HOURLY 401(k) AND DC RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the MTD Products Inc Hourly 401(k) and DC Retirement Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan is a defined contribution savings plan providing benefits for the eligible hourly employees of MTD Products Inc (the Company). The Company is the plan sponsor and administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Massachusetts Mutual Life Insurance Company (MassMutual) and State Street Bank & Trust (State Street) are the Plan's custodians.

Effective December 31, 2015, portions of the MTD Products Inc Retirement Plan were merged into the Plan (the merger) and the Plan name was changed. Approximately \$5.6 million in assets were transferred into the Plan, including approximately \$1.4 million of employer discretionary contributions receivable.

Participation

Employees become eligible to participate in the Plan following attainment of age 21 and the completion of 90 days of service. Upon attaining eligibility status, participants are automatically enrolled at a 3% deferral rate unless they elect not to participate or to participate at a different deferral percentage.

Participant Accounts and Contributions

Each participant's account is credited with the participant's contributions, company contributions, and investment fund earnings. Plan participants may make tax-deferred and/or after-tax contributions to the Plan of 1% to 70% of their total compensation up to the maximum amounts allowed under the Internal Revenue Code (IRC).

The Company matched 50% of participant contributions up to a maximum matching contribution of \$3,000. In conjunction with the merger, for employees hired after January 1, 2006 and following attainment of age 21 and the completion of 12 consecutive months of service, the Company will make discretionary contributions to the Plan equal to specified percentages of participant's base compensation, defined as 4%. Except in the event of death, disability or retirement, participants must have been employed at the end of the Plan year in order to receive the Company discretionary contribution.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their contributions, rollover contributions and employer contributions are allocated among the investment options available under the Plan.

Plan Expenses

The Plan pays substantially all of the administrative expenses.

Party-in-Interest Transactions

Certain plan investments are managed by and administrative expenses are paid to MassMutual and State Street, the custodians of the Plan. These transactions qualify as party-in-interest transactions. Effective January 1, 2014, the Plan participated in a plan expense reimbursement account with MassMutual whereby the Plan receives funds to pay certain administrative fees. Funds received during 2015 and 2014 totaled approximately \$39,000 and \$37,000, respectively. During the years ended December 31, 2015 and 2014, approximately \$39,000 and \$32,000 of these funds were used to pay plan expenses. These transactions are recorded within the administrative expenses on the financial statements.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Vesting in the company contributions occurs ratably over 5 years of vesting service at which time they will be 100% vested.

Forfeitures

Forfeitures of non-vested account balances shall be used to reduce employer contributions or pay plan expenses. The cumulative amount of forfeitures was approximately \$42,000 (prior to the merger) and \$24,000 as of December 31, 2015 and 2014, respectively. For the years ended December 31, 2015 and 2014, approximately \$40,000 and \$85,000 of forfeitures were used to offset employer contributions, respectively.

Notes Receivable from Participants

The Plan allows for eligible employees to borrow from their accounts, a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The interest rate must be a reasonable rate as determined by the Plan administrator. Loans bear interest at the prime rate at the time of issuance plus 1%. Maturities on these loans may not exceed five years. The term may be for any period of time not exceeding 15 years if the purpose of the loan is to acquire the participant's principal residence. A participant may have only one loan outstanding at any given time. The interest rates on loans outstanding as of December 31, 2015 range from 4.25% to 8.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. In-service withdrawals are permitted as well. A participant may elect to make a direct rollover, receive a lump-sum amount or periodic payments, subject to the provisions of the Plan. Benefit payments are recorded upon distribution.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. Upon termination, all amounts credited to participant accounts shall become fully vested and participants will receive a distribution of their total participant account balance.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements

The financial statements are prepared on the accrual basis of accounting.

Investments

Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As described in Accounting Standards Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The MassMutual Fixed Interest Fund is a fully benefit-responsive investment contract.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in investments in pooled separate accounts that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

In July 2015, the Financing Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE CUSTODIANS

The custodians have certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	--

Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the net asset values of shares held by the Plan at year end.

Pooled Separate Accounts: Valued using the net asset value per share as determined by the custodians. The value is based on a pro rata share of the market value of the underlying investments in the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2015				
Mutual Funds	\$ <u>-</u>	\$ <u>11,176,176</u>	\$ <u>-</u>	\$ 11,176,176
Measured at net asset value				<u>22,137,159</u>
				\$ <u>33,313,335</u>
December 31, 2014				
Mutual Funds	\$ <u>-</u>	\$ <u>9,822,122</u>	\$ <u>-</u>	\$ 9,822,122
Measured at net asset value				<u>18,758,166</u>
				\$ <u>28,580,288</u>

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit

risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events generally include significant changes in the operation, or investment strategies of the Plan or significant events impacting the Plan sponsor. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The contract's average yield and crediting interest rate were 3.50% and 2.88% for the years ended December 31, 2015 and 2014, respectively.

6. FEDERAL INCOME TAXES

In a letter dated March 31, 2014, the Internal Revenue Service (IRS) notified MassMutual that MassMutual's Volume Submitter Profit Sharing Plan is designed in accordance with applicable sections of the IRC.

The Plan was adopted under the above mentioned prototype design and the Company has decided to rely on this letter with respect to qualification of its plan under the applicable sections of the IRC. The Plan has been amended since its initial adoption. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 6, 2016, the date which the financial statements were available to be issued. There were no material subsequent events, other than discussed in the following paragraph, that required recognition or disclosure in these financial statements.

As a part of an amendment to the Plan during 2016, effective January 1, 2017, certain participants employed as of that date who were previously excluded from receiving the Company discretionary contributions to the Plan equal to specified percentages of participant's base compensation, defined as 4%, will be eligible to receive such contributions.
