NOTE A - DESCRIPTION OF THE PLAN

The following description of the ArcelorMittal USA LLC Hourly 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan that provides benefits to eligible employees of ArcelorMittal USA LLC and its affiliates (together, the Company) who are members of the United Steelworkers Union or the Bricklayers and Allied Craftsmen Union of Indiana and Kentucky (the Union). The Plan is administered by a committee appointed by the board of directors of the Company. Fidelity Management Trust Company (Fidelity) is the trustee and record keeper of the Plan.

Participant Plan Transfers

Participant account balance transfers between the Plan and a plan maintained by an affiliate are permissible whenever an employee participating in the Plan changes positions within the Plan sponsor's organization or an amendment to the Plan document and/or labor agreement occurs, causing the employee to no longer be eligible to participate. In either case, the participant account balance may be transferred to the plan for which the employee becomes eligible for participation upon the participant's direction.

Contributions

Employees electing to participate in the Plan may contribute up to 50% of their annual compensation, as defined by the Plan, plus all or any portion of a bonus under the Company's profit-sharing plan or any other bonus plan or arrangement, subject to Internal Revenue Code (IRC) limitations. For employees hired or rehired after November 24, 2009, they shall automatically be enrolled in the Plan as soon as administratively practicable at a deferral rate of 5% unless the employee affirmatively elects not to participate in the Plan or a different level of contribution.

In accordance with the agreement dated September 1, 2012, between the Company and the Union, the Company is to make monthly contributions to covered employees based on employee contributory hours, which amounted to approximately \$3.6 million for the year ended December 31, 2015.

Participant and employer contributions are fully vested at all times. Employer contributions may be directed to any of the eligible investment options offered by the Plan.

Investment Options

Participants direct the investment of their contributions and account balances into various ArcelorMittal USA LLC Defined Contribution Plans Master Trust (the Master Trust) investment options offered by the Plan. Investment options include a self-directed brokerage option.

Participant Accounts

Individual participant accounts are maintained and are credited with participant contributions and allocations of investment earnings, and charged with allocations of investment losses from each investment fund in which

such contributions are invested. Allocations of each fund's earnings or losses are based on the ratio of each participant's account balance in such fund to the total of all participants' balances in that fund. Participants are fully vested in their account balances at all times. The costs of certain administrative services provided by the trustee are paid from participants' accounts or assets within the appropriate investment option, as applicable.

Payment of Benefits

Upon retirement, termination of employment, death or physical disability, benefits are payable in a lump sum, partial cash distribution, installments or can be rolled over to an individual retirement account (IRA) or another eligible retirement plan based on the participant's election (or beneficiary). Participants may be permitted to withdraw contributions in the case of financial hardship, subject to certain limitations. Participants less than age 59-1/2 are allowed source-specific in-service withdrawals as stated in the Plan document. Participants are entitled to receive payments without terminating employment upon attainment of age 59-1/2.

Notes Receivable from Participants

Participants may borrow up to 50% of their account balances up to a maximum of \$50,000, less any outstanding loan balance(s) within the last 12 months (subject to certain limitations set forth in the Plan), for terms not exceeding five years, subject to acceleration under certain circumstances, unless the loan qualifies as a home loan, for which a repayment term up to fifteen years is permitted.

Participants may have up to two outstanding loans at any given time. The interest rate charged on loans is based on a nationally published prime rate in effect at the beginning of the month in which the loan application is accepted. The loans are secured by the balances in the participant accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Adoption of New Accounting Rules

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management did not elect to early adopt the provisions of this standard.

In July 2015, the FASB issued ASU No. 2015-12 *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*, which applies

ArcelorMittal USA LLC
Hourly 401(k) Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

to plan accounting for defined contribution pension plans. Part I pertains to fully benefit-responsive investment contracts, Part II plan investment disclosures, and Part III measurement date practical expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years after December 15, 2015, and should be applied prospectively, with early application permitted.

Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in changing the presentation of fully benefit-responsive investment contracts at contract value, versus fair value, as shown in note D, and the removal of certain fair value disclosures related to this investment. There is no change to the value of net assets available for benefits. The net appreciation or depreciation in fair value of investments by general type and investment strategy for the Plan's investments measured at NAV have been removed, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics, and risks. Part III is not applicable to this Plan.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts in the financial statements and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Master Trust utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of Investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels as follows:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs (other than quoted prices included within Level 1) are observable for the asset or liability, either directly or indirectly.

ArcelorMittal USA LLC
Hourly 401(k) Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2015 and 2014

Level 3 - Inputs are unobservable for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Plan's own data.)

The investments held at fair value by the Master Trust are determined as follows:

Mutual funds - Valued at the NAV of shares held at year-end, which is obtained from an active market.

Collective trust funds - Valued at the NAV of units of each bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that a fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Other - Valued at the closing trade price on the day of valuation based on information from third-party pricing services as obtained by Fidelity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fully Benefit-responsive Investment Contracts

Under ASU No. 2015-12, investment contracts held by a defined contribution plan are to be reported at contract value which is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through the Master Trust. The statement of net assets available for benefits presents the fair value of investments and contract value of the investment contracts in the Master Trust. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment management fees and operating expenses charged to the Plan for investments in the funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses

Certain trustee, record-keeping, administrative and investment management fees are paid by the Plan. All other management fees and administrative expenses of the Plan are paid by the Company.

ArcelorMittal USA LLC
Hourly 401(k) Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED

Certain administrative fees are rebated to the forfeiture account in accordance with the Plan's arrangement with Fidelity. Amounts available to pay for Plan expenses at December 31, 2015 and 2014, totaled \$80,035 and \$78,690, respectively. During the year ended December 31, 2015, \$93,660 was used to pay Plan expenses. Also, in December 2015, a one-time revenue credit allocation of \$250,000 was distributed to Plan participant accounts on a pro rata basis.

Payments of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but had not yet been paid at December 31, 2015 and 2014.

NOTE C - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan has entered into benefit-responsive investment contracts with various insurance companies through the ArcelorMittal Stable Value Fund, a separate account managed by JPMorgan Asset Management (JPMorgan), held in the Master Trust. The account is credited with participant contributions to the ArcelorMittal Stable Value Fund and earnings on the underlying investments, and charged for participant withdrawals and administrative expenses.

A synthetic guaranteed investment contract (GIC) is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Plan, of high-quality, intermediate-term fixed income securities. The ArcelorMittal Stable Value Fund purchases wrapper contracts from financial services institutions. Synthetic GICs credit a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the applicable interest rate on a prospective basis. Synthetic GICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield to maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include, but may not be limited to, the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the Master Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Synthetic GICs generally impose conditions on both the Plan and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: (1) a breach of material obligation under the contract; (2) a material misrepresentation or (3) a material amendment to the Plan document. The issuer may be in default if it breaches a material obligation under the

ArcelorMittal USA LLC
Hourly 401(k) Plan

investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; is acquired or reorganized, and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, all of the synthetic GICs have been negotiated to have “contingency coverage” that would allocate the book and market value proportionately among the remaining wrap providers in the event that another book value wrap contract is terminated for any reason. All other terms and conditions of the remaining contracts, including fees, would continue to apply without amendment.

As described in note B, because the synthetic GICs in the ArcelorMittal Stable Value Fund are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the synthetic GICs in the ArcelorMittal Stable Value Fund. Contract value, as reported to the Plan by JPMorgan and the trustee, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the ArcelorMittal Stable Value Fund at contract value.

NOTE D - INVESTMENT IN MASTER TRUST

The Master Trust holds the assets of the Plan, the ArcelorMittal USA LLC Savings and Investment Plan, I/N Tek and I/N Kote 401(k) Savings Plan for Employees Represented by United Steel Workers of America Local 9231, and effective as of February 26, 2014, the AM/NS Calvert LLC 401(k) Plan. Use of the Master Trust permits the commingling of assets for these plans. Although the assets are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans.

To preserve the participating plans’ interest in the combined Master Trust assets, the trustee and the Plan administrator determine each participant’s share of Master Trust assets and related changes based on the ratio of each participant’s account balance in such fund to the total of all participants’ balances in that fund.

The net assets of the Master Trust are summarized as follows at December 31:

NOTE E - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 17, 2014, that the Plan was designed in accordance with applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE F - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA.

NOTE G - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under

ArcelorMittal USA LLC

ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Interest in ArcelorMittal USA LLC Defined Contribution Plans Master Trust, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Net income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Investment information included in the Master Trust (note D).
- Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE H - RELATED-PARTY TRANSACTIONS

The Master Trust held an investment in ArcelorMittal stock in 2015 and 2014 (see note D).

Certain Master Trust investments are shares of mutual funds managed by Fidelity (approximately \$965,000,000 and \$955,000,000 in 2015 and 2014, respectively), the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan has loans to participants that also qualify as party-in-interest transactions.

NOTE I - SUBSEQUENT EVENTS

On June 23, 2016, the United Steelworkers ratified a three-year term labor agreement effective September 1, 2015. Per the labor agreement, the I/N Tek and I/N Kote 401(k) Savings Plan for Employees Represented by United Steel Workers of America Local 9231 is to be merged into the Plan. The tentative date of the Plan merger is November 2016.

The Plan evaluated its December 31, 2015, financial statements for subsequent events through October 4, 2016, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
