HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Harsco Employees Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit plan providing retirement, death and disability benefits to all eligible salaried and hourly paid supervisory, office and clerical employees of Harsco Corporation (the “Company”), as defined by the Plan, who are not otherwise covered by any other qualified pension plan to which the Company contributes on behalf of such employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension benefit accrual service for a select few divisions of active U.S. qualified and non-qualified salaried pension plan participants was frozen as of December 31, 2003. Since then, there have been several additional locations frozen. The most recent freeze of pension benefit accruals occurred on January 31, 2010, for the collectively bargained participants at the Moundsville location. Following that freeze, service and compensation accruals, as noted in amendments to the Plan document, have been frozen for all participants except for two hourly union locations. Effective August 31, 2016, the Plan froze benefits for one of the two remaining locations.

Although the Company received Board approval as of December 31, 2003, to merge all defined benefit plans maintained by the Company or its subsidiaries in its ERISA controlled group into the Harsco Employees Pension Plan, some of the plans have yet to be merged. The mergers were planned in order to reduce administrative and funding costs that otherwise would be incurred if these plans continued as separate plans. The mergers will be subject to union approval where required.

Effective January 1, 2012, the Plan document was restated to incorporate all amendments through December 31, 2011.

The Plan evaluated subsequent events for recognition or disclosure through October 13, 2016, the date the financial statements were available to be issued.

The Plan is administered by the Company’s Pension Investment Committee (Committee), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance, and reports to the Company’s board of directors.

Participation

An employee becomes a participant in the Plan on the first day of the year coinciding with or next following the date eligibility requirements are met.

(continued)

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Service Rules

Employees are credited with a year of service for each Plan year during which they have at least 1,000 hours of service.

Pension Benefits

Employees are entitled to annual pension benefits beginning at normal retirement age (65). The amount of the benefit is determined by length of service, date of termination, age of participant, and the division in which the employee worked. In certain divisions, the Plan permits early retirement if the participant meets the required length of service and age. As a result, participants may be eligible for early retirement at ages 55-64 and completion of ten to fifteen years of continuous service dependent upon the division's pension provisions. The amount of the monthly benefit will vary depending upon, among other things, which division the employee is in as defined in the Plan document. If the present value of the pension does not exceed \$1,000, a lump-sum payment is automatic. If employees terminate before rendering 5 years of service, they forfeit the right to 100% of their accrued benefit.

In the event of re-employment of a participant who had previously had a break in service and received from the Company a lump sum distribution, the participant may choose to repay the full amount of the distribution plus interest upon being reemployed in order to reinstate their credited service for vesting as if no break in service had occurred.

Death and Disability Benefits

The Plan provides for death and disability benefits. In the event of death, the amount of benefit the beneficiary will receive will depend upon, among other things, the employee's status as of the date of death and whether the participant was already receiving normal retirement benefits. In the event a participant becomes totally and permanently disabled, the benefit to be received will depend upon, among other things, the employee's status at the time of disability. Disability retirement is available on the first day of any month coincident with or following the completion of 15 years of service and one year of permanent disability. Upon meeting these requirements, a participant is entitled to 100% of their accrued benefit.

Vesting

A participant is fully vested after completion of five years of continuous service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

(continued)

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. See Note 6 for a discussion of fair value measurements. The Company's finance department determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net increase (decrease) in plan interest in the Harsco Pension Profit Sharing Collective Investment Fund (CIF) includes the Plan's gains and losses on CIF units bought and sold as well as held during the year.

Funding Policy

The Plan is funded by the Company with actuarially determined contributions. The contributions are determined using an actuarial cost method which takes into consideration the present value of benefits expected to accrue during the plan year. The Plan has complied with the minimum funding requirements established by ERISA for 2015 and 2014.

Investment Fees

Net investment returns reflect certain fees paid by the investment funds, as well as the underlying investment funds of the Harsco Pension and Profit Sharing Collective Investment Fund ("CIF"), to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus are not separately identifiable as an expense.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative costs, such as legal, accounting, actuarial, and trustee fees, as well as the Pension Benefit Guaranty Corporation ("PBGC") premium, are paid by the Plan.

(continued)

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Recently Adopted Accounting Standard

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Plans (Topic 965), Parts I through III. Only Part II applies to the Plan. Part II eliminates certain disclosure requirements, including disaggregating investments by nature, risks and characteristics, disclosing investment strategy of investments measured using the net asset value practical expedient, disclosing individual investments that represent five percent or more of net assets available for benefits, and disclosing net appreciation or depreciation for investments by general type. The Plan has elected to early adopt Part II of the ASU, retrospectively, in its December 31, 2015, financial statements. Accordingly, the disclosures have been changed to reflect such adoption. There was no impact on net assets available for benefits as a result of the adoption of this ASU.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation for the five consecutive years of highest earnings out of the last ten calendar years. The accumulated plan benefits for active employees at active locations are based on their service rendered and history of compensation as of December 31, 2014. The accumulated plan benefits for active employees at frozen locations are based on their credited service and history of compensation at the time the plan was frozen.

Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2015 and 2014, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation and the determination of the present value of accumulated plan benefits as of January 1, 2015 and 2014, are as follows:

Discount rate *	7.00% compounded annually for 2015 and 2014.
Mortality basis	For 2015: Separate rates for non-annuitants based on RP2014 "Employee" table (male and female) without collar adjustment, projected generationally from the base year of 2006 using Scale MP2015; annuitants based on RP2014 "Healthy Annuitants" table (male and female) without collar adjustment, projected generationally from the base year of 2006 using Scale MP2015.

(continued)

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

For 2014: Separate rates for non-annuitants based on RP2014 “Employee” table (male and female) without collar adjustment, with Scale MP2014 generational improvement projection; and annuitants based on RP2014 “Healthy Annuitants” table (male and female) without collar adjustment, with MP2014 generational improvement projection.

Retirement 30% at age 62 increasing to 100% at age 67 for 2015 and 2014.

* Net of 0.25% for assumed expenses

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is as follows as of January 1, 2015 and 2014, (in thousands):

	2015	2014
Vested benefits		
Participants currently receiving payments	\$ 101,252	\$ 101,095
Other participants	92,962	96,737
	194,214	197,832
Nonvested benefits	507	601
Total actuarial present value of accumulated plan benefits	<u>\$ 194,721</u>	<u>\$ 198,433</u>

The changes in the actuarial present value of accumulated plan benefits for the years ended January 1, 2015 and 2014, are presented below (in thousands):

	2015	2014
Actuarial present value of accumulated plan benefits at beginning of year	\$ 198,433	\$ 193,182
Increase (decrease) attributable to		
Benefits accumulated	63	87
Interest due to the decrease in the discount period	13,279	13,073
Benefits paid	(17,894)	(13,245)
Actuarial (gains) losses	2,097	(2,414)
Assumption changes	(1,257)	7,750
Net increase (decrease)	(3,712)	5,251
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 194,721</u>	<u>\$ 198,433</u>

(continued)

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

The increase (decrease) in actuarial present value of accumulated plan benefits from changes in actuarial assumptions is a result of changing the mortality table used to determine the life expectancy of participants.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2015 and 2014. Had the valuations been performed as of December 31, there would be no material differences.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

5. PLAN INTEREST IN THE HARSCO PENSION AND PROFIT SHARING COLLECTIVE INVESTMENT FUND (UNAUDITED)

The Plan invests primarily in the Harsco Pension and Profit Sharing Collective Investment Fund (CIF). The CIF is a unitized pool. Each participant holds units of the pool that represent their pro-rata share of the underlying investments. On a monthly basis, the investment pool is valued and a new pool net asset value (NAV) is calculated to represent this value. All income allocations are processed on a per unit basis.

All income, realized and unrealized gains/losses, are included in/rolled into the monthly NAV.

The following investment information disclosed in the accompanying financial statements and supplemental schedules was obtained or derived from information that has been prepared and certified to as complete and accurate by Wells Fargo Bank, N.A. (Wells Fargo), and Manufacturers and Traders Trust Company (M&T), the trustees of the Plan, and has not been audited by independent auditors.

The fair value of the net assets held by the CIF and the Plan's allocable portion as of December 31 are summarized as follows (dollars in thousands):

Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Financial instruments, which potentially subject the CIF to a concentration of credit risk, consist principally of investments. The CIF limits this risk by diversifying the CIF's investment portfolio. The degree and concentration of credit risk varies depending upon the type and diversity of investments within the portfolio.

6. FAIR VALUE MEASUREMENTS

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 – Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and similar techniques.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31 (in thousands):

Following is a description of the valuation methodologies used for CIF investments measured at fair value.

Level 1 Fair Value Measurements

Investments in interest-bearing cash are stated at cost, which approximates fair value. The fair values of money market accounts and certain mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks and corporate bonds, notes, and convertible debentures are valued at the closing price reported in the active market on which the individual securities are traded.

HARSCO EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Level 2 Fair Value Measurements

The fair values of investments in mutual funds for which quoted net asset values in an active market are not available are valued by the investment advisor based on the current market values of the underlying assets of the mutual fund based on information reported by the investment consistent with audited financial statements of the mutual fund. Further information concerning these mutual funds may be obtained from their separate audited financial statements. Investments in U.S. Treasury notes and collateralized securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Plan assets are allocated among various categories of equities, fixed income, cash and cash equivalents with professional investment managers whose performance is actively monitored. The primary investment objective is long-term growth of assets in order to meet present and future benefit obligations. The Company periodically conducts an asset/liability modeling study and accordingly adjusts investments among and within asset categories to ensure the long-term investment strategy is aligned with the profile of benefit obligations.

There are no redemption restrictions or unfunded commitments on units of the CIF.

For both Plan and CIF investments, there have been no significant changes in the methodologies used during the years ended December 31, 2015 and 2014.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

7. INFORMATION CERTIFIED BY TRUSTEES (UNAUDITED)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Wells Fargo Bank, N.A., held the Plan's investment assets and executed investment transactions for the year ended December 31, 2015, and Manufacturers and Traders Trust Company held the Plan's investment assets and executed investment transactions for the year ended December 31, 2014. Accordingly, Wells Fargo Bank, N.A., and Manufacturers and Traders Trust Company, the trustees of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015, the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2015 and 2014, and the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2015.

8. TAX STATUS

The Plan obtained its latest determination letter dated January 31, 2013, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable regulations of the IRC and believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. RELATED PARTY TRANSACTIONS

Effective January 1, 2015, the Plan’s investments are now being managed by Wells Fargo. Prior to 2015, the investments were managed by M&T Investment Group, an affiliate of M&T. The Plan invests in certain funds (directly and within the CIF) owned by the investment manager. Wells Fargo is the Plan’s trustee as of and for the year ended December 31, 2015, and M&T was the Plan’s trustee as of and for the year ended December 31, 2014. Therefore, transactions in these funds qualify as party-in-interest transactions.

Fees incurred by the Plan for the trustee fees amounted to \$78,105 and \$198,116 for the years ended December 31, 2015 and 2014, respectively. CIF transactions in Harsco Corporation common stock also qualify as party-in-interest transactions. There were no purchases or sales of Harsco Corporation common stock in the CIF during 2015 and 2014. All other transactions which may be considered parties-in-interest transactions relate to normal plan management and administrative services, and the related payment of fees.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

10. RISKS AND UNCERTAINTIES

Investments of the Plan are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the Statement of Net Assets Available for Benefits.

NOTES TO FINANCIAL STATEMENTS

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Accrued benefit payable unreduced at age 65. If the participant is eligible for early retirement, the accrued benefit payable prior to age 65 is reduced for early commencement as indicated on the preceding page.

Disability retirement:

- Appendix F (Fairmont)
- Appendices G (Heckett), H (Reed), and K (Harsco Hourly)

15

- 15 Accrued benefit payable unreduced at age 65, reduced for early commencement from age 65 to age 55 as indicated above and actuarially reduced prior to age 55 (reduction does not apply for Appendix G, and a minimum \$175 per month applies for Central East). A participant qualifies for this benefit after becoming permanently disabled. Disability benefits cease at the earlier of the participant's recovery from disability or the participant's normal retirement date. The benefit payable at the participant's normal retirement date is the normal retirement benefit.

 - If not receiving Social Security disability benefits
 - If receiving Social Security disability benefits

- 5 \$450 per month payable until the participant begins receiving a Social Security disability benefit
- 5 Accrued benefit payable immediately, continuing until the earlier of the date the participant recovers from disability, the date the participant dies, or the participant's normal retirement date. The benefit payable at the participant's normal retirement date is the normal retirement benefit.

Pre-retirement survivor's benefit:

- All Groups except Appendix I

- 5 If married, the pre-retirement survivor annuity is payable for the life of the spouse. The amount of the death benefit is 50% of the amount that would have been payable to the participant at his earliest retirement date if he elected a 50% joint and survivor annuity, reduced for early commencement, prior to his death.

- Appendix I (HTT UAW)

- 5 If married, the pre-retirement survivor annuity is payable for the life of the spouse. The amount of the death benefit is 55% of the amount that would have been payable to the participant at his earliest retirement date if he elected a 55% joint

Reed Minerals Salaried/Hourly (Appendix H) participants may elect to take their benefits accrued before December 31, 1994 as a lump sum. Central East and Newport KY (Appendix G) and Patent (Appendix K) participants may elect a lump sum if the present value is less than \$15,000 and \$7,000, respectively. If participants are not early, normal, or postponed retirement eligible as of termination, the lump sum generally must be taken within one year of termination (in all cases for Fairmont; there is no restriction for Central East/Newport KY). Central East participants may elect a lump sum with a present value greater than \$15,000 in the event of a shutdown (which must be taken within one year).

Optional form conversion basis:

- **Annuities** For all groups except HTT UAW (Appendix I): 1983 Group Annuity Mortality Table for Males, with an age setback of one year for the Participant and five years for the co-pensioner or spouse, and an annual interest rate of 6%.

For HTT UAW (Appendix I): UP 1984 Unisex Mortality Table, with an age setback of four years for the co-pensioner or spouse, and an annual interest rate of 7%.
- **Lump Sums** For PBGC basis: 1983 Group Annuity Mortality Table for Males, with an age setback of one year for the Participant and five years for the co-pensioner or spouse, and the interest rate structure specified by the PBGC to value lump sums during the calendar month of distribution.

For IRC § 417(e) basis: IRC § 417(e) minimum lump sum value, based on October lookback rates.

Future Plan Changes

A plan amendment was adopted August 31, 2016 to make the following changes effective August 31, 2016 for Appendix G (Heckett), Exhibit F (Central East):

- Freeze benefit accruals for covered Natrona Heights employees
- Clarify that a minimum \$175.00 monthly benefit level applies for disability retirement
- Clarify that benefit service is from date of hire

These were not reflected in the 2015 valuation.

No future plan changes were recognized. Willis Towers Watson is not aware of any future plan changes which are required to be valued.

Form of payment

- HEPP Core and Appendix H (Reed) 10-year certain and continuous life for single participants and 31.25% of married participants, 50% J&S for 68.75% of married participants. For benefits available as a lump sum, 85% of participants are assumed to elect a lump sum and 15% are assumed to elect an annuity.
- Appendix D (Tammer) 5-year certain and continuous life for single participants and 31.25% of married participants, 50% J&S for 68.75% of married participants.
- Appendix F (Fairmont) 85% of participants elect lump sum. The remaining 15% are assumed to elect an annuity.
- Appendix I (HTT UAW) Life annuity for single participants and 31.25% of married participants, 55% J&S for 68.75% of married participants.
- All Others Life annuity for single participants and 31.25% of married participants, 50% J&S for 68.75% of married participants.

Percent married

80%

Spouse age

Wife two years younger than husband

Administrative expenses

Estimated based on actual expenses during the prior year (adjusted for expected changes in current year expenses). The assumption for 2015 is \$2,314,304.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year (January 1)
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the four immediately preceding semi-annual periods, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.01% during the calendar 2014 and 6.66% during calendar year 2013 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays automatic cashouts of small benefits with a present value up to \$5,000 in a single lump sum payment, as well as other optional distributions for small present values. Such forms of payment are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.</p> <p>2016 plan amendment clarifying certain Central East service rules and disability benefits was not valued and does not have a material effect on valuation results.</p>

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	Lump sum benefits determined on the IRC § 417(e) basis are valued assuming that the lump sum conversion rate in the future is equal to the discount rate. Lump sum benefits determined on the PBGC basis are valued assuming that the lump sum conversion rate is equal to 4.0%, which represents an assumed long-term PBGC effective interest rate.

Administrative expenses Administrative expenses for the coming year are estimated by taking the actual expenses paid during the prior year and adjusting for expected changes in the current year, reflecting items like expected changes in PBGC premiums.

Investment return A 7.01% investment return assumption for 2014 was selected for use in the actuarial value of assets (with such expected earnings limited as described in IRS Notice 2009-22). This assumption is based on an estimate of future experience for asset investments returns reflecting the plan's asset allocation and any expected changes during the plan year, market conditions at the measurement date and expectations for future market conditions. Portfolio return simulations using Willis Towers Watson's CAP:Link model were used to select this assumption.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC § 430(h).

Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC § 430(h).

Termination Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Retirement rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred vested benefits Deferred vested participants are assumed to receive lump sum benefits upon termination and to commence annuity benefits at the later of age 63 or the current age based on a best estimate of commencement age based on an experience study conducted in 2012.

Form of payment Form of payment assumptions were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Spouse age The assumed age difference for spouses is based on the age difference observed among recent retirees from the experience study conducted in 2012.

Source of Prescribed Methods**Funding methods**

The methods used for funding purposes, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC § 430, or were selected by the plan sponsor from a range of methods permitted by IRC § 430.

Changes in Assumptions and Methods**Change in assumptions and methods since prior valuation**

The segment interest rates used to calculate the funding target, target normal cost, and IRC § 417(e) lump sums were updated from and applicable month of September 2013 to September 2014 (with applicable HATFA corridors).

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement.

The expense assumption used to calculate the target normal cost was updated to reflect recent plan experience.

For 1,000 theoretical participants, an expected retirement age was calculated for each group noted above, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The Plan's weighted average retirement age of 62 is the average of the expected retirement ages, weighted in proportion to the number of active participants in each group.
