NOTE 1 - DESCRIPTION OF PLAN

The following description of the Regal Automotive Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Regal Pontiac, Inc. d/b/a Regal Automotive Group (the "Company") who are age twenty-one or older and effective August 27, 2015, the eligibility requirement of 4 months of service has was replaced with 60 days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may elect to contribute an amount of their compensation subject to the amount allowable by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company may make a discretionary matching contribution. For 2015, the Company matched 50% of the participant deferrals up to 4% of compensation. Additional discretionary profit sharing amounts may be contributed at the option of the Company. Participants must be employed on the last day of the Plan year to receive this discretionary profit sharing contribution. Participants must be employed for one year (1,000 hours) to receive the Company contributions. No discretionary profit sharing contributions were made in 2015. The Plan allows for automatic enrollment of employees as they become eligible to participate in the Plan. The automatic deferral rate is 4%.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Payment of Benefits: Upon termination of service, participants may elect to receive a lump-sum distribution equal to the value of his or her vested interest in their account.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) the Plan's earnings and (c) charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Forfeitures: Forfeited balances of terminated participants' non-vested accounts may be used to pay plan expenses, reduce employer contributions or be applied as an additional Company matching contribution to the Plan.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 20% per year starting in year 2.

Participant loans: Loans are not permitted.

Administrative and Investment Management Expenses: The Plan's record keeping, Great-West Life and Annuity Insurance Company and Great West Trust Company, LLC fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Adoption of New Accounting Standards: In July 2015, the Financial Accounting Standards Board (FASB) amended existing guidance related to the measurement, reporting and disclosure of fully benefit-responsive investment contracts (FBRICs), and in May and July 2015 the FASB amended various other disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance requires FBRICs to be measured, presented, and disclosed only at contract value. The new guidance also eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in removal of FBRICs from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein. However, investments at fair value was reduced by $468,503 from the amount previously reported as of December 31, 2014, which resulted in the recording of investments at contract value in the amount of $468,503.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments other than fully benefit responsive investment contracts are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2015, Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 3,462,093	$ 3,462,093	$ -	$ -

		Fair Value Measurements at December 31, 2014, Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 3,765,728	$ 3,765,728	$ -	$ -

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Life and Annuity Insurance Company and Great-West Trust Company, LLC. This information has not been audited by independent accountants.

NOTE 4 - RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014 indicating that the prototype document adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds mutual funds and an unallocated investment contract managed by Great-West Life and Annuity Insurance Company, therefore, these transactions and the Plan's payment of record keeping fees and investment management fees to Great-West Life and Annuity Insurance Company qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 7 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds fully benefit-responsive investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the Plan's fully benefit-responsive traditional investment contracts, was $741,606 and $468,503 at December 31, 2015 and 2014.

(Continued)

NOTE 7 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

Traditional Guaranteed Investment Contract: The Plan holds a fully benefit-responsive investment contract with Great-West Life and Annuity Insurance Company ("GWL&A" or "the Issuer"). GWL&A maintains the contributions in its general account. The Issuer guarantees the Plan a return of principal and interest under the terms of the contract. The interest crediting rate is updated quarterly based upon contract provisions, and it may not be less than 1%. GWL&A's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contracts. Examples of circumstances which would allow the Issuer to terminate the contract includes the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. At December 31, 2015, management did not believe that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value was probable.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2016, which is the date the financial statements were available to be issued.
