Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements

December 31, 2015

1. Description of Plan

The following description of the Autoliv ASP, Inc. Employee Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide eligible employees with an incentive to make systematic savings for retirement from current income through payroll deductions. The Investment and Compensation Committee (the Committee) is responsible for the general administration of the Plan. The Plan is subject to the provisions of the Internal Revenue Code (the Code), section 401(a) and the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Substantially all domestic employees of Autoliv ASP, Inc. (the Company) are eligible to participate in the Plan. Employees become eligible participants upon their date of hire, without satisfying any age or service requirements.

Contributions

Participation in the Plan is voluntary. Participants make contributions to the Plan of any whole percentage up to a maximum of 50% of base pay, not to exceed the Code's limit. Participants can elect to treat their contributions on a before and/or after-tax basis. The Company contributes an amount equal to 100% of the first 3% of the participants' compensation contributed to the Plan and 50% of the next 2% of participants' compensation contributed to the Plan. As a result of a Plan amendment effective August 1, 2014, this determination is made on a cumulative, annual basis.

Employee and employer contributions are allocated among any of the Plan's investment fund options in accordance with participants' elections. Participants may transfer amounts from one investment fund to another.

Effective January 1, 2011, the Plan was amended to allow Roth 401(k) contributions.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Unless the Plan's record keeper, Empower, is otherwise notified, all employees are automatically enrolled into an age appropriate target maturity strategy mutual fund at a contribution rate of 5% of base pay. The initial automatic deferral increases annually in 1% increments to a maximum of 10%, absent an alternate election made by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) the Plan's earnings, and is charged with an allocation of certain administrative expenses not paid by the Company. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in employee and employer contributions and earnings, if any, thereon.

Participant Loans

Active participants may obtain loans from the Plan. The maximum loan amount is subject to certain restrictions of the Code and the Plan's provisions, and each loan is secured by the participant's account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The interest rate on loans is the prime rate, as defined, plus 1%. Loan interest rates are reviewed monthly and adjusted prospectively. Principal and interest are paid through payroll deductions. If a participant terminates employment with the Company, the entire unpaid balance, including principal and interest, becomes due and payable. If the loan is not repaid, it will automatically be treated as a distribution to the participant after 90 days.

Benefit Payments

On termination of service, a participant may receive a lump-sum amount equal to the vested value of his or her account, or upon death, disability, or retirement elect to receive annual installments over a ten-year period. Benefits are recorded when paid.

Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Plan Record-Keeper and Trustee

For the period January 1, 2014 to July 31, 2014, Aon Hewitt was the Plan's record-keeper and The Northern Trust Company was the Plan's trustee. Effective August 1, 2014, Autoliv terminated its relationship with Aon Hewitt and the Northern Trust Company and contracted with J.P. Morgan Retirement Plan Services ("RPS") to be the record-keeper and J.P. Morgan Chase Bank N.A., to be the trustee for the Plan. Effective August 29, 2014 Great-West Life & Annuity Company acquired the equity interests of RPS pursuant to an agreement with the company's then parent, J.P. Morgan Invest Holdings LLC. RPS was then renamed Great-West Financial Retirement Plan Services, LLC. As a result of this purchase, Autoliv's record-keeper became Great-West Retirement Plan Services and the trustee/custodian became Great-West Trust Company. On October 30, 2014 Great-West branded the record-keeper services as Empower Retirement. As of December 31, 2015 and December 31, 2014 the record-keeper of the Plan is Empower Retirement and the trustee/custodian is Great West Trust Company.

Administrative Expenses

All administrative and general expenses of the Plan are paid by the participants of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate, amend, modify, or suspend the Plan at any time. In the event the Plan is terminated, the entire value of the investment funds shall be applied for the exclusive benefit of participants, and no part of the funds will revert to the Company. Upon termination of the Plan, the Company will have no obligation to continue making contributions to the Plan.

Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through participation in the New York Life Separate Account, a guaranteed investment contract fund. Investments in the accompanying statements of net assets available for benefits present the fair value of the New York Life Separate Account as well as the adjustment of the portion of the New York Life Separate Account related to fully benefit-responsive investment contracts from fair value to contract value.

Investment Valuation and Income Recognition

All of the Plan's investments are held in trust at Great-West Trust Company. Great-West Trust Company acts as the Plan's trustee and custodian.

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates that affect the amounts reported in the financial statements and accompanying notes and the supplemental schedule. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management has elected to not adopt this ASU early.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

In May 2015, the FASB issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management has elected to not adopt ASU 2015-07 early.

3. Investments

During the year ended December 31, 2015, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated in fair value as follows (in thousands):

Common and collective trust funds	\$ (930)
Mutual funds	<u>(2,859)</u>
	<u>\$ (3,789)</u>

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows (in thousands):

3. Investments (continued)

Other than the fair value of the New York Life Separate Account Guaranteed Investment Contract and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, and the net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Great West Trust Company, the trustee of the Plan.

The contract value of the New York Life Separate Account Guaranteed Investment Contract was certified as complete and accurate by the Great West Trust Company.

The New York Life Separate Account Guaranteed Investment Contract's fair value and contract value are as follows (in thousands):

	December 31	
	2015	2014
New York Life Separate Account Guaranteed Investment Contract, at fair value	\$ 136,294	\$ 134,594
New York Life Separate Account Guaranteed Investment Contract, at contract value	\$ 141,437	\$ 135,998

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Shares of mutual funds are valued at quoted market prices, which represent the net asset values (NAV) of shares held by the Plan at year-end. The fair values of participation units in common and collective trust funds are based on NAV, as the practical expedient, as determined by the common and collective trust fund issuers. The guaranteed investment contract is valued based on the fair market value of the underlying assets held in the separate account. Short-term investment fund units are purchased daily for any uninvested cash. These units are valued at par, which is equal to the redemption value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Autoliv ASP, Inc.
Employee Savings and Investment Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that it believes market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The following tables set forth by level, within the fair value hierarchy, information about the Plan's investments measured at fair value (in thousands):

5. Separate Account Guaranteed Investment Contract

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). The issuer maintains the contributions in a separate account. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4%. Pursuant to an agreement effective August 1, 2014 the Plan retains .25% of the total GIC value in an ERISA expense account which is used to cover expenses of the Plan. At the Company's discretion, unused earnings may be credited back to participants who hold, or have held, positions in the GIC during the period.

Fully benefit-responsive investment contracts are required to be reported at fair value in the Plan's statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value. Contract value represents the contributions under the contract plus reinvested income at the crediting rate less any withdrawals and expenses. Contract value is the

amount the participants would receive if they were to initiate permitted transactions under the terms of the Plan. The crediting interest rate for the investment contract is reset annually by the issuer based on market performance and cannot be less than zero.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The separate account guaranteed investment contract does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the Plan for the fully benefit-responsive investment contract for the year ended December 31 are:

	2015	2014
Average yields:		
Based on actual earnings	4.00%	3.95%
Based on interest rate credited to participants	4.00	3.90

6. Income Tax Status

The Plan has received a determination letter from the IRS dated June 27, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

6. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

Management has evaluated subsequent events that have occurred through October 12, 2016, the date the financial statements were available to be issued.
