(d) Eligibility

Substantially all salaried and hourly employees of the Company, excluding employees represented by a bargaining agreement who have not been specifically included, who have been employed by the Company for at least 30 days are eligible to participate in the Plan. Beginning on the first pay period after 90 days of employment, 2% of compensation is automatically deferred to the Plan unless the employee requests the deferral to be ceased or increased.

(e) Contributions

Each year, participants may make pretax or Roth 401(k) contributions from 2% to 50% of their annual compensation, as defined, to the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company determines the level and type of Company contributions for each Plan year. The Company matches 50% of the first 6% of employee

contributions and additionally provides employees with a cash contribution up to 3% of their total quarterly pay.

Additionally, the Company may make additional incentive contributions at its discretion. No such discretionary contributions were made in 2015.

Participants direct the investment of their employee contributions, rollover contributions, and any Company contributions or discretionary contributions into a variety of registered investment company funds, multi-asset funds and the Prudential Self Directed Brokerage Fund, which allows participants to invest in individual securities other than the registered investment company or multi-asset fund options.

(f) Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and allocations of Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(g) Vesting

Participants are vested immediately in their contributions and rollover contributions, plus actual earnings thereon. Employer contributions vest at a rate of 40% after completion of one year and thereafter at 20% per year of service until fully vested after four years.

(h) Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested account balances totaled \$276,305 and \$129,070, respectively. Amounts are to be used to pay for administrative expenses and then to reduce employer contributions. During 2015, \$60,846 of forfeitures was used to pay administrative expenses and \$18,302 was used as Company contributions.

(i) Payment of Benefits

Participants have the right to withdraw the vested portion of their account balance upon retirement, termination, death, or disability, subject to certain tax penalties for early withdrawal. Participants also may make withdrawals due to financial hardship, as defined by the Plan.

Not more than one time in any year, a participant may withdraw all or part of the Company matching contribution balance, which has been in the Plan for more than two years, as permitted under the Internal Revenue Code.

(j) Notes Receivable From Participants

Participants with a vested account balance of at least \$2,000 may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 less the highest outstanding loan balance in the previous 12 months or 50% of their vested account balances. Participants may have up to two loans outstanding at any time. The loans are secured by the balance in the participants' accounts and bear interest at the prime rate plus 1%, as defined in the Plan document. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence. As of December 31, 2015, interest rates range from 4.25% to 9.25%. Maturity dates on outstanding loans at December 31, 2015, are from various dates through August 2025.

(k) Investment Contract with Insurance Company

The Guaranteed Income Fund is the Plan's fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (the "Investment Contract with Insurance Company"). At December 31, 2015, the contract value of the Investment Contract with Insurance Company approximated fair value, as the insurance company is obligated to pay the contract value no later than 90 days from the date the Plan provides notice to discontinue and pays interest at guaranteed crediting rates that are determined in advance. Refer to Note 6 for further discussion of the guaranteed crediting rates. As contract value approximates fair value, no contract value adjustment was presented in the Plan's financial statements. Contract value represents contributions made under the contract, plus earnings at the guaranteed crediting rates, less losses, participant withdrawals, and administrative expenses. Investment Contract with Insurance Company is carried at contract value because that is the amount equal to the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

(l) Prudential Day One IncomeFlex Target Funds

The Prudential Day One IncomeFlex Target Funds are multi-asset class funds which allow participants to accumulate assets and for an additional fee convert their assets into an income stream supported by the general account of PRIAC. The asset allocation fund itself provides no guarantees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Notes to Financial Statements
As of December 31, 2015 and 2014
And for the Year Ended December 31, 2015

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis.

Interest is recorded as earned and dividend income is recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes realized gains and losses on investments sold during the year, as well as, any changes in the value of the investments held at the end of the year.

(d) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

(f) Administrative Expenses

Certain administrative expenses of the Plan may be paid by the Company at its discretion and, if not paid by the Company, shall be paid by the Plan. During 2015, the Company paid all administrative expenses of the Plan, except for \$60,846 paid through forfeitures, with the exception of participant loan origination and maintenance fees.

(g) Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This ASU eliminates the requirement to categorize within the fair value hierarchy, as well as the requirement to make certain disclosures for, all investments whose fair values are measured using the net asset value per share practical expedient. The guidance is effective for non-public entities for fiscal years beginning after December 15, 2016 and interim periods within those years. Early adoption is permitted and retrospective

application is required. The adoption of this standard is not expected to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part III of this ASU is not applicable to the Plan. Part I of the ASU requires the Plan to measure fully benefit-responsive investment contracts only at contract value, eliminating the requirement to reconcile contract value to fair value if the two measures differ on the face of the financial statements. Part II of this ASU eliminates the requirements to disclose (i) individual investments that represent five percent or more of net assets available for benefits and (ii) the net appreciation or depreciation in fair value of investments by general type. In addition, the disclosure of information about fair value measurements shall be provided by general type of investment. The new guidance for plan investment disclosures is to be applied retrospectively. The provisions of this ASU are effective for fiscal years beginning after December 15, 2015. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Other than requiring a change to the Plan disclosures, the adoption of Part I and Part II of this amendment are not expected to have a material impact on the Plan's financial statements.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the information which was certified by the Trustee as being complete and accurate, including investments at fair value reported in the statements of net assets available for plan benefits, total investment income, notes receivable from participants and interest income on notes receivable from participants, as reported in the statement of changes in net assets available for plan benefits, the information disclosed in Note 4, and all information presented in the supplemental schedule, schedule H, line 4i – schedule of assets (held at end of year). The Plan's auditors performed no auditing procedures other than agreeing these amounts to the certified trustee statements.

5. FAIR VALUE MEASUREMENTS

Valuation techniques used to measure fair value use a hierarchy, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market funds: Valued by quoted net asset value (NAV) in an active market at year end.

Common and preferred stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment contract with insurance company: PRIAC determines the contract value of the fully benefit responsive investment contract, which is the best estimate of fair value. Contract value represents contributions made under the contract, plus earnings, less losses, participant withdrawals, and administrative expenses. The guaranteed credit rate used to calculate earnings is the only significant unobservable input used to determine the fair value. Refer to Note 6 for the guaranteed credit rate.

Prudential Day One IncomeFlex Target Funds and Prudential Day One Target Funds: Plan assets are represented by a “unit of account” and a per unit value whose value is the result of the accumulated values of underlying investments. The underlying investments are valued in the following ways:

Equity securities (stock): Valued at the closing price reported on the active market on which individual securities are traded.

Bonds: Securities are priced by industry standard vendors, such as Interactive Data Corporation, using inputs such as benchmark yields, reported trades, broker/dealer quotes, and issuer spreads. The pricing vendor also monitors market indices and industry and economic events, including credit rating agency actions. Prices are reviewed to ensure comfort and can be challenged with the vendor and/or overridden if the advisor believes that the different price would be more reflective of fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investment Contract with Insurance Company is maintained by PRIAC. PRIAC holds the contributions in a general account and is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis. In 2015 and 2014, the minimum crediting rate under the contract was 1.50%.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The contract is directly between the Plan and PRIAC. The repayment of principal and interest credited to participants is a financial obligation of PRIAC. Given these provisions, PRIAC considers this contract to be benefit responsive. The contract with PRIAC does not have any restrictions that limit the Plan's ability to collect the full contract value. PRIAC may not terminate the contract or require the Plan to settle at an amount different than the contract value.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by the Trustee; therefore, these transactions qualify as party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code (the "Code").

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provision of ERISA. In the event of termination of the Plan, all participants become fully vested and the net assets of the Plan are to be distributed by the Trustee in accordance with the provisions of ERISA.

10. INCOME TAX STATUS AND PLAN AMENDMENTS

By letter dated April 29, 2014, the Internal Revenue Service (“IRS”) determined that the prototype sponsored by Prudential Insurance Company of America, and adopted by the Plan, was qualified under Section 401(a) of the IRC and is entitled to favorable tax treatment. The Plan was restated as of October 1, 2015, following receipt of the determination letter for the prototype Plan. The Plan’s management believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan qualifies under Section 401(a) of the IRC and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the relevant taxing authorities. The Plan does not have any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress.

11. PROHIBITED TRANSACTIONS

The United States Department of Labor (“DOL”) considers late participant contributions to be prohibited transactions. The employer is required to remit participant contributions to the Plan as of the earliest date on which such amounts can reasonably be segregated from the employer’s general assets, but in no event later than fifteen business days after the end of the month in which the contributions were withheld. Therefore, any amount remitted after such number of days is considered late. It was determined during the year ended 2015, the Plan Sponsor inadvertently failed to make deposits of approximately \$446,773 of participant contributions within the timeframe required. Participant accounts were properly credited with the amount of investment income for prior earnings that would have been earned had the participant contributions been remitted within the required DOL timeframe.

12. SUBSEQUENT EVENTS

Subsequent events have been evaluated up to October 14, 2016, the date the financial statements were available to be issued. There were no events requiring recognition or additional disclosure in these financial statements.
