Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements

1. Plan Description

The following description of the Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Riesbeck Food Markets, Inc. (the Company). An eligible employee is any person employed by the Company who has one year of service and is age twenty-one (21) or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees may enter the Plan during the month they become eligible. The Plan was restated during 2015 to comply with certain regulatory requirements, however, plan participation requirements are substantially unchanged.

Contributions

Participants may contribute on a pre-tax basis up to 50% of their compensation, limited by the provisions of the Internal Revenue Code (IRC) and other applicable legal limits. In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to \$6,000 in 2015) may be made.

The employer may elect to provide matching contributions to the Plan. The Company's policy is to match each participant's contribution up to an amount equal to 1% of the participant's compensation for 2015. The Company may also make an annual, discretionary profit sharing contribution. For the year ended December 31, 2015, no discretionary contributions were made to the Plan.

The Plan offers a cash or deferred arrangement. Under the cash or deferred arrangement, each participant may elect to have the Company pay a portion of their contribution directly to them in cash. Each participant's share of the cash or deferred contribution is the percentage of the total cash or deferred contribution which bears the same ratio that their compensation for the plan year bears to the total compensation of all participants for the plan year.

Participant Accounts

The plan administrator maintains separate accounts directed by each participant. Each participant's account is credited with their voluntary contribution and with an allocation of the Company's contributions and plan earnings. Allocations of the Company's contributions are based on employee contributions or compensation, as applicable. Allocations of plan earnings are based on actual earnings on participant-directed investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements (Continued)

1. Plan Description (Continued)

Vesting

Participants are immediately vested in their contributions and earnings thereon. The vested portion of amounts received from the Company's matching and discretionary contributions, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service. Upon a participant's separation from the Plan, any nonvested portion of their account is subsequently deemed a forfeiture, and remains in the Plan for the benefit of remaining participants.

Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum amount equal to the vested value of the participant's account. Unless a lump-sum distribution is required by the Plan, participants may elect to receive alternate forms of distributions as defined by the plan document.

At December 31, 2015 and 2014, amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid were immaterial.

Notes Receivable From Participants

Participants may borrow up to the lesser of 50% of their vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance during the previous 12 months minus any outstanding loan balance on the date a new loan is made. Participants may have no more than two loans outstanding at any time. The minimum amount a participant may borrow is \$1,000. Repayment terms generally may not exceed five years unless the loan is used for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid through payroll deductions.

Forfeitures

Nonvested accounts are forfeited upon participants' terminations. Forfeited amounts may be used to reduce future contributions made by the Company. The balance in the forfeiture account that was available to offset future contributions was approximately \$7,500 at December 31, 2015.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are maintained on the modified cash basis of accounting. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America (GAAP). Under the modified cash basis of accounting, the Plan records investments at fair value utilizing GAAP guidance and notes receivable at amortized cost. Receivables and payables from open trades, participant deferrals and excess contributions are not recorded.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 – Observable inputs such as quoted prices in active markets for identical investments that the Plan has the ability to access.
- Level 2 – Inputs include:
 - o Quoted prices for similar assets or liabilities in active markets;
 - o Quoted prices for identical or similar assets or liabilities in inactive markets;
 - o Inputs, other than quoted prices in active markets, that are observable either directly or indirectly;
 - o Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

- Level 3 – Unobservable inputs in which there is little or no market activity for the asset or liability, which require the reporting entity to develop its own estimates and assumptions relating to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

Fixed annuities are valued daily based upon the valuation method disclosed in the annuity contract as calculated by the annuity provider, and are classified within Level 2 of the fair value hierarchy.

The Plan's investment in a collective trust (The Federated Capital Preservation Fund or "the Fund") holds interests in fully benefit-responsive contracts. The Fund is valued using net asset value (NAV) provided by the trustee on the last day of the Plan's year end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. At December 31, 2015 and 2014, the Fund was valued using \$10 for the NAV per unit. At December 31, 2015, the Fund holds guaranteed investment contracts (GICs), separate account GICs and synthetic GICs. In relation to these investments, the Plan has no unfunded commitments. Also, the Plan, along with its participants, can exchange shares with minimal restrictions and can do so daily. However, in the event of a complete withdrawal by the Plan from its common collective trust fund investments, trustees may exercise certain rights that would preclude complete withdrawal for a period of up to 12 months.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The cost of investments sold, distributed, or forfeited is determined using the specific-identification method. Investment purchases and sales are accounted for on a settlement-date basis. Investment income and contributions are recognized when received, and disbursements are recognized when made.

Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amount reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded when received. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in the fair values of investments.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, as provided by the plan document. Generally, the Company pays all administrative expenses on behalf of the Plan.

Benefit Payments

Benefits are recorded when paid.

Implementation of Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate NAV per Share (or Its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the NAV practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the NAV practical expedient. For employee benefit plans, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Plan has elected to early adopt ASU 2015-07. As a result, the collective trust measured at NAV as a practical expedient as of December 31, 2014 was removed from the leveling table in Note 3.

2. Summary of Significant Accounting Policies (Continued)

Implementation of Recently Issued Accounting Standards (Continued)

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and, accordingly, removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value (NAV) per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan has elected to early adopt the accounting guidance. As a result, the footnote disclosing investments at or greater than 5% as of December 31, 2014 was removed. Additionally, the disaggregation of investments at December 31, 2014 in Note 3 was removed.

Consideration of Subsequent Events

The Plan's management evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 14, 2016, the day the financial statements were approved and authorized for issue.

3. Investments

The following tables set forth the fair value of the Plan's assets measured at fair value on a recurring basis, by level, as described in Note 2 at December 31:

<i>As of December 31, 2015</i>	Level 1	Level 2	Total
Mutual funds	\$ 10,072,737	\$ -	\$ 10,072,737
Fixed annuities	-	83,382	83,382
Total assets in the fair value hierarchy	10,072,737	83,382	10,156,119
Collective trust measured at net asset value*	-	-	1,329,689
Investments at Fair Value	\$ 10,072,737	\$ 83,382	\$ 11,485,808

3. Investments (Continued)

<i>As of December 31, 2014</i>	Level 1	Total
Mutual funds	\$ 10,162,720	\$ 10,162,720
Total assets in the fair value hierarchy	10,162,720	10,162,720
Collective trust measured at net asset value*	-	1,586,906
Investments at Fair Value	\$ 10,162,720	\$ 11,749,626

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit a reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for plan benefits.

4. Certification of Financial Information

Great-West Trust Company, LLC, the custodian of the Plan, has certified that the investment information related to mutual funds and the collective trust summarized in the statements of net assets available for plan benefits as of December 31, 2015 and 2014 and the statement of changes in net assets available for plan benefits for the year ended December 31, 2015 is complete and accurate.

5. Tax Status

In 2015, the Plan was restated and became a prototype plan of Great-West Trust Company, LLC. Prior to the restatement, the Plan was a prototype plan of Retirement Plan Service Company of America, a division of Federated Investors, Inc. The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since obtaining the determination letter; however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Parties-in-interest Transactions

Certain plan assets are invested in shares of mutual funds managed by WesBanco, Inc., trustee of the Plan, and Great West Trust Company, LLC and Federated Investors, Inc. who established the plan prototype as discussed in Note 5. These transactions qualify as party-in-interest transactions. These transactions are not, however, prohibited under Section 408(b) of ERISA regulations.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries at no cost to the Plan.

Riesbeck Food Markets, Inc. Profit Sharing 401(k) Plan

Notes to the Financial Statements (Continued)

7. Reconciliation of Financial Statements to Schedule H of Form 5500

The adjustment from fair value to contract value for fully benefit-responsive investment contracts was not recorded on Schedule H of Form 5500 for the year ended December 31, 2014. As a result of the Plan's implementation of new accounting guidance regarding the fair value of the Plan's investment in the collective trust, these adjustments are no longer necessary.

The following is a reconciliation of net appreciation and other income in fair value of investments per the financial statements for the year ended December 31, 2015 to Schedule H of Form 5500:

<i>December 31,</i>		2015
Net investment income per financial statements	\$	162,735
Add: Adjustment from fair value for interest in collective trust relating to fully benefit-responsive investment contracts		2,490
Net Assets Available for Plan Benefits Per Schedule H of Form 5500	\$	165,225
