Retirement Savings Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Wheeling Island Gaming, Inc. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan sponsored by Wheeling Island Gaming, Inc. (“Plan Sponsor” or the “Company”) and is administered by Delaware North Companies, Inc.

As defined by the Plan document, full time non-union employees are eligible to participate after three months of service and upon reaching age twenty-one. All other employees of the Company are eligible to participate in the Plan following the completion of one year of service and upon reaching age twenty-one. Non-union participants are eligible to participate in the Company match after one year of completed service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (the “Code”).

Contributions – Union plan participants may elect to contribute between 1% and 15% of their annual compensation, while non-union plan participants may elect to contribute between 1% and 50% of their annual compensation, limited to the amount imposed by law. Participants age 50 or older may also elect to make a catch-up contribution limited to the amount imposed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (i.e., rollovers). Rollover contributions for the years ended December 31, 2015 and 2014 were \$0 and \$48,169 respectively.

In accordance with the Plan document, the Company matches 100% of a plan participant’s voluntary contribution up to 3%, plus 50% of a participant’s voluntary contribution from over 3% to 5%. Such contributions comply with the Plan’s safe harbor provisions. The annual profit sharing contribution by the Company is equal to the sum of .25% of the total pari-mutuel pool (handle) for each televised racing day during the Plan year; plus 1% of the signal transmission fees; plus 4% of 24% of table game receipts; plus 1% of the net video lottery terminal income for the year and interest income earned on these amounts. Each participant eligible for Company contributions receives an equal portion of the annual contribution. Eligible non-union employees may also receive an equal portion of a discretionary contribution, if made, in addition to the annual contribution. There were no discretionary contributions made for the years ended December 31, 2015 and 2014.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Company contributions, and earnings on the participant-directed investments. Participant accounts are decreased by participant distributions, losses on the participant-directed investments and certain administrative expenses, if applicable. The allocation of earnings and losses to participant accounts is based on the value of an individual account in relation to the total assets of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

1. Description of Plan (continued)

Vesting – Participants are immediately fully vested in their voluntary salary deferral, rollover contributions, safe harbor matching Company contributions and actual earnings thereon. Vesting in Company profit sharing or fixed contributions and actual earnings thereon is based on years of service. Participants vest in Company profit sharing or fixed contributions at the rate of 20% per year of service and become fully vested after five years.

Notes Receivable from Participants – Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms shall not exceed 5 years or a maximum of 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are required to be repaid in equal installments over the term of the loan.

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive installment distributions or a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants older than age 59½. Hardship withdrawals, as defined by the Code, are available to participants only from their deferral contributions account. If a hardship withdrawal is made, participants' eligibility to make contributions to the Plan is suspended for six months.

Tax Status – The Plan received its latest determination letter from the Internal Revenue Service ("IRS") dated May 11, 2005, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan was amended and restated in 2015. However, the Plan administrator believes that the Plan is operating in compliance with the requirements of the Code. Therefore, the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

1. Description of Plan (continued)

Forfeitures – The non-vested balances of participants who have ceased employment with the Company are forfeited upon the occurrence of a one-year break in service. In accordance with the Plan document, forfeitures arising during any plan year may be used to reduce the Company's contributions and pay the Plan's administrative expenses. Forfeited amounts added to participant accounts totaled \$125,333 and \$84,598 for the years ended December 31, 2015 and 2014, respectively.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts as of the effective date of termination.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan's investments consist of mutual funds and a stable value fund. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Units held in the stable value fund consist of holdings in a fully benefit-responsive investment contract and is reported at contract value in the accompanying Statements of Net Assets Available for Benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized net gains and the unrealized net appreciation of those investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any unpaid accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Substantially all expenses of the Plan including investment advisory, legal expenses and audit fees are funded as a percentage of total assets under the provisions of the Plan. Loan maintenance and setup fees are paid directly from participant accounts.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds and units of a stable value fund managed by John Hancock Trust Company LLC (“John Hancock”). John Hancock is the Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks, such as interest, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes in the values of investments could materially affect participants’ account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Subsequent Events – The Plan has evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued.

Adoption of Accounting Standards Update – The Plan adopted the provisions of Accounting Standards Update No. 2015-12, Plan Accounting: Defined Contribution Plans (Topic 962, the “ASU”): Part II – Plan Investment Disclosures for the year ended December 31, 2015, which eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits and net appreciation/depreciation in fair value of investments by general type. In addition, the Plan adopted the disclosure provisions of Part I of the ASU, which removed the requirement to measure any fully benefit responsive investment contracts (FBRICs) at fair value. Such investments are recorded at contract value for financial statement presentation. The ASU also eliminates previously required footnote disclosures such as average yield and methodology for credited interest rate.

3. Information Certified by the Trustees (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate:

	<u>2015</u>	<u>2014</u>
Mutual funds, at fair value	\$ 10,152,610	\$ 10,116,356
Stable value fund, at contract value	2,068,269	2,200,236
Notes receivable from participants	<u>1,322,926</u>	<u>1,060,403</u>
	<u>\$ 13,543,805</u>	<u>\$ 13,376,995</u>

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	<u>2015</u>	<u>2014</u>
Investment income:		
Interest and dividends	\$ 251,209	\$ 287,547
Net (depreciation) appreciation in fair value of investments	<u>(182,975)</u>	<u>269,168</u>
	<u>\$ 68,234</u>	<u>\$ 556,715</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. Investments measured at Level 1 inputs include mutual funds totaling \$10,152,610 and \$10,116,356 at December 31, 2015 and 2014, respectively.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that utilized Level 2 inputs as its primary basis for calculating fair value as of December 31, 2015 and 2014.
- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary basis for calculating fair value as of December 31, 2015 and 2014.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fully Benefit-Responsive Investment Contract

The Plan maintains a fully benefit-responsive investment contract (the "Contract") with New York Life Insurance Company ("New York Life"), referred to as the Guaranteed Interest Account ("GIA"). Contributions to the GIA are invested in a broadly diversified fixed income portfolio within the New York Life general account, which is invested primarily in an array of securities and cash equivalent investments. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Retirement Savings Plan
Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contract (continued)

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by New York Life, represents contributions made under the Contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code; (2) premature termination of the Contract; (3) plan termination or mergers; (4) changes to the Plan's prohibition on competing investment options; (5) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; and (4) a material amendment to the agreements without the consent of the issuer.
