Note 1. Description of Plan

The following description of the Spectra Logic 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a single employer defined contribution plan, established by the shareholders of Spectra Logic Corporation (the Company or the Plan Sponsor) located in Boulder, Colorado. All employees, except union, leased, non-resident aliens, and interns, who are 18 or older are eligible to make salary deferral contributions and to receive employer contributions on the first day of the month following employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Retirement Plan Committee is responsible for oversight of the Plan.

Contributions: Participants may elect to contribute certain amounts of pretax annual compensation, subject to limitations established by the Internal Revenue Service (IRS). Participants who would attain age 50 before the end of the plan year are eligible to make catch up contributions. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Any employee who reaches the eligibility requirement will automatically have a 6 percent deferral of compensation, which is deposited into the appropriate target date fund based on the participant's age, unless a contrary election is made. At the discretion of the Company, additional amounts may be contributed by the Company into the Plan, including matching contributions, qualified non-elective contributions, or additional employer contributions. The employer match for the year ended December 31, 2015, was 50 percent of employee deferrals not to exceed $250 per participant for the third quarter.

Participant accounts and investment options: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) plan earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant contributions and account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants direct the investment of both their contributions and the Company's contributions into various investment options offered by the Plan. Participants may change their elections daily.

Vesting: All participant account balances are fully vested under the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the vested balance in the participant's account. The repayment period is limited to five years, except for a note used for the purchase of a principal residence may be repaid over a term not to exceed 30 years. Principal and interest are paid ratably through payroll deductions. Notes outstanding at December 31, 2015, mature through December 2030, and bear interest at rates ranging from 4.25 percent to 9.25 percent.

Note 1. Description of Plan (Continued)

Payment of benefits: Participants or their beneficiaries are eligible for benefits upon retirement, termination, death or disability. Vested benefits are made in a single lump sum payment or as a direct rollover to an individual retirement account or to another employer's tax qualified plan. If the vested balance is less than $1,000 immediately following termination, and the participant has not made an election to the contrary, the Company can make a cash distribution for the entire vested balance out of the Plan. If the vested account balance is greater than $1,000 but less than $5,000, and the participant has not made an election to the contrary, the Company can distribute the account in a direct rollover to an individual retirement account (IRA). The Plan also provides for in-service withdrawals after attaining age 59½ and for certain financial hardships as defined in the Plan.

Administrative expenses: Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company and are excluded from these financial statements. The Plan also has expense offset arrangements that consist of fees being paid to third-party service providers directly through the use of investment fee rebates made available by the Plan's separate third-party investment manager. Investment rebates of $55,313 have been netted against administrative expenses for the Plan for the year ended December 31, 2015.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting. The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets and changes in net assets. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the FASB Accounting Standards Codification (ASC or the Codification).

Accounting estimates and assumptions: The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various funds as investment instruments. Mutual funds are exposed to various risks, such as interest rate and credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note receivable from participants: Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Recent accounting pronouncements: In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this ASU are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted the ASU during the 2014 plan year. The impact of adopting this ASU is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this ASU is to simplify plan accounting and is summarized below:

- The amendments in Part I of this ASU designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this ASU will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part III of this ASU reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

ASU 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this ASU during the 2014 plan year. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan Administrator evaluated subsequent events through October 14, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodians

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Great-West Trust Company, LLC (GW Trust) and Great-West Life & Annuity Insurance Company (GW Life) (the Custodians) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodians that information provided to the Plan Administrator by the Custodians related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2015	2014
Investments, at fair value:		
Mutual funds	$ 17,958,375	$ 18,249,538
Fund of funds	3,011,735	2,204,847
Assets held in self-directed brokerage accounts	848,296	888,223
	$ 21,818,406	$ 21,342,608
Investments, at contract value:		
Guaranteed investment contract	$ 1,434,754	$ 1,619,674
Notes receivable from participants	$ 351,955	$ 474,720

The Custodians also certified to the completeness and accuracy of investment income information (including investments bought, sold, and held during the year) and interest income on notes receivable from participants included in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is based on quoted prices in active markets on which the fund is traded.

Common stock and exchange traded funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Fund of funds: Valued at the NAV of shares held by the Plan at year end. Share prices/NAVs for fund of funds are calculated daily by the fund administrator. Fund of funds are excluded from the fair value hierarchy in accordance with ASU 2015-07.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,958,375	$ -	$ -	$ 17,958,375
Self-directed brokerage accounts	848,296	-	-	848,296
	$ 18,806,671	$ -	$ -	18,806,671
Investments measured at NAV (a)				3,011,735
				$ 21,818,406

Note 4. Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,249,538	$ -	$ -	$ 18,249,538
Self-directed brokerage accounts	888,223	-	-	888,223
	$ 19,137,761	$ -	$ -	19,137,761
Investments measured at NAV (a)				2,204,847
				$ 21,342,608

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

During the year ended December 31, 2015, the Plan did not make any significant transfers between levels.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2015 and 2014:

Investment	Fair Value 2015	Fair Value 2014	Unrestricted Commitment	Redemption Frequency	Redemption Notice Period
Fund of funds:					
Target date (a)	$ 3,011,735	$ 2,204,847	None	Daily	None

(a) This category seeks a total return consisting of long-term growth of capital and current income. The funds operate as a "target date fund." The funds invest in underlying domestic and foreign equity, real estate assets, alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the fund's name.

Note 5. Guaranteed Insurance Contract with the Custodian

The Plan has a benefit-responsive guaranteed insurance contract with GW Life. GW Life maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed insurance contract. The guaranteed insurance contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by GW Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5. Guaranteed Insurance Contract with the Custodian (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.15 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Related Party Transactions

Certain Plan investments are shares of a stable value fund managed by one of the Custodians and, therefore, these transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules. The administrative expenses paid by the Plan of $101,609 for the year ended December 31, 2015, were remitted to the third-party administrator and other advisors as appropriate based on customary and reasonable rates for such services. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, the net assets of the Plan, after payment of any expenses properly charged, will be distributed to each participant according to the amount then credited to his or her account.

Note 8. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by CCH Incorporated. The prototype plan has received an opinion letter from the IRS dated March 31, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

We confirm, to the best of our knowledge and belief, that as of the date of this letter:
