Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Nivel Parts 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Nivel Parts, LLC (the Company, Plan Sponsor or Employer) who meet the eligibility requirements. Employees become eligible to participate in the Plan after completing six months of service and reaching age 21. Employees covered by a collective bargaining agreement are excluded from the Plan. The Plan Administrator is responsible for oversight of the Plan. The Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Plan participants may make contributions to the Plan up to the dollar limitation as defined by the Internal Revenue Service (IRS) for each taxable year but not greater than 90% of the participant's compensation. Participant contributions are limited to a maximum deferral of \$18,000 for 2015 as determined by the IRS. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make after-tax Roth contributions to the Plan and rollover amounts representing distributions from other eligible retirement plans into the Plan.

The Plan Sponsor may, at its discretion, contribute a discretionary matching contribution as determined at the end of each year. The discretionary matching contribution for 2015 was 50% of the participants' contributions up to a maximum of \$2,500. The Plan Sponsor may make additional non-elective contributions, at the discretion of the Company, within various limitations specified by the Internal Revenue Code (IRC). Participants must be eligible participants at the end of the Plan year to receive a non-elective contribution. No additional non-elective contributions were made for the year ended December 31, 2015.

Participant accounts: Each participant's account is credited with the participant's contributions, their portion of Plan Sponsor's matching contributions and allocations of Company discretionary contributions, if any, and an allocation of Plan earnings, and charged with withdrawals and allocation of Plan losses and administrative expenses. Allocations are based on participant's contributions or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Upon enrollment in the Plan, participants may direct their contributions and the employer contributions into various investments offered by the Plan. Participants may change their contribution percentages and their investment options any time throughout the year via internet or direct phone access.

Vesting: Participants' contributions, plus or minus actual earnings and losses, have full and immediate vesting. Except for terminations due to death, disability or attaining normal or early retirement age, employer contributions, plus earnings or losses thereon, vest according to the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 but less than 6	90%
6 or more	100%

Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Participant accounts become fully vested (regardless of the above vesting schedule) upon death, disability, attainment of normal retirement age (65) or termination of the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$500 to a maximum equal to the lesser of up to 50% of the vested account balance or \$50,000. Such notes are collateralized by each respective participant's account and bear fixed interest rates based on rates available for similar notes from commercial lending institutions. Interest rates are determined as of the first day of each calendar quarter for new notes. Participant note interest rates ranged from 3.0% to 10.12% as of December 31, 2015. Notes generally must be repaid within five years, except for notes used for the purchase of a principal residence, which may be repaid over a period not to exceed thirty years. Principal and interest is paid ratably through bi-weekly payroll deductions. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Payment of benefits: Upon termination or retirement of service, vested account balances less than \$5,000 will be paid in a lump sum as soon as practicable thereafter, after allowing a participant sufficient time within which to elect whether to receive the distribution in cash or as a rollover to another qualified plan. Vested account balances greater than \$5,000, at the election of the participant, may remain in the Plan or be distributed. When a participant attains retirement age, benefits will be paid from the vested account balance based upon the election of the participant either in the form of a lump-sum cash payment or a nontransferable annuity contract providing for installment payments. The normal retirement age, as defined by the Plan, is 65. In addition, under certain circumstances, a participant may receive a financial hardship distribution.

Forfeited accounts: Any non-vested account balance after the distribution of a terminated participant's vested account balance is forfeited. Forfeitures of participants' non-vested account balances are used to reduce administrative expenses of the Plan or to reduce future Plan Sponsor's contributions. As of December 31, 2015 and 2014, forfeited non-vested accounts totaled \$19,350 and \$11,184, respectively. There were no forfeitures used during the year ended December 31, 2015.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment trustee and insurance company. See Note 4 for discussion of fair value measurements.

Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Interest income is recognized on the accrual basis when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivables from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan agreement.

Contributions: Contributions from Plan participants and the matching and discretionary contributions from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. All participant and employer contributions are participant directed.

Payment of benefits: Benefits are recorded when paid.

Expenses: Administrative and recordkeeping expenses incurred by the Plan include loan fees and investment management services fees charged directly to the participants' accounts. Other administrative expenses are paid directly by the Plan Sponsor and are excluded from these financial statements. These expenses include audit fees and legal fees. Investment related expenses are included in the net depreciation of fair value of investments.

Accounting pronouncements adopted: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted the Update for the 2015 Plan year and the Update was retroactively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting this Update is reflected in the accompanying financial statements.

Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting. The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements. The amendments in Part II of this Update will eliminate the requirements for plans to disclose: (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. The amendments in Part II of this Update will also require that investments (both participant-directed and nonparticipant-directed) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required. The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the Plan's fiscal year end, when the fiscal period does not coincide with month end.

The Update may be adopted in whole or by Part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted Parts I and II of the Update for the 2015 Plan year and the Update was retroactively applied to December 31, 2014. The amendments in Part III of this Update were not applicable to the Plan. Prior year disclosures in Notes 3 and 4 have been revised to reflect the retrospective application. The impact of adopting this Update is reflected in the accompanying financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2015) through October 14, 2016, which is the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by State Street Bank and Trust Company (Trustee)

The following is a summary of the Plan's asset information, as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by State Street Bank and Trust Company (State Street), the trustee under the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets and asset activity is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets.

Notes receivable from participants	\$ 50,554	\$ 73,124

State Street also certified to the completeness and accuracy of \$185,462 of net depreciation in fair value of investments and \$200,906 of dividends and interest related to the aforementioned investments, and \$3,084 of interest income related to notes receivable from participants for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2015 or 2014.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Common collective trust funds: Valued based on the NAV of units of the common collective trust. The NAV, as provided by State Street, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by major type and level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 3,941,161	\$ -	\$ -	\$ 3,941,161
Investments measured at NAV (a)				1,483,101
				<u>\$ 5,424,262</u>

Assets at Fair Value as of December 31, 2014 (as revised)				
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 3,973,512	\$ -	\$ -	\$ 3,973,512
Investments measured at NAV (a)				901,458
				<u>\$ 4,874,970</u>

(a) In accordance with Subtopic 820-10 as amended by ASU 2015-07, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures for the Plan's investments whose fair value is estimated using the net asset value per share (or its equivalent) as of December 31, 2015 and 2014:

Fair Value Estimated Using NAV Per Share

Common collective trust funds	\$ 1,483,101	\$ 901,458	None	Immediate	None

Nivel Parts 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers in or out of Levels 1, 2 or 3.

Note 5. Related Party Transactions and Parties-in-Interest

State Street Bank and Trust Company is the trustee of the Plan and, therefore, transactions with the trustee qualify as party-in-interest transactions. Automatic Data Processing, Inc. (ADP) provides recordkeeping services to the Plan. Fees paid by the Plan to ADP for recordkeeping services amounted to \$20,059 for the year ended December 31, 2015. There were no fees paid by the Plan directly to the trustee for the year ended December 31, 2015. Certain other administrative expenses are paid by the Plan Sponsor on behalf of the Plan.

Note 6. Tax Status

Effective January 1, 2015, the Plan adopted a non-standardized form of a prototype plan sponsored by Automatic Data Processing, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service, dated January 31, 2006, as to the prototype plan's qualified status and the prototype plan opinion letter has been relied upon by this Plan. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualifications. The Plan Administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more-than-likely-than not would be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Plan Termination and Amendment

Although the Company has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to amend any or all provisions of the Plan as well as discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts, and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.
