Independent Auditor's Report

The Plan Administrator
URS Government Services Group Pension Plan
Los Angeles, CA

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of URS Government Services Group Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter
As discussed in Note 2 to the financial statements, as of and for the years ended December 31, 2015 and 2014, the Plan adopted the new accounting guidance in Accounting Standards Update 2015-12 "Plan Accounting (Topics 960, 962 and 965) – (Part II): Plan Investment Disclosure" to simplify the investment disclosure requirements. Our disclaimer of opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in these financial statements, other than that derived from the information certified by the Trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the URS Government Services Group Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

General: AECOM E&C Holdings, Inc. (formerly URS E&C Holding, Inc.) ("the Company"), a subsidiary of AECOM, is the sponsor of the Plan.

The Plan is a frozen contributory defined benefit pension plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Prior to the Plan Freeze Date (December 31, 2005), the Plan covered specified employees of Washington Government Environmental Services Company, LLC ("WGES"), Westinghouse Government Services Company, LLC ("WGS") and certain affiliated entities. After the Plan Freeze Date, no new participants were allowed into the Plan, participant contributions to the Plan ceased, and pension benefits stopped accruing.

***Benefits*:** The Plan provides 100% cliff vesting upon completion of five years of service, as defined by the Plan. Retirement benefits are paid to pensioners or beneficiaries in various forms consisting of annuities, lump-sum payments, or a combination of both. The benefit that a participant is entitled to if he or she has less than five years is 100% of his or her contribution and interest attributable to these contributions.

A participant's normal retirement benefit at age 65 is based on years of credited service and the monthly career accumulation amount of 1/12 of two percent of compensation for that year. The Plan generally provides a reduced benefit for early retirement. Eligibility for retirement is attained upon (1) completion of 10 years of eligibility service and attaining age 60 or (2) completion of 30 years of eligibility service and attaining age 58.

Even though the Plan is frozen, a participant, through continued employment with the Company, continues to earn eligibility credit for vesting and retirement purposes. Pension benefits for active participants in the Plan as of the Plan Freeze Date were based on pay and service earned through December 31, 2005.

Death Benefits: If an active employee dies, the spouse may be entitled to a spouse survivor benefit. Depending on the employee's age and/or eligibility service at the time of death, the spouse may qualify for an immediate spouse survivor benefit or a deferred spouse survivor benefit. The benefit payable to the spouse is equal to 55% of the employee's early retirement benefit, except that the benefit is reduced as if the employee retired at the date of death (subject to a maximum benefit reduction for early commencement) and assuming that a joint and survivor benefit and 55% form of payment had been elected. Benefit payments are guaranteed for 60 months and payable to the spouse's beneficiary, if necessary. If the employee was not married and dies before retirement, the named beneficiary will receive a refund of the employee's contributions to the Plan plus interest earned.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Recent Accounting Pronouncements: In May 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update No. 2015-07, *Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. It is effective for annual reporting periods beginning after December 15, 2015. The Plan's management is currently in the process of evaluating the impact of the adoption of the new accounting guidance on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plan (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)* ("Update"). The purpose of this Update is to simplify plan accounting. The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at the contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements. The amendments in Part II of the Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in aggregate. The amendments in Part III of the Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. The Plan early adopted Part II of this Update. Accordingly, the Update was retroactively applied resulting in the disaggregation of investments by general typing. Disclosures of individual investments that comprised 5 percent or more of net assets available for benefits, as well as the net appreciation or depreciation of fair value by investment type have been eliminated as a result of the early adoption of this Update. There were had no significant impacts on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014, and the Statements of Changes in Net Available for Benefits for the years ended December 31, 2015 and 2014, for early adopting this Update. Early adoption was elected as the updated presentation is more relevant to the users of the financial statements.

Valuation of investments: The fair value of interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for a description of fair value measurements

under Accounting Standards Codification ("ASC") 820.) Investment income (loss) and realized and unrealized gains or losses are reported as a single amount as plan interest in investment gain (loss) of the Master Trust. (See Note 7 for information about the Master Trust.)

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as those held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Administrative expenses: The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: The Plan has evaluated subsequent events through October 10, 2016, the date the financial statements were available to be issued.

3. FUNDING POLICY

The Plan sponsor contributes such amounts as are necessary (calculated on an actuarial basis) to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. For 2015 and 2014, the minimum funding requirements of ERISA, as determined by consulting actuaries, have been met.

Prior to the Plan Freeze Date, active participants were required to contribute 1.5% of their salary to the Plan as a condition of accruing a benefit. Participants were immediately vested in their contributions, including earnings thereon. Total participant accumulated contributions at December 31, 2015 and 2014, were $803,733 and $820,047, respectively, including interest credited each January at the annual rate of 120% of the federal mid-term interest rate for the first month of the Plan year (2.10% for 2015 and 2014).

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Because the benefits under the Plan are frozen, the accumulated plan benefits for active employees are based on their accrued benefits as of the December 31, 2005 Plan Freeze Date. Future active employee compensation and credited service increases are no longer applicable after the Plan Freeze Date. Due to the plan freeze, benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included and are fully attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits of the Plan is as follows:

	December 31, 2014	December 31, 2013
Vested benefits:		
Participants and beneficiaries currently receiving benefits	$14,962,825	$12,737,021
Other participants	12,940,342	14,404,094
Total vested benefits	27,903,167	27,141,115
Nonvested benefits	157,373	162,685
Total actuarial present value of accumulated plan benefits	$28,060,540	$27,303,800

	December 31, 2014
Actuarial present value of accumulated plan benefits at beginning of period	$27,303,800
Increase (decrease) during the period attributable to:	
Actuarial gains	(285,474)
Benefits paid	(1,322,344)
Interest due to the decrease in the discount period	1,864,984
Change in assumptions	499,574
Net increase	756,740
Actuarial present value of accumulated plan benefits at end of period	$28,060,540

The actuarial present value of accumulated plan benefits is determined by independent actuaries and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment. The Plan changed the presentation of the accumulated plan benefit information as of the end of the Plan year instead of the beginning of the Plan year. The change had no material difference in the amounts shown.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuations for 2014 and 2013 are shown below:

Interest rate	-	2014 – 7.20% 2013 – 7.00%
Rate of pay increases	-	Not applicable
Mortality basis	-	2014 – RP-2014 mortality tables with experience through 2006 and projected generationally with MP-2015 thereafter
	-	2013 – Mortality tables as described under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants
Average retirement age	-	Ranging from 8% at age 58 to 100% at age 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Plan by a letter dated May 20, 2014, that the Plan, as amended through December 2012, and related trust were designed in accordance with applicable regulations of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. The Plan has been not been amended since receiving the determination letter; therefore, the Plan and related trust continue to be tax-exempt, and no provision for federal income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

6. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits.

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Level 1: The master trust in which the Plan's investment assets are held did not have any Level 1 investments.

Level 2: The Plan's investments, which are held in a master trust, consist of common trust funds. The value of the common trust funds are based on the net asset value (NAV) of the underlying assets.

Level 3: The master trust, in which the Plan is invested, did not have any Level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. INTEREST IN URS GOVERNMENT SERVICES GROUP MASTER TRUST

The Plan's investment assets are held in a trust account at The Bank of New York Mellon ("Trustee") and consist of an undivided interest in an investment account of the URS Government Services Group Master Trust ("Master Trust"), a master trust established by WGS and WGES and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of three other pension plans sponsored by subsidiaries of a common parent company, AECOM, for investment and administrative purposes. Although assets of the four pension plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. During 2015, one of the participating pension plans was terminated and all of the assets associated with that plan were distributed by December 31, 2015.

The Plan had a 20% and 17% interest in the Master Trust's net assets at December 31, 2015, and 2014, respectively. At December 31, 2015 and 2014, the assets of the Master Trust were invested into common trust funds. The fair value of investments was $152,696,654 and $187,487,772 at December 31, 2015 and 2014, respectively.

The net investment earnings (losses) for the common trust funds of the Master Trust were $(3,510,327) and $17,404,177 for the years ended December 31, 2015, and 2014, respectively.

The following table sets forth by type of investment and level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2015 and 2014:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
As of December 31, 2015				
Common Trusts	$ --	$152,696,654	$ --	$152,696,654
Total Investments	$ --	$152,696,654	$ --	$152,696,654

FASB ASC 820 *Fair Value Measurement and Disclosure: Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* requires disclosures of certain attributes in entities that calculate a NAV per share (or its equivalent) and do not have a readily determinable fair value. The following table sets forth the disclosure of the attributes at December 31, 2015 and 2014:

[(a)] Investment funds are stated at fair value based on the quoted market prices of the underlying assets, which represent the NAV of shares held by the Master Trust at year-end.

Changes in fair value levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

8. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by the Trustee, as of December 31, 2015 and 2014.

The information certified by the Trustee was the annual report and accounting for the year ending December 31, 2015 and 2014, which includes beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment gains (losses).

9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan has certain investments that are managed by the Trustee. The Plan also invests in certain investments managed by Mercer Trust Company ("Mercer"), and Mercer acts as a trustee for those investments. Transactions in such investments qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services of the common trust funds were included as a reduction of the return on each fund. Fees paid by the Plan for investment fund services provided to the Master Trust were $54,595 and $53,501 for the years ended December 31, 2015 and 2014, respectively, and reported as a deduction in the Statements of Changes in Net Assets Available for Benefits.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed

at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the form of benefit payment elected by the participant at Plan termination. The ceiling varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

- Retirement benefit

  Upon termination of employment

SCHEDULE SB ATTACHMENTS (cont.)

Form of payment	Participants are assumed to elect the normal form, except that 25% of active participants are assumed to elect a lump sum payment on benefits accrued through December 31, 1994. Calculation of Lump Sum: Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) without application of generational mortality.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 65% of eligible female participants are assumed to be married.
Spouse age	Male spouses are assumed to be three years older than female spouses.
Covered pay	Not applicable. The plan was frozen as of December 31, 2005.
Administrative expenses	Plan related expenses are assumed to be the average of actual plan-related expenses net of PBGC premiums in the prior three years, plus the expected PBGC premium for the current year, rounded to the nearest thousand. The amount included this year for plan-related expenses is $234,000.
Site Closure Date	None
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year (zero since the plan was frozen) plus plan-related expenses expected to be paid from plan assets during plan year, as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.00% and 6.70% for the 2014 and 2013 plan years respectively, (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

Schedule SB, Part V
Summary of Plan Provisions
as of January 1, 2015

Plan Provisions

The plan was originally effective April 1, 1999 and was frozen as of December 31, 2005. It was amended and restated effective January 1, 2012. This valuation accounts for the plan as amended through the valuation date.

Covered Employees	All Eligible Employees may participate in the Plan. Eligible Employees are those employed at non-Excluded Units of the Westinghouse Government Services Company, LLC who are either non-represented or represented by a collective bargaining unit that has a written agreement with URS regarding participation in the Plan.
Participation Date	Date of becoming a covered employee.

Definitions

Credited Service	*For the plan year April 1, 1999 through December 31, 1999:* Only post-April 1, 1999 credited service is included, pending the plan merger and corresponding transfer of assets from CBS Corporation representing benefits accrued through March 31, 1999. *For plan years beginning January 1, 2000:* Generally, all service as a contributing participant in the Plan is used to determine pension benefit amounts. Prior to January 1, 1995, all service as an Employee of CBS Corporation was generally included as Credited Service. Service while employed with an Affiliated Entity or Excluded Unit is not included. Service is included while receiving benefits under URS's salary continuance and extension program or short-term or long-term disability plan, or after being determined to be "Totally Disabled", up to a maximum continuous period of two years. No additional credited service is accrued on or after the plan freeze date of December 31, 2005.
Eligibility Service	All Credited Service, plus service that would be credited except that the Employee elects not to contribute to the Plan or is employed by an Affiliated Entity or an Excluded Unit.
Vesting Date	The date the Participant completes five years of Eligibility Service or reaches Normal Retirement Date.
Plan Compensation	Generally, regular compensation paid to a participant inclusive of overtime, bonus and other additional compensation payments, except that only 50% of an annual incentive award payable under any management incentive program is included.
Normal Retirement Date (NRD)	The first day of the month following the Participant's 65th birthday.

Eligibility for Benefits

Normal Retirement	Retirement on Normal Retirement Date
Early Retirement	The first of any month following the date the Participant attains: (i) age 58 with at least 30 years of Eligibility Service or (ii) age 60 with at least 10 years of Eligibility Service.
Pre-retirement Death Benefit	Death while accruing Eligibility Service and after attainment of Early Retirement Eligibility or any of the following:

Age	Eligibility Service
any	25 years or more
60 or older	10 years or more
50 or older	15 years or more

Vested Death Benefit	Death after vesting date and before pre-retirement death benefit eligibility.

Benefits Paid Upon the Following Events

Normal Retirement

Generally, a monthly amount equal to the greater of (a) The Career Accumulation Method and (b) the Flat Rate Method.

(a) Career Accumulation Method: the sum of (i) and (ii)
- (i) the monthly amount accumulated to January 1, 1992
- (ii) 1/12 of 2% of Compensation for each calendar year commencing on or after January 1, 1992 in which an Employee contributed. A minimum of $15 per year of Credited Service applied for 1992, 1993, and 1994 regardless of an Employee's election to contribute to the Plan.

(b) Flat Rate Method: the sum of (i) and (ii)
- (i) $31 for years of Credited Service while contributing to the Plan
- (ii) $13 for years of Credited Service prior to January 1, 1995 in which an Employee was eligible to contribute to the Plan but elected not to contribute.

SCHEDULE SB ATTACHMENTS (cont.)

Early Retirement	*Employees Hired after December 31, 1994:* Determined as for Normal Retirement except that benefits are reduced by ½ percent per month that Early Retirement Date precedes Participant's Normal Retirement Date. *Employees Hired before January 1, 1995:* If a Lump Sum form of payment is elected, the Participant will receive the sum of (i) and (ii), as follows: (i) A payment equal to the lump sum equivalent of the normal retirement benefit determined as of December 31, 1994. The lump sum equivalent will be calculated assuming benefits begin at Early Retirement Date. Benefits are reduced for early commencement by 1/3 of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the Participant has 30 or more years of Eligibility Service, by ¼ of 1% for each month that Early Retirement Date precedes the first of the month following the Participant's 60th birthday. (ii) An annuity equal to the difference between (a) the normal retirement benefit (based on total Credited Service) determined as of the Participant's Early Retirement Date and reduced by ½ of 1% for each month that Early Retirement Date precedes Normal Retirement Date, and (b) the normal retirement benefit determined as of December 31, 1994, reduced for early commencement as described in (i) above. If a Participant has Eligibility Service both before January 1, 1995 and after December 31, 1994, and an annuity form of payment is elected, the Participant's benefit is determined as for normal retirement except that benefits are reduced for early commencement by 1/3 of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the Participant has 30 or more years of Eligibility Service, by ¼ of 1% for each month that Early Retirement Date precedes the first of the month following the Participant's 60th birthday. Further, if the benefit payable at NRD using the Flat Rate Method produces a higher monthly benefit, then the unreduced Flat Rate benefit is payable upon Early Retirement. *Early Retirement Supplements* For Employees hired prior to January 1, 1995 who retire early and elect an annuity form of payment, a temporary monthly supplement is payable until age 62 equal to $10 per year of Credited Service.
Deferred retirement	An active participant working beyond NRD may defer retirement after age 65 and continue to accrue benefits until his deferred retirement date.
Vested termination	The benefit payable to a terminated vested Participant is the greater of the benefit determined as for normal retirement and an annuity that is the actuarial equivalent of the Participant's contributions with interest. A Participant who attains at least 30 years of Eligibility Service may elect to receive benefits beginning at age 58, and a Participant who attains at least 10 years of Eligibility Service may elect to receive benefits beginning at age 60. The benefits will be reduced by ½ of 1% for each month that benefit commencement precedes Normal Retirement Date.

SCHEDULE SB ATTACHMENTS (cont.)

Non-vested termination	A Participant who terminates employment non-vested receives a refund of contributions plus interest; or, if over $5,000, an actuarially equivalent annuity beginning any time up to Normal Retirement Date.
Pre-retirement Death	Immediate benefit payable to Participant's spouse equal to 55% of the applicable amount below, adjusted for form assuming that the participant had elected the Joint and 55% form of payment: If the participant had fewer than 30 years of service, the amount is the greatest of the participant's a. Normal Retirement Benefit determined as of December 31, 1994 using the Career Accumulation Method, reduced by 1/3 of 1% for each month that the date of death precedes Normal Retirement Date up to a maximum reduction of 20% b. Normal Retirement Benefit determined as of December 31, 1994 using the Flat Rate Method c. Normal Retirement Benefit determined as of the participant's date of death, reduced by ½ of 1% for each month that the date of death precedes Normal Retirement Date up to a maximum reduction of 42%. If the participant had 30 or more years of service, the amount is the greatest of the participant's a. Normal Retirement Benefit determined as of December 31, 1994 using the Career Accumulation Method b. Normal Retirement Benefit determined as of December 31, 1994 using the Flat Rate Method c. Normal Retirement Benefit determined as of the participant's date of death, reduced by ½ of 1% for each month that the date of death precedes Normal Retirement Date up to a maximum reduction of 42% If the surviving spouse of a Participant who has Eligibility Service both before January 1, 1995 and after December 31, 1994 elects to receive the entire benefit as a monthly annuity, then (a) and (b) are changed to be based on the Normal Retirement Benefit determined as of the participant's date of death, not as of December 31, 1994 (regardless of whether the participant had 30 years of service). Payments are guaranteed for 60 months and payable to the spouse's beneficiary if necessary.
Vested death	Deferred benefit, payable to Participant's spouse at what would have been the employee's earliest benefit commencement date, equal to 55% of the Termination Benefit, assuming that the Joint and 55% form of payment had been elected. Payments are guaranteed for 60 months and payable to the spouse's beneficiary if necessary.

SCHEDULE SB ATTACHMENTS (cont.)

Other Plan Provisions

Forms of payment	*Normal Form of Payment* • Married Participant: 55% surviving spouse annuity with 60 payments guaranteed. The form reduction is 7.5% plus 0.5% for each year the joint annuitant is younger than the participant (or minus 0.5% for each year the joint annuitant is older than the participant) up to 15 years. • Unmarried Participant: Single life annuity with 60 payments guaranteed. *Optional Forms of Payment* • Single life annuity with 60 payments guaranteed. • Joint and 100% survivor annuity with 60 payments guaranteed – The optional form reduction is 13.5% plus 0.5% for each year the joint annuitant is younger than the participant (or minus 0.5% for each year the joint annuitant is older than the participant) up to 27 years. • Joint and 75% survivor annuity with 60 payments guaranteed - The optional form reduction is 10.5% plus 0.5% for each year the joint annuitant is younger than the participant (or minus 0.5% for each year the joint annuitant is older than the participant) up to 21 years. • Joint and 55% survivor annuity with 60 payments guaranteed – The optional form reduction is 7.5% plus 0.5% for each year the joint annuitant is younger than the participant (or minus 0.5% for each year the joint annuitant is older than the participant) up to 15 years. • Lump sum, based upon the benefit accrued as of 12/31/1994 (any additional benefit accruals are payable in any of the other optional benefit forms). If the lump sum value of the benefit accrued after 12/31/1994 is less than $10,000, a participant may receive the lump sum value of his entire benefit.
Pension Increases	None.
Plan Participants' Contributions	Not applicable since the plan is frozen.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

SCHEDULE SB ATTACHMENTS (cont.)

Benefits Not Valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to $1,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes to benefits valued since the prior year, other than the increase in the maximum benefit limit under IRC §415 as of January 1, 2015 which had no impact on the funding target.

Substantive Commitment

No substantive commitments other than the above plan provisions have been included in this valuation.

Change in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, the following other changes in assumptions were made as part of this valuation:

- The mortality tables used for disabled participants are the same as those used for healthy participants. In the January 1, 2014 valuation the Revenue Ruling 96-7 mortality tables were used for disabled participants.

- The employee contribution interest rate was changed to 3.00% as of January 1, 2015 from 4.00% used for the January 1, 2014 valuation.

- The expected return on assets used to determine the actuarial value of assets was updated from 6.70% to 7.00% (applicable to 2014 asset return).
