INDEPENDENT AUDITORS' REPORT

To The Board of Trustees
W.B. Engineering & Consulting, PLLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of W.B. Engineering & Consulting, PLLC 401(k) Plan, which comprise the statements of net assets available for benefits at December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Nationwide Financial Services, Inc., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014 and for the year ended December 31, 2015, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matters

Also as discussed in Note 2 to the financial statements, the Plan has adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I: Fair Value Measurement and Part II: Plan Investment Disclosures,* and has applied the standard retrospectively to all periods presented, as required. Part I of this ASU eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts, as contract value is the only required measure for fully benefit-responsive investment contracts. Thus the change on the statement of net assets available for benefits was to eliminate the presentation of fully benefit-responsive investment contracts at fair value in the Assets section with an adjustment to contract value to arrive at net assets available for benefits. Instead, such investments are shown in a separate line item in the Assets section at contract value. Part II of this ASU eliminates the requirement to disclose: (1) individual investments that represent 5% or more of net assets available for benefits, and (2) the net appreciation or depreciation for investments by general type.

Our opinion is not modified with respect to these matters.

Other Matter - Supplemental Schedules

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Part IV Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Part IV, Line 4a - Schedule of Delinquent Participant Contributions, which are the responsibility of Plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of W.B. Engineering & Consulting, PLLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective January 1, 2001, and was restated as of January 1, 2015 is a defined contribution plan under Internal Revenue Code Section 401(k), covering all eligible employees of W.B. Engineering & Consulting, PLLC (the "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of eligible compensation, as defined by the Plan, as a pre-tax deferral not to exceed limitations set forth by applicable law. For 2015, the Plan was amended to allow contributions of Roth IRA. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Because the Plan is intended to be a safe harbor plan, the Sponsor makes matching contributions in an amount equal to 3% of employee contributions. In 2015, the Sponsor made matching contributions of $309,583.

The Plan is funded by the Sponsor's profit sharing contributions in such amount, if any, as determined by the Sponsor, in its sole discretion, and shall be made from the profits of the Sponsor. Participants who have completed one year of service (or 1,000 hours) and are at least 21 years of age are eligible for profit sharing contributions. Profit sharing contributions of $76,450 were recorded in 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions and Sponsor non-elective contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (cont'd.)

Vesting

Participants are immediately vested in employee contributions plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts, based on a graded vesting schedule and years of service. Vesting in the Sponsor's contributions portion of their accounts is based on the years of service as follows:

Years of Service	Vesting Percentage
At least 1 but less than 2	20%
At least 2 but less than 3	40%
At least 3 but less than 4	60%
At least 4 but less than 5	80%
5 or more years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's accounts and bear interest at rates ranging from 4.25% to 4.75%. For loans originating in 2015, the interest rate was determined by the prime rate on the date of the loan plus 1%. Principal and interest are paid ratably through payroll deductions over five years, except those used to acquire a principal residence of a participant. Such loans must be repaid over a period not in excess of fifteen years.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $7,546 and $3,271, respectively. Forfeitures of employer contributions will be used to reduce Plan expenses and employer contributions for the succeeding Plan year. For the year ended December 31, 2015, there were no forfeitures used to reduce Plan expenses and employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the fully benefit-responsive investment contract, which is reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the sum of each participant's invested principal plus all accrued interest, as further discussed in Note 5. The statements of net assets available for benefits and statement of changes in net assets present the fair value of the investment contracts at contract value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance of credit losses has been recorded at December 31, 2015 and 2014.

Payment of Benefits

Benefit payments are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Change in Accounting Principles

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Management has elected to adopt Part I early. Accordingly, the amendments were applied retrospectively to all periods presented, resulting in changes to the prior period information in the statement of net assets available for benefits, and in the footnotes. Contract value is considered the only required measure for fully benefit-responsive investment contracts under the ASU, as that is the amount participants would receive in a sale transaction. Thus the change on the statement of net assets available for benefits was to eliminate the presentation of fully benefit-responsive investment contracts at fair value in the Assets section with an adjustment to contract value to arrive at net assets available for benefits. Instead, such investments are shown in a separate line item in the Assets section at contract value. In addition, certain footnote disclosures were eliminated such as (i) presenting fully benefit-responsive investment contracts in the leveling hierarchy, (ii) disclosing fair value measurement techniques and inputs of these investments, and (iii) presenting the average yields.

Management has elected to adopt Part II early. Accordingly, the amendments were applied retrospectively to all periods presented, resulting in changes to the prior-period disclosures to eliminate the disclosure of: (1) individual investments that represent 5% or more of net assets available for benefits, and (2) the net appreciation or depreciation for investments by general type.

Part III is not applicable to this Plan.

Note 3 - Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Nationwide Financial Services, Inc. ("Nationwide"), as trustee of the Plan, at December 31, 2015 and 2014 and for the year ended December 31, 2015. This information has not been audited by the independent auditors.

	2015	2014
Investments:		
Mutual funds at fair value	$ 7,265,582	$ 6,905,606
Fully benefit-responsive investment contract at contract value	775,538	713,753
	$ 8,041,120	$ 7,619,359
Notes receivable from participants	$ 190,526	$ 150,464

Net depreciation in fair value of investments	$ (115,517)
Interest and dividend income	16,319
	$ (99,198)

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurements (cont'd.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2015 and 2014:

	Assets at Fair Value at December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,265,582	$ -	$ -	$ 7,265,582

	Assets at Fair Value at December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 6,905,606	$ -	$ -	$ 6,905,606

Note 5 - Fully Benefit-Responsive Investment Contract

The Plan entered into a benefit-responsive guaranteed investment contract with Nationwide. Nationwide maintains the contributions in a general account. Each account is credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Nationwide, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5 - Fully Benefit-Responsive Investment Contract (cont'd.)

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) complete or partial termination of the Plan, (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6 - Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are mutual funds managed by Nationwide, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions. Administrative and investment advisory fees paid to Nationwide by the Plan for investment services amounted to $31,615 for the year ended December 31, 2015.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Sponsor by a letter dated March 31, 2014, that based on its initial filing as a Prototype Plan, the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Nonexempt Transactions

As reported on the supplemental Schedule of Delinquent Participant Contributions (Schedule H, Line 4a), certain participant contributions were not remitted to the Plan within the timeframe specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Sponsor of $29,487 for the year ended December 31, 2015.

At December 31, 2015, all such delinquent participant contributions were remitted to the Plan during their respective year-ends. At December 31, 2015, participants had not been credited with the amount of lost earnings on the delinquent 2015 participant contributions.

Note 11 - Subsequent Events

The Plan administrator has evaluated all events and transactions that occurred after December 31, 2015 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.

MANAGEMENT LETTER

FOR THE YEAR ENDED DECEMBER 31, 2015

To The Board of Trustees
W.B. Engineering & Consulting, PLLC 401(k) Plan

In planning and performing our audit of the financial statements of W.B. Engineering & Consulting, PLLC 401(k) Plan (the "Plan") at and for the year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered W.B. Engineering & Consulting, PLLC 401(k) Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We did not identify any deficiencies in internal control that we consider to be significant deficiencies:

During our audit, we also became aware of deficiencies in internal control other than significant deficiencies or material weaknesses, and the following are such other matters that are opportunities for strengthening internal controls and operating efficiency:

1. **Required Trustee Meetings**

   Issue:

   We noted no documentation of a meeting of the Board of Trustees to discuss the Plan and its investment options, service provider, and fees. The Sponsor has fiduciary responsibility under ERISA to evaluate the return of the investment funds against the fund's benchmark, ensure there is sufficient diversity in offerings, and evaluate the reasonableness of fees paid. The Plan paid investment advisory fees of $24,807 during the 2015 Plan year.

Potential Effect:

Without such documentation, the Trustees may find it difficult to demonstrate that they are fulfilling their fiduciary responsibility to the Plan, should the Department of Labor (DOL) ask.

Recommendation:

We recommend that the Board of Trustees meet to discuss the Plan and its investment options, service provider, and fees, and document the highlights of these meetings. Further, the Trustees should reach out to industry providers as necessary to help ensure their evaluation of such aspects meets the requirements of fiduciary responsibility.

2. Timely Remittance of Contributions

Issue:

We noted remittances of participant contributions into the Plan were generally between 5 and 7 days of the payroll date in 2015, however the Plan does not have a formalized timely remittance policy. During the course of our audit, we found that the Plan remitted $29,487 of participant contributions and loan repayments in an untimely manner.

Potential Effects:

Without a formalized remittance policy, the Sponsor may fail to remit contributions in a timely manner on occasion as defined by the DOL, which could result in the Sponsor having to pay penalties and interest to make participants whole. Additionally, individuals who are named fiduciaries could be held responsible by the DOL. We discussed the untimely deposits with the Plan Sponsor, and notified them of their responsibility to notify the Internal Revenue Service and the Department of Labor of the situation. We further discussed their responsibility as the Plan Sponsor which will include payment of excise tax and lost earnings to make the participant accounts whole.

Recommendation:

We recommend the Sponsor formalize a policy and implement procedures to ensure participant contributions are remitted to the Plan within guidelines prescribed by DOL regulations. The DOL considers participant contributions to be timely when they are remitted into the Plan on “the date when participant contributions reasonably can be segregated from the employer’s general assets,” which usually will be earlier than the maximum time period for pension plans in the regulation. Thus, the delay in forwarding the contributions noted above, even if the delay was caused by the TPA or other service provider, has caused a breach of fiduciary duty under title I of ERISA and needs be corrected under the Voluntary Fiduciary Correction Program (VFCP).

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

THE AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

FOR THE YEAR ENDED DECEMBER 31, 2015

To The Board of Trustees
W.B. Engineering & Consulting, PLLC 401(k) Plan

We have conducted a DOL limited-scope audit of the financial statements of W.B. Engineering & Consulting, PLLC 401(k) Plan (the "Plan") for the year ended December 31, 2015 and have issued our report thereon dated October 13, 2016. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit and certain information related to our audit findings.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated February 26, 2016, our responsibility, as described by professional standards, is to conduct our audit in accordance with auditing standards generally accepted in the United States of America except that, as permitted by Regulation 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and as instructed by Plan management, we will not perform any auditing procedures with respect to information prepared and certified to by Nationwide Financial Services, Inc, the trustee, in accordance with DOL Regulation 2520.103-5, other than comparing the information with the related information included in the financial statements. Our audit of the financial statements does not relieve you or management of your responsibilities.

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Planned Scope and Timing of the Audit

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit involved judgment about the number of transactions to be examined and the areas to be tested.

Our audit included obtaining an understanding of the entity and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Material misstatements may result from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations, including prohibited transactions with parties-in-interest or other violations of ERISA rules and regulations, that are attributable to the Plan or to acts by management or employees acting on behalf of the Plan.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by W.B. Engineering & Consulting, PLLC 401(k) Plan are described in Note 2 to the financial statements. Note the disclosure of the change in accounting principle in Note 2 relating to the early adoption of Part I of FASB ASU No. 2015-12, which eliminates the requirement to present fully benefit-responsive investment contracts (FBRICs) at fair value in the statement of net assets available for benefits, and eliminates disclosures related to FBRICs of (1) leveling in the fair value hierarchy table, (2) fair value measurement techniques and inputs, and (3) average yields.

In addition, note the disclosure of the change in accounting principle in Note 2 relating to the early adoption of Part II of FASB ASU No. 2015-12, which eliminates disclosures of (1) individual investments that represent 5% or more of net assets available for benefits, and (2) the net appreciation or depreciation for investments by general type. Aside from these changes, no other new accounting policies were adopted and the application of existing policies was not changed during 2015. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements were:

- Management's estimate of the fair value of the Plan's investments is based on the fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. We evaluated the key factors and assumptions used to develop the Plan's investments in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

- The disclosure of fair value measurements in Note 4 to the financial statements using the fair value hierarchy of observable and unobservable inputs.
- The disclosure of the change in accounting principles in Note 2 relating to the early adoption of Parts I and II of FASB ASU No. 2015-12.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no adjustments accumulated during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 13, 2016.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of management and the Board of Trustees and management of W.B. Engineering & Consulting, PLLC 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.
