Notes to Financial Statements

1. Description of Plan

The following description of the Patina Restaurant Group, LLC 401(k) Plan (the “Plan”) provides general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan sponsored by Patina Restaurant Group, LLC (“Plan Sponsor” or the “Company”). The Company also administers the Plan, which provides benefits to eligible employees of the Company and affiliated employers, as defined in the Plan document.

In accordance with the Plan agreement, employees may begin participating under the Plan after satisfying the eligibility requirements, provided they are not excluded employees. Employees who are (1) certain nonresident aliens with no earned income from sources within the U.S., (2) highly compensated, (3) on-call, (4) temporary employees, or (5) employees of The Kitchen for Exploring Foods, LLC, with the exception of those employees holding the title of “General Manager”, are considered excluded employees.

As defined in the Plan document, employees of the Company are eligible to participate in the Plan following the completion of three months of participation service. The Plan was established effective July 14, 2006, was subsequently amended effective January 1, 2015, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (the “Code”).

Contributions – Participants may elect to contribute between 1% and 50% of their eligible pre-tax compensation, limited to the amount imposed by law. Participants age 50 or older may also elect to make a catch-up contribution limited to the amount imposed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (i.e., rollovers). Rollover contributions totaled \$95,838 and \$127,869 for the years ended December 31, 2015 and 2014, respectively.

In accordance with the Plan document, the Company may make discretionary matching and/or profit sharing contributions. Participants are eligible to participate in the Company contributions after one year of completed service and must be actively employed on the last day of the Plan year and have completed at least 1,000 hours of service during the plan year. For the years ended December 31, 2015 and 2014, the Company matched 18% of the participant’s deferral, up to the first 6% of a participant’s eligible compensation deferred. The Company made no discretionary profit sharing contributions for the years ended December 31, 2015 and 2014.

1. Description of Plan (continued)

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Plan Sponsor contributions, transfers from other plans, and earnings on the participant-directed investments. Participant accounts are decreased by participant distributions, transfers to other plans, losses on the participant-directed investments and certain administrative expenses, if applicable. The allocation of earnings and losses to participant accounts is based on the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately fully vested in their salary deferral, rollover contributions, and actual earnings thereon. The Company matching and/or profit sharing contributions plus actual earnings thereon vest at a rate of 50% after one year of service and become 100% vested after three years of service. All Company contributions are fully vested upon the occurrence of certain events which include completion of the required participation service, attainment of normal retirement age, death or permanent disability.

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive installment distributions or a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants older than age 59½. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding \$1,000, but not exceeding \$5,000, may be rolled into an Individual Retirement Account. All vested account balances not exceeding \$1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship, at which time the participant's eligibility to make contributions to the plan is suspended for six months.

Notes Receivable from Participants – Participants are permitted to borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms shall not exceed 5 years or a maximum of 15 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are required to be repaid in equal installments over the term of the loan. Notes receivable from participants are presented at the unpaid principal balance plus any unpaid accrued interest. Principal and interest is paid ratably through each payroll deduction. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

1. Description of Plan (continued)

Income Taxes – The Plan Sponsor obtained a letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype plan is qualified under Section 401(a) of the Code. The Plan has been amended subsequent to the letter. However, the Plan administrator believes that the Plan is operating in compliance with the requirements of the Code. Therefore, the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Forfeitures – The non-vested balances of participant accounts for those participants who have ceased employment with the Company are forfeited upon the earlier of the distribution of the participant's vested account balance or the occurrence of a consecutive five-year break in service. At the Plan Sponsor's discretion, forfeitures arising during any plan year may be used to reduce the Company's contributions and pay the Plan's administrative expenses. Forfeitures totaled \$2,939 and \$2,995 during the years ended December 31, 2015 and 2014, respectively. Employer contributions were reduced by forfeitures totaling \$3,811 and \$2,192 for the years ended December 31, 2015 and 2014 respectively.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts as of the effective date of termination.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan's investments consist of mutual funds and a guaranteed interest account. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the plan at year end. Units held in the guaranteed interest account consist of holdings in a fully benefit-responsive investment contract and is reported at contract value in the accompanying Statements of Net Assets Available for Benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

401(k) Plan

2. Summary of Significant Accounting Policies (continued)

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized net gains or losses and the unrealized net appreciation or depreciation of those investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments – Benefits are recorded when paid.

Administrative Expenses – Certain accounting and administrative expenses of the Plan are paid by the Plan sponsor. Expenses related to investment activity are paid by the Plan.

Party-in-Interest Transactions – Certain Plan investments are managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks; such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Adoption of Accounting Standards Update – The Plan adopted the provisions of Accounting Standards Update No. 2015-12, Plan Accounting: Defined Contribution Plans (Topic 962, the "ASU"): Part II – Plan Investment Disclosures for the year ended December 31, 2015, which eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits and net appreciation/depreciation in fair value of investments by general type. In addition, the Plan adopted the disclosure provisions of Part I of the ASU, which removed the requirement to measure any fully benefit responsive investment contracts (FBRICs) at fair value. Such investments are recorded at contract value for financial statement presentation. The ASU also eliminates previously required footnote disclosures such as average yield and methodology for credited interest rate.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events – The Plan has evaluated subsequent events, for recognition or disclosure through October 11, 2016, the date the accompanying financial statements were available to be issued, and has determined that no additional recognition or disclosure was necessary.

3. Information Certified by the Trustees (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate:

	2015	2014
Mutual funds, at fair value	\$ 9,310,902	\$ 9,653,773
Guaranteed investment contract, at contract value	1,011,971	892,650
Notes receivable from participants	388,234	496,529
	<u>\$ 10,711,107</u>	<u>\$ 11,042,952</u>

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	2015	2014
Investment income	\$ 751,806	\$ 1,537,036
Net depreciation in fair value of investments	<u>(854,675)</u>	<u>(1,034,625)</u>
	<u>\$ (102,869)</u>	<u>\$ 502,411</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. Investments utilizing Level 1 inputs as its primary measure of fair value include mutual funds totaling \$9,310,902 and \$9,653,773 at December 31, 2015 and 2014, respectively.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that utilized Level 2 inputs as its primary basis for calculating fair value as of December 31, 2015 and 2014.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary basis for calculating fair value as of December 31, 2015 and 2014.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract (the “Contract”) with the Trustee. The Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by the Trustee, represents contributions made under the Contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on capital market developments, the performance of the separate account assets backing the contract, and the expected and actual contributions and withdrawals of all of the plans participating in the contract. The Trustee guarantees that the crediting interest rate will never be less than 0%. Such interest rates are reviewed quarterly for resetting.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: 1.) amendments to the Plan documents including complete or partial plan termination or merger with another plan; 2.) premature termination of the contract; 3) changes to the Plan’s prohibition on competing investment options; 4.) bankruptcy of the Plan Sponsor or other Plan Sponsor events that significantly affect the Plan’s normal operations; or 5.) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan’s ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
