Employees' Retirement Savings Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Carleton Technologies Inc. Employees' Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General— The Plan is a defined contribution plan established on January 1, 2004, and is sponsored by Carleton Technologies Inc. (the "Plan Sponsor"). The Plan was restated as of January 1, 2012. The Plan covers substantially all employees of the Plan Sponsor who began employment after January 1, 2004, and have completed one month of service and are at least twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 14, 2012, the Plan was amended to provide that no employee of Cobham Management Services Inc. ("CMSI") is eligible to become a participant after June 14, 2012, and the participation of an employee of CMSI hired on or after January 1, 2011 will be frozen effective June 30, 2012.

Contributions— The Plan is funded with Plan Sponsor contributions. Plan Sponsor contributions are calculated based on a participant's years of service and also the age of the participant. Rollover contributions are accepted with the prior approval of the Plan Sponsor.

During each applicable Plan year, the Plan Sponsor will contribute to each qualified participant an amount determined using the following schedule:

<i>Years of Service Completed by January 1 of a Plan Year</i>	<i>Rate of Contribution of Covered Compensation</i>
0-4	0.50%
5-9	1.25%
10-14	2%
15-19	2.75%
20-24	3.50%
25-29	4.25%
30+	5%

The Plan Sponsor will also contribute to accounts of eligible participants, an amount based on the participant's age as of January 1 of the applicable plan year. The percentage is increased for each year of age of the participant, starting at .03% of a participant's covered compensation at age twenty-one, up to a maximum amount of 6.5% of covered compensation at age sixty-five and older.

Carleton Technologies Inc.
Employees' Retirement Savings Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by Plan Sponsor contributions and the participant's share of Plan earnings. Participant accounts are decreased by benefits paid to participants and the participant's share of Plan expenses and losses. The allocation of earnings and losses to participant accounts is based upon the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants vest in Plan Sponsor contributions at 25% for each year of service and become fully vested after four years of service. Forfeited non-vested benefits, which are used to reduce future Plan Sponsor contributions, amounted to \$10,998 and \$0 during the years ended December 31, 2015 and 2014, respectively.

Payments of Benefits – Plan assets allocated to a participant's account will be distributed upon termination of employment or death. A participant may not withdraw any part of the balance during the participant's employment with the Plan Sponsor or an affiliated employer. Minimum distributions will begin on the participant's date of retirement. Distributions will be calculated based on the participant's account balance and the distribution period set forth in the Uniform Lifetime Table set forth in Section 1.401 (a)(9)-9 of the Treasury Department regulations.

Loans to Participants – In accordance with Plan provisions, no loan may be made to a participant from the participant's account.

Tax Status – The Plan was restated as of January 1, 2012. The Plan obtained its latest determination letter on July 9, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "Code"). The Plan has been amended subsequent to the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Carleton Technologies Inc.
Employees' Retirement Savings Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Plan Termination – Although it has not expressed an intent to do so, the Plan Sponsor has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in Plan Sponsor contributions and associated earnings.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds offered by registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

The Plan presents in the accompanying statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments which includes both realized gains and losses and unrealized net appreciation or depreciation in the fair value of investments. Realized gains and losses on disposition of investments are based upon actual costs and selling prices. For Form 5500 reporting purposes, realized gains and losses are computed by comparing the investments' current value at the beginning of the plan year, or their cost, if acquired during the plan year, to their sales price.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – All accounting and administrative expenses related to the administration, operation and maintenance of the Plan, including, without limitation, any expense relating to the preservation of the qualification of the Plan under Section 401(a) of the Code, may be paid from the Plan assets. At the discretion of the Plan Sponsor, any such expenses, disbursements, or charges, may be paid by the Plan Sponsor. During the years ended December 31, 2015 and 2014, the Plan Sponsor paid substantially all expenses related to the Plan.

Party-in-Interest Transactions – Certain Plan investments are cash reserves held by Fidelity Personal Trust Company ("Fidelity"). Fidelity is the Plan trustee, and therefore these transactions qualify as party-in-interest transactions.

Carleton Technologies Inc.
Employees' Retirement Savings Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Standards Update – The Plan adopted the provisions of Accounting Standards Update No. 2015-12, Plan Accounting: Defined Contribution Plans (Topic 962, the "ASU"): Part II – Plan Investment Disclosures for the year ended December 31, 2015, which eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits and net appreciation/depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan has elected to early adopt Part II retrospectively.

Subsequent Events – The Plan has evaluated subsequent events through October 13, 2016, for recognition or disclosure, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate. Cash and mutual funds stated at fair value totaled \$4,193,666 and \$3,822,940 for the years ended December 31, 2015 and 2014, respectively.

Carleton Technologies Inc.
Employees' Retirement Savings Plan
Notes to Financial Statements (continued)

3. Information Certified by the Trustee (Unaudited) (continued)

Fidelity has also certified interest and dividend income totaling \$106,058 and \$94,175 and net appreciation (depreciation) in fair value of investments of (\$207,054) and \$105,682 for the years ended December 31, 2015 and 2014, respectively.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. Investments utilizing Level 1 inputs as its primary measure of fair value include cash and mutual funds totaling \$4,193,666 and \$3,822,940 at December 31, 2015 and 2014, respectively.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. All of the Plan's assets held as of December 31, 2015 and 2014 utilized Level 1 inputs as its primary basis for measuring fair value.
