Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

The Pension Investment Committee
AMETEK, Inc. Selected Defined Benefit Pension Plans

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of each of the AMETEK, Inc. Selected Defined Benefit Pension Plans, which comprise the statements of net assets available for benefits listed on pages 3 and 4, as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits, listed on pages 5 and 6, for the years then ended, and the statements of accumulated plan benefits, listed on page 7, as of December 31, 2014, and the related statements of changes in accumulated plan benefits, listed on page 8, for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets (meet) the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications

Building a better
working world

as of December 31, 2015 and 2014, and for the years ended December 31, 2015 and 2014, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Contributions

AMETEK's contributions, which are determined annually on an actuarial basis, along with net appreciation (depreciation) in the fair value of the investments, are designed to sufficiently fund the benefits to be paid to the Plans' participants. The contributions of AMETEK are calculated using the assumptions and methods prescribed by ERISA and the IRC, as amended by the Pension Protection Act of 2006, and applicable regulations. Generally, the minimum required contribution is each Plan's target normal cost (the value of benefits to be earned during the year) and seven-year amortization of any funding shortfall (the excess of the funding target over assets). The Plans have met the ERISA minimum funding requirements.

Benefits

Plan	Normal Retirement Benefits	Early Retirement Benefits	Pre-Retirement Death Benefits	Post-Retirement Death Benefits
Retirement	Depending upon the predecessor plan in which eligible employees participated, benefits are based on either (1) a percentage of final average compensation, (2) monthly average annual compensation, (3) average compensation, (4) career earnings or career average earnings, or (5) specific dollar amount (i.e., rate) multiplied by years of credited service. Percentages and rates vary based on covered compensation limits, credited years of service limits and/or employment service periods.	Range from age 50 to age 60 and require 10 or 15 or more years of service. Certain plans also require the sum of age and service to meet certain minimums. Reductions in the normal form of benefit range from 4% to 6.667% per year prior to normal retirement date. Haveg participants – reduced 1/10 th per year for pre normal retirement date commencement, unreduced if retire before normal retirement date but on or after age 62 with 15 years of accrual service, or age 63 with 14 years of accrual service, or age 64 with 12 years of accrual service.	In addition to providing the statutory qualified surviving spouse annuity, certain participants are eligible for a death benefit equal to 60 times the accrued monthly pension at date of death and reduced for early commencement.	Benefits for certain participants depending upon the predecessor plan in which they participated range from \$1,000 to \$5,000. Haveg participants - \$10,500; all others - \$1,000.
Wapakoneta	Benefits range from \$40 to \$52 per month per year of credited service.	Age 60 with 10 or more years of service. Benefit is reduced by 6.667% per year prior to normal retirement date.	The statutory qualified surviving spouse annuity.	\$6,500 for employees retiring on or after January 20, 2004.

Plan Amendments

In December 2013, the Chemical Products (Wapakoneta) plan was amended to increase the employee retirement benefit amount per month per year of credited service as follows: \$48 for service from January 14, 2013 through January 12, 2014; \$50 for service from January 13, 2014 through January 11, 2015; and \$52 for service on and after January 12, 2015.

In December 2013, the Chemical Products (Nesquehoning) plan was amended to increase the employee retirement benefit amount per month per year of credited service as follows: \$49 for service from September 24, 2013 through September 23, 2014; \$51 for service from September 24, 2014 through September 23, 2015; and \$53 for service on and after September 24, 2015.

Effective March 18, 2014, all of the Plans were amended to affirmatively state that responsibility for collecting employer contributions has been assigned to a trustee committee.

Effective December 31, 2014, the Pension Plan for Shop Employees of U.S. Gauge Division of AMETEK, Inc. was amended to merge the plan's participants, net assets and accumulated plan benefits into the Retirement Plan.

Effective January 1, 2015, all benefits accrued under the Retirement Plan for all active hourly employees accruing a dollars-per-month-per-year-of-service benefit under the Hourly Plan component were spun off into a new defined benefit plan, the AMETEK, Inc. Monthly Formula Pension Plan.

As of January 1, 2015, all of the plans were amended and restated to include: (1) all amendments adopted to date, (2) required amendments to reflect the U.S. Supreme Court decision *United States v. Windsor*, and (3) for the Retirement Plan, changes necessary to reflect the plan merger and spin-off described above.

Effective August 17, 2015, the Retirement Plan was amended to document the availability of a feature in which a joint and survivor annuity can increase to a straight life annuity upon the death of the participant's spouse for participants who commenced retirement benefits under the U.S. Gauge Division at the Bartow, Florida plant between April 1, 1997 and February 28, 2007.

Effective December 31, 2015, the Master Trust Agreement was amended to add the Superior Group, Inc. 2007 Retirement Plan as a Participating Plan.

Effective December 31, 2015 AMETEK, Inc. Monthly Formula Pension Plan was amended to close the Plan to employees of Measurement and Calibration Technologies Division, Sensor Technologies Business Unit: Feasterville, PA, who are hired, or re-hired following a one-year period of severance, on or after January 1, 2016.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plans to discontinue its contributions at any time and to terminate the Plans subject to the provisions of ERISA. Upon termination, the net assets of the Plans will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan documents.

Should the Plans terminate at some future time, their assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Allocation of the Master Retirement Trust

At December 31, 2015 and 2014, the assets of the Plans were held by The Bank of New York Mellon Corporation ("Trustee") as trustee of the Trust.

Assets attributable to the individual plans participating in the Trust are equitable shares, which are based on each Plan's proportionate share of total net assets of the Trust as of the end of each month, excluding unpaid contributions. Contributions received, benefits paid and direct administrative expenses are accounted for as direct cash flows designated to the individual plans during the period. The Trustee allocates earned income, realized gains and losses and unrealized gains and losses to individual plans based on each Plan's pro rata share of the fair value of the Trust's net assets at the end of the reporting period.

Investment valuation and Income Recognition

The Plans' investments are stated at fair value. See Note 5 for further discussion and disclosures related to fair value measurements.

Portfolio managers of the Trust may enter into certain types of futures and option contracts in order to enhance liquidity or protect the total return of the Trust's portfolio from market volatility. Realized and unrealized gains and losses from these contracts are included in investment income.

Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the average cost of securities. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned.

Actuarial plan benefits valuation

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

2. Summary of Significant Accounting Policies (continued)

The actuarial present value of accumulated plan benefits under the Plans was calculated by the consulting actuaries, based on the latest available data as of December 31, 2014. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Administrative expenses

Administrative expenses of all Plans are paid by the Trust and are charged to the respective Plans.

Payments of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Risks and uncertainties

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events

Management evaluated subsequent events for the Plans through October 14, 2016, the date the financial statements were issued. Based on this evaluation, no disclosures were required to be made to the financial statements as of December 31, 2015.

3. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2015-07 requires entities to disclose the fair value of investments measured using the net asset value (NAV) practical expedient so that financial statement users can reconcile amounts reported in the fair value hierarchy table to amounts reported on the statement of net assets available for benefits. ASU 2015-07 is effective for interim and annual reporting periods beginning after December 15, 2015; early adoption is permitted and requires retrospective application to all periods presented. Management has elected to adopt ASU 2015-07 early.

3. Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plans. Part II of ASU 2015-12 requires plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes. Plans are no longer required to disclose the net appreciation/ depreciation in fair value of investments by general type or individual investments equal to or greater than 5% of net assets available for benefits. ASU 2015-12 is effective for interim and annual reporting periods beginning after December 15, 2015; early adoption is permitted and requires retrospective application to all periods presented. Management has elected to adopt ASU 2015-12 early.

4. Accumulated plan benefits

Significant assumptions underlying the actuarial valuation are as follows:

Assumed rate of return on investments

The assumed rate of return on investments is 7.75% at December 31, 2014 compounded annually, net of investment expenses.

Mortality basis

At December 31, 2014 and 2013, mortality is based on the RP-2014 gender-specific mortality table (with MP-2014 projected improvements after 2006 removed) projected from 2006 with Scale BB-2 dimensional and blue collar adjustment (no collar adjustment for Retirement).

Retirement rates

Retirement under the various Plans is assumed to take place based on retirement rates which generally result in assumed retirement at ages ranging from 62 to 65.

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Total investment income	<u>\$ (16,957,064)</u>	<u>\$ 10,813,345</u>

The Plans utilize a valuation hierarchy for disclosure of the inputs to the valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Plans' own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

5. Investment and Master Trust Information (continued)

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Level 1 investments are unadjusted, observable inputs from active markets. Investments such as common stocks traded on exchanges are valued at the last reported sale prices on the last business day of the year or, if not available, the last reported bid prices. Mutual funds are valued at quoted market prices which represent the net asset values of shares held by the Plans at year-end.

Level 2 investments are equity funds and fixed income funds that are valued by the vendor using observable market inputs. Fixed income securities such as certain government, municipal and corporate obligations are primarily measured using a market approach pricing methodology, where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Corporate obligations are all investment grade quality.

Alternative investments are considered level 3 investments as their values are determined by the sponsor using unobservable market data. The Plans' investment policy, developed by the Pension Investment Committee, limits the amount the Plans may invest in investments that are difficult to value. Valuation of these investments is determined by the management of the Plan Sponsor on an annual basis at the reporting date. The valuation procedures include, but are not limited to, the review of periodic due diligence materials provided by the third party investment consultants and investment staff of the Plan Sponsor, as well as the investments' annual audited financial statements. Unobservable inputs, such as information obtained through periodic due diligence, are typically used to determine whether the net asset values, used as fair value as a practical expedient, would not be representative of fair values as of the reporting date. These investments are redeemable; however, cash reimbursement may be delayed or a portion held back until asset finalization.

Temporary cash investments are stated at cost, which approximates fair value. Common collective trusts and commingled trust investments are valued based on the Plan's unit of ownership and net asset value of the investment entity's pooled investments. These investments have no unfunded commitments and no limits as to the frequency of redemptions. However, the investments have various redemption terms and notice periods.

5. Investment and Master Trust Information (continued)

The objectives of the Plans' investment strategy are to maximize the Plans' funded status and minimize Company contributions and Plan expense. Because the goal is to optimize returns over the long term, an investment policy that favors equity holdings has been established. Since there may be periods of time where both equity and fixed-income markets provide poor returns, an allocation to alternative assets may be made to improve the overall portfolio's diversification and return potential. The Pension Investment Committee periodically reviews the Trust's asset allocation, taking into consideration plan liabilities, plan benefit payment streams and the investment strategy of the pension plans. The actual asset allocation is monitored frequently relative to the established targets and ranges and is rebalanced when necessary.

The equity portfolio is diversified by market capitalization and style. The equity portfolio also includes an international component.

The objective of the fixed-income portion of the pension assets is to provide interest rate sensitivity for a portion of the assets and to provide diversification. The fixed-income portfolio is diversified within certain quality and maturity guidelines in an attempt to minimize the adverse effects of interest rate fluctuations.

Other than investments in certain alternative investment collective trusts and pooled investments funds, certain investments are prohibited. Prohibited investments include venture capital, private placements, unregistered or restricted stock, margin trading, commodities, short selling and rights and warrants. Foreign currency futures, options and forward contracts may be used to manage foreign currency exposure.

6. Income Tax Status

The Plans have received determination letters from the IRS dated as follows:

Employees' Retirement Plan of AMETEK, Inc. (001)	January 21, 2016
Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan (012)	October 19, 2015
Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan (032)	January 21, 2016
AMETEK, Inc. Aerospace Division Pension Plan for Union Represented Employees (043)	October 27, 2015
AMETEK, Inc. Monthly Formula Pension Plan (035)	January 21, 2016

The determination letters state that each of the Plans qualifies under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letters, all of the Plans were amended and restated. Once qualified, the Plans are required to operate in conformity with the IRC to maintain their qualification. In January 2016, the Plan Sponsor received a new determination letter from the IRS for the Retirement Plan, the Nesquehoning Plan and the Monthly Formula Plan. In October 2015, the Plan Sponsor received a new determination letter from the IRS for the Wapakoneta and Aerospace Plans. The Plan Sponsor believes the Plans are being operated in compliance with the applicable requirements of the IRC and therefore believes the Plans, as amended and restated, are qualified and the related trusts are tax-exempt.

6. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to IRS income tax examinations for years prior to 2012.

7. Related Party and Party-in-Interest Transactions

At December 31, 2015 and 2014, the Trust held an investment in AMETEK common stock. At December 31, 2015, the investment consisted of 512,565 shares having a cost of \$254,102 and a market value of \$27,468,358 and the Trust received \$184,523 in related dividends in 2015. At December 31, 2014, the investment consisted of 512,565 shares having a cost of \$254,102 and a market value of \$26,976,296 and the Trust received \$169,146 in related dividends in 2014. During 2015 and 2014, there were no party-in-interest transactions which are prohibited by ERISA Section 406 and for which there is no statutory or administrative exemption.

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods

Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.99% (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2014 plan year.).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA).</p> <p>These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.</p> <p>However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits Not Valued	The plan pays small benefits with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2014 to January 2015.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
