Note 1: Description of the Plan

The following description of the Cedarville University Money Purchase Pension Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a money purchase pension plan sponsored by Cedarville University (University) for the benefit of its employees. Students who are employed by the University are generally excluded from participation in the Plan. Participants are required to attain age 21 and have at least one year of service to qualify for employer contributions.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association (TIAA) serves as the issuer of the TIAA Traditional Annuity Contract held by the Plan and is the record keeper of the Plan. College Retirement Equities Fund (CREF) serves as the issuer of CREF variable annuities held by the Plan. JPMorgan Chase Bank, N.A. served as the Plan custodian of nonannuity assets through December 31, 2014. Effective January 1, 2015, TIAA-CREF Trust Company, FSB became the Plan custodian of nonannuity assets.

Contributions

Contributions made to the Plan are comprised of employer contributions and rollover contributions. The University contributes 8 percent of the annual compensation of all eligible employees to the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Rollover contributions must be approved by the Plan Administrator.

Additionally, the University may make matching discretionary contributions. If participants contribute 4 percent of their compensation to the 403(b) tax deferred plan sponsored by the University, the University will make an additional 2 percent contribution to the Plan.

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account and mutual funds. Each participant has the option of directing their contributions into any of the investment account options selected by the University and may change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account is credited with the University's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's account. All amounts in participant accounts are participant-directed.

Vesting

Participants are immediately vested in the University's contributions plus actual earnings thereon.

Payment of Benefits

Upon retirement, reaching age 62, or termination of service due to death, or disability, a participant may elect to receive benefits in one of the following forms: Lump sum withdrawal, lifetime annuities, systematic cash withdrawals, transfer payout annuity, minimum distribution option or interest-only option.

Plan Termination

Although it has not expressed an intention to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Reclassifications

Certain reclassifications have been made to the 2014 financial statement to conform to the 2015 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity Contract, CREF Variable Annuity accounts, TIAA-CREF mutual funds and the TIAA Real Estate pooled separate account.

TIAA Traditional Annuity

The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company. The annuity is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional annuity provides a guarantee of principal, a 3 percent guaranteed minimum rate of interest and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment. The account is considered nonbenefit-responsive.

The non-benefit responsive contract is recorded at fair value, which approximates contract value as estimated by TIAA. At December 2015 and 2014, the fair value of the non-benefit-responsive contracts at TIAA totaled \$9,203,435 and \$8,656,144, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer of the TIAA Traditional Annuity. Such events include the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

CREF Variable Annuity Accounts

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable Annuity accounts, except for the money market account, are recorded at their estimated fair value, which is based upon the underlying value of the assets.

TIAA-CREF Mutual Funds

TIAA-CREF mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Notes to Financial Statements

December 31, 2015 and 2014

TIAA Real Estate Pooled Separate Account

The TIAA Real Estate pooled separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real-estate related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice period.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The IRS has determined and informed the University by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan or University, at the University's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period ending date.

Note 3: Change in Accounting Principle

In 2015, the Plan changed its accounting policy on plan accounting disclosures by adopting the provisions of ASU 2015-12, *Plan Accounting (Topics 960, 962 and 965): Part II: Plan Investment Disclosures*. The accounting policy change provided for in ASU 2015-12 changes the Plan's disclosure requirements to eliminate and/or modify certain investment-related disclosures. This change was applied retrospectively for all periods presented.

Cedarville University Money Purchase Pension Plan

Notes to Financial Statements

December 31, 2015 and 2014

In 2015, the Plan changed its accounting policy on Plan accounting disclosures and presentation of fair value of investments using the net asset value per share as a practical expedient by adopting the provisions of ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)*. In accordance with this guidance, investments measured at net asset value per share as a practical expedient are not categorized within the fair value hierarchy. This change was applied retrospectively to all periods presented.

Note 4: Certification by Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2015 and 2014
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2015

The Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Voluntary Correction Program

Subsequent to the year ended December 31, 2014, the University determined that the definition of compensation according to the Plan was not being allowed in practice. The University is taking remedial actions under the IRS Voluntary Compliance Program (VCP) to correct the matter through a retroactive amendment to the Plan's definition of compensation. The University submitted its request to the IRS in May 2015. Subsequent to the year ended December 31, 2014, but prior to issuance of the 2014 audited financial statements, the University determined that the Plan was not operating according to the terms of the Plan Document with respect to in-service withdrawals that occurred prior to December 31, 2014. The VCP submission was amended in September 2015 to add this matter to the correction. The VCP proposed that ineligible distributions of \$258,910 plus earnings be returned to the Plan. The IRS accepted the VCP as amended in its letter dated February 10, 2016. Management believes it is likely the funds will be returned to the Plan.

Note 6: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 7: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2015 and 2014:

Notes to Financial Statements

December 31, 2015 and 2014

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2015. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See Note 2 for definition of inputs utilized to determine fair value.

The TIAA Real Estate Pooled Separate Account (Account) seeks favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties or cover other expense needs.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014. There are no redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

		December 31, 2015			
		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	\$	2,406,667	N/A	Daily	None
		December 31, 2014			
		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	\$	2,161,111	N/A	Daily	None

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statement of net assets available for benefits using significant unobservable (Level 3) inputs:

	<u>TIAA Traditional Annuity Contract</u>
Balance, January 1, 2014	\$ 8,439,675
Investment Income	357,842
Purchases	575,534
Sales	<u>(716,907)</u>
Balance, December 31, 2014	8,656,144
Investment income	357,612
Purchases	427,635
Sales	<u>(237,956)</u>
Balance, December 31, 2015	<u><u>\$ 9,203,435</u></u>

As the TIAA Traditional Annuity contract is valued at contract value, which approximates fair value, there are no realized or unrealized gains or losses for the investment included in the net increase in net assets available for benefits.

Unobservable (Level 3) Inputs

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statement of net assets available for benefits using significant unobservable (Level 3) inputs:

	Fair Value at December 31, 2015	Valuation Technique	Unobservable Inputs	Range (Weighted- Average)
TIAA Traditional Annuity Contract	\$ 9,203,435	Discounted cash flow	Contractual interest rate	3.90%
	Fair Value at December 31, 2014	Valuation Technique	Unobservable Inputs	Range (Weighted- Average)
TIAA Traditional Annuity Contract	\$ 8,656,144	Discounted cash flow	Contractual interest rate	3.60%

Note 8: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The Plan invests in various funds of the Plans' recordkeeper and custodian, and fees for trust and management services paid by the Plan to this recordkeeper were \$152,542 and \$141,453 for 2015 and 2014, respectively.

The University provides certain administrative services at no cost to the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 10: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

In 2016, the University elected to terminate the Plan effective June 30, 2016. Participants were provided with several options for the distribution of their accounts.
