Green Tree School 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE A – PLAN DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES

The following description of Green Tree School 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution retirement plan covering substantially all employees of Green Tree School (the Company) who have completed one year of service with at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective July 1, 2006.

2. Contributions

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may contribute up to limits set by the Internal Revenue Service (IRS). A discretionary contribution may be made by the Company as determined by the Company's members. For the year ended December 31, 2015, the matching contribution was equal to 50% of a participant's deferral on the first 6% of the participant's eligible salary. Employer matching contributions totaled \$38,317 for the year ended December 31, 2015.

3. Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, the participant's share of earnings and losses and charged with an allocation of custodial fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary and matching contribution portion of their accounts plus actual earnings thereon is based on years of service. Participants are 25% vested after two years of service and vesting increases 25% for each additional year of service until fully vested after five years of service. Upon normal retirement, death, disability or early retirement while employed with the Plan sponsor, the participant becomes 100% vested.

5. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

NOTE A – PLAN DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES – Continued

6. Benefits

Upon termination of service for any reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Benefits are recorded when paid.

7. Forfeited Accounts

Forfeitures are used to reduce employer contributions or offset Plan administrative expenses. During the year ended December 31, 2015, there were no forfeitures applied to employer contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$3,682 and \$-0-, respectively.

8. Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to 50% of their vested account balance up to \$50,000. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with rates charged for similar loans by commercial lenders as determined by the Plan administrator, which was 4.25%. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

9. Administrative Costs

Costs for administrative services for withdrawals and loans are paid by the participants, while the remaining administrative costs are paid by the Plan Sponsor. Administrative fees for loans and withdrawals paid by the participants totaled \$2,860 for the year ended December 31, 2015.

10. Risks and Uncertainties

The Plan provides for various investment options in various combinations of investment funds. Investment funds are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

12. Revenue Policy

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE A – PLAN DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES – Continued

13. Changes in Accounting Principles

In 2015, the Plan adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965), (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I is not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregate of investments that are measured using fair value, requiring disaggregation only by general type of investment. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts II is to be retroactively applied.

14. Recent Accounting Pronouncements

In 2015, FASB issued FASB ASU 2015-07 *Fair Value Measurement, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) (Topic 820)* which eliminates the requirement to include in the fair value hierarchy any investments measured at fair value using net asset value (NAV) as a practical expedient was issued. The ASU is effective, for non-public entities, for fiscal years beginning after December 15, 2015, with early adoption permitted and is to be retroactively applied. The Company will evaluate the effect that implementation of the new standard will have on its disclosures.

15. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 13, 2016, the date the financial statements were available to be issued. During this period, the Plan did not have any material recognizable subsequent events.

NOTE B – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event that the Plan is terminated, the value of all interests shall be determined and distributed as if each participant had retired.

NOTE C – TAX STATUS

The Plan qualifies for tax exemption under Section 401(a) of the Internal Revenue Code (IRC). The Plan administrator believes that since the Plan is currently using the prototype plan from AccuDraft, Inc., which has been approved by the IRS, it is currently being operated in compliance with the applicable requirements of the IRC.

NOTE C – TAX STATUS – Continued

The Plan has no positions that would require disclosure or recognition under the *Accounting for Income Taxes* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). This topic requires the Plan to recognize or disclose any tax positions that would result in unrecognized tax benefits. The Plan's income tax returns for fiscal years on and after December 31, 2012 are subject to examinations by the IRS and state taxing authorities.

NOTE D – INFORMATION CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Accordingly, Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, the supplemental schedule of assets (held at end of year) at December 31, 2015, and the related investment information reported in the statement of changes in net assets available for benefits for the for the year ended December 31, 2015. Investment balance information is included in Note E.

During 2015, the Plan's pooled separate accounts (including investments bought, sold and held during the year) appreciated in value by \$22,526.

It is the practice of Mass Mutual not to break down investment income into interest, dividends, realized and unrealized gains or losses for their investments with pooled separate accounts. It is impractical for the Plan administrator to recalculate such information.

NOTE E – FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The hierarchy includes three levels. Level 1 includes instruments whose inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 includes instruments whose inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 includes instruments whose inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE E – FAIR VALUE OF FINANCIAL INSTRUMENTS – Continued

The following is a description of the valuation methodologies used for assets measured at fair value. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at the net asset value, as a practical expedient, based on the market value of the underlying investments. The net asset value is not a publicly-quoted price in an active market. The underlying investments in the pooled separate accounts are mutual funds.

NOTE F – EXCESS CONTRIBUTIONS REFUNDABLE

At December 31, 2015 and 2014, payables of \$5,351 and \$4,273 are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS.

NOTE G – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts with Hartford Life Insurance Company that are managed by Massachusetts Mutual Life Insurance Company. Transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were \$2,860 for the year ended December 31, 2015.

NOTE H – PLAN OPERATIONS

The Plan filed under the Voluntary Compliance Program on December 23, 2013 related to Plan operational errors from 2006 through 2012. During 2015, a payment of \$91,259 was made, the remaining \$21,141 that had been shown as an employer contribution receivable as of December 31, 2014 is shown as an employer contributions accrual adjustment on statement of changes in net assets available for benefits.

NOTE I – DELINQUENT PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2015, the Company failed to remit in a timely manner certain employee deferrals and loan payments to the Plan totaling \$78,100. The Company computed lost earnings on these deposits and subsequently made contributions to the Plan for the lost earnings.
