Report on the Financial Statements

We were engaged to audit the financial statements of the NAPA Management Services Corp. Profit Sharing Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide such a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Institutional Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held for investment purposes (at end of year) as of December 31, 2015, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with the standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1. Description of the Plan

The following description of the TNPG, LLC (the "Employer") Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a profit sharing plan covering employees who have completed one year of service (at least 1,000 hours). For elective deferrals participation is after 90 days of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Employer contributions are a nonelective employer contribution of 3% of compensation and a discretionary profit sharing contribution of the lesser of 15% of compensation or $20,000.

Each year, employee participants may contribute up to the maximum annual deferral allowed under Sec. 401(k) of the Internal Revenue Code.

Employees who are participants and who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions.

Participants' accounts:

Each participant's account is credited with the participant's elective deferral contribution and the employer's contribution, an allocation of the employer's discretionary profit sharing contribution, earnings related to net assets in their accounts, and an allocation of forfeitures of terminated participants' nonvested accounts.

Forfeited accounts:

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $108,346 and $301,572, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by $328,313 in 2015 and $ -0- in 2014 for forfeited nonvested accounts.

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE 1. Description of the Plan - continued

Vesting:

If a participant's employment with the Employer ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Employer. Participants vest 20% per year of service after two years of service and are 100% vested after six years of service.

Investment options:

Upon enrollment in the Plan, a participant may direct the Employer's contributions in any increments, in any of twenty-four investment options. Participants may change their investment options daily.

Payment of benefits:

Upon termination of service due to death, disability, retirement, or any other reason, a participant or his/her beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in periodic payments.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loan is secured by the remaining balance in the participant's account and bears interest at a rate commensurate with local prevailing rates. The interest rate charged during the 2015 and 2014 plan years was 3.25% to 5%, which was a reasonable rate of interest as required by the Plan. Principal and interest is paid ratably on at least a quarterly basis over a five-year period. If the loan is for the purchase of a principal residence, it may then be repaid over a ten-year period.

NOTE 2. Summary of significant accounting policies

Method of accounting:

The financial statements have been prepared using the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investments.

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE 2. Summary of significant accounting policies - continued

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid by the plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through October 14, 2016 which is the date that the financial statements were available to be issued.

NOTE 5. Collective Investment Trust - Group Annuity Contract

The Plan includes an investment option to participants in the form of a CCT. The CCT invests in a group annuity contract (the "GAC") which includes underlying assets that are held in a trust owned by MetLife. The contract provides that participants execute Plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The investment is stated at fair value as reported by MetLife and adjusted to contract value on the statements of assets available for benefits. The GAC's fair value equals the fluctuating value of the separate account of the assets backing the contract. The Plan's fair value of the investment equals the Plan's guaranteed value times the ratio of the GAC's guaranteed value to the GAC's fair value.

NOTE 5. Collective Investment Trust - Group Annuity Contract - continued

The crediting interest rate was 2.33% and 2.22% at December 31, 2015 and 2014, respectively. The average yield was .52% and 4.61% for the years ended December 31, 2015 and 2014, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. MetLife will guarantee principal and accrued interest, based on crediting interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. MetLife will reset the rate quarterly, by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the fund's investments.

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan. Certain events, such as Plan termination or a Plan merger initiated by the Plan sponsor, may limit the ability of the Plan to transact at contract value. The Plan sponsor does not believe any events that may limit the ability of the Plan to transact at contract value are probable.

NOTE 6. Collective Investment Trust - Guaranteed Investment Contracts and Security Backed Contracts

The Plan offers participants an investment option through Well Fargo Bank, N.A. to participants in the form of a collective trust that invests in guaranteed investments contracts and security backed contracts. Specifically the Plan has an investment in the Wells Fargo Stable Value Fund ("Fund"). The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract and security backed contract ("contract" or "contracts") issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed.

Because the contracts are fully benefit-responsive, contract values are the relevant measurement attributable for that portion of the net assets available for benefits attributable to contracts.

The Fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan, by the Fund, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the issuers or otherwise, The fair value of the investment contract at December 31, 2015, was $353,599.

NOTE 6. Collective Investment Trust - Guaranteed Investment Contracts and Security Backed Contracts - continued

Certain events limit the ability of the Plan to transact at contract value with the Fund. The Plan administrator believes that any events that limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yields based on earnings by the Fund were 1.83% and 1.40%, for 2015 and 2014, respectively. The average yields based on interest rate credited to participants by the Fund were 1.79% and 1.64%, for 2015 and 2014, respectively.

NOTE 7. Tax status

The Plan is in the process of applying for exemption under the applicable sections of the Internal Revenue Code. The plan administrator and the plan's tax counsel believe that the plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believe that the plan is qualified, and the related trust is tax-exempt.

The Plan is subject to routine audits by tax authorities. Currently, there are no audits in progress for any tax periods. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 8. Fair value measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 8. Fair value measurements - continued

The following is a description of the valuation methodologies used for assets measured at fair market value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 instruments include mutual funds, common and preferred stocks, and money market funds. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Common and preferred stocks are valued a the closing price reported on the active market on which the individual securities are traded.

Collective investment trusts: The Plan's investments in the SSGA Target Retirement funds, the SSGS Bond Market Index Fund and the SSGA S&P 500 Index C Fund, which are collective trusts, are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawals from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

Collective investment trust: The Plan's has an investment in Wilmington Trust Collective Investment Trust III for MetLife Group Annuity Contract No. 25554 (the "Contract") which is a common collective trust (the "CCT"). The CCT primarily owns investment contracts that invest in conventional, synthetic and separate account investment contracts (the "contracts") issued by life insurance companies, banks and other financial institutions. The contracts are valued at contract value, which represents invested principal plus accrued interest thereon. In determining contract value, the fund manager considers such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the contracts and the likelihood of default by the issuer of the investment security. In accordance with accounting principals generally accepted in the United States of America, the statement of net assets available for benefits present the contract, which invests primarily in benefit-responsive investment contracts, at fair value as well as an additional line showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. Contract value represents contributions made under the fund, plus earnings, less participant withdrawals. The fair value of the investments in the CCT are determined by the investee's trustee based on the fair value of the underlying securities within the investment, which represent the NAV of the units held by the Plan at year end.

NOTE 8. Fair value measurements - continued

Collective investment trust: The Plan's has an investment in Wells Fargo Stable Value Fund ("Fund") which is a collective trust. The Fund invests in guaranteed investment contracts and security backed investments contracts ("contracts"). The contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering credit worthiness of the issuer. The use of net asset value as fair value is deemed appropriate as the collective trust fund does not have a finite life, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. The practical expedient is used for valuation, unless it is probable that the Fund will sell a portion of the investment at an amount different from the net asset valuation.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,497,223	$ -	$ -	$ 15,497,223
Collective trust funds (GAC)	-	2,883,528	-	2,883,528

Total Investments	$ 14,690,378	$ 12,548,793	$ -	$ 27,239,171

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 10. Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 11. Transactions with parties-in-interest

Fees incurred during the year for legal, accounting, and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE 12. Transfers to other retirement plans

The sponsors of NAPA Management Services Corp. Profit Sharing Plan & Trust (EIN: 11-3635685, Plan 001), TNPG, LLC Profit Sharing Plan & Trust (EIN: 33-1044161, Plan 001) and North American Partners in Anesthesia, LLP Profit Sharing Plan and Trust (EIN: 11-2923650, Plan 002) are related entities. Employees are sometimes transferred from one sponsor to the other. Because of this, there are administrative transfers of assets between the plans.

NOTE 13. Mergers

During 2015, the Employer, and other businesses related to the Employer, completed the acquisition of two specific anesthesia businesses that themselves maintained retirement plans. As a result of those acquisitions, the retirement plans of the acquired organizations were merged into the plans sponsored by the Employer and other businesses related to the Employer. North American Partners in Anesthesia, LLP Profit Sharing Plan and Trust is one of the plans to which retirement assets were transferred. The plans from which those transfers were made are as follows:

Fair Oaks Anesthesia Associates, LLC Savings Plan and Trust, a defined contribution plan.
Fair Oaks Anesthesia Associates, LLC 401(k) Plan and Trust, a defined contribution plan.
Anesthesia Associates of Richmond, Inc. 401(k) Plan and Trust, a defined contribution plan.

The transfers were made in 2015 and were made directly into the self-directed accounts of the participants. The fair market value of those transfers totaled $2,835,567 at the time of receipt. The nature of the investments were marketable securities as chosen by the participants involved. Those investments were either converted by the trustee into similar investments that were offered by the Plan at the time of transfer or into self-directed brokerage accounts.

NOTE 14. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
