NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of plan

The following description of the Immediate Mailing Services, Inc. (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, which covers substantially all employees. Employees are eligible to participate upon attaining the age of 18, and completing one credited year of service (1,000 hours of service). Participants are eligible for employer-matching contributions upon attaining the age of 18 and completing one credited year of service (1,000 hours of service). The Plan is subject to the provisions of ERISA.

Contributions - Participants are allowed to contribute up to 100% of compensation, as defined by the Plan and subject to Internal Revenue Code limitations. Participants may also rollover amounts from other qualified plans into this plan. Participants direct their contributions into various investment options offered by the Plan. The Company makes matching contributions equal to 50% of the participant's elective contributions, not to exceed 2.5% of the participant's compensation. The Company's matching contributions amounted to $69,640 for the year ended December 31, 2015, of which the Company paid $69,206 of these contributions, and used forfeited accounts for the remainder, as explained below. The Company's discretionary matching contributions amounted to $95,001 for the year ended December 31, 2014, of which the Company paid $87,865 of these contributions, accrued $2,609 in contribution receivables and used forfeited accounts for the remainder, as explained below. The Company may also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions for the years ended December 31, 2015 and 2014.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's matching and profit sharing contribution and plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are always 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant vests at a rate of 20% after two years of service and 20% each year thereafter with full vesting upon completion of six years of service.

Forfeitures - Forfeited non-vested accounts totaled $2,323 and $2,098 at December 31, 2015 and 2014, respectively. These accounts can be used to reduce future employer contributions to the Plan. The Company used $434 and $4,527 of forfeited accounts to reduce employer discretionary matching contributions for the years ended December 31, 2015 and 2014, respectively.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The note will bear a reasonable rate of interest, similar to that which a bank or other professional lender would charge for making a similar note. Interest rates ranged from 4.25% to 5.25% as of December 31, 2015. The notes are collateralized by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions. The notes receivable and interest thereon shall be repaid over a period not to exceed five years, unless the note is used to acquire a personal residence. The plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments (see Note 2).

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the notes receivable from participants program. There were no deemed distributions reported for the years ended December 31, 2015 and 2014, respectively.

Payment of benefits - Upon termination of service, a participant may elect to receive a lump sum amount equal to the vested value of their account.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting.

Accounting change - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted for all entities. Management adopted the provisions of this ASU effective 2015, with retroactive application. The Plan has investments in pooled separate accounts, which this ASU impacts. See investment valuation and income recognition below.

In July 2015, the Financial Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early effective in 2015. However, the Plan does not have any fully benefit-responsive investment contracts as of December 31, 2015 and 2014. The accompanying statements of net assets available for benefits, Note 4 to the financial statements and prior year financial statements have been updated to reflect for the early adoption of Part II.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment options in any combination of pooled separate accounts. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments in pooled separate accounts are reported at net asset value as a practical expedient as reported by the sponsor of the fund as discussed below, which have been determined and certified by John Hancock Life Insurance Company of New York, the Plan's Custodian (Note 4). Net appreciation (depreciation) in investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Pooled separate accounts invest primarily in equities, bonds and mutual funds, which are mainly publicly traded securities and a stable value fund. Pooled separate accounts are valued at net asset value (NAV), which serves as a practical expedient to estimate its fair value. This practical expedient would not be used if it were determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Included in the pooled separate accounts, is a stable value fund, which represents participation units of a collective investment trust for which the net asset value is based on the market value of the underlying investments. The stable value fund is composed primarily of fully benefit-responsive investment contracts that are valued at net asset value. The NAV of each pooled separate account and stable value fund are not publicly quoted in the active markets. Each pooled separate account and stable value fund can be redeemed at NAV as of the measurement date and can be redeemed on a daily basis. There were no unfunded commitments or redemption restrictions on these investments as of December 31, 2015 and 2014. As explained above, the Plan has elected to early adopt the provisions of ASU 2015-7, therefore, investments measured at net asset value per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Economic dependency and concentration of credit risk - All of the Plan's investments are invested with John Hancock Investments as of December 31, 2015 and 2014. Accordingly, the Plan is dependent upon the financial condition of this entity.

Administrative costs - Administrative costs, including legal and accounting costs, are the obligation of the Plan; however, the Company has paid or reimbursed the Plan for such expenses. Costs of maintaining participant accounts and managing the investments are paid directly out of plan assets (see Note 6).

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed ninety days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable becomes material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded as paid.

Excess contributions payable - Excess contributions payable represent excess employee salary deferral contributions and excess employer matching contributions owed to certain participants in order to satisfy the relevant nondiscrimination provisions of the Plan. The excess contributions were recorded in the financial statements when received and reported on Form 5500 when paid for years ended December 31, 2015 and 2014 (see Note 7). Corrective distributions are returned to the effected participants subsequent to year end, including any investment earnings thereon.

Subsequent events - Management has evaluated subsequent events through October 9, 2016, the date that the financial statements were available for issue.

Note 3 - Plan amendments

Effective January 1, 2014, the Plan amended certain eligibility requirements as well as the Company's matching contribution.

Note 4 - Information certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company of New York, the Plan's Custodian, has certified that the following information included in the accompanying financial statements as of and for the years ended December 31, 2015 and 2014, and supplemental schedule as of December 31, 2015, is complete and accurate. Furthermore, the Plan's independent auditors did not perform auditing procedures with respect to this information except to compare such information to the related information included in the financial statements and supplemental schedule.

Note 5 - Tax status

Effective January 1, 2012, the Company adopted Massachusetts Mutual Life Insurance Co. Prototype Non-Standardized Profit Sharing Plan with CODA. The Internal Revenue Service has ruled that this prototype is designed in accordance with applicable sections of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as tax-exempt.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2015 or 2014.
