The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have completed three months of active employment and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Trustee of plan investments: The trustee of Plan investments as of January 2015 is Reliance Trust Company. JPMorgan Chase Bank, N.A. (JPMorgan Chase) was the trustee through December 2014 (collectively, the Trustees).

Plan administration: The Plan is administered by the Administrative Committee consisting of one or more members and/or employees appointed by the Company. J.P. Morgan Retirement Plan Services LLC (RPS) is the Plan's Third Party Administrator and recordkeeper, FASCore LLC, is an agent for RPS and JPMorgan Chase for recordkeeping services.

Custodian of plan investments: Plan investments were held by JPMorgan Chase under a custodian contract through December 2014. JPMorgan Chase had a sub-custody agreement with Reliance Trust Company to hold Plan assets through December 2014. Reliance Trust Company became the direct custodian of Plan investments effective January 2015.

Contributions: Each year, participants may make salary deferral contributions in any percentage of pretax annual compensation, as defined in the Plan, subject to the maximum amount imposed by the Internal Revenue Service (the IRS), not to exceed $18,000 for 2015. The Company makes a discretionary matching contribution of 35% of participants' deferrals up to 5.5% of the participants' eligible compensation. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans.

A participant must be employed by the Company as of the last day of the Plan year in order to be entitled to any Company contributions. The amount of all contributions cannot exceed the maximum permitted by the IRS. Contributions are invested in a portfolio of investments as directed by the Plan participant.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's contribution, if any, and allocations of net Plan earnings. Allocations of net Plan earnings are based on account balances within each respective fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of a participant's account, including any related earnings, is based on the following years of continuous service:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

A participant may direct his or her entire account balance among any of the investment options offered under the Plan. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts by means of loans as approved by the Plan Administrator. A minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance may be borrowed. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund. Participant loans bear interest at a fixed rate as determined by the Plan's committee. At December 31, 2015, participant loans bore interest at 5.25%, with maturity dates through 2045. At December 31, 2014, participant loans bore interest at rates ranging from 5.25% to 9.50%, with maturity dates through 2019. Principal and interest are paid ratably through semi-monthly payroll deductions over a period of five years or less. However, if the loan is for the purpose of buying a primary residence, the loan may be repaid over a longer period, as determined by the Plan Administrator.

Benefit payments: Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan also provides for participant withdrawals due to hardship, as defined by the Plan document, prior to termination of employment.

Forfeited accounts: Any forfeitures remaining as of the close of the Plan year shall be used to reduce certain Plan administrative expenses and employer contributions, as determined by the Company. As of December 31, 2015, total forfeitures available to pay future Plan expenses and Company's contribution obligations were approximately $89,000. During the year ended December 31, 2015, the employer used approximately $16,000 of forfeitures to pay employer contributions.

Plan expenses: Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan during the year ended December 31, 2015. Certain trustee fees are paid by the Plan. Administrative expenses of the Plan are paid by the Plan or the Plan's sponsor, as provided in the Plan document.

Subsequent events: The Plan has evaluated subsequent events through October 14, 2016, which is the date the financial statements were available for issuance.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on an accrual basis. Dividend income is accounted for on the ex-dividend date. Mutual fund management fees and operating expenses charged to the Plan are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a decrease in net appreciation in fair market value of investments.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Notes receivable from participants: Notes receivable from participants are valued at cost plus accrued and unpaid interest. Delinquent notes receivable from participants are treated as distributions based on the terms of the Plan document.

Excess contributions refundable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to the participant contributions. The Plan distributed the 2015 excess contributions to the applicable participants on March 7, 2016.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recently issued accounting pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan early adopted ASU 2015-07 and the impact of adopting these amendments is reflected in Note 4 to the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted this update for the 2015 plan year and the amendments in Part I and Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Note 3. Information Certified by Trustees

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the Trustees that information provided to the Plan Administrator by the Trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets as of December 31, 2015 and 2014:

	2015	2014
Investments, at fair value:		
Mutual funds	$ 10,421,547	$ 10,115,175
Common collective trust fund	898,581	858,660
Notes receivable from participants	77,403	23,684
Investment income:		
Net depreciation in fair value of investments	912,886	
Interest and dividend income	699,579	
Interest income on notes receivable from participants	2,834	

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted market prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no transfers between Levels 1, 2, and 3 during the year.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common collective trust fund: A stable value fund that is comprised primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transaction (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,421,547	$ -	$ -	$ 10,421,547
Total assets in the fair value hierarchy	$ 10,421,547	$ -	$ -	10,421,547
Investment measured at net asset value (a)				898,581
Total investment at fair value				$ 11,320,128

	Assets at Fair Value as of December 31, 2014 (As Revised)			
Mutual funds	$ 10,115,175	$ -	$ -	$ 10,115,175
Total assets in the fair value hierarchy	$ 10,115,175	$ -	$ -	10,115,175
Investment measured at net asset value (a)				858,660
Total investment at fair value				$ 10,973,835

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table sets forth disclosure of the Plan's investments whose fair value is estimated using NAV per share as a practical expedient as of December 31, 2015 and 2014:

Investment	2015 Fair Value	2014 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
JPMorgan Chase Bank Stable Asset Income Fund (a)	$ 898,581	$ 858,660	$ -	Daily	12 months
	$ 898,581	$ 858,660			

(a) The investment in the JPMorgan Chase Bank Stable Asset Income Fund, a common collective trust, seeks to provide capital preservation, liquidity, and current income at levels that are typically higher than those provided by money market funds. The fund invests in a highly diversified fixed income strategy by investing in other collective trust funds, separate accounts and fixed income securities, which may include U.S. treasury and agency securities, mortgage-backed securities, asset-backed securities, commercial mortgage-backed securities, private mortgages, corporate debt and short-term investments. The fund also enters into investment contracts to provide benefit-responsive wraps.

Note 5. Related Party Transactions

Certain Plan investments are units of a collective trust fund managed by JPMorgan Chase and mutual funds managed by Chase Investment Services Corporation (an affiliate of JPMorgan Chase). JPMorgan Chase is the former trustee and RPS is the administrator and recordkeeper, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to RPS were $2,985 for the year ended December 31, 2015.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan's provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Prohibited Transactions

During the year ended December 31, 2015, the Plan Sponsor failed to deposit approximately $229,305 of participant deferrals within the required timeframe as stated by the Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. Participant accounts have now received all deposits and an additional funding for lost earnings is being calculated and will be submitted as part of the corrective action.

Note 8. Tax Status

The Plan has adopted a nonstandardized prototype plan sponsored by J.P. Morgan Retirement Plan Services LLC (an affiliate of the Trustee). The Plan has not obtained a determination letter from the IRS, as it relies on IRS approval of the prototype plan being utilized. The IRS has determined and informed the prototype plan sponsor by an opinion letter dated March 31, 2014 that the prototype plan was designed in accordance with applicable sections of the IRC. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2015.

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for periods prior to 2012.

Note 9. Risks and Uncertainties

The Plan provides for various investment options, in any combination, of specified mutual funds and a common collective trust fund. The underlying investments may include stocks, bonds, fixed income securities, mutual funds, and other investment securities. Such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, the recent volatility in the financial markets, and the level of uncertainty related to changes in the value of investment securities, it is expected that changes in the values of investment securities will continue to occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Form 5500 Reconciliation

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

	2014
Net assets available for benefits per the financial statements	$ 10,894,691

The following is a reconciliation of the increase in net assets available for benefits per the financial statements for the year ended December 31, 2015 to the Form 5500:

	2015
Increase in net assets available for benefits per the financial statements	$ 271,291
Change in adjustment from fair value to contract value for fully benefit-responsive investment contracts	(5,543)
