Note 1 - Description of the Plan:

The following description of the AKF Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), covering all full time employees of the Company. The Plan is sponsored by AKF Group, LLC (the "Company").

Plan Administration - The administration of the Plan ("Plan Administration") is performed by the Investment Committee. The Company and Trustees serve as fiduciaries of the Plan. The Investment Committee has responsibility for reviewing the performance of the Plan investments.

Contributions - Full time employees are eligible to participate on the first day of the month which coincides with or following having reached age 21. Temporary employees and interns that work less than 1,000 hours in a year become eligible to participate after completing one year of service and have reached age 21. Eligible participants may elect to contribute pre-tax and Roth deferrals up to $18,000 of annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions during that year. Participants direct the investment of their contributions into various investment options offered by the Plan. There were no employer contributions for the year ended December 31, 2015.

Vesting - Participants are vested immediately in their own contributions and actual earnings thereon. A participant is 100% vested in the Company's contributions after one year of credited service.

Participant Accounts - Individual accounts are established for each plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings/losses, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant or in the case of death the designated beneficiary, may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum, or in annual installments over a period of not more than their assumed life expectancy or the assumed life expectancy of their beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If death occurs prior to retirement, the participant's account is paid to the designated beneficiary.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures of nonvested terminated participants' accounts are used to restore participant accounts, offset Plan administrative expenses, and finally reduce the Company's future contributions. At December 31, 2015 and 2014, there were no forfeited nonvested amounts.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in the Statement of Changes in Net Assets Available for Benefits during the reporting period. Accordingly, actual results as determined at a later date, may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may invest in a trust that holds securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Cash and Equivalent - Cash and equivalent includes a money market fund and other highly liquid short-term investments purchased with maturities of three months or less.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded which is classified as a deemed distribution in the year recorded.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses inclusive of management fees are included in net depreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service rules and regulations. All contributions to the Plan will be suspended for six months following a hardship withdrawal.

Note 3 - Information Certified by the Trustee:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Trustee has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

a) Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.

b) Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

c) Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Stable Pooled Fund:

The Plan has assets invested in the Stable Pooled Fund ("SPF"), which is offered through the Diversified Investment Advisors Collective Trust managed by Transamerica Retirement Solutions, LLC ("Transamerica"). The SPF contract value is a relevant measure attribute since the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits reflect adjustments from fair value to contract value at December 31, 2015 and 2014.

As described in Note 2, because the funds are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the SPF. Contract value, as reported to the Plan, represents contributions made to the fund, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield earned by the SPF for 2015 and 2014 was .95% and 1.40%, respectively. The crediting interest rate was approximately 1.79% and 1.64% for 2015 and 2014, respectively. The fair market value of the SPF was $3,109,172 and $3,348,988 at December 31, 2015 and 2014, respectively.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) cessation of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

If the Plan's participation in the SPF is terminated, which requires receipt of written notice from the plan's authorized representative. Transamerica will withdraw the plan's interest in the SPF and pay such amount on the Date of Transfer as directed by the plan's authorized representative. The Date of Transfer will be within twelve months following the date Transamerica receives notice of the plan's termination of participation in the SPF. On the business day prior to the Date of Transfer, Transamerica will withdraw the number of units in the SPF which are attributable to the plan, and on the Date of Transfer, an amount, equal to the number of units withdrawn multiplied by the value of each unit as of the date of withdrawal, will be transferred as directed by the authorized representative of the plan. Note: the value of a unit may fluctuate so that an investor's unit, when redeemed, may be worth more or less than its original cost.

Note 5 - Fair Value Measurements:

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The carrying values of contributions receivable included in the Statements of Net Assets Available for Benefits at December 31, 2015 and 2014 approximate fair value. These assets are not included in the following tables. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Common collective trust: Stable Pooled Fund*: Investments in regulated investment companies or other trust pooled funds are valued at the net asset value per share/unit on the valuation date. The underlying assets of the trust are normally valued based on their closing sales price or, in the absence of sales, at their reported bid price.
- *Mutual funds*: Valued at the closing price in the active market in which the fund is traded.
- *Cash and equivalent*: Valued at the closing price in a similar market in which the fund is traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by the level, within the value hierarchy, the Plan's investments at fair value are as follows:

Investments at Fair Value as of December 31, 2015

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015, the cash and equivalent was transferred from Level 1 to Level 2 as it was determined the fair value calculation for the investment did make use of observable inputs in an active market for similar assets. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

Fair Value of Investments in Entities that Use Net Asset Value:

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2015 and 2014.

	Fair Value		Unfunded	Redemption	Redemption
	2015	2014	Commitments	Frequency	Notice Period
Stable Pooled Fund	$ 3,109,172	$ 3,348,988	None	Daily	12 months

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of the Internal Revenue Code (IRC). In the event of Plan termination, participants' contributions remain fully vested and Company contributions become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

Note 7 - Notes Receivable from Participants:

Participants may obtain loans from the Plan up to 50% of their vested account balance or a maximum of $50,000, whichever is less. Loans bear a reasonable interest rate at prime rate and are collateralized by a participant's account balance. Loans are generally payable through payroll deductions within five years, from the date granted unless it is for the purchase of a principal residence.

Note 8 - Tax Status:

The Plan was written on an IRS pre-approved Volume Submitter Document, which obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9 - Investments:

Investments that represent 5% or more of the Plan's net assets are as follows:

Note 11 - Subsequent Events:
