CRI Worldwide, LLC 401(k) Plan

Years Ended December 31, 2015 and 2014

NOTE A--PLAN DESCRIPTION

The following brief description of the CRI Worldwide, LLC 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of CRI Worldwide, LLC ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a safe harbor plan. On December 2, 2013, the Company (CRI Worldwide, LLC) was acquired by PRA Health Sciences and new management was put in place including new management of the CRI Worldwide, LLC 401(k) Plan.

Eligibility Requirements: Employees of the Company are eligible to become active members of the Plan upon reaching the age of 18 and upon the first day of the month following 30 days of employment.

Contributions: Each year, participants may contribute up to one hundred percent of pre-tax annual compensation as defined by the Plan. The Plan allows for traditional 401(k) accounts. Certain participants may also make catch-up contributions in accordance with IRS guidelines.

The Company makes a matching contribution equal to 100% of the participant's contribution up to 3% of the participant's compensation, as defined in the plan document. The Company matches 50% of the participant's compensation deferral contributions that are in excess of 3% of plan compensation and are 5% or less of plan compensation. The Company may make a contribution equal to at least 3% of a participant's compensation, which is 100% vested as a safe harbor non-elective contribution. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: At December 31, 2015 and 2014, forfeited nonvested accounts totaled $-0- and $-0- respectively.

Vesting: Participants are immediately vested in their elective deferrals, rollover contributions, qualified non-elective contributions and any safe harbor matching contributions plus actual earnings thereon.

Vesting in the Company profit sharing contribution portion of their accounts is based on years of service, as follows:

Years of Credited Service	Vested %
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTE A--PLAN DESCRIPTION--Continued

Funding Policy: The employer is generally required to pay its contribution to the Plan for each Plan year within the time prescribed by law, including extensions of time for the filing of the employer's federal income tax return for the fiscal year. However, employee elective contributions accumulated through payroll deductions shall be paid to the custodian as of the earliest date on which contributions can reasonably be segregated from the employer's general assets, but in any event, within the time prescribed by law. Furthermore, any additional employer contributions which are allocable to participants' accounts for a Plan year shall be paid to the Plan no later than the twelve-month period immediately following the close of such Plan year.

Benefit Payments: A participant may elect to receive an amount equal to the value of his or her vested interest upon termination of service due to death, disability, or retirement. Payment(s) may be made in a lump-sum distribution or in annual installments.

Notes Receivable from Participants: A participant may make a written application to the plan administrator for one or more loans from the Plan; however, a participant may only have one loan outstanding at any time. The maximum loan allowed to a participant is the lesser of 50% of the participant's vested account or $50,000. The minimum loan is $1,000. Participant loans are secured by the participant's account. Loan principal and interest are generally repaid through payroll deductions, with payments due not less than quarterly. Loans may be prepaid and become due upon termination of the participant's employment. Loans must be repaid within five years of the date of the loan. However, if the loan is used for purchase of a principal residence, the loan can be repaid over a period of not more than ten years. Interest is assessed at a fixed rate based on the rates available for similar loans from commercial lending institutions at the inception of the loan and is credited to the participant's account.

Hardship Withdrawals: Withdrawals due to financial hardship are permitted with the approval of the Administrative Committee for the following reasons: medical expenses, purchase of primary residence, post-secondary tuition payment, eviction from or foreclosure on principal residence, funeral expenses, or as otherwise provided by the Plan. Hardship withdrawals are limited to employee elective deferrals and earnings thereon.

Rollover Contributions: The Plan provides for rollover contributions from other qualified retirement plans, during the year ended December 31, 2015, there was $24,610 of rollover contributions from other qualified retirement plans.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The financial statements of the Plan are prepared on the accrual basis of accounting.

Recent Accounting Pronouncements Not Yet Adopted: In July 2015, the FASB (Financial Accounting Standards Board) issued ASU (Accounting Standards Update) 2015-12, *Plan Accounting: Defined Contribution Pension Plans*. This guidance simplifies the measurement of fully benefit-responsive investment contracts and disclosures about plan investments. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. The Plan is currently evaluating the impact of the adoption of this guidance.

Investment Contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Securities Valuation: Securities held by the various investment funds which are traded on a recognized stock exchange are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales-price on the national securities market. Securities traded on only over-the-counter markets are valued on bid and ask prices. Certain securities may be valued by one or more principal market makers. Restricted securities, securities for which market quotations are not readily available, and other assets are valued at fair value by the investment adviser.

Investment transactions are recorded on the settlement date. Dividend income is recorded as of the ex-dividend date. Interest income is recognized on the accrual basis.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions: Employer and employee contributions are accrued in the Plan year to which they relate.

Benefit Payments: Benefit payments are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net investment income.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE C--INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets.

NOTE D--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ASC 820 *"Fair Value Measurements"* are as described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D--FAIR VALUE MEASUREMENTS--Continued

Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE E--INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The fair value of the investment contract at December 31, 2015 and 2014 was $217,883 and $356,012, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2015	2014
Based on actual earnings	.78%	.80%
Based on interest rate credited to participants	.78%	.80%

NOTE F--RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Transamerica. Transamerica is the trustee and contract administrator of the Plan, therefore, related transactions qualify as exempt party-in-interest transactions. Fees paid to Transamerica by the Plan approximated $3,000 for the year ended December 31, 2015.

NOTE G--TAX STATUS

The Internal Revenue Service has ruled by a letter dated October 2003, that the nonstandardized prototype plan adopted by the Company qualified under the appropriate sections of the Code. Although, the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE H--PLAN TERMINATION

While the Company has not expressed an intent to terminate the Plan, it is free to do so at any time subject to the provisions of ERISA. The Company reserves the right to amend the Plan as conditions may require. However, neither through amendments, nor by termination, may any part of the Plan assets ever be returned to the Company. All assets of the Plan must be used for the exclusive benefit of participants.

The Company intends to merge the Plan with the PRA International 401(k) Plan effective January 1, 2017.

These reclassifications have not affected the change in net assets available for plan benefits or net assets as of December 31, 2015 and 2014 and for the year ended December 31, 2015.

NOTE J--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
