WESTMONT HOSPITALITY GROUP EMPLOYEES' RETIREMENT AND SAVINGS PLAN

Notes to Financial Statements

Note 1. Description of Plan

General

The Westmont Hospitality Group Employees' Retirement and Savings Plan (the Plan) is a defined contribution plan covering all eligible employees of Westmont Hospitality Group, Inc. (the Company). The Plan, adopted effective December 1, 1997, restated January 1, 2008 and amended thereafter, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Significant provisions of the Plan are indicated below; however, participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Eligibility

Eligible employees, as defined in the Plan, may participate by making elective contributions after one year of service. Participants may commence participation and are eligible for employer matching contributions beginning on the first of January or July after meeting the one year anniversary of employment.

Contributions

Participants may contribute a percentage or a set amount of their annual salary on a tax-deferred basis, subject to certain limitations. Qualified rollover contributions and plan-to-plan transfers are also accepted by the Plan. Service requirements are waived for any eligible employee making a rollover contribution. Beginning January 1, 2015, the Company will make matching contributions in an amount equal to the sum of 100% of the participant's elective deferral that does not exceed 3%, and 50% of the participant's elective deferral that exceeds 3% but not to exceed 5%, of the participant's compensation.

Administration

Beginning January 1, 2015, the Plan Administrator has contracted Principal Life Insurance Company (Principal) to manage the Plan and perform all record-keeping functions. Principal is also the custodian of the Plan's assets. Principal acquired the contract from Mass Mutual Life Insurance Company (MassMutual). The participants pay investment manager fees and fees associated with individual transactions. All reasonable administrative expenses may be paid out of the Plan's assets unless paid by the Company.

Participant Accounts

Each participant's account is credited with the participant's contributions and matching contributions made by the Company and an allocation of investment income and expenses.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Participants are also 100% vested in the Company's matching contributions.

Forfeitures

Forfeitures due to terminating participants not meeting their vesting requirements are used to reduce administrative expenses first, then employer matching contributions. At December 31, 2015 and 2014, there were \$20,206 and \$20,510, respectively, in forfeited non-vested accounts.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of Benefits

Participants may make withdrawals from the tax-deferred portion of their accounts, including the vested portion of any Company contributions, upon (a) termination of employment, (b) total and permanent disability or death, (c) attainment of age 59½, (d) termination of the Plan without establishment of a successor plan, or (e) proven financial hardship of the participant, subject to approval by the Plan Administrator. All distributions will be made in one lump sum payment. Required distributions are to begin upon the later of age 70½ or retirement.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance. The loans are secured by the balance in the participant's vested account and bear an interest rate of 1% above the prime rate, which is determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. As such, contributions are recorded as received, and benefits and expenses are recorded as paid.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded as received. Dividend income from mutual funds is reinvested when received and included as net investment gains (losses). Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan Document.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of the Plan's financial statements on a modified cash basis requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of plan assets available for benefits. Actual results could differ from these estimates.

Tax Status

The Plan adopted a prototype plan sponsored by Alliance Benefit Group. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has since been amended, but the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by a plan in its tax returns that might be uncertain. The Plan Administrator believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements.

New Accounting Pronouncements

Fair Value Measurement

In May 2015, the Financial Accounting Standards Board (FASB) issued guidance on disclosures for investments in certain entities that calculate net asset value per share (or its equivalent). The guidance removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient. The guidance also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. This guidance is effective retrospectively for the fiscal years beginning after December 15, 2016, and for interim periods within those fiscal years, with early adoption permitted. The Plan early adopted the guidance as of December 31, 2015, and has removed certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient.

New Accounting Pronouncements (Continued)

Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, and Health and Welfare Benefit Plans

In July 2015, the FASB issued a three-part standard providing guidance on certain aspects of the accounting by employee benefit plans. The guidance designates contract value as the only required measure for fully benefit-responsive investment contracts, simplifies investment disclosure requirements, and allows an employee benefit plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments using the month end closest to its fiscal year end. The guidance is effective retrospectively for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan early adopted the guidance as of December 31, 2015, and the applicable guidance has been applied retrospectively to all periods presented.

Note 3. Information Certified by the Plan's Custodian

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared from information provided by the custodians and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments, at Fair Value		
Pooled Separate Accounts	\$ 15,341,139	\$ 17,080,549
Mutual Funds	1,096,092	-

Notes Receivable from Participants	<u>\$ 325,620</u>	<u>\$ 339,105</u>

The custodians also certified to the completeness and accuracy of \$237,859 of net depreciation in fair value of investments and \$13,269 of interest for the year ended December 31, 2015.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 4. Investments in Common Stock

In 1999, pursuant to Standard Insurance Company's demutualization, the Plan received, at no cost, 928 shares of common stock of StanCorp Financial Group, Inc., the holding company of Standard Insurance Company. At December 31, 2015 and 2014, the market value of the stock was \$105,681 and \$64,830, respectively. Unrealized gain from the stock was \$40,851, for 2015. Upon the sale of the stock, the proceeds will be used for the benefit of the participants. As of December 31, 2015, the value of the stock has not been allocated to the participants' accounts.

Note 5. Fair Value Measurements

The *Fair Value Measurement* Topic of the FASB Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Pooled Separate Accounts: Pooled separate accounts are valued at the accumulation unit value of units held by the Plan at year-end. The accumulation unit value represents the net asset value (NAV) of each underlying fund adjusted by daily mortality and expense risk and administrative charges as determined by the custodian.

Mutual Funds: Mutual funds are stated at fair value as determined by quoted market prices, which represents the net asset value of share held by the Plan at year end. The Plan's mutual fund investments are considered to be actively traded.

Common Stock: Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2015 and 2014:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 1,096,092	\$ -	\$ -	\$ 1,096,092
Common Stock	105,681	-	-	105,681
	1,201,773	-	-	1,201,773
Investments Measured at NAV (a)	-	-	-	15,341,139
Total Investments, at Fair Value	\$ 1,201,773	\$ -	\$ -	\$ 16,542,912
December 31, 2014	Level 1	Level 2	Level 3	Total
Common Stock	\$ 64,830	\$ -	\$ -	\$ 64,830
Investments Measured at NAV (a)	-	-	-	17,080,549
Total Investments, at Fair Value	\$ 64,830	\$ -	\$ -	\$ 17,145,379

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy of the line items presented in the statements of net assets available for benefits.

- (c) This investment comprises large blend, large growth, and various other U.S. equity investments.
- (d) This investment includes world stock, world bond, foreign large blend, and foreign large growth equity investments.

Note 6. Guaranteed Investment Contract

The Plan holds a traditional investment contract, the Principal Fixed Income Guaranteed Option. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

There were no unfunded commitments related to any of these investments.

The traditional investment contract held by the Plan is a guaranteed investment contract (GIC). The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 6. Guaranteed Investment Contract (Continued)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code,
2. Premature termination of the contracts,
3. Plan termination or merger,
4. Changes to the Plan's prohibition on competing investment options, or
5. Bankruptcy of the Plan Sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines,
2. A breach of material obligation,
3. A material misrepresentation, or
4. A material amendment to the agreements without the consent of the issuer.

Note 7. Parties-in-Interest Transactions

Principal is the current custodian for the Plan's assets; therefore, transactions that involved mutual funds managed by Principal are considered as parties-in-interest transactions.

The Plan Sponsor pays certain administrative expenses on behalf of the Plan and these are considered parties-in-interest transactions.

**WESTMONT HOSPITALITY GROUP
EMPLOYEES' RETIREMENT AND SAVINGS PLAN**

Notes to Financial Statements

Note 8. Excess Contributions

For the year ended December 31, 2014, the Plan failed to satisfy the relevant non-discrimination provisions of the Plan. In order to be in compliance, the Plan returned certain excess contributions of \$185,158 allowable by non-discrimination provisions. These excess amounts were returned in 2015 and treated as additional distributions.

Note 9. Plan Termination

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events through the date that the financial statements were available to be issued, October 10, 2016, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
