Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

XPO CNW Inc. Administrative Committee
XPO CNW Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of XPO CNW Pension Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 which was certified by Bank of New York Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2015 and 2014 and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

XPO CNW PENSION PLAN
Notes to Financial Statements
December 31, 2015 and 2014

1. Description of Plan

The following description of the XPO CNW Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The term "XPO CNW" or "Company" refers to XPO CNW Inc., the entity formerly known as Con-way Inc. and subsidiaries.

General

The XPO CNW sponsored Plan is a defined benefit pension plan covering substantially all eligible full-time and part-time United States employees of XPO CNW who were participants in the Plan at December 31, 2006. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Overall responsibility for administering the Plan rests with the XPO CNW Administrative Committee (the "Committee"), which is appointed by the Chief Executive Officer of XPO Logistics Inc. The net assets of the Plan and certain other XPO CNW defined benefit pension plans are held in the XPO CNW Retirement Master Trust (the "Trust"). The Bank of New York Mellon, N.A. (the "Trustee") was appointed to hold, invest, and disburse plan benefits from the Trust.

Eligibility

The Plan is limited to those qualified employees participating on or before December 31, 2006. An employee is eligible to participate in the Plan if the participant is not covered by a collective bargaining agreement, is not a temporary or contractual employee, as defined, is not a nonresident alien, is not employed by a division or branch of the Company that has substantially all of its operations outside of the United States and has completed one year of service as of December 31, 2006. No new employees are eligible to participate in the Plan in 2007 and later years. Credited service will not increase for all participants after December 31, 2006.

Vesting

A participant's retirement benefits will be fully vested after the earlier of 5 years of service or the attainment of age 65.

Retirement Benefits

Annual normal retirement benefits, which are payable to members at age 65, are equal to the sum of (a) 1.1% of the participant's average final earnings (based on the average of the five highest annual rates of pay during the 10 years prior to retirement) up to the participant's average Social Security wage base multiplied by the participant's number of years of credited service under the Plan to a maximum of 35 years, (b) 1.4% of the participant's average final earnings in excess of the participant's average Social Security wage base multiplied by the participant's years of credited service under the Plan to a maximum of 35 years, and (c) 1.4% of the participant's final average earnings multiplied by the participant's years of credited service that are earned after completing 35 years of service. For this calculation, credited service is limited to the amount accrued as of December 31, 2006.

Effective April 30, 2009, the Company amended the Plan to permanently curtail benefits associated with future increases in employee compensation. Compensation used to determine the final average earnings is limited to a participant's earnings through April 30, 2009. Prior to the amendment, future retirement benefits considered participants' eligible compensation increases through 2016. This amendment effectively freezes participant benefits at the level earned at April 30, 2009.

Participants can continue to earn service for vesting and early retirement eligibility. For terminations and retirements on October 1, 2006 and later, the highest five years of earnings used for the calculation of final average earnings are no longer required to be consecutive years. Employees who rehire with a XPO CNW company after December 31, 2006 and who were previously participants in the Plan will retain the benefit they had accrued while a participant, but their age-65 benefit will not increase further after their rehire. Rehires may earn service for vesting and early retirement eligibility following their rehire, depending on the length of their break in service, in accordance with Plan provisions.

Participants who were transferred into the Plan from another plan sponsored by the Company have separate benefit calculations that take into account the separate provisions of each of the other plans. Generally, participant benefits earned under the prior plans are paid by the prior plans and the benefits earned while covered under the Plan are paid from the Plan's funds.

In addition, participants who were members of the Plan prior to January 1, 1984 who made employee contributions into the Plan are eligible to withdraw these amounts upon termination of employment. Participants who are fully vested and who terminate employment are eligible to withdraw their employee contributions at an amount equal to their employee contributions

plus accumulated interest at the Plan interest rate (5% per annum), and receive a reduced employer-funded retirement benefit equal to the normal retirement benefit less the actuarial equivalent of the amount refunded.

Participants may elect an early retirement date on or after attaining age 55 and completing 10 years of service. Annual pension benefits for participants retiring early are subject to a reduction factor as defined by the Plan. Participants who retire after attaining age 55 whose age at retirement plus their years of service total at least 85 will receive a retirement benefit unreduced for early retirement. Vested participants who terminate employment before their normal retirement date but before achieving eligibility for early retirement will also be able to commence benefits at age 55, but using a different set of early retirement factors.

The Company amended the Plan to update the definition of "actuarial equivalence" for purposes of discounting the value of unsubsidized early retirement benefits, for adjusting the value of deferred retirement benefits and for converting Plan accrued benefits between various optional forms of benefit. For benefit payments based on payment dates starting September 30, 2012, a participant's benefit, determined as of the benefit date, will be the greater of: (i) the benefit determined using the Plan's definition of actuarial equivalence in effect for benefit starting dates on September 1, 2012, or (ii) the benefit determined using the Plan's definition of actuarial equivalence in effect for benefit starting dates on October 1, 2012.

The Company amended the Plan for pre-retirement spouse death benefits, effective for death benefits payable for participants who die on or after October 1, 2012 but before beginning their pension payments. If the participant had attained the age of 55 and completed 10 years of service the benefit to the surviving spouse shall be the greater of (i) an amount equal to 100% of the benefit the participant would have received had the participant commenced receiving the benefit as a 100% contingent annuity with the spouse on the day before the death or (ii) a monthly annuity for the life of the surviving spouse equal to 50% of the participants basic benefit on the date of death. For surviving spouses where the participant's death is before October 1, 2012, the surviving spouse's annuity shall be the greater of (i) an amount equal to 50% of the benefit the participant would have received had the participant commenced receiving the benefit as a 50% contingent annuity with the spouse on the date before the death, or (ii) a monthly annuity for the life of the surviving spouse equal to 50% of the participant's basic benefit on the date of death, adjusted by various factors. Benefits for the surviving spouse would be reduced for those participants that had not yet attained the age of 55.

Participants eligible for and receiving disability benefits under the Company's Long-Term Disability Policy continue to accrue benefits until the later of the following: attaining age 65, receiving long-term disability benefits for the maximum period allowed by the disability policy, receiving a lump-sum settlement, or termination of the disability. However, in no event shall any participant receive credited service after December 31, 2006.

Employees may elect to receive their pension benefits in the form of single life annuities or various forms of joint life annuities, single life annuities with either 60 or 120 months certain, or a level income option. If the actuarial equivalent of the employee's pension benefit does not exceed \$5,000 on the benefit starting date, the only form of benefit is a lump-sum. If the actuarial equivalent of the employee's pension benefit is greater than \$5,000 but not in excess of \$10,000 on the benefit starting date, then the available forms of benefit are a lump-sum; three forms of joint annuity (50%, 75% and 100%); or a single life annuity with 60 or 120 months certain. At the same time the Plan's definition of actuarial equivalence was updated, the Company amended the Plan to add the 100% option for benefits first commencing on or after October 1, 2012.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Income Recognition and Valuation of Investments

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The fair value of the Plan's interest in the Trust is based on the beginning-of-year value of the Plan's interest in the Trust plus actual contributions and allocated investment gain or loss less actual benefit payments to participants and administrative expenses. Investments in the Trust are reported at fair value, as more fully discussed in Note 9, "XPO CNW Retirement Master Trust."

Investment Risk

The Plan assets are invested in a variety of investments in securities that are generally exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan may invest in asset-backed securities, collateralized mortgage obligations, commercial mortgage-backed securities and various derivative instruments. The fair value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in investors' perceptions of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to asset returns, interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Transfers

The Company made a contribution of \$29,290,787 with respect to the Plan in January 2014. This amount was credited to the Master Trust. Upon the withdrawal of the EWA Pilots' Retirement Plan's ("Pilots' Plan") undivided interest from the Master Trust in January 2014, the uninvested cash held by the Master Trust resulting from the Company's Plan contribution was used to redeem the Pilots' Plan's Master Trust interest. The Master Trust units that had previously been attributable to the Pilots' Plan were thereafter attributed to the Plan, reflecting the January 2014 withdrawal of the Pilots' Plan from the Master Trust. Thereafter, the Plan's interest in the Master Trust was the same as though all Master Trust assets underlying the Pilots' Plan's interest had been redeemed followed by a subsequent repurchase using cash proceeds resulting from the Company's January 2014 Plan contribution.

Administrative Expenses

During 2015 and 2014, trustee fees, investment management fees, and actuarial fees were paid through the Trust and are included in the Plan's share of the Trust investment gain (loss). During 2015 and 2014 expenses of \$6,043,000 and \$5,086,000 were included in the Plan's share of the Trust investment gain (loss), respectively.

The Plan pays certain other administrative expenses, primarily premiums to the Pension Benefit Guaranty Corporation ("PBGC"), which are reported on the statements of changes in net assets available for benefits as administrative expenses of the Plan. Other expenses, including computer services, professional fees, office supplies and payroll expenses of administrative and clerical personnel are provided by the Company without charge to the Plan.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes in those amounts, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively. Management does not expect this ASU to have a material impact on the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*. Upon adoption of the standard, plans are no longer required to:

- Measure fully benefit-responsive investment contracts ("FBRICs") at fair value;
- Disaggregate investments by nature, risks and characteristics;
- Disclose individual investments that represent five percent or more of net assets available for benefits; or
- Disclose net appreciation or depreciation for investments by general type.

The Plan adopted this standard retrospectively effective December 31, 2015 and accordingly, the prior year disclosures were adjusted. As a result of the adoption of this standard, the Plan modified its investment disclosures as described above.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

Subsequent Events

The Plan's management has performed an evaluation of subsequent events through October 12, 2016, which is the date these financial statements were available to be issued.

3. Funding Policy

Contributions to the Plan, if necessary, are made to meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code (the "Code"). In determining the amount and timing of its pension contributions, the Company considers both the ERISA- and GAAP-based measures of funded status as well as the tax deductibility of contributions. For the Plan year ended December 31, 2015, the Company was not required to make any contribution to the Plan.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service rendered by retired and non-retired participants. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, termination or death. The actuarial present value of accumulated plan benefits at December 31, 2014 (beginning-of-the-year presentation) was as follows:

Vested benefits:	
Terminated participants currently receiving payments	\$ 620,810,675
Active participants and terminated participants entitled to deferred benefits	852,449,913
Total vested benefits	1,473,260,588
Nonvested benefits	53,057,775
Total actuarial present value of accumulated plan benefits as of December 31, 2014	<u>\$ 1,526,318,363</u>

The following table presents the changes in the actuarial present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2013	\$ 1,207,827,107
Increase (decrease) during the year attributable to:	
Increase in interest due to the decrease in the discount period	77,639,020
Other actuarial losses	2,239,503
Benefit payments to participants	(51,512,832)
Change in actuarial assumptions	290,125,565
Net increase	318,491,256
Actuarial present value of accumulated plan benefits as of December 31, 2014	<u>\$ 1,526,318,363</u>

The actuarial present value of accumulated plan benefits is determined by Mercer, the Plan's actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment. During 2014, the mortality assumption used to estimate the life expectancies of plan participants changed from the RP-2000 Mortality Table to the RP-2014 Mortality Table.

The following significant assumptions were changed since the year ended December 31, 2013:

- *Interest rate* - changed from 6.58% to 5.15%

Significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits as of December 31, 2014 were as follows:

- *Actuarial cost method* - Unit credit method
- *Return on investments* - 5.15% compounded annually
- *Mortality* - RP-2014 Mortality Table, projected to 2020, blended 70% blue-collar and 30% white collar

The return on investments of 5.15% is net of anticipated administrative expenses associated with providing benefits.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated

plan benefits. The actuarial valuation was prepared as of January 1, 2015. Had the valuation been prepared as of December 31, 2014, there would be no material differences.

5. Plan Termination

In the event that the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC, a U.S. Government agency, up to the applicable limitations discussed below.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits under a Plan termination would depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. Summary of Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements as of December 31, 2015 and 2014, and for the years then ended, was provided and certified by the Trustee as complete and accurate:

- Investment in the Trust
- Plan's share of the Trust investment gain (loss)
- The Trust information in Note 9, "XPO CNW Retirement Master Trust" (excluding the "Fair-Value Measurements" hierarchy)

7. Related-Party Transactions

Certain Plan investments are managed by the Trustee. Therefore, these managed investments and investment transactions qualify as party-in-interest transactions. Additionally, the Plan sponsor, the Company, is a party-in-interest to the Plan; however, there are no transactions with the Plan sponsor other than the funding of contributions to the Plan and payment of certain administrative expenses of the Plan.

8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 28, 2014, that the Plan and related Trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes that the Plan was qualified and the related Trust was tax exempt as of the financial statement date.

9. XPO CNW Retirement Master Trust

The Trust holds the assets associated with two Company defined benefit pension plans and each participating retirement plan has an undivided interest in the Trust. In the administration of the Plan, the Trustee holds the assets of the Trust and manages investment of funds under the direction of several investment managers and the Plan administrator. All gains and losses of the Trust are prorated monthly based on the ratio of investment in the Trust, at market value, which each plan holds, to the total market value of the Trust.

Interests

The following is a summary of the participating plan interests in the Trust:

	December 31, 2015		December 31, 2014	
	Market Value	Share	Market Value	Share
XPO CNW Pension Plan	\$ 1,582,471,416	97.7%	\$ 1,662,215,194	97.7%
Menlo Worldwide Forwarding, Inc. Hourly Employees Pension Plan	37,448,108	2.3%	39,479,149	2.3%
	<u>\$ 1,619,919,524</u>	<u>100.0%</u>	<u>\$ 1,701,694,343</u>	<u>100.0%</u>

The Plan's interest in the net assets of the Trust is included in the accompanying statements of net assets available for benefits.

XPO CNW Pension Plan:

Assets of the Trust are managed pursuant to a long-term allocation strategy that seeks to mitigate funded status volatility by increasing the Trust's investment in fixed-income investments over time. This strategy was developed by analyzing a variety of diversified asset-class combinations in conjunction with the projected liabilities of the Plan. In 2015, the Plans lowered their percentage of investments in equity securities and increased its percentage of investments in fixed-income securities.

The Trust's investment strategy as of December 31, 2015 is to achieve a mix of approximately 76% in fixed-income securities and 24% of investments in equity securities. The target allocations for fixed-income securities includes 7% in global opportunistic fixed-income. The target allocations for equity securities include 12% in U.S. large companies, 2% in U.S. small companies and 10% in international companies. Investments in equity securities are allocated between growth-and value-style investment strategies and are diversified across industries and investment managers. Investments in fixed-income securities consist primarily of high-quality U.S. and global corporate or government debt instruments in a variety of industries. The Trust's investments in fixed-income securities and equity securities consist of individual securities held in managed separate accounts as well as commingled investment funds.

The Trust's investment strategy does not include a meaningful long-term investment allocation to cash and cash equivalents; however, the Trust's cash allocation may rise periodically in response to timing considerations regarding contributions, investments, and the payment of benefits and eligible Trust expenses. Additionally, the level of cash and cash equivalents may reflect the un-invested balance of each manager's allocated portfolio balance. This "un-invested cash" is typically held in a short-term fund that invests in money-market instruments, including commercial paper and other liquid short-term interest-bearing instruments.

The Trust's investment policy does not allow investment managers to use market-timing strategies or financial derivative instruments for speculative purposes. However, financial derivative instruments are used to manage risk and achieve stated investment objectives regarding duration, yield curve, credit and equity exposure. Generally, the investment managers are prohibited from short selling, trading on margin, and trading commodities, warrants or other options, except when acquired as a result of the purchase of another security, or in the case of options, when sold as part of a covered position. The Company's investment policies also restrict the investment managers from accumulating concentrations by issuer, country or industry segment.

The Trust invests in foreign-denominated investment securities. In order to mitigate the risk associated with foreign currency fluctuations on these investments, the Trust purchases and sells forward currency contracts with various maturity dates. In connection with these forward contracts, at December 31, 2015 and December 31, 2014, the Trust had a notional-value counterparty payable and receivable of \$124,295,603 and \$166,611,341, respectively.

Menlo Worldwide Forwarding, Inc. Hourly Employees Pension Plan:

Assets of the Trust are managed pursuant to a long-term allocation strategy that seeks to mitigate funded status volatility by matching the duration of the projected liabilities. This strategy was developed by analyzing the projected liabilities, risk tolerance and liquidity needs of the Plan.

The Trust's investment strategy as of December 31, 2015, is to match the duration of the projected liabilities utilizing investment grade credit and U.S. government securities. Surplus assets are invested in short term corporate debt securities. All Trust investments are in investment grade fixed-income securities and consist of individual securities as well as commingled investment funds.

The Trust's investment strategy does not include a meaningful long-term investment allocation to cash and cash equivalents; however, the Trust's cash allocation may rise periodically in response to timing considerations regarding contributions, investments, and the payment of benefits and eligible Trust expenses. This "un-invested cash" is typically held in a short-term fund that invests in money-market instruments, including commercial paper and other liquid short-term interest-bearing instruments.

The Trust's investment policy does not allow investment managers to use financial derivative instruments, short selling, trading on margin, trading commodities, warrants or other options. The investment policy also restricts managers to investment grade securities with a maximum limit of 15% in BBB rated separate securities. The maximum maturity on all non U.S. Treasury, separate securities is 37 months.

Fair-Value Measurements

Assets and liabilities reported at fair value are classified in one of the following three levels within the fair-value hierarchy:

Level 1 - Quoted market prices in active markets for identical assets or liabilities

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 - Unobservable inputs that are not corroborated by market data

The following tables summarize the valuation of investments within the fair-value hierarchy:

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Due to the short maturity of interest-bearing cash, its carrying amount approximates fair value. Common and collective trusts are not publicly traded and do not have readily determinable fair values. Accordingly, common and collective trusts are valued at their net asset value per unit based on the value of the underlying investments. Investments in common and collective trusts

can generally be redeemed without restriction. U.S. Government securities, mutual funds, corporate stocks and exchange traded futures are valued at the closing price reported in the active markets on which the individual securities are traded. Corporate debt instruments, international government securities and municipal bonds are generally valued using observable bid-ask spreads or broker-provided pricing. Investments in corporate debt instruments consist primarily of high-quality U.S. corporate debt instruments in a variety of industries. The fair value of the private real estate fund is based on the underlying assets, which consist of commercial and residential properties valued using periodic appraisal. The private real estate fund maintains a redemption plan whereby redemption requests must be received in writing 45 days prior to the end of the quarter. Redemptions are paid in accordance with the terms of the private real estate fund's articles of incorporation and upon approval by its board of directors. The hedge fund is a limited partnership and the fair value is based on the fair value of the underlying assets, which consists of individual equities, convertible securities, futures, forward contracts, currency forwards, swaps, high-yield debt portfolios, options, other derivative instruments, and cash which are valued monthly by an administrator engaged by the fund. Other assets consist of investments with market based prices and observable market-based inputs.

The following is a summary of the significant accounting policies associated with the Trust's use of derivatives:

- a. Upon entering into a futures contract, the Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin," which is settled daily. The change in value related to the daily fluctuations in the value of the futures contract is included as unrealized gains (losses) in the changes in Trust net assets. When the futures contract expires, the Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the futures contract when it was opened and the value at the time it expired.
- b. The Trust may buy or write put and call options through listed exchanges and in the over-the-counter market. When the fund buys or writes an option, an amount equal to the premium paid or received by the fund is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses upon the expiration of the options. The difference between the premium and the amount paid or received on affecting a closing purchase or sale transaction is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost if acquired. The Trust, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option.
- c. The Trust may enter into swap contracts. Swaps are marked-to-market daily based upon quotations from market makers and the change, if any, is recorded as an unrealized gain or loss in the changes in Trust net assets. Certain investment contracts may require collateral. Cash is either received from, or provided to the investment contract counterparty depending on the terms of the contract and the market value of the security. Cash received from counterparties can be held or reinvested in other securities and is recorded as a liability of the Trust. Cash provided to counterparties is an asset of the Trust.

For those investments that are valued at net asset value per unit there were no unfunded commitments at December 31, 2015 and 2014.

Trust net investment gain (loss), excluding administrative expenses, allocated to the participating plans was as follows:

	Years Ended December 31,	
	2015	2014
Net appreciation (depreciation) in the fair value of investments	\$ (98,035,457)	\$ 175,425,658

• Social Security wage base	Not Applicable
• Inflation	Not Applicable
• Expected investment return	7.10% for 2013; 6.58% for 2014; 5.15% for 2015
— Rationale	The expected investment return is set equal to the long-term rate of return on plan assets as selected by the plan sponsor for accounting purposes as long as the rate falls within Mercer's best estimate range when compared to the median simulated investment return using capital market assumptions published in Mercer investment Consulting's Capital Markets Outlook for the plan's current target asset mix, net of an adjustment for expenses assumed to be paid from plan assets.
• Expenses	\$2,500,000 added to current year normal cost
— Rationale	Based upon the amount paid from plan assets during the prior plan year, adjusted for the PBGC premium expected to be paid from plan assets during the current plan year.

Demographic assumptions

• Withdrawal	See table of sample rates.
— Rationale	The withdrawal rates are based on periodic experience studies performed every 3-5 years (last undertaken in 2012 using data from 2003 to 2011) and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
• Disability incidence	None assumed.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each quarter during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

• Participation	<u>Regular Employees</u> : One year of service (elapsed time) following date of hire. <u>Supplemental Employees</u> : One year of service (at least 1,000 Hours of Service) following date of hire. Notwithstanding the foregoing, employees who meet the above eligibility requirements after December 31, 2006 do not participate in this plan.
• Service considered	<u>Vesting service</u> : Years of Service measured from date of hire. <u>Credited service</u> : Years of Service measured from date of participation. Supplemental Employees must complete at least 2,000 Hours of Service as a Participant to get credited a full Year of Service starting from 1988. Supplemental Employees working less than 2,000 Hours of Service will receive fractional years of service credit by dividing actual hours by 2,000. No Credited Service is available for periods of employment after December 31, 2006.
• Vesting	100% vested after 5 Years of Service.
• Compensation considered	Basic Compensation is regular salary or wages, overtime, voluntary deferrals under Code Sections 125, 132(f)(4), and 401(k), and cash bonuses other than long term incentive bonuses and incentive bonuses for opting out of health coverage, paid during any calendar year. For Supplemental Employees, Basic Compensation is the amount determined as above, divided by the Participant's Hours of Service, and multiplied by 2,000. Plan compensation is limited to the extent required by Code Section 401(a)(17). Basic Compensation for years prior to 2002 is limited to \$200,000.

• Eligibility	Qualify for benefits under company-sponsored disability plan.	
• Benefit	Participant continues to earn Years of Service and Years of Credited Service until the date they no longer qualify to receive benefits under the company-sponsored disability plan. No Credited Service is available for periods of employment after December 31, 2006. The rate of compensation at the time the disability arises will be used in determining the Average Final Compensation.	
Pre-retirement death		
• Eligibility	A participant who had completed 5 Years of Service and has a surviving spouse who is married for 12 months.	
• Active participant eligible for early retirement	Larger of: a. annuity determined as if the Participant had commenced receiving a 100% Joint and Survivor Annuity just prior to death and b. annuity for the life of the surviving spouse equal to 50% of the Participant's Accrued Benefit on the date of death.	
• Inactive participant eligible early retirement	Annuity determined as if the Participant had commenced receiving a 100% Joint and Survivor Annuity just prior to death.	
• Participant not eligible for early retirement	Annuity determined as if the Participant had terminated on the day before date of death, survived to age 55, elected a 100% Joint and Survivor Annuity, and died on the following day.	

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Single Life Annuity with 5-years certain
• Automatic form for married participants	100% Joint and Survivor Annuity
• Optional forms	Alternatively, the Participant may elect to receive benefits in the form of Single Life Annuity certain (0, 5 or 10 years), Joint and Survivor Annuity (50%, 75% or 100%), Social Security level income (before age 62), or lump sum if \$10,000 or less. For married participants commencing benefits upon termination, the 50%, 75% and 100% Joint and Survivor annuity options are subsidized by the Plan. In other instances, all forms of joint and survivor annuities are actuarially equivalent to the single life annuity based on the UP84 table and 6.00% interest.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually, but only applies before the plan was frozen.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is \$210,000.
• Forfeiture of benefits for missing persons	If the company is unable to locate a participant or beneficiary to whom benefit is payable, the benefit shall be forfeited. The benefit shall be reinstated if a claim for it is made by the participant or the beneficiary.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as per the 2014 plan restatement, are included in this valuation.

- **Most recent plan amendments included:** There are no amendments beyond the 2014 restated plan document.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70, if applicable.
 - *Deferred vested participants:* Late retirement actuarial increases for current deferred vested participants over normal retirement age are valued as an approximation of the retroactive payments to age 65.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding
Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* Not applicable because accruals are frozen.

Plan Provision Changes Since Prior Valuation

- Maximum benefit amounts IRS rules were updated from 2014 to 2015.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions. In combination, offer my best estimate of anticipated experience under the plan.
