Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
of the Capgemini Cash Balance Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Capgemini Cash Balance Retirement Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for plan benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2014, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2015, and schedule of reportable transactions for the year ended December 31, 2015, which are the responsibility of Plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to, and we do not, express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN

The following brief description of the Capgemini Cash Balance Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

[1] General:

The Plan is a noncontributory defined benefit plan which covers vice presidents or above (referred to as "Covered Persons") who are 21 or older and have one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The trustee of the Plan is State Street Bank and Trust Company and the recordkeeper and actuary is Fidelity Investments Institutional Operations Company, Inc.

The Plan is administered by the Investment Advisory Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

[2] Pension benefits:

The Plan provides for an annuity to a participant equal to his or her accrued benefit which is calculated based on a participant's cash balance account and an annuity factor based on actuarial equivalence. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination. If a participant dies before his pension commencement date, a death benefit equal to his accrued benefit is paid to the participant's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as it was at the time they became disabled.

Normal retirement date is the later of the date on which a participant attains age 65 or the earlier of the fifth anniversary of the date of the participant's commencement of participation in the Plan or the date on which the participant completes three years of vesting service.

[3] Death and disability benefits:

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

[4] Participant accounts:

Under the Plan provisions, amounts are credited by the Capgemini U.S. LLC (the "Company") to the participants' hypothetical accounts. The accounts are allocated compensation credits at the end of each year. The compensation credits are allocated based on a percentage of the participant's compensation as defined in the Plan document for that particular year.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

[4] Participant accounts: (continued)

The applicable percentage ranges from 1.50% to 9.00% and is based on the participant's age. Age is determined in whole years as of the first day of the Plan year.

Participants' hypothetical accounts also receive interest credits at the end of each month. The annual rate of interest used to determine the interest credit for the Plan year was 7% as of December 31, 2015 and 2014, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan are prepared on the accrual method of accounting.

[2] Basis of accounting:

The Plan has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

[3] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and benefit obligations and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

[4] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Advisory Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[5] Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation as of the valuation date.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Actuarial present value of accumulated plan benefits: (continued)

The actuarial present value of accumulated plan benefits is determined by an actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date.

The significant actuarial assumptions used in the valuations as of December 31, 2014 were:

Interest (discount) rate	7.25%
Retirement age	Normal retirement age (53)
Asset valuation	Market value
Life expectancy of participants	RP-2014 White Collar Mortality Tables with MP-2014 Mortality Improvement Scale

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2015. Had the valuations been performed as of the respective December 31, there would be no material differences.

[6] Payment of benefits:

Benefits are recorded when paid.

[7] Administrative expenses:

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from the Plan's financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for plan benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for plan benefits.

[8] Recent accounting pronouncements:

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07 ("ASU 2015-07"), *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), an amendment to Fair Value Measurement Topic 820*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[8] Recent accounting pronouncements: (continued)

The Plan elected to adopt ASU 2015-07 as of and for the year ended December 31, 2015. Accordingly, investments measured using the net asset value per share practical expedient have not been categorized within the fair value hierarchy. The amendment has been applied retrospectively to all periods presented.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12 ("ASU 2015-12"), *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965) (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*. Part I does not apply to defined benefit plans. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for plan benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows an employee benefit plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments using the month end closest to its fiscal year end. The amendments are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted.

The Plan elected to adopt ASU 2015-12 as of and for the year ended December 31, 2015. Individual investments that represent 5 percent or more of net assets available for plan benefits and the net appreciation or depreciation in fair value of investments by general type were not disclosed. Investments were not disclosed by nature, characteristics and risks. Part III did not apply to the Plan. The applicable amendments of ASU 2015-12 have been applied retrospectively to all periods presented.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, State Street Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for plan benefits as of December 31, 2015 and 2014, the statements of changes in net assets available for plan benefits for the years ended December 31, 2015 and 2014, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2015 and schedule of reportable transactions for the year ended December 31, 2015.

NOTE D - FUNDING POLICY

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. During 2015 and 2014, the Company made contributions of \$7,000,000 and \$9,500,000, respectively. The Company's contributions for 2015 and 2014 exceeded the minimum funding requirements of ERISA.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE E - ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE ("AFTAP")

The Pension Protection Act (the "Act") included many provisions and numerous revisions to rules surrounding defined benefit plans, including rules that govern Plan funding. The Act established minimum funding standards for defined benefit plans and limited benefit increases and accruals for underfunded plans. Pursuant to the Act, each year the actuaries are required to certify to the Plan's funded percentage. The Plan received such certification for the 2015 Plan year for the AFTAP, which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2015 AFTAP for the Plan is 117.37%.

NOTE F - FAIR VALUE MEASUREMENTS

The FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common/Collective Trust Funds: Common/collective trust funds are comprised of shares or units in commingled funds that are not publicly traded. The underlying assets in these funds are primarily publicly traded equity securities, fixed income securities, and commodity-related securities and are valued at their NAV, as a practical expedient, that is calculated by the investment manager or sponsor of the fund and have varying liquidity, redemption period notices and other restrictions. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

Fair Value of Investments in Entities that Use Net Asset Value

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2015 and 2014, respectively. There are no unfunded commitments or redemption restrictions as of December 31, 2015 and 2014.

Common/Collective Trust Fund Investment Strategies

This investment class includes numerous funds that invest in various asset classes, including U.S. equity, international equity, fixed income securities, real estate and mortgage-backed securities. These investments account for their portfolio of assets at fair value and calculate the net asset value ("NAV") per share of the fund on either a daily or monthly basis. The NAV is used as a practical expedient for determining the fair value of these investments.

NOTE G - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 8, 2015, that the Plan is qualified under the Internal Revenue Code (the "Code") and therefore the related trust is exempt from taxation. The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE H - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain investments are units of a common/collective trust managed by State Street Bank and Trust Company ("State Street"). State Street is the Plan trustee; therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan to State Street were approximately \$25,000 and \$21,000 for the years ended December 31, 2015 and 2014, respectively.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2015 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Cash and cash equivalents may at times exceed federally insured limits. The Plan has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk on cash and cash equivalents.

NOTE J - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions as set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

CAPGEMINI CASH BALANCE RETIREMENT PLAN

Notes to Financial Statements December 31, 2015 and 2014

NOTE J - PLAN TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The maximum guarantee is set by law and it is updated each calendar year. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. A statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

For Plan terminations occurring during 2015, that ceiling is approximately \$4,940 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a straight-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). The amount is higher for those who retire later and lower for those that retire earlier or elect joint and survivor benefits.

Further limitations apply for plans created or amended to increase benefits within five years before the Plan's termination date. PBGC guarantees the larger of 20% of the benefit increase, or \$20 per month for each full year the benefit increase was in effect.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE K - SUBSEQUENT EVENTS

On July 2, 2016, the Plan Sponsor, Capgemini U.S. LLC, merged into its parent company, Capgemini America, Inc., which is the new Plan Sponsor. As of October 14, 2016, no Plan amendments, IRS, or DOL filings have been made which would significantly change the parameters of the Plan or Plan operations.

The Plan was amended effective January 1, 2016 to decrease the annual rate of interest used to determine the interest credit for each Plan year from 7% to 6%, compounded annually.

Interest Rate for PPA funding liability and normal cost for the minimum required contribution: Segment rates provided by HTFA. 4.72% for the first 5 years, 6.11% for the next 15 years, and 6.81% thereafter. (previously, 4.99% for the first 5 years, 6.32% for the next 15 years and 6.99% thereafter).

Salary Scale: 3.00%. This is a long-term assumption based on the CPI assumption.

Increase in Consumer Price Index (CPI): 3.00%. This is based on long-term historical inflation rates of about 3.25%, adjusted lower by 0.25% to reflect the current low rate environment.

Administrative Expenses: \$278,163. Estimated based on the prior year's non-investment related administrative expenses paid from the Trust (previously \$335,533).

Mortality: IRS 2015 Static Mortality Table (previously IRS 2014 Static Mortality Table). These tables include future mortality improvement of 7 years for annuitants and 15 years for non-annuitants.

Marital Status: 85% of males and 50% of females are assumed married, with females 3 years younger than males.

Maximum Benefit: \$210,000 for 2015. For determining limitations under funding amounts, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: \$265,000 for 2015 (previously \$260,000). For determining limitations under funding amounts, no future increases in the salary limit have been reflected.

Form of Payment: It has been assumed benefits will be paid in a single lump sum payment. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes:

The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date, less 50% of the prior year's investment gains/ (losses).

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 7.25%, not to exceed the third segment rate for that year) over the actual return on the market value (including employer contributions receivable) for any given year.

The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets (including discounted employer contributions receivable).

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.
