Code42 401(k) Retirement Plan Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Code42 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan, under section 401(k) of the internal revenue code (IRC), covering employees of Code 42 Software, Inc. (the "Company") who are at least 21 years of age. The effective date of the Plan was January 1, 2014, however the effective date of participant deferrals was July 1, 2014. Plan entrance dates are the first of the month following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may, after meeting eligibility requirements, contribute a percentage of their annual compensation, as defined in the Plan. Contributions are subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching and profit sharing contributions. Since the Plan's effective date for participant deferrals, the Company has contributed for each participant a matching contribution equal to 100% up to the first 4% of the elective contributions made by the participants. In order to share in any profit sharing contributions, eligible participants must complete 1,000 hours of service during the plan year and be employed on the last day of the Plan year. No discretionary profit sharing contributions were made for the 2015 and 2014 plan years.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and Plan earnings or losses. Allocations are based on participant earnings or losses, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions. Vesting in the remainder of their accounts is based on years of continuous service. Participants vest ratably in employer matching and profit sharing contributions and are fully vested after four years of service.

Notes Receivable from Participants

Eligible participants may borrow against the value of their accounts. The maximum amount of any loan is the lesser of 50% of the participant's vested account excluding Roth deferrals, reduced by any outstanding loan balances or \$50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. The minimum amount of any loan is \$1,000 and the number of outstanding loans is limited to one. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%.

Notes to Financial Statements**

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, retirement (age 65), death, or disability, a participant may elect to receive a lump sum amount or partial payments equal to the value of his or her account. Upon termination of service if the account balance is \$1,000 or less, the account balance will be automatically distributed to the participant, who may elect to treat the distribution as a taxable withdrawal or directly roll over the balance into another qualified plan or individual retirement account. If the balance is greater than \$1,000 but less than \$5,000, the benefit payment will be rolled over into a qualified individual retirement account. Balances greater than \$5,000 may remain in the Plan. In service distributions are allowed for participants after obtaining age 59.5 or for amounts attributable to rollover contributions at any time, without restriction. Hardship distributions of elective deferrals are also permitted.

Forfeitures

Forfeitures resulting from a terminated participant's failure to be fully vested in the Company's contributions to the Plan may be used to reduce the Company's matching contribution. Forfeited nonvested accounts totaled \$0 at both December 31, 2015 and 2014. Also, forfeitures of \$64,056 and \$2,706 were used to reduce the Company's matching contributions for the years ended December 31, 2015 and 2014, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment Valuation

Investments are reflected at fair value in the accompanying financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants valued at the measurement date. The plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee.

Income Recognition

The net appreciation (depreciation) in fair value of investments represents the realized and unrealized gains or losses on assets bought and sold during the year and held at year-end. Investment income is recorded using the accrual basis of accounting. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants during 2015.

Payment of Benefits

Benefits are recorded when paid.

Funding Policy

Employer discretionary matching contributions are generally remitted to the Plan at the same time as employee deferrals. Any necessary employer discretionary matching contributions relating to the "true up" are remitted to the Plan in the following year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the plan sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Early Adoption of New Accounting Principles

The Plan has early adopted ASU 2015-07 – *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This standard eliminates diversity in practice for the fair value hierarchy level attributed to investments carried at net asset value (NAV) as a practical expedient to fair value. Under this standard investments carried at NAV as a practical expedient will no longer be assigned a fair value hierarchy level. As required, the Plan has applied these new accounting principles and disclosures retrospectively to prior periods.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Early Adoption of New Accounting Principles (Continued)

The Plan has early adopted ASU 2015-12 – *Plan Accounting: (Part I) Fully-Benefit Responsive Investment Contracts, Part (II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (ASC 960, 962 and 965)*. This standard simplifies measurement, disclosures, and presentation of three specific issues identified as overly complex and burdensome in financial statements of benefit plans. Under Part I of this standard fully benefit responsive investment contracts will be measured, presented, and disclosed at contract value instead of fair value. Under Part II of this standard fair value disclosures for plan investments need only be grouped by general type, the disclosure of individual investments that represent 5% or more of net assets available for benefits is eliminated, and the requirement to disclose investment strategies for assets measured at NAV is eliminated for an investment that is held in a fund that files its own Form 5500. As required, the Plan has applied these new accounting principles and disclosures retrospectively to prior periods.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, the date which the financial statements were available to be issued.

NOTE 3 – CERTIFICATION BY TRUSTEE

The plan administrator has received certification from the trustee as to the accuracy and completeness of investment assets aggregating \$6,353,382 and \$2,808,286 at December 31, 2015 and 2014, respectively, and related investment gain (loss) of \$(154,482) and \$66,148 for 2015 and 2014, respectively.

Information contained in the accompanying financial statements, notes to financial statements, and supplementary information has been obtained or derived from information certified by the trustee.

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurements topic of the FASB ASC establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted market prices included in level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: this fund holds guaranteed investment contracts (GICs), synthetic guaranteed investment contracts (synthetic GICs), short-term securities and registered investment companies that are valued at the net asset value (NAV) of units of the collective trust at year end. NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it was determined to be probable that the fund would sell the investments for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair values of assets measured on a recurring basis are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

NOTE 5 – TAX STATUS

The Company has adopted a prototype plan document and is relying on the prototype sponsor's opinion letter from the IRS dated March 31, 2014. The letter states that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since adoption of the prototype plan, however the plan administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more than likely would not be sustained upon examination by the taxing jurisdictions. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
