Independent Auditors' Report

Report on the Financial Statements

We have audited the accompanying financial statements of the GBQ Holdings, LLC Cash Balance Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of GBQ Holdings, LLC Cash Balance Plan as of December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedules of assets (held at end of year) at December 31, 2015 and reportable transactions for the year ended December 31, 2015 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Plan Description

The following description of the GBQ Holdings, LLC Cash Balance Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a cash balance defined benefit pension plan covering all employees of GBQ Holdings, LLC (the Company). Certain groups of employees are excluded per the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Participant's Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical cash balance accounts. Each participant's hypothetical cash balance account is credited with the participant's unit cash balance benefit for that Plan year. Interest is credited to the participant's hypothetical cash balance account on each valuation date after the initial valuation date. Interest is credited based on the value of the participant's hypothetical cash balance account as of the preceding valuation date. Interest is credited at the applicable interest rate, as defined by the Plan agreement, and is credited to the participant's normal retirement age.

Credits made to the participant's hypothetical cash balance account may not be withdrawn during employment. Hypothetical cash balance accounts are intended to be bookkeeping accounts only, and neither the maintenance nor the making of credits are to be construed as an allocation of assets of the Plan to, or a segregation of such assets in, any such hypothetical cash balance account, or otherwise creating a right to any individual to receive specific assets of the Plan. Benefits provided under the Plan are to be paid in the amounts, in the forms, and at the times provided under the terms of the Plan.

Retirement, Termination, Disability and Death Benefits

The normal retirement benefit of a participant who retires on their normal retirement date may receive a monthly pension commencing on their normal retirement date for the life of the participant in the amount equal to the actuarial equivalent of the vested cash balance benefit which will be based on a 5% interest rate assumption. The normal retirement benefit of each participant may not be less than the largest periodic benefit that would have been payable to the participant upon separation from service or prior to normal retirement age. A participant may elect to have payment made in the form of a single-sum payment or an annuity payment.

A participant may elect to receive benefits after the normal retirement date while still employed. The time and manner of payment of benefits will be determined in accordance with the provisions of Article VII, benefit payments during life, of the Plan agreement. Regardless of whether the participant begins to receive benefits while still employed, active participation in the Plan will continue and contributions will continue to be made for the participant's benefit.

Plan Description (continued)

Retirement, Termination, Disability and Death Benefits (continued)

If a participant's employment terminates and the participant does not qualify under any alternative section in the Plan agreement, then benefits will be payable in accordance with the provision of Article VII in the Plan agreement.

If employment of a participant terminates due to permanent disability, the participant will become 100% vested and be entitled to payment of their vested cash balance benefit. A distribution on account of a participant's permanent disability will be made in accordance with Article VII in the Plan agreement.

If a participant dies while still an employee, the participant will be 100% vested. If a participant dies after employment terminates, no additional vesting will occur.

Vesting

Upon termination of service for any reason other than death, disability, or retirement, a participant may be entitled to a portion of their accrued benefit in accordance with the schedule below.

<u>Years of Credit</u>	<u>Vested Portion of Accrued Cash Balance Benefit</u>
0 - 2	0%
3 or more	100%

Years of credit are measured as Plan years starting with the Plan year of hire. Only years during which participants are credited with at least 1000 hours of service are counted.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein; and disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to service rendered by the employees up to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) present employees, (b) retired, disabled, or terminated employees with vested rights, and (c) beneficiaries of present, retired, or terminated employees. Benefits payable under all circumstances (retirement, disability, termination of employment and death) are included, to the extent they are deemed attributable to the employee service rendered to the valuation date.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on the next page for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan or the Company, at the discretion of the Company.

Funding Policy

Contributions are made by the Company based on guidelines set by the Plan's independent actuary. Each year, the Company may contribute to the Plan, the amount actuarially determined to be necessary to fund all of the retirement and other benefits provided by this Plan and to satisfy the minimum funding standard, utilizing a reasonable and consistent method of funding. The assets of the Plan are to be valued at least annually and the actuarial determination of the funding requirements are to be performed on the valuation date. During 2015 and 2014, the Company elected to make contributions of \$1,150,995 and \$831,449, respectively, which exceeded the funding requirements, as defined by the actuary.

Investments

The following table presents the fair value of investments at December 31, 2015.

<i>Mutual Funds</i>	\$ 1,083,910
<i>Money Market Fund</i>	<u>6,724</u>
	<u>\$ 1,090,634</u>

The Plan's mutual funds (including gains and losses on investments purchased and sold, as well as held during the year) depreciated in value by \$10,612 during the year ended December 31, 2015.

Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data or correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

GBQ HOLDINGS, LLC
CASH BALANCE PLAN

Notes to Financial Statements

December 31, 2015

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds: Valued at quoted market prices.

Cash – interest-bearing: Valued at cost which equals fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	<u>Level 1</u>	<u>Total</u>
Mutual funds	\$ 1,083,910	\$ 1,083,910
Cash – interest-bearing	<u>6,724</u>	<u>6,724</u>
Total assets at fair value	<u>\$ 1,090,634</u>	<u>\$ 1,090,634</u>

Actuarial Present Value of Accumulated Plan Benefits

The significant assumptions underlying the actuarial computation are as follows:

Effective interest rate	6.27% per year
Mortality basis	Healthy: RP-2000 Static Mortality Table
Assumed Retirement	Normal Retirement Age of 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

GBQ HOLDINGS, LLC
CASH BALANCE PLAN

Notes to Financial Statements

December 31, 2015

Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, who uses the Unit Credit funding method to adjust the accumulated plan benefits to reflect time value of money (through discounts for interest) and the probability of payment (by means of decrements of such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Income Tax Status

The Plan is required to file for a tax determination letter from the Internal Revenue Service (IRS) any time after February 1, 2016 since the origination of the Plan was on January 1, 2014. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the accrued benefit of each participant who has not incurred five consecutive one-year breaks in service as determined on the termination date and who has not received a distribution of the participant's vested cash balance benefit, will be fully vested and non-forfeitable. Each participant who has incurred five consecutive one-year breaks in service but has not yet received a distribution of vested cash balance benefit will be vested only to the extent that the participant was vested as of the date of the participant's termination of employment and will not be entitled to any additional vesting as a result of the Plan's termination. Each terminated participant who has received a distribution of vested cash balance benefits, regardless of whether the participant has incurred five consecutive one-year breaks in service will not be entitled to any additional vesting as a result of the Plan's termination. Participants will not accrue any additional benefits under the Plan after the termination date specified in the resolution terminating the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide the accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Change in Accounting Principle

For the year ended December 31, 2015, Plan management has elected to adopt the provisions of *ASU No. 2015-12 – Plan Accounting: Defined Benefit Plans (Topic 960)*, which reduces the complexity of Plan investment disclosures. Under the update, the Plan may present investments measured using fair value aggregated by general type, rather than present detailed categories under each general type. In addition, the Plan is no longer required to separately present those investments that represent 5% or more of Plan net assets. The updated disclosures have been applied as of and for the years ended December 31, 2015 and 2014 and have no effect on the changes in net assets as previously reported.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur, in the near term and that such changes could materially affect participants' hypothetical account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
