participant investment options include a variety of mutual funds. Earnings of each investment fund are allocated to participants' accounts in proportion to each participant's share of that fund.

Vesting - Participants become immediately vested in their contributions, including rollovers of funds from other qualified retirement plans and earnings thereon. Employer contributions vest based upon completed years of service over a four year period at 25% per year from year one through four.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at market financing rates. Loan terms range from one to five years, but may not exceed five years. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or separation from service, participants may receive benefits in a lump sum payment, in accordance with the Plan. Unless otherwise instructed by the participant, participants with vested account balances of \$1,000 or less upon separation will receive a lump sum cash payout and participants with vested account balances ranging from \$1,000 to \$5,000 will automatically be rolled over to an individual retirement account ("IRA").

As an active participant in the Plan, a participant may, upon attaining age 59 ½, request the distribution of his or her balance. In addition, a participant may apply for a hardship withdrawal, if he or she is experiencing an immediate and heavy financial need as defined by the specific criteria in the Plan document.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Plan. Separate fees for loan processing and certain investments as specified in the service agreement, are charged to individual participant's accounts.

INFOSTRETCH 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan (continued):

Forfeitures - Forfeitures may be used to reduce employer contributions or to pay expenses related to the Plan and any needed adjustments to participant accounts. For the year ended December 31, 2015 forfeitures were not material.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Investment valuation and income recognition - The investments in all of the funds are presented at fair value, based on quoted market prices of underlying securities within each fund as of December 31, 2015 and 2014. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net depreciation in fair value of investments - The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies and other investments are recorded in the accompanying financial statements as net depreciation in fair value of investments.

INFOSTRETCH 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

Note 2 - Significant accounting policies (continued):

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are reflected as a component of net depreciation in fair value of investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements are available to be issued which is the date of the independent auditors' report.

Recent accounting pronouncements - In July 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. In Section I, the amendment designates contract value as the only required measure for fully benefit-responsive investment contracts. In Section II, the amendment eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments for the period should be presented in the aggregate, but is no longer required to be disaggregated and disclosed by general type. The amendment also requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Finally, in Section III, the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015, should be applied retrospectively for all financial statements presented, and early application is permitted. Plan management has evaluated the impact that will result from the pronouncement, noting no material impact to the financial statements. Management has evaluated the impact that will result from the pronouncement and has elected to adopt the pronouncement early.

INFOSTRETCH 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2015

Note 3 - Fair value:

The Plan performs fair value measurement in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's valuation methodology used to measure fair value of mutual funds were derived from quoted market prices as substantially all of these instruments have active markets, and therefore have been deemed as Level 1 investments.
