Notes to Financial Statements
December 31, 2015 and 2014

1. Description of the Plan

The following description of the SKF USA Inc. Pre-Tax Accumulation of Capital for Employees Plan Single Plan A (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that commenced January 1, 1985. It covers all salaried and nonunion employees of SKF USA Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan was amended to provide technical legal changes and the following substantive changes:

Effective May 1, 2015, ERIN Engineering and Research, Inc. ("ERIN") was sold and the Company made a one time contribution of four percent of each participant's earnings from January 1, 2015 through April 30, 2015 to the Plan on behalf of each participant who was an ERIN employee who had a termination of employment on May 1, 2015. ERIN participants became 100 percent vested in their company contributions at the time of the sale.

Effective December 31, 2015 the Company Stock Fund shall no longer be an available investment fund under the Plan.

Contributions

Each year, participants may contribute 2 percent to 50 percent of pre-tax annual compensation, as defined by the Plan up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also transfer amounts representing eligible distributions from other qualified plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company matches 50 percent on the first 6 percent of employee contributions. Participants direct the investment of all contributions into various investment options offered by the Plan.

Employee contributions are recorded in the period during which the Company makes payroll deductions from the employee's eligible wages. Matching contributions are recorded in the same period. Certain participants are eligible to receive an annual discretionary Company contribution which is included in contributions receivable at December 31st. The discretionary contribution was \$3,727,163 and \$4,145,444 for the plan years ended December 31, 2015 and 2014, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching and discretionary contributions and an allocation of the Plan's earnings. Participants are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and in their matching Company contributions and vest in their discretionary Company contributions after 3 years of credited service, if applicable, and actual earnings thereon.

Payment of Benefits

In event of death, disability, termination or retirement, a participant or beneficiary may elect to receive a lump-sum payment equal to the vested value of the participant's account, roll over the balance into an Individual Retirement Account ("IRA") or other qualified plan, or maintain the balance in the Plan until the April 1st following the year in which the participant reaches age 70.5, if the balance is greater than \$5,000. The Plan provides that under certain restricted conditions, participants may withdraw their vested account balance, or portion thereof without penalty, in accordance with the IRC.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50 percent of their vested account balance or \$50,000, whichever is less. A fixed rate of interest adjusted monthly is determined by the prime rate of interest plus 1 percent (ranging from 4.25 percent to 10.25 percent at December 31, 2015) as published on the first of the month in the Wall Street Journal. Interest payments are credited to the participant's account when received. Notes are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined, represents a forfeiture. Company contributions that are forfeited are used to reduce the amount of future Company contributions. At December 31, 2015 and 2014, available forfeited non-vested accounts totaled \$159,231 and \$143,113, respectively. In 2015 and 2014, \$74,633 and \$126,368 in forfeitures was used to offset the Company contribution, respectively.

Reclassification

Certain prior year disclosures have been reclassified to conform to the current year's presentation.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension and Benefits Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and expensed when they are incurred. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net (depreciation) appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 requires retrospective application and is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Management has elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards is not applicable to the Plan. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or (depreciation) for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III is not applicable to the Plan. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Part II require retrospective application. Management has elected to early adopt the provisions of Part II of this new standard. Accordingly, the provisions were retrospectively applied.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through September 29, 2016, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund is valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

SKF USA Inc. Pre-Tax Accumulation of Capital for Employees Plan Single Plan A

Notes to Financial Statements
December 31, 2015 and 2014

Target retirement trust funds are valued based on NAV per unit of participation in the fund. NAV is valued based on the fair value of the underlying assets of the fund derived from or corroborated by observable market data by correlation or other means, although not based upon quoted market prices in an active market. The funds invest principally in mutual funds in accordance with each fund's investment objective.

The collective trust fund is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Company Stock Fund was valued based upon the fair value of their underlying assets which were derived from quoted prices on the OMX Nordic Exchange Stockholm AB of the SKF-AB B shares.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

4. Administration of Plan Assets

The Plan's assets are administered under a contract with Vanguard Fiduciary Trust Company, the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

5. Related Party and Party In Interest Transactions

Certain of the Plan's investments are shares of mutual funds and a common collective trust managed by the Vanguard Group, an affiliate of Vanguard Fiduciary Trust Company, the trustee. Fees incurred by the Plan for the investment manager services are included in net (depreciation) appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances.

The Plan had a Company Stock Fund that was closed to new contributions. The Company Stock Fund held B shares of SKF AB, a registered security on the OMX Nordic Exchange Stockholm AB, of 0 and 462,566.594 for the plan years ended December 31, 2015 and 2014, respectively.

These transactions qualify as related party and party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in Company contributions.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter, dated December 16, 2013, that the Plan is designed and in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC. As a result, the plan administrator believes that the Plan is qualified and the trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits. As of December 31, 2015 and 2014, the Plan had investments of \$131,438,062 and \$190,750,178 respectively, that were concentrated in two and three funds, respectively.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Accordingly, Vanguard, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015, and the related investment activity reported on the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2015 and 2014.

10. Reconciliation of Financial Statements to Form 5500
