Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of and Participants in
the Exelis Salaried Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Exelis Salaried Retirement Plan (the "Plan"), which comprise the statements of net assets available for pension benefits as of December 31, 2015 and 2014, the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Exelis Salaried Retirement Plan's net assets available for pension benefits as of December 31, 2015 and 2014, and the changes in net assets available for pension benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, management has elected early adoption of new accounting pronouncement ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Our opinion is not modified with respect to this matter.

EXELIS SALARIED RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

(In thousands)

1. DESCRIPTION OF THE PLAN

The following description of the Exelis Salaried Retirement Plan (formerly the ITT Salaried Retirement Plan) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit plan covering salaried employees of Exelis Inc. (the “Company”), a wholly owned subsidiary of Harris Corporation. Retirement income is provided through a percentage formula using final average compensation, benefit service, and an adjustment for Social Security. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Master Trust — The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as trustee of the Plan and administers the Plan’s investment assets. The Plan’s assets consist of an undivided interest in an investment account of the Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan’s proportionate share of such assets at December 31, 2015 and 2014.

Eligibility — All Company salaried employees that were hired prior to December 31, 2011, are eligible to participate upon the completion of one year of service and who are at least age 21.

Pension Benefits — Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplication of the participant’s final average compensation by a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 40 years, less applicable social security offset.

Participants are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date.

Death and Disability Benefits — A married employee who is a vested participant is automatically covered by the vested spouse's benefit that provides for spousal survivorship benefits in the event of the employee's death prior to becoming eligible for early or normal retirement benefits. Also, a participant who is eligible for early or normal retirement is automatically covered by a preretirement survivor's benefit that provides for survivorship benefits payable to the participant's named beneficiary in the event of the participant's death prior to benefit commencement date.

Plan Amendments — On June 10, 2013 the Plan was amended effective December 31, 2016, to freeze all benefit accruals for all persons entitled to benefits under the Plan and specifically to stop the accrual of "Benefit Service" and the crediting of "Compensation", as such terms are defined in the Plan document, on and after January 1, 2017, for any and all persons entitled to benefits thereunder.

401(h) Account — The Plan includes a medical benefit (health and welfare) component in addition to normal retirement benefits, to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC or the "Code"). A separate account has been established and maintained in the Plan for the net assets related to the health and welfare component ("401(h) Account"). In accordance with Section 401(h) of the Code, the Plan's investments in the 401(h) Account may not be used for, or diverted to, any purpose other than providing health and welfare benefits to retirees and participants. Any assets transferred to the 401(h) Account from the Plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the Plan. The related obligations for health and welfare benefits are not included in this Plan's actuarial present value of accumulated plan benefits but are reflected as obligations in the financial statements of Exelis Salaried Medical and Dental Plan, the Company's health and welfare benefit plan. Plan participants do not contribute to the 401(h) Account. Employer contributions or qualified transfers to the 401(h) Account are determined annually at the discretion of the Plan Sponsor.

In December 2012, the 401(h) Account was segregated into two 401(h) subaccounts. One for the funding designated for retiree medical expenses and the other for retiree prescription drug expenses. The Company began drawing down funds from the 401(h) Account to pay for qualified retiree medical and prescription costs in December 2012 and anticipates continuing drawing funds from the 401(h) Account going forward.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan, through the Master Trust, utilizes various investment instruments, including common stock, U.S. government securities, corporate debt instruments, limited partnerships, collective trust funds, and registered investment companies. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees. The Plan Sponsor provides accounting and other administrative services to the Plan and Master Trust at no charge.

New Accounting Pronouncements — The Plan adopted the FASB issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting (Topics 960, 962, and 965) – (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* Note "New Accounting Standards" in 2015. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value and clarifies the definition of fair value within the framework. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. The Plan's financial statements as of December 31, 2015 and December 31, 2014, were prepared with actual reported values for all level 3 assets. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Domestic and international equity* - which include common and preferred stocks, domestic listed and foreign listed equity securities, open-ended and closed-ended mutual funds, exchange traded funds (registered investment companies), are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. Also included within this asset category are common collective trusts (CCTs) comprised of common and preferred shares. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at net asset value (NAV) as of the measurement date. NAV is used as a practical expedient to estimate fair value. CCTs investing in common and preferred shares are classified as Level 2.
- *Private equity funds* - which include buy-out, mezzanine, venture capital, distressed asset, commodities, real estate and venture capital, are typically limited partnership investment structures and/or joint ventures. Private equity valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. NAV is used as a practical expedient to estimate fair value and is obtained from the audited financial statements provided by the fund manager.
- *Fixed income investments* - which include U.S. Government securities is generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, bids provided by brokers or dealers, or quoted prices of securities with similar characteristics. Also included within this asset category are (CCTs) comprised of corporate bonds and municipal obligations. CCTs are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported NAV as of the measurement date. NAV is used as a practical expedient to estimate fair value. CCTs investing in debt are classified as Level 2.

- *Hedge funds* - which include equity long/short, event driven, fixed income arbitrage and global macro, are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value and is obtained from audited financial statements provided by substantially all of the fund managers. Hedge funds that permit redemption on a quarterly or more frequent basis with 90 or fewer days notice are generally classified within Level 2 of the fair value hierarchy; all other hedge funds are classified as Level 3.
- *Other* - is primarily comprised of a hybrid international debt and equity fund valued at NAV and guaranteed insurance contracts valued at book value, which approximates fair value, calculated using the prior year balance adjusted for investment returns and changes in cash flows.
- *Cash and cash equivalents* - are primarily comprised of short-term money market funds valued at cost, which approximates fair value, or valued at quoted market prices of identical instruments.

The following table presents information regarding the nature and risks of the investments, including redemption restrictions for investments where fair value is based on the NAV as of December 31, 2015 and 2014 (in thousands):

	Fair Value		Redemption Frequency (If Eligible)	Redemption Notice Period (a)
	2015	2014		
Domestic equity	\$ 309,958	\$ 306,061	daily	N/A
International equity	270,764	289,040	daily	N/A
Private Equity (b)	796,765	1,025,675	N/A	N/A
Fixed Income Investments	331,818	105,369	daily	N/A

Total	<u>\$ 2,442,276</u>	<u>\$ 2,530,267</u>		

(a) Redemption restrictions vary by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time

(b) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.

The following table presents information regarding the unfunded commitments and redemption restrictions for partnerships and joint ventures held by the Plan as of December 31, 2015 and 2014 (in thousands):

	Unfunded Commitments		Redemption Frequency (If Eligible)	Redemption Notice Period
	2015	2014		
Private equity (a)				
Buyout funds (b)	\$ 135,932	\$ 149,749	N/A	N/A
Distressed asset investments (c)	23,586	24,731	N/A	N/A
Venture capital funds (d)	11,234	17,038	N/A	N/A
Mezzanine funds (e)	13,103	20,020	N/A	N/A
Commodities (f)	409	550	N/A	N/A
Real estate (g)	<u>4,932</u>	<u>4,932</u>	N/A	N/A
Total	<u>\$ 189,196</u>	<u>\$ 217,020</u>		

(a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party.

(b) Buyout funds are partnership investment vehicles that take a controlling interest primarily in private companies with the intent of developing them for future sale at a higher price to a strategic or financial buyer or through an initial public offering. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next three to 10 years.

- (c) Distressed asset investments are partnership investment vehicles that purchase debt or preferred equity instruments of companies that are distressed, near bankrupt, or bankrupt. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next seven to nine years.
- (d) Venture capital funds are partnership investment vehicles that provide seed or growth capital to start-ups and early stage companies, usually in high growth industries, such as information and clean technology, health care and biotechnology. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next six to nine years.
- (e) Mezzanine private equity funds provide mezzanine loans to companies that need capital but do not want to sell or dilute their equity interests. Mezzanine loans are subordinated debt or preferred equity securities that represent a claim on the borrower's assets, which is senior to the common equity but subordinate to senior secured and unsecured debt. The nature of the investments in this category is that distributions are received through coupon payments and the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next eight to 10 years.
- (f) Commodities are partnership investment vehicles that invest in businesses engaged in commodity related sectors, including as energy, natural resources, and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer, or through an initial public offering.
- (g) Real estate investments are partnership investment vehicles that invest in commercial, industrial, and residential real estate. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2015 and 2014.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2015.

The actuarial present value of accumulated plan benefits as of January 1, 2015 is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$ 2,688,431
Other participants	<u>1,013,453</u>
Total vested accumulated plan benefits	3,701,884
Nonvested accumulated plan benefits	<u>41,180</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,743,064</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2015, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2014	\$ 3,732,568
Increase (decrease) during the year attributable to:	
Benefits accumulated and other	38,791
Benefits paid	(323,166)
Interest	<u>294,871</u>
Actuarial present value of accumulated plan benefits at January 1, 2015	<u>\$ 3,743,064</u>

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the January 1, 2015 valuations were:

- Mortality: For 2015, the mortality assumption used is RP-2014 with Buck modified projection scale. The Buck Modified Projection Scale is a modified version of MP 2014 improvement scale using a grading period of 15 years to a long term improvement rate of 0.75%
- Retirement age: Age 65.
- Investment return was 8.25% per annum for 2015.
- Discount rate was 8.25% per annum for 2015.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

6. INTEREST IN MASTER TRUST

The net assets of the Master Trust at December 31, 2015 and 2014 are summarized in thousands as follows:

	2015	2014

401(h) account's interest in the Master Trust as a percentage of the total	<u>4.94 %</u>	<u>5.29 %</u>

The net investment earnings and change in net assets of the Master Trust for the years ended December 31, 2015 and 2014 are summarized below in thousands:

	2015	2014
Net (depreciation) appreciation in fair value of investments	\$ (164,028)	\$ 394,961
Interest income	9,814	514

Plan's interest in the Master Trust investment (loss) income	<u>\$ (102,161)</u>	<u>\$ 328,663</u>
401(h) account's interest in the Master Trust's investment (loss) income	<u>\$ (5,751)</u>	<u>\$ 20,708</u>

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of registered investment companies managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 25, 2002, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. On January 31, 2011, ITT Corporation filed a plan restatement with the IRS, and is awaiting their determination. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for pension benefits per the financial statements to the net assets available for benefits per the Form 5500 at December 31, 2015 and 2014 in thousands:

	2015	2014
Net assets available for pension benefits per the financial statements	\$ 3,835,944	\$ 4,129,384
Net assets held in defined benefit plan — 401(h) account	<u>214,567</u>	<u>248,174</u>
Net assets available for benefits per Form 5500	<u>\$ 4,050,511</u>	<u>\$ 4,377,558</u>

The net assets of the 401(h) account included in Form 5500 are not available to pay pension benefits but can be used only to pay retiree health benefits. The following is a reconciliation of the changes in net assets available for pension benefits per the financial statements to the net income per the Form 5500 for the years ended December 31, 2015 and 2014:

	2015	2014
(Decrease) increase in net assets available for pension benefits per the financial statements	\$ (293,440)	\$ 126,292
Net increase 401(h) account	<u>(33,607)</u>	<u>(8,486)</u>
Net income per Form 5500	<u>\$ (327,047)</u>	<u>\$ 117,806</u>

11. SUBSEQUENT EVENTS

For the year ended December 31, 2015, subsequent events were evaluated through October 13, 2016, the date the financial statements were available to be issued.

Schedule SB, Part V - Summary of Plan Provisions

Effective Date

January 1, 1976

Last Amended

January 1, 2014

Eligibility for Membership

All salaried employees age 21 with one year of service. The plan has been closed to new participants effective January 1, 2012.

Normal Retirement Allowance

Eligibility

Age 65.

Benefit

For the first 40 years of benefit service, a participant may elect either of the following benefit accruals:

1) Traditional Pension Formula

2% of final average salary (1.5% for employees who became participants after January 1, 2000) during the 5 years of service in the last 10 years giving the highest average, for each of the first 25 years of traditional formula service, plus 1.5% of such final average salary for traditional formula service between 25 and 40 years, reduced by 1.25% of the Social Security benefit multiplied by traditional formula service up to 40 years. Effective January 1, 2012, no new employees will be eligible to participate in the Plan.

2) Pension Equity Formula

Lump sum benefit based on the following percentages of final average salary: under age 30, 3% per year of service, age 30 - age 39, 4% per year of service, age 40 - age 49, 5% per year of service, age 50 and over, 6% per year of service. Total years credited cannot exceed 40. Effective January 1, 2012 (October 31, 2011 for ITT/Xylem employees), accrued percentage of final average salary and final average salary were frozen. Effective January 1, 2012, the rate of interest to be credited towards the lump sum benefit for Exelis employees shall be the 10-year Treasury rate as in effect on December 31 of the prior calendar year but not less than 3.25%.

An amendment effective January 1, 2012 provided employees a choice to accrue future benefits under (1) the Traditional Pension Formula, or (2) an age-based defined contribution plan. Effective January 1, 2012, the pension equity formula accruals option was no longer available.

Special Early Retirement Allowance

For employees who became participants before January 1, 2000, age 55 and 15 years of service or age 50 with age and service totaling 80 or more years. For employees who became participants after December 31, 1999 but before January 1, 2005, age 55 and 15 years of service.

Benefit

For pre-January 1, 2000 participants; accrued pension under the traditional formula can commence as early as age 50 and is reduced 5/12 of 1% for each month that payments commence prior to age 60, but not less than 75% of the unreduced benefit that would have been payable at age 60. For post-December 31, 1999 participants; accrued pension under the traditional formula can commence as early as age 55 and is reduced 5/12 of 1% for

each month up to 48 months that payments commence prior to age 62, and further reduced 1/3 of 1% for each month up to 12 months that payments commence prior to age 58, and further reduced 1/4 of 1% for each month that payments commence prior to age 57. Social Security reduction is not applied before age 62. Accrued pension under pension equity formula payable in the form of an actuarially equivalent annuity.

Standard Early Retirement Allowance

Eligibility

Age 55 and 10 years of service.

Benefit

Accrued pension deferred to age 65 or an immediate benefit reduced 1/4 of 1% for each month that payments commence prior to age 65. (For post- December 31, 2004 participants, the reduction is 6.67% per annum for retirements between ages 60 to 65, and further reduced 3.33% per annum for retirements before age 60.)

Social Security reduction is not applied before age 62 for pre-January 1, 2005 participants. Accrued pension under pension equity formula payable in the form of an actuarially equivalent annuity.

Vested Benefit

Eligibility

3 years of service.

Benefit

Accrued pension based on final average salary at termination.

Vested Spouse Benefit

Eligibility

Death after becoming eligible for a vested benefit and prior to Benefit Commencement. Benefit commences no earlier than earliest retirement date which could have been elected by deceased participant.

Benefit

Accrued pension under traditional formula at time of death, adjusted as if participant had retired on date payments to spouse commence under joint and 50% survivorship option, and then died. For a terminated vested participant there is a charge for each year coverage is in effect after termination date. Coverage for which a charge is made may be waived with consent of the spouse. Accrued pension under pension equity formula in the form of actuarially equivalent annuity or lump sum payment equal to participant's full pension equity benefit.

Automatic Pre-Retirement Survivor Benefit

Eligibility

Death after earlier of age 65 or age 55 with 10 years of service and prior to Benefit Commencement.

Benefit

50% of accrued traditional pension at time of death, no adjustment for early commencement. Accrued pension under pension equity formula in the form of actuarially equivalent annuity or lump sum payment equal to participant's full pension equity benefit.

Supplemental Survivor's Benefit

Eligibility

Election available upon the earlier of age 65 or age 55 with 10 years of service. Charge for coverage is 1/2 of 1% for each year in effect.

Benefit

25% of accrued traditional pension, adjusted if beneficiary is more than 5 years younger. Payable to same beneficiary as under Automatic Pre-Retirement Survivor Benefit.

Normal Form of Benefit

Single

Life annuity.

Married

Actuarial equivalent 50% joint and survivor annuity, unless elects otherwise, for vested participants and post-December 31, 2004 participants; 90% Spouse's Contingent Annuity Option for pre-January 1, 2005 participants.

Spouse's Contingent Annuity Option

- (1) 90% (adjusted for difference in ages of more than 5 years) of benefit with 50% of the unreduced benefit payable to spouse after retired member's death.
- (2) 80% (adjusted for difference in ages of more than 5 years) of benefit with the reduced benefit payable to spouse after retired member's death.

Spouse's Contingent Annuity options are not available for vested benefits for participants hired on or after January 1, 2005.

Standard Contingent Annuity Option

- (1) 100% joint and survivor annuity.
- (2) 50 % joint and survivor annuity.
- (3) 75 % joint and survivor annuity.

Small Lump Sum

Present value of accrued benefit totaling \$5,000 or less, paid in the form of lump sum.

Maximum Benefit

ERISA maximum as amended by the Tax Reform Act of 1986, the Retirement Protection Act of 1994 (RPA '94) and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and IRC Section 401(a)(17) compensation limitations as amended by the Omnibus Budget Reconciliation Act of 1993 and EGTRRA.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

Statement of Enrolled Actuary

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such future differences.

Summary of Changes from the January 1, 2014 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA. This change increased the Funding Target by approximately \$140,400,000.
- The mortality assumption was updated according to the projection specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. This change increased the Funding Target by approximately \$6,600,000.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

¹ For active participants not eligible for retirement.

Non-Prescribed Funding Assumptions and Methods (continued)

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2015 Expected Return	8.25%	6.81%	6.81%
2013 Expected Return	8.25%	6.99%	6.99%
2012 Expected Return	8.50%	7.16%	7.16%

Statement of Enrolled Actuary

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such future differences.

Summary of Changes from the January 1, 2014 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA. This change increased the Funding Target by approximately \$140,400,000.
- The mortality assumption was updated according to the projection specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. This change increased the Funding Target by approximately \$6,600,000.
