Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Plan Sponsor and Administrator of the

Baker Hostetler Cash Balance Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Baker Hostetler Cash Balance Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2015 and 2014, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) as of December 31, 2015 and reportable transactions for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Baker Hostetler Cash Balance Plan

Notes to Financial Statements

1. Significant Accounting Policies

Investment Valuation and Income Recognition

The assets of the Baker Hostetler Cash Balance Plan (“Plan”) are held in Trust by Fidelity Management Trust Company (“Trustee”). The Trust assets are recorded at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan’s valuation policies utilizing information provided by the Trustee. See Note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments that are attributable, under the Plan’s provisions, to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the plan document, depending upon the date of retirement, death or termination of employment. The accumulated plan benefits for active employees are based on current formulas as defined in the plan document. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or Baker & Hostetler LLP ("Firm"), as provided in the Plan document. Expenses that are paid directly by the Firm are excluded from these financial statements. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

New Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient."* Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further, the disclosure of information about fair value measurements shall be provided by general type of investment. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Management has elected to early adopt ASU 2015-12 Part II. The statements of changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance. Parts I and III are not applicable to this Plan.

2. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

The Plan is a noncontributory defined benefit plan which covers eligible partners and equity partners of the Firm. The Plan provides benefits primarily based on the employee's length of service while a participant in the Plan and the amount of a participant's equity partner capital on the capital determination date. Equity partners become Plan participants on the January 1 or July 1 following the date they have completed two (2) years of service with the Firm and are immediately vested in benefits earned.

Under the Plan provisions, amounts are credited by the Firm to the participants' hypothetical accounts. The accounts are allocated contribution and interest credits. The contribution credits are allocated based on the participant's age and equity partner capital on the capital determination date (as defined in the Plan document). Participants' hypothetical cash balance accounts also receive interest credits at the end of every year. The amount of the interest credit is based on the actual investment return of the Plan's aggregate assets, except that the interest credit is limited to 7.5% for any plan year. Also, effective January 1, 2015, each participant is guaranteed that, at the time their benefit is paid (or commences), their account will not be less than the sum of all their contribution credits with a 3% cumulative annual investment return.

The Plan's funding policy is for the Firm to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2015 and 2014, the Firm made contributions of \$8,655,340 and \$6,667,133, respectively. The Firm's contributions for 2015 and 2014 exceeded the minimum funding requirements of ERISA.

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The Firm has chosen to disclose actuarial present value of accumulated plan benefits based on a beginning-of-year benefit information date.

3. Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is as follows:

	January 1,	
	2015	2014
Vested benefits:		
Active participants	\$ 12,346,943	\$ 7,296,878
Terminated participants	42,720	-
Total actuarial present value of accumulated plan benefits	<u>\$ 12,389,663</u>	<u>\$ 7,296,878</u>

The changes in the actuarial present value of accumulated plan benefits are as follows:

	Years Ended January 1,	
	2015	2014
Actuarial present value of accumulated plan benefits at beginning of prior year	\$ 7,296,878	\$ 2,520,059
Increase (decrease) during the year attributable to:		
Benefits accumulated	5,977,985	5,330,918
Increase for interest due to decrease in discount period	364,114	124,491
Benefits paid	(1,466,034)	(643,069)
Change in actuarial assumptions	216,720	(35,521)
Actuarial present value of accumulated plan benefits at beginning of current year	<u>\$ 12,389,663</u>	<u>\$ 7,296,878</u>

The significant actuarial assumptions used in the January 1, 2015 and 2014 valuations are as follows:

Cash balance interest crediting rate	4.50%
Retirement age	62
Mortality	IRS prescribed tables
Incidence of Disability	None assumed

Baker Hostetler Cash Balance Plan

Notes to Financial Statements

4. Income Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Firm by a letter dated June 26, 2014, stating that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrative committee/plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Information Prepared and Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments:

- Investments at fair value
- Dividends and interest receivable
- Net appreciation (depreciation) in fair value of investments
- Dividends and interest income
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

The Plan’s independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Baker Hostetler Cash Balance Plan

Notes to Financial Statements

6. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 18,793,685	\$ -	\$ -	\$ 18,793,685

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,464,059	\$ -	\$ -	\$ 13,464,059

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Plan Termination

Although it has not expressed any intention to do so, the Firm has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Baker Hostetler Cash Balance Plan

Notes to Financial Statements

8. Plan Termination (continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

9. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2015, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding and Present Value of Accrued Benefits

Liability Valuation Method

Funding Target and Target Normal Cost as Defined in PPA

The Funding Target is defined to be the present value of the benefits accrued or earned at valuation date. The earned benefits include retirement-type benefits and ancillary benefits (1.430(d)-1(c)(1)(i)). If the amount of a benefit that is expected to be paid is neither a function of the accrued benefit at the time the benefit is expected to be paid nor a function of the participant's service at that time, then the portion of the benefit taken into account for purposes of determining the Funding Target for a plan year is based on the proportion of a participant's service as of the first day of the plan year relative to the service the participant will have when the participant decrements. The portion of the benefit that is taken into account in the Target Normal Cost is the increase in the proportional benefit for the plan year (1.430(d)-1(c)(1)(ii)(C)). The determination of the Funding Target and Target Normal Cost of a plan for a plan year is not permitted to take into account any limitations or anticipated limitations under section 436 (1.430(d)-1(c)(1)(iii)).

The Target Normal Cost is the present value of all the benefits expected to accrue or to be earned during the year (benefits attributable to services performed in a prior year that are increased by reason of a compensation increase in the current year are treated as having accrued during the current year). Plan administrative expenses paid (or expected to be paid) from Actuarial Value of Assets for a plan year are not reflected in the determination of a plan's Funding Target for that plan year (1.430(d)-1(c)(2)), but are reflected in the determination of a plan's Target Normal Cost.

Generally if insurance contracts are held by the Plan, they are included in Actuarial Value of Assets and the related benefits are included in the liability. In the case of benefits that are funded through insurance contracts purchased from an insurance company licensed under the laws of a State, the Plan is permitted to exclude the benefits from the liability and the insurance policy from the assets, but only to the extent that the right to receive benefits is an irrevocable contractual right based on premiums paid prior to the valuation date (1.430(d)-1(c)(3)).

The determination of a plan's Funding Target and Target Normal Cost for a plan year is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year. Section 412(d)(2) applies for purposes of determining whether a plan amendment is treated as having been adopted on the first day of the plan year (including a plan amendment adopted within two and one half months after the close of the plan year) (1.430(d)-1(d)).

For maximum deductible purposes, the cushion amount is equal to the sum of 50 percent of the Funding Target for the plan year and the amount the Funding Target for the plan year would increase if the Plan were to take into account increases in compensation which are expected to occur in succeeding plan years. If the Plan does not base benefits for service to date on compensation, increases in benefits which are expected to occur in succeeding plan years (determined on the basis of the average annual increase in benefits over the six preceding plan years) are taken into account in lieu of expected increases in compensation. For plans that have less than 100 participants, increases in benefits for highly compensated employees as a result of plan amendments within the last two years are excluded from the calculation of the cushion amount.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Actuarial Methods for Funding and Present Value of Accrued Benefits

Asset Valuation Method

Actuarial Value of Assets are equal to the Market Value of Assets plus receivable contributions discounted at the appropriate interest rate to the valuation date.

Procedures

Financial and census data: Financial data was submitted by the Trustee and census data was submitted by the plan sponsor. Information provided was reviewed for internal consistency and we have no reason to doubt its substantial accuracy.

No benefits of materiality were excluded from the valuation of the liabilities.

The limitations of the Internal Revenue Code 415(b) and 401(a)(17) have been incorporated into our calculations.

No liability is included for participants who terminated without vesting in their benefit prior to the valuation date.

The plan sponsor provided us with the data on its employees as of the valuation date, but only those employees who have completed the Plan's eligibility requirements are included in the valuation of liabilities.

Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

For active participants, the accrued pension benefits as of the valuation date and payable from the assumed retirement age were determined based on actual plan compensation history for each participant. For inactive participants, accrued benefits were either supplied by the Company or estimated. The Actuarial Present Value of Accumulated Plan Benefits was determined by multiplying the accrued pension benefits by single premium cost factors based on the applicable actuarial assumptions for accrued benefits.

Method Changes Since Last Year

There were no method changes since the prior valuation.

Assumption Changes Since Prior Valuation

Funding target interest rates were changed from the 2014 segment rates under MAP-21 as modified by HATFA to the 2015 segment rates under MAP-21 as modified by HATFA.

ASC 960 interest rates were changed from the 2014 segment rates under MAP-21 as modified by HATFA to the 2015 segment rates under MAP-21 as modified by HATFA.

ASC 960 mortality was changed to a version of RP-2014 and Healthy Annuitant base mortality tables for males and females with white collar adjustments, which utilizes a modified projection methodology for assumed mortality improvements from the base year.

There were no other changes in actuarial methods or assumptions other than the required changes mandated by the Pension Protection Act of 2006 with respect to the mortality table.

Schedule SB, line 18 – Additional Contributions for 2015 Plan Year

The number of contributions that were made for the 2015 Plan Year exceeded the number of lines available for reporting contributions on the Schedule SB. As such, the contribution listed for January 15, 2016 in the table in the amount of \$1,180,810 represents the combined value of the following two contributions:

<u>Contribution Date</u>	<u>Contribution Amount</u>
1/12/2016	\$ 680,810
1/15/2016	\$ 500,000

Schedule SB, line 22 – Description of Weighted Average Retirement Age

The retirement age is defined as the later of age 62 or the following valuation date.

Weighted Average Retirement Age = 62.

Schedule SB, Part V – Summary of Plan Provisions

Plan Provisions Summary

Employer ID and Plan Number	34-0082025 / 006
1. Effective Date	July 1, 2012
2. Eligibility to Participate	An equity partner shall become a participant in the Plan on the later of the effective date or the January 1st or July 1st coincident with or next following the date on which he/she meets all of the following conditions, provided he/she then is an equity partner of the Firm: (a) He/she has completed twenty-four (24) months of service with the Firm; (b) He/she has attained his/her twenty-first (21st) birthday; and (c) He/she is a participant in the Baker & Hostetler LLP Basic / Step-Rate Retirement Plan.
3. Contribution Credits	As of the last day of each plan year ending after the effective date, a contribution credit shall be made to the account of each participant who completed at least 950 hours of service (i.e. 5 full months). A participant's contribution credit for a given year shall be determined under the Table of Contribution Credits below based on his/her age as of January 1st of that year and his/her equity partner capital on his/her capital determination date, subject to the following: (a) If an individual is a participant for at least five (5) full months but less than twelve (12) full months, the contribution credit shall be proportionately reduced with 1/12 of the contribution credit granted for each full calendar month as a participant. (b) For any plan year in which a participant's compensation is less than the maximum amount prescribed by IRC § 401(a)(17), the contribution credit for that year shall be determined by multiplying the amount specified below by a fraction whose numerator is the participant's compensation and whose denominator is the maximum amount prescribed by IRC § 401(a)(17). If an individual ceases to be a participant at any time other than at the end of the plan year, any partial year contribution credit for the final year of active participation shall be credited no later than his/her annuity starting date.
4. Interest Credits	As of the last day of each plan year ending on or before a participant's annuity starting date, an interest credit shall be made to his/her account based on its opening balance as of January 1st of that plan year. A participant's interest credit shall be determined by multiplying his/her opening account balance as of January 1st by the actual rate of return on the aggregate assets of the Plan for that plan year, not to exceed seven and one-half percent (7.5%). If a participant's annuity starting date is after April 1st, he/she shall receive a partial interest credit based upon the actual rate of return on the aggregate assets of the Plan through the last day of the calendar month ending three (3) full months prior to the annuity starting date, but not exceeding five-eighths of one percent (0.625%) multiplied by the number of months in such valuation period.
