NOTE 1: DESCRIPTION OF PLAN

The following description of the Power Financial Credit Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Power Financial Credit Union (the "Credit Union"). Eligibility is subject to the minimum age and length of service requirements specified in the Plan. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility and Vesting: All employees are eligible to participate in the Plan on the first entry date provided the employee attain age 18 and has completed three months of credited service. Participants are immediately vested in their voluntary, safe harbor and rollover contributions plus actual earnings thereon. All employees will become fully vested in Employer non-elective profit sharing and/or matching contributions after five years of credited service.

Contributions: Participants may elect to defer to the Plan a portion of their eligible earnings on a pre-tax and/or post-tax basis up to the maximum allowed under Section 402(g) of the Internal Revenue Code ("IRC"). Participants may also contribute funds from another qualified plan as rollover contributions. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan makes a safe harbor matching contribution equal to 100% of the Participant's elective deferrals that do not exceed 3% of the Participant's Compensation, plus 50% of the Participant's elective deferrals that exceed 3% of the Participant's Compensation but do not exceed 6% of the Participant's Compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Credit Union's contribution and allocations of the Plan earnings and losses, reduced by distributions and certain plan expenses. Allocations are based on participant contributions, participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participant: Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rates of 4.43% to 4.52%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Upon termination of service due to death, disability, or retirement, benefits are paid either in a lump sum, in equal installments or make partial withdrawals. For termination of service for other reasons, a participant may receive that value of the vested interest in his or her account as a lump-sum distribution.

<p style="text-align: center;">POWER FINANCIAL CREDIT UNION 401(k) PLAN NOTES TO THE FINANCIAL STATEMENTS</p>
--

Forfeitures: A participant vests in the employer contributions in accordance with the provisions of the Plan. Forfeitures of non-vested amounts remain in the Plan and may be used to pay administrative expenses or reduce future contributions of the plan sponsor. There were \$31,800 and \$5,600 in forfeited amounts available December 31, 2015 and 2014. Approximately \$0 and \$3,000 in forfeited amounts were used to pay administrative expenses and/or reduce contributions for the year ended December 31, 2015 and 2014, respectively.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation: The Plan's financial statements are on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fixed Select fund is stated at fair value with an adjustment to contract value on the balance sheet for the year ending December 31, 2015, since the account is fully benefit responsive. Pooled separate accounts are valued by the asset custodian at fair value, which represents the cumulative market values of the funds underlying the investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Credit Union and are excluded from these financial statements. Fees related to the administration of notes receivable and distributions from participants and investment related expenses are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events: Credit Union Management has evaluated subsequent events through October 12, 2016, the date on which the financial statements were available to be issued.

POWER FINANCIAL CREDIT UNION 401(k) PLAN NOTES TO THE FINANCIAL STATEMENTS

NOTE 3: INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2014, the Plan held an investment contract with Minnesota Life Insurance Company. The assets were held in fully benefit-responsive contracts, reported as the Guaranteed Return Account in the Plan's accounting records. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses during the time held at Minnesota Life Insurance Company. The contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The Guaranteed Return Account, is presented on the face of the statement of net assets available for benefits as of December 31, 2014, at fair value which approximates contract value. Contract value, as reported to the Plan by Minnesota Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The Guaranteed Return Account was transferred to the Fixed Select fund at Nationwide Life Insurance Company during 2015. The contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan.

The Plan holds an investment contract with Nationwide Life Insurance Company at December 31, 2015. The assets are invested in a fully benefit-responsive contract, reported as the Fixed Select Fund in the Plan's accounting records. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the funds. The Fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative charges. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a periodic basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yield earned by the contract is as follows:

	December 31, 2015
Average yield:	
Based on annualized earnings	2.50%
Based on interest rate credited to participants	2.50%

NOTE 5: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The availability of inputs relevant to the asset or liability and the relative reliability of the inputs might affect the selection of appropriate valuation techniques.

Level 1 Inputs

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

<p style="text-align: center;">POWER FINANCIAL CREDIT UNION 401(k) PLAN NOTES TO THE FINANCIAL STATEMENTS</p>
--

Level 2 Inputs

Inputs to the valuation methodology include:

- (a) quoted market prices for similar assets or liabilities in active markets;
- (b) quoted market prices for identical or similar assets or liabilities in inactive markets;
- (c) inputs other than quoted market prices that are observable for the asset or liability;
- (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2015.

Mutual Funds : Obtained from quoted prices in active markets for assets identical to the securities valued.

Fixed Select Fund: The Fixed Select fund is a general account insurance contract with interest and principal guaranteed by Nationwide Life Insurance Company and backed by all the general account assets of the insurance company. Nationwide provides contractual protection against a change in the participant's account value due to interest rate volatility. The value of the Fixed Select Fund account is the invested principal plus any credited interest. There is a stated interest rate and set schedule so that the account values increase each day and over the guarantee period the stated interest is applied.

Guaranteed Return Account: The Guaranteed Return Account is a general account insurance contract with interest and principal guaranteed by Nationwide Minnesota Life Insurance Company and backed by all the general account assets of the insurance company. Minnesota Life provides contractual protection against a change in the participant's account value due to interest rate volatility. The value of the Guaranteed Return account is the invested principal plus any credited interest. There is a stated interest rate and set schedule so that the account values increase each day and over the guarantee period the stated interest is applied.

Pooled Separate Accounts (PSA): PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a PSA is based on market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market.

PARTIES-IN-INTEREST**

Certain plan investments are shares and mutual funds managed by Nationwide Life Insurance Company. Nationwide Life Insurance Company is a custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7: TAX STATUS

The Internal Revenue Service has determined and informed the Credit Union by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan management believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, Power Financial Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
