Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Retirement Plan Administrator
Greeley and Hansen Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Greeley and Hansen Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Charles Schwab Bank, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 2 to the financial statements, in 2015, the Plan adopted new accounting guidance related to disclosure for investments that calculate net asset value per share or its equivalent, the presentation of fair value of certain investments and disclosure of investments. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting.

Our disclaimer of opinion is not modified with respect to these matters.

Other Matter

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions, as of or for the year ended December 31, 2015 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Greeley and Hansen Pension Plan

Notes to Financial Statements

Note 1. Plan Description

General: The Plan is a noncontributory defined benefit pension plan, established as of October 9, 1967, to provide retirement income to eligible employees and principals. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following description of the Greeley and Hansen Pension Plan (the Plan) of Greeley and Hansen LLC (the Plan Sponsor or Company) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

Eligibility and vesting: Eligible employees become Plan members the earlier of January 1 or July 1 following attainment of age 21 and completion of one year of continuous service. Employees are 100 percent vested after five years of benefit service or attainment of age 65. Employees are not vested until the benefit service and age requirement is met. Normal retirement age under the Plan is age 65.

Distributions: The Plan's normal form of benefit for a single participant is a monthly annuity payment for the lifetime of the participant commencing on his or her 65th birthday. For married participants, the amount of the annuity may be reduced to provide a joint and 50 percent survivor annuity.

The normal monthly retirement benefit prior to February 1, 1993 was equal to .75 percent of final average pay multiplied by years of benefit service prior to February 1, 1993. Effective February 1, 1993, the normal monthly retirement benefit is equal to .375 percent of final average pay multiplied by years of benefit service from February 1, 1993, forward (total years of benefit service not to exceed 40). The Plan also provides for early or late retirement benefits, death benefits and optional forms of payment.

Plan termination: Although it has not expressed any intention to do so, the Company has the right to amend or terminate the Plan subject to the provisions under ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. In accordance with specific provisions contained in the Plan, whether a particular participant's accumulated plan benefits will be paid depends on both the priority of the benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC) at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Funding: The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2015 and 2014, the Company made contributions of \$512,036 and \$223,110, respectively. The Plan has met ERISA's minimum funding requirements.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Note 2. Significant Accounting Policies (Continued)

Valuation of investments and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Trustees determine the Plan's valuation policies utilizing information provided by its investment advisors and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses: All clerical, legal and other expenses of the Plan and the Trust and Trustees' fees shall be paid by the Trust except to the extent paid by the Company.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employee's compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Recent accounting pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this ASU for the 2015 plan year, and it was retrospectively applied to December 31, 2014. Prior-year disclosures have been revised to reflect the retrospective application of this ASU. The impact of adopting this ASU is reflected in Notes 2 and 4.

Note 2. Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this ASU is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The ASU may be adopted in whole or by part (I, II and III), as applicable. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. As Parts I and III are not applicable to the Plan, the Plan adopted amendments in Part II of this ASU for the 2015 plan year, and the amendments in Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Notes 2 and 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: Management has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

Note 3. Accumulated Plan Benefits

The Plan's consulting actuary has estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Greeley and Hansen Pension Plan

Notes to Financial Statements

Note 3. Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits as determined by the Plan's actuary as of January 1, 2015, was as follows:

	2015
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 8,013,849
Other participants	20,974,172
	<u>28,988,021</u>
Non-vested benefits	304,898
Total actuarial present value of accumulated plan benefits	<u><u>\$ 29,292,919</u></u>

For the year ended January 1, 2015, the increase in the actuarial present value of accumulated plan benefits is attributable to the following:

Present value of accumulated plan benefits at January 1, 2014	\$ 27,937,806
Investment return	1,254,286
Interest due to decrease in the discount period	1,409,400
Assumption changes	(393,339)
Benefits paid	(915,234)
Present value of accumulated plan benefits at January 1, 2015	<u><u>\$ 29,292,919</u></u>

Significant actuarial assumptions underlying the actuarial computations are as follows:

Retirement	A normal retirement age of 65 has been assumed for all employees who are under age 65. All employees age 65 and older are assumed to retire immediately.
Discount Rate	The discount rate assumed is 5.00%, unchanged from the prior year.
Mortality	MP – 2015 mortality tables for lump sums and annuities in 2015. RP – 2014 mortality tables for lump sums and annuities in 2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2015 and 2014. Had the valuations been performed as of December 31, there would be no material differences.

Note 4. Information Certified by Custodian

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income.

The following information was certified by Charles Schwab Bank:

	2015	2014
Cash	\$ 60,837	\$ -
Money market	242,983	163,163
Shares of registered investment companies	30,053,575	33,907,279
Net (depreciation) appreciation in fair value of investments	(1,882,842)	2,704,211
Investment income	1,764,137	2,009,381

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets.

Quoted prices for identical or similar assets or liabilities in inactive markets.

Inputs other than quoted prices that are observable for the asset or liability.

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2015 and 2014:

	2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 30,053,575	\$ -	\$ -	\$ 30,053,575
Money market fund	-	242,983	-	242,983
Total assets in the fair value heirarchy	30,053,575	242,983	-	30,296,558
Investments measured at net asset value	-	-	-	-
Investments at fair value	<u>\$ 30,053,575</u>	<u>\$ 242,983</u>	<u>\$ -</u>	<u>\$ 30,296,558</u>

	2014			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 33,907,279	\$ -	\$ -	\$ 33,907,279
Money market fund	-	163,163	-	163,163
Total assets in the fair value heirarchy	33,907,279	163,163	-	34,070,442
Investments measured at net asset value	-	-	-	-
Investments at fair value	<u>\$ 33,907,279</u>	<u>\$ 163,163</u>	<u>\$ -</u>	<u>\$ 34,070,442</u>

Transfers between Levels

The availability of observable market data is monitored to assess the appropriate classification of investment within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no significant transfers in or out of Level 3.

Greeley and Hansen Pension Plan

Notes to Financial Statements

Note 6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 9, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Benefits Committee and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2016, that ceiling is \$5,011 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Greeley and Hansen Pension Plan

Notes to Financial Statements

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Note 9. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the custodian of the Plan. These transactions qualify as party-in-interest transactions.

Certain employees and/or officers of the Company provide administrative and trustee services to the Plan. These employees and/or officers are also participants in the Plan. They do not receive any compensation from the Plan for their services. The Company also pays certain other administrative expenses on behalf of the Plan.

Form of payment

Active and vested terminated participants are assumed to elect a lump-sum payment. The lump-sum value is converted from the normal form using the 2014 December full yield curve and 2015 Optional Combined Unisex Mortality and is payable as of the participant's projected retirement date.

Percent married and spouse age

100% of the active participants are assumed to be married and eligible for survivor death benefits. (No distinction is made between the annuity form of payment for surviving spouses and the lump sum form of payment for non-spouse beneficiaries.) Males are assumed to be 3 years older than their spouse.

Compensation assumed paid in the current year beginning on the valuation date is the actual prior year's pay increased by the assumed compensation increase for one year.

Actuarial value of assets The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued based on discussions with Greeley and Hansen, LLC regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Greeley and Hansen and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump sum conversion rate As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate

Rates of increase in:

■ **Compensation** Assumed compensation increases are based on plan sponsor expectations for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.

Disability Disability rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.

Retirement

Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The full corporate bond yield curve used to calculate the funding target and target normal cost was updated to the current valuation date as required by IRC §430.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements as required by IRC §430.

The required mortality table to value lump sums was updated to the 2015 Optional Combined Unisex Mortality Table for determining the funding target and target normal cost.

The termination rates were increased from 100% to 200% of the T-5 rates.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 2, 2002. Amended and restated effective January 1, 2010 and as further amended by the First, Second and Third amendments.

Coverage and participation

All employees are eligible to participate under the plan on the first January 1 or July 1 coincident with or next following the later of attaining age 21 and first anniversary of hire. "Employee" means any person who is paid on a salaried basis or is a partner in the firm.

The plan became closed to new participants as of February 1, 1993 and all participants were made fully vested. However, employees who meet participation requirements on or after September 1, 1994, are eligible to participate in the plan.

Plan year

The twelve-month period ending December 31.

Definitions

Credited service

The number of years and completed months of service from date of hire to date of termination including service after the normal retirement date.

Vesting service

Total service from date of hire to date of termination, less any absence in excess of 12 months that is excluded from credited service, computed in completed months.

Final average pay

The monthly average of the last five years' compensation. Compensation includes W-2 compensation plus any compensation deferred under a Section 125 or Section 401(k) plan. Compensation is limited to \$200,000 (indexed beginning in 2002) as required.

SCHEDULE SB ATTACHMENTS

Covered compensation A 35-year average of the Maximum Taxable Wages (MTW) under social security. The MTW is the annual limit on wages subject to the FICA tax for social security. The 35-year period ends with the year the employee reaches eligibility for an unreduced social security benefit (age 65, 66, or 67 depending on the year the employee was born). For years after the year of termination and prior to the end of the 35-year period, the MTW from the years of termination is used.

Normal retirement date (NRD) First of month next following the attainment of age 65.

Accrued benefits The participant's accrued benefit at any given date is determined under the normal retirement formula(s) shown below, but is based on current credited service, final average pay, and covered compensation as of that date.

Eligibility for Benefits

Normal retirement Retirement on NRD.

Early retirement Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.

Postponed retirement Retirement after NRD.

Deferred vested termination A participant is 100% vested upon completion of 5 years of vesting service. However, all participants become 100% vested upon reaching age 65. Effective February 1, 1993, all participants were made fully vested in their accrued benefit regardless of service. For persons terminating employment between February 1, 1993 and August 31, 1994, the pension benefit remains frozen at the level in effect on February 1, 1993.

Preretirement death benefit Death while eligible for normal, early, postponed, or deferred vested retirement benefits.

Benefits Paid Upon the Following Events

Normal retirement

The frozen pension as of February 1, 1993 is a monthly pension payable to a participant who retires on or after January 1, 1989, equal to the greatest of the following benefits:

- A. .75% of final average pay multiplied by years of credited service (to a maximum of 40 years);
- B. The accrued monthly benefit as of December 31, 1988 under the terms of the plan then in effect; and
- C. The benefit in B above, plus a pro-rata portion of the difference between (i) and (ii) below, based on the ratio of actual service earned after December 31, 1988 over the potential service between December 31, 1988 and the participant's normal retirement date.
 - i. .625% of final average pay up to the Social Security covered compensation level plus 1.25% of final average pay in excess of the Social Security covered compensation level multiplied by years of credited service (to a maximum of 35 years).
 - ii. The benefit in B above.

For persons terminating employment on or after September 1, 1994, the pension benefit equals the greatest of (D), (E) and (F) below:

- D. Frozen benefit at February 1, 1993, plus a future service accrual from February 1, 1993, up to the maximum service caps of 40 and 35 found under either (Eii) or the sum of (Fi(b)) and (Fii(b)) below.
- E. Final average salary at termination, multiplied by the sum of (i) plus (ii) below:
 - i. 3/4% multiplied by credited service earned prior to February 1, 1993 to a maximum of 40 years), plus
 - ii. 3/8% multiplied by credited service earned after February 1, 1993 (but not more than the difference between 40 years and the credited service counted in (i) above).

F. The sum of:

- i. The smallest of final average salary, covered compensation or IRS average compensation, multiplied by the sum of (a) and (b) below:
 - (a) $5/8\%$ multiplied by credited service earned prior to February 1, 1993 (to a maximum of 35 years), plus
 - (b) $5/16\%$ multiplied by credited service earned on or after February 1, 1993 (but not more than the difference between 35 years and the credited service counted in (a) above).
- ii. The difference, if any, between final average salary and the smaller of covered compensation or IRS average compensation, multiplied by the sum of (a) and (b) below:
 - (a) $5/4\%$ multiplied by credited service earned to February 1, 1993 (to a maximum of 35 years), plus
 - (b) $5/8\%$ multiplied by credited service earned on or after February 1, 1993 (but not more than the difference between 35 years and the credited service counted in (a) above).

Postponed retirement

If retirement occurs after the normal retirement date, the postponed retirement income will be based on the greater of:

1. The normal retirement benefit calculated using credited service and final average pay as of the postponed retirement date.
2. The normal retirement benefit determined as of the normal retirement date actuarially increased for each full month of service after the normal retirement date.

Deferred vested termination

The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive a reduced benefit commencing as early as age 55, reduced in the same manner as for an early retirement benefit.

Preretirement death

The participant's spouse (to whom he has been married for at least one year prior to his death) will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the qualified joint and 50% contingent option. The spouse may elect to receive the lump sum actuarial equivalent value of the benefit in lieu of monthly benefits.

In the event of the spouse's death after payment of the above benefit has commenced, or in the case of any other eligible participant who dies and the above benefit is not payable, the beneficiary will be entitled to receive the lump sum actuarial equivalent of the participant's accrued benefit at the time of death, less the value of any payments made to the spouse.

Other Plan Provisions

Normal form of retirement income	The normal form of pension is a lifetime pension, payable monthly, commencing on the first day of the month following the retirement date and ending with the month in which death occurs. A participant who is married at the time his pension payments are to commence will be deemed to have elected a Joint & 50% Contingent annuitant option (with his spouse as contingent annuitant), unless he specifically declines such option with his spouse's consent.
Optional forms of retirement income in lieu of normal form	The plan provides optional payment forms, including a Joint and Contingent benefit for a named beneficiary or payments for a certain period and life thereafter, on an actuarially equivalent basis. Lump-sum distributions are allowed.
Forms of payment	Death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100%, 75%, 66-2/3% or 50% joint and survivor annuity, a five-year, ten-year or fifteen-year certain and life annuity, lump-sum distribution or (for married participants) a life annuity. Actuarial equivalence for all forms except lump-sum distributions is based on the 1971 Group Annuity Mortality Table (weighted 80% male and 20% female). For purposes of determining period certain annuities, a 6% rate is used. For all other forms (excluding lump-sum distributions), an 8% rate is used.
Pension Increases	None.
Plan participants' contributions	None.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
