NOTES TO FINANCIAL STATEMENTS

DEFINED BENEFIT PENSION PLAN OF YOUNGSTOWN AREA JEWISH FEDERATION

December 31, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN

The following is a brief description of the Defined Benefit Pension Plan of Youngstown Area Jewish Federation (the Plan) and provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a complete description of the Plan's provisions.

General:

The Plan, established April 1, 1976, most recently amended as of March 31, 2014 (see Note E), provides for pension and death benefits for employees of the Youngstown Area Jewish Federation (Federation). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation:

The Plan provided for Federation employees, except leased employees, to become eligible to participate in the Plan upon completion of one year of service and having attained twenty-one years of age. Former participants of any Federation plan with Mutual of America Life Insurance Company were eligible immediately if over age twenty-one. Any prior employment in the nonprofit health or social services field within three years prior to employment with the Federation was included for the determination of eligibility. A year of service as defined by the Plan is 1,000 hours of continuous service. Effective December 31, 2009, participation in the Plan was frozen, and as of this date any future benefit accruals ceased.

Retirement Benefits:

Employees with three or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1% of their final average earnings (highest average earnings during any five consecutive years) plus .65% of their final average earnings in excess of the social security average monthly wage multiplied by their total years of benefit accrual service not to exceed 35 years.

Death Benefits:

The Plan provides for death benefits to beneficiaries. If a partially or fully vested participant dies before retirement benefits have begun, the annual death benefit payable to the beneficiary is equal to 66 2/3% of the vested accrued benefit, reduced for early commencement, and further reduced to reflect an automatic form of payment.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Adoption of New Accounting Standard:

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.

Part II simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt Part II early.

Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent Events:

Management evaluated all activity of the Plan through October 13, 2016, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes, except as disclosed in Note E.

NOTE C - FUNDING POLICY

The Federation contributes additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Federation's funding policy is to contribute annually at least an amount equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is fully funded to meet the ERISA minimum funding requirements.

NOTE D - INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under the Employment Retirement Security Act of 1974. Accordingly, Mutual of America Life Insurance Company, the Plan custodian, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statements of changes in net assets available for benefits and supplemental schedule of assets held for investment purposes as of and for the years ended December 31, 2015 and 2014 are complete and accurate. Such information has not been audited by independent auditors except for comparing such information with the related information included in the financial statements and supplemental schedule as of and for the years ended December 31, 2015 and 2014.

NOTE E - PLAN TERMINATION

On March 31, 2014, the Board of Directors voted to terminate the Defined Benefit Pension Plan of Youngstown Area Jewish Federation. Subsequent to the financial statement date, in a letter dated February 25, 2016, the Internal Revenue Service approved the termination of the Plan as of April 1, 2015. An official termination date has not been determined by the Federation.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

NOTE F- DEPOSIT ADMINISTRATION CONTRACT WITH INSURANCE COMPANY

The Plan maintains a deposit administration contract with Mutual of America Life Insurance Company (Mutual). Mutual maintains the contributions in an unallocated fund to which it adds interest at a minimum rate of 1%. The interest rate is guaranteed indefinitely but is subject to change at Mutual's discretion. At the direction of the Plan's administrator, a single premium to buy an annuity for a retiring employee is withdrawn by Mutual from the unallocated fund. Purchased annuities are contracts under which Mutual is obligated to pay benefits to named employees or their beneficiaries. The premium rates for such annuities to be purchased in the future and maximum administration expense charges against the fund are also guaranteed by Mutual for the life of the contract.

The annuity contracts provide for daily interest. Such interest received by the Plan for the years ended December 31, 2015 and 2014 was \$41,662 and \$41,383, respectively.

The Plan's deposit administration contract with Mutual is valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to purchase annuities and pay administration expenses charged by Mutual.

NOTE G - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated Plan benefits is based upon the actuarial valuation as of January 1, 2016 and 2015, prepared by the Plan's actuary, Mutual of America Life Insurance Company, using the projected unit credit cost method. Had the valuations been performed as of December 31, there would be no material differences. The actuarial present value of accumulated Plan benefits for the years ended December 31, 2015 and 2014 was based upon the actuarial valuation as of January 1, 2016 and 2015, respectively. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect from the time value of money and the probability of payment between the valuation date and the expected date of payment. Calculation of the present value of accumulated plan benefits under the Plan are made by the actuary using the projected unit credit method. Significant assumptions used in the valuation were (a) assumed rate of return on investments is 4.0% for 2015 and 4.5% for 2014 compounded annually (b) normal retirement at age 65 and (c) discount rates determined under a segment rate approach with an applicable month that is four months prior to the valuation date ranging from 4.43% to 6.65% for 2015 and from 4.72% to 6.81% for 2014. Mortality rates are based upon the RP-2014 Total Dataset Employee Table for 2015 and 2014 as well as the IRS 2016 Static Mortality Table for 2015 and the IRS 2014 Static Mortality Table for 2014. As of December 31, 2015 and 2014, 80% of current participants in the Plan are married.

NOTE H - RELATED PARTY TRANSACTIONS

Transactions with the Plan's custodian, Mutual of America Life Insurance Company, qualify as party-in-interest. Fees paid by the Plan for management services and actuarial valuation expenses amounted to \$16,840 and \$12,070 for the years ended December 31, 2015 and 2014, respectively. Certain Plan administrative fees are also paid by the Federation for which it is not reimbursed. Certain administrative functions are performed by the officers or employees of the Federation. No such officers or employees receive compensation from the Plan. The audit fee is borne by the Federation.

NOTE I - INCOME TAXES

In a letter dated July 19, 2012, the Internal Revenue Service has informed the Plan that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and Plan's counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE K - PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's assets are invested in a fund managed by Mutual of America Life Insurance Company. Mutual of America Life Insurance Company is the third party administrator and custodian as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions. Recordkeeping, custodial and other expenses paid by the Plan were incurred with parties-in-interest as defined in Section 3(14) of ERISA.

Early The first of the month on or after attainment of age 55 (but before age 65), on which the Participant elects to retire.

Deferred The first of any month following Normal Retirement Date on which the Participant elects to retire.

Frozen Accrued Benefit The Accrued Benefit as of the Fresh Start Date determined under the provisions of the Plan then in effect.

The Accrued Benefit is reduced by the retirement benefit provided by a prior plan of this Employer, or a plan of a Prior Employer attributable to Benefit Accrual Service also recognized by this Plan.

Benefit Formula The monthly Normal Retirement benefit is determined as follows:

The greater of (A) or (B):

(A) The Frozen Accrued Benefit;

For 2015, the dollar amount of \$210,000 is in the form of a non-refund life annuity. This amount is adjusted to reflect commencement before age 62 or after age 65 or for forms of payment other than a non-refund life annuity and Cost of Living Supplements, if any. It is prorated for less than 10 years of participation in the Plan.
Minimum Accrued Benefit	The Accrued Benefit computed under the provisions of the plan as of the latest amendment adoption date.

If the participant is not survived by a spouse, the annual death benefit payable for 10 years to surviving children is equal to the benefit that would have been payable had the participant retired on the day before his death and elected the 120 months Certain and Continuous Annuity. ASSUMPTIONS/METHODS**

Plan Sponsor:	Youngstown Area Jewish Federation	EIN #:	34-0714442
Plan Name:	Employee Benefits Plan of Youngstown Area Jewish Federation	Plan #:	001

Actuarial Cost Method

Section 430(a) defines the minimum required contribution for a single employer plan as the sum of the plan's target normal cost and the shortfall and waiver amortization charges for the plan year. Under section 430(b), a plan's target normal cost for a plan year is the present value of all benefits expected to accrue or be earned under the plan during the plan year.

The shortfall amortization charge is determined based on the difference between the plan's funding target and the value of plan assets. Under section 430(d) a plan's "funding target" for a plan year is the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

Section 430(h)(2) specifies the interest rates that must be used in determining a plan's target normal cost and funding target. Under the provision, present value is determined using three interest rates (segment rates), each of which applies to benefit payments expected to be paid during a certain period. The first segment rate applies to benefits reasonably determined to be payable during the 5-year period beginning on the first day of the plan year. The second segment rate applies to benefits reasonably determined to be payable during the 15-year period following the initial 5-year period. The third segment rate applies to benefits reasonably determined to be payable after the end of that 15-year period.

Each segment rate is a single interest rate determined monthly by the Treasury Department on the basis of a corporate bond yield curve. The corporate bond yield curve used for this purpose is to be prescribed monthly by the Treasury Department and is to reflect the average, for the 24-month period ending with the preceding month, of yields on investment grade corporate bonds with varying maturities that are in the top three quality levels available.

MAP-21, as modified by HATFA and BBA-15, places a minimum and maximum on the 24-month average corporate bond segment rates currently used to determine the Funding Target and minimum funding requirement under the PPA. Beginning with the 2012 plan year, the 24-month average for each segment cannot be more or less than a percentage of the 25-year average corporate bond segment rates. The corridor around the 25-year average widens over time as follows:

<u>Plan Year</u> <u>Beginning in:</u>	<u>25 Year Average</u> <u>Period Ends:</u>	<u>Minimum</u> <u>Percentage</u>	<u>Maximum</u> <u>Percentage</u>
2012-2020	9/30 of the Prior Year	90%	110%
2021	9/30/20	85%	115%
2022	9/30/21	80%	120%
2023	9/30/22	75%	125%
After 2023	9/30 of the Prior Year	70%	130%

In lieu of the segment rates described above, an employer may elect to determine the present value of benefits expected to be paid using interest rates from the full corporate bond yield curve.

**2015 SCHEDULE SB (FORM 5500) PART V– STATEMENT OF ACTUARIAL
ASSUMPTIONS/METHODS**

Asset Valuation Method

The regulations would provide that plan assets must be valued either at their fair market value on the valuation date or at the “average” value of assets on the valuation date. Under this average value, the value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined for one or more earlier determination dates. The regulations would provide that the period of time between the valuation date and each of the earlier determination dates must be equal, not more than 12 months per period, and the earliest of these determination dates cannot be earlier than the last day of the 25th month before the valuation date of the plan year. The resulting average must be between 90 and 110 percent of the fair market value of plan assets.

For purposes of determining the minimum required contribution pursuant to the PPA, the Actuarial Value of Assets, under the plan’s asset valuation method, is equal to the Average Value of Assets. The Average Value of Assets is determined by averaging the fair market value of assets on the valuation date with the adjusted fair market value of assets for the preceding year, and second preceding year. The resulting average is adjusted to remain between 90 and 110 percent of the fair market value of plan assets.
