NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – PLAN DESCRIPTION

The following description of the XO Communications 401(k) Savings and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document, for a more complete description of the Plan’s provisions.

General

The Plan was established as a defined contribution plan in accordance with Section 401(a) of the Internal Revenue Code (IRC) and covers eligible employees, as defined by the Plan, of XO Communications Services, LLC. and its subsidiaries (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). T. Rowe Price Trust Company (T. Rowe Price) serves as both the trustee and the custodian.

Eligibility

Employees of the Company are eligible to participate in the Plan upon their date of hire as defined in the Plan document. Participants are eligible to receive applicable employer-matching contributions immediately upon Plan participation.

Contributions

Participants may elect to defer on a pretax basis up to 50% of their eligible compensation. Upon hire, all employees of the Company are automatically enrolled to participate in the Plan at a predefined compensation deferral rate of 3% after 60 days of employment. The Plan also provides for an automatic increase in the salary deferral percentage of 1% on each May 15th subsequent to the hire date to a maximum of 5% (6% for highly compensated employees) unless the employee chooses not to participate in the Plan, or elects to contribute a greater or lesser amount. Contributions are subject to certain limits specified by the IRC. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, participants are permitted to transfer amounts representing distributions from other qualified plans to the Plan.

The Company provides a discretionary matching contribution equal to 50% of the participant’s eligible contributions up to a maximum of 5% of the participant’s eligible compensation.

Participant Accounts

A separate account is established for each participant. The account is credited or charged, as applicable, with the participant’s salary deferral contributions, an allocation of the Company’s contributions, and the participant’s share of investments earnings and losses, the participant’s distributions and certain administrative charges. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their account into the various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant’s account.

NOTE A – PLAN DESCRIPTION – CONTINUED

Vesting

Participants are immediately vested in their contributions and actual earnings thereon. Vesting in the Company's discretionary matching contributions is based on years of continuous service according to the following schedule:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
1 year but less than 2	30%
2 years but less than 3	60%
3 years or more	100%

Participants will also have a 100% vested interest in the Company's discretionary matching contributions upon reaching normal retirement age, disability, or death prior to termination.

Forfeitures

Any forfeited non-vested Company contributions may be used to either reduce future Company contributions or pay administrative expenses of the Plan. During 2015, there were \$347,523 of forfeitures used to offset Company contributions. There were \$11,012 and \$70,177 of available forfeitures at December 31, 2015 and 2014, respectively.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant, or in the event of death, his or her designated beneficiary may elect to receive a lump-sum amount equal to the full value of the participant's account balance or installment payments for a fixed period not to extend beyond the participant's life expectancy. For termination of service for other reasons, a participant may receive the value of his or her vested balance in his or her participant account. The Plan permits "in-service withdrawals" in the case of rollover accounts, attainment of age 59 ½ and hardship withdrawals.

Notes Receivable from Participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum of the lesser of (a) one-half of the vested portion of the participant's account or (b) \$50,000 minus the excess of the highest outstanding loan balance during the previous twelve months. The loans are secured by the balance in the participant's account. Principal and interest are typically repayable through payroll deductions over periods ranging up to five years, unless the loan is for the purchase of a primary residence, in which case the loan may be repaid over fifteen years. The interest rate is fixed and is determined by the rate that is equal to the prime interest rate quoted in the Wall Street Journal on the date the loan is requested, plus 1%. A participant may make payments directly to the trustee provided the participant is on an approved leave of absence. Interest rates on outstanding loans ranged from 4.25% to 7.25% at December 31, 2015 and 2014.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

New Accounting Guidance

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-12. This three-part standard simplifies the required reporting and disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive investment contracts (FBRICs). Contract value is the only required measure for FBRICs. Part I also clarified that indirect investments in FBRICs (for example, the Plan's investment in the T. Rowe Price Stable Value Fund, a stable value collective trust fund) are not in the scope of the FBRICs guidance. Part II eliminates the requirement to disclose individual investments that are 5% or more of total net assets available for benefits, as well as the appreciation (depreciation) of fair value by investment type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part III is not applicable to the Plan. The amendments are effective for the Plan for fiscal years beginning after December 15, 2015 and shall apply retrospectively to all periods presented. The Plan elected to early adopt this guidance as of December 31, 2015, as permitted and has applied this guidance retrospectively, as required. The adoption resulted in the reclassification of \$447,497 related to the adjustment from fair value to contract value for the stable value collective trust fund within the Statement of Net Assets Available for Benefits as of December 31, 2014. Furthermore, the Plan's investments have been disaggregated by general type only and the Plan has eliminated its historical disclosure of individual investments which comprise 5% or more of total net asset available for benefits, as well as the net appreciation (depreciation) of fair value by investment type. There were no other impacts on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 or the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

In May 2015, the FASB issued ASU 2015-07, which updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value (NAV) per share (or its equivalent). The updated guidance applies to reporting entities that elect to measure the fair value of certain investments using the NAV per share (or its equivalent) of the investment as a practical expedient. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of when the investment is redeemable with the investee at NAV. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments are effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. The Plan elected to early adopt this guidance as of December 31, 2015, as permitted and has applied this guidance retrospectively, as required. The adoption has been reflected in Note C of the financial statements. The adoption had no impact on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 or the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2016, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2015 and 2014

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: A stable value fund valued at the NAV of units of the collective trust. The NAV is calculated by the fund based on net assets, which includes fully benefit-responsive investment contracts at contract value. This NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund and is used as a practical expedient to estimate fair value.

NOTE C – FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$246,065,791	\$ -	\$ -	\$246,065,791
Total assets in the fair value hierarchy	\$246,065,791	\$ -	\$ -	246,065,791
Collective trust fund:				
T. Rowe Price Stable Value Fund				31,166,553
Total assets at fair value				\$277,232,344

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$247,714,144	\$ -	\$ -	\$247,714,144
Total assets in the fair value hierarchy	\$247,714,144	\$ -	\$ -	247,714,144
Collective trust fund:				
T. Rowe Price Stable Value Fund				30,421,267
Total assets at fair value				\$278,135,411

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with industry practices, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – STABLE VALUE FUND

The Plan's investments include an investment in the T. Rowe Price Stable Value Fund (the "Fund"), a collective trust fund that is considered to be a stable value fund with underlying investments in fully benefit-responsive investment contracts. Fair value of the stable value fund is the NAV of the fund. The NAV is based on net assets, which includes the fully benefit-responsive investment contracts at contract value. The Fund is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The Fund's investment objective is to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. To achieve its investment objective, the Fund invests in underlying assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals for benefit payments and participant transfers to noncompeting investment options to be paid to plan participants shall be made 30 days after written notification has been received. Withdrawals, other than for benefit payments and participant transfers to noncompeting investment options may be made up to one year after notification is received. At December 31, 2015 and 2014, there were no other restrictions or unfunded commitments.

Certain events can limit the ability of the Plan to transact at contract value with the Fund, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

NOTE E – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Investment income (loss) and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2015 and 2014

NOTE F – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are held and managed by T. Rowe Price. T. Rowe Price also performs administrative and record-keeping services for the Plan. Therefore, these transactions qualify as transactions that are exempt from the prohibited transaction rules.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company contribution portion of their accounts.

NOTE H – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated January 13, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE I – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
