F-D-S MANUFACTURING COMPANY, INC.
401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1 Description of Plan

The following description of the F-D-S Manufacturing Company, Inc. 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was established to provide retirement benefits for employees of F-D-S Manufacturing Company, Inc. (the "Company"). Employees become eligible to participate in the Plan following 1 year of continuous service, are 20 years or older and are credited with at least 1,000 hours of service, as defined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may voluntarily contribute up to 100% of pretax compensation, as defined in the Plan and subject to limitations by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contributions are allowed under the Plan. Additional employer amounts may be contributed at the option of the Company's board of directors. The Company has elected to make matching contributions of $0 and $25,000 for the years ending December 31, 2015 and 2014, respectively.

Participant Accounts and Vesting - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 6 years of credited service.

Notes Receivable from Participants - Loans to participants are not permitted.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annuities that are offered by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1 Description of Plan (continued)

Forfeitures - The non-vested portions of participants' employer-derived account balance are treated as forfeitures. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $305 and $433 respectively. These accounts can be used to offset plan expenses or may be used to reduce the employer's matching contributions. There were no amounts used to offset the employer's matching contributions or expenses in 2015 and 2014.

Note 2 Summary of Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 14, 2016, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of these assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Reclassifications - Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation of the current year financial statements.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Note 2 Summary of Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of the participant's normal retirement age or age 62.

Administrative Expenses - All expenses of maintaining the Plan are paid by the Company.

Note 3 Related Party Transactions

Certain Plan investments are pooled separate accounts consisting of shares of mutual funds managed by VOYA. VOYA is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transaction by the United States Department of Labor's (DOL) Rules and Regulations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified By Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by VOYA, the Plan custodian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedules.

Note 4 Investments Certified By Custodian (continued)

The custodian has certified as to the completeness and accuracy of all investment balances reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, all of the investment activity is reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and all investment information in the supplemental schedules.

The custodian has also certified the completeness and accuracy of $4,057 of net appreciation in fair value of investments for the year ended December 31, 2015. The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated or depreciated as follows:

Fair value as determined by the custodian:

Net appreciation (depreciation) in fair value of investments	$ 4,057

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market account	$ 2,973	$	$	$ 2,973
Pooled separate accounts		2,522,490		2,522,490
Fixed account		943,378		943,378
	$ 2,973	$ 3,465,868	$	$ 3,468,841

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Money market account	$ 2,668	$	$	$ 2,668
Pooled separate accounts		2,357,357		2,357,357
Fixed account		978,815		978,815
	$ 2,668	$ 3,336,172	$	$ 3,338,840

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, the vested interest of any participant shall not be diminished or adversely affected, and will be distributed to each participant in accordance with the trust agreement.

Note 7 Tax Status

The Company has adopted a Prototype 401(k) Plan and related trust. The Internal Revenue Service (IRS) has determined that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
