WARREN-ANDERSON FORD
dba FRITTS FORD 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1 Description of Plan

The following description of the Warren-Anderson Ford dba Fritts Ford 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was established to provide retirement benefits for employees of Warren-Anderson Ford dba Fritts Ford (the "Company"). Employees become eligible to participate in the Plan following six months of service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the plan document and subject to limitations by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contribution are allowed under the Plan. Additional employer amounts may be contributed at the option of the Company. As of December 31, 2015, no employer amounts have been contributed to the Plan.

Participant Accounts and Vesting - Each participant's account is credited with the participant's contributions, the Employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses (see Note 2) are allocated according to participants' relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited services.

Notes Receivable from Participants - Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participant notes are carried at fair value and are generally repaid through payroll reductions. Interest is earned on loans at a rate of 4.25%.

Note 1 Description of Plan (continued)

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annuities that are offered by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - The non-vested portions of participants' employer-derived account balance are treated as forfeitures. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $0 and $300,862 respectively. These accounts can be used to offset plan expenses or may be used to reduce the employer's matching contributions.

Note 2 Summary of Accounting

Date of Management's Review - Subsequent events were evaluated through October 7, 2016, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments. The Statement of Change in Net Assets Available for Benefits is prepared on a contract basis.

Note 2 Summary of Accounting (continued)

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of normal retirement age or age 65.

Administrative Expenses - All expenses of maintaining the Plan are paid by the Company.

Note 3 Related Party Transactions

Certain plan investments consist of investments managed by Great-West Life & Annuity Insurance Company (GWL&A). GWL&A is the discretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transaction by the United States Department of Labor's (DOL) Rules and Regulations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified by Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by GWL&A, the Plan trustee, except for comparing such information certified by GWL&A to information included in the Plan's financial statements and supplemental schedules

GWL&A has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2015, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015, and all investment information in the supplemental schedules. Global Trust Company certified the above information for 2014.

Fair value as determined by GWL&A:

Net appreciation (depreciation) in fair value of investments	$ (32,142)

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable input (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 Fair Value Measurements (continued)

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Collective investment trust	$	$1,210,598	$	$ 1,210,598
Stable value funds		332,729		332,729
Mutual funds	331,497			331,497
	$ 331,497	$1,543,327	$	$ 1,874,824

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Collective investment trust	$	$1,627,109	$	$ 1,627,109
Capital preservation funds			400,448	400,448
	$	$1,627,109	$ 400,448	$ 2,027,557

Note 5 Fair Value Measurements (continued)

The following table provides further details of the Level 3 fair value measurements:

	Income Fund
December 31, 2015	
Beginning balance	$ 400,449
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	15,717
Purchases, sales, issuances, and transfers	(416,166)
Ending balance	$ -

	Income Fund
December 31, 2014	
Beginning balance	$ 278,101
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	5,055
Purchases, sales, issuances, and settlements	117,293
Ending balance	$ 400,449

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2015 are reported in net appreciation (depreciation) in fair value of investments.

Note 6 Adjustment to Contract Value for Income Fund

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund CIT investment held by the Plan contains underlying fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 present the fair value of the Income Fund CIT as well as the adjustment of the Income Fund CIT from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, the vested interest of any participant shall not be diminished or adversely affected, and will be distributed to each participant in accordance with the trust agreement.

Note 8 Tax Status

The Company has adopted a Prototype 401(k) plan and related trust. The Internal Revenue Service (IRS) has determined that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2012.

Note 9 Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of Net Assets Available for Benefits.
