General

The Plan is a defined contribution plan and meets the requirements of Section 401(k) of the Internal Revenue Code of 1986, as amended (the Code), which permits employees to exclude contributions to the Plan from their current taxable income, subject to certain limits. The Plan is sponsored by NC Transaction, Inc. (the Company). The HarperCollins Retirement Account Plan was amended to allow HarperCollins Christian Publishing Inc. to be a participating employer (only with respect to employees of HarperCollins Christian Publishing Inc. who were participants in this sub plan as of June 30, 2013). It is subject to the regulations of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the Code.

Effective March 1, 2014, the NC Transaction, Inc. Pension Plan (NCTI Pension Plan) was frozen and participants stopped earning benefits under the NCTI Pension Plan. The Plan was amended to allow certain participants of the NCTI Pension Plan who were affected by this freeze to be eligible for the following:

- 2% Employer Non-elective Contributions.

- Additional annual transition contributions as determined by such participant's age on December 31, 2014, effective March 1, 2014 to February 28, 2019.

1. Description of Plan (continued)

On June 13, 2014, the Plan was amended as follows:

- Effective July 1, 2014, the NC Transaction, Inc. Corporate Savings Plan was amended to permit hardship distributions from amounts in a participant's rollover contribution account.

- The RAP was amended to allow the Zondervan Corporation and VIDA Publishers, Inc. to be participating employers in the Plan until June 30, 2013.

- The RAP was amended to allow HarperCollins Christian Publishing, Inc. to be a participating employer (only with respect to employees of HarperCollins Christian Publishing, Inc. who were participants in this sub-plan as of June 30, 2013).

On July 1, 2014, the Plan was restated and amended as follows:

- Effective June 26, 2013, the definition of spouse was amended to mean a person of the same or opposite sex to whom a participant is legally married under the laws of any domestic or foreign jurisdiction having the legal authority to sanction marriage.

- The authority of the Joint Investment Committee under the Plan and ERISA was clarified.

- Effective January 1, 2015, a new section was added to define statute of limitation periods under the Plan for bringing claims under the Plan and legal action against the Plan or its fiduciaries.

- The three sub-plans were amended to clarify the annual compensation limits, provisions related to the default of a participant loan, and annual contribution limits.

On January 1, 2015, the Company established the NC Transaction, Inc. Savings Plan Master Trust (Master Trust) with the intention to hold and invest assets of the Plan and the Dow Jones 401(k) Savings Plan (Savings Plan) in a single trust. Assets of the Plan were transferred to the Master Trust effective January 1, 2015 in exchange for an undivided beneficial interest in the Master Trust. Fidelity Management Trust Company serves as the trustee for the Master Trust.

1. Description of Plan (continued)

Effective December 31, 2015, the Dow Jones Savings Plan merged into the NC Transaction Inc. Savings Plan. Accordingly, assets totaling approximately $1,312,129,000 were transferred to the NC Transaction Inc. Savings Plan.

Assets Held in Trust

The Plan's investments are held in the Master Trust and a trust with Fidelity Management Trust Company (Fidelity) as of December 31, 2015 and 2014, respectively. Among other duties, Fidelity is responsible for the custody, recordkeeping and investing of Plan assets and for the payment of benefits to eligible participants. All contributions are invested by the trustee as designated by the Plan participants.

401k Eligibility for all but New York Post Union Employees

On and after the effective date, all employees and transition employees (as defined), with the exception of New York Post Union employees, age 21 or older paid on a salary basis, are eligible for Plan participation immediately upon full-time regular employment, provided they are scheduled to complete at least 1,000 hours of service during a 12-month period. In the event an employee is otherwise eligible to participate in the Plan, but has not yet attained age 21, such employee shall be eligible to participate on the first day of the month following the attainment of age 21. Participants can elect within the applicable timeframe not to enroll in the Plan.

New York Post Union Eligibility

On and after the effective date, with the exception of the Newspaper and Mail Deliverers Union of New York and Vicinity, all New York Post employees who are members of the Engineers Union, Machinists Union, Mailers Union, Paperhandlers Union, Pressmens Union, Stereotypers Union, and Typographical Union and have completed six months of service, along with the completion of 500 or more hours with the Company, are eligible to participate in the Plan, unless the employee is a transition employee. Transition employees must complete 500 hours of service in any six-month period with either the Company or an affiliate of the Company. Transition employees will receive credit for years of service credited under the predecessor plan.

1. Description of Plan (continued)

401k Contributions and Vesting for all but New York Post Union Employees

Each year, Plan participants are entitled to contribute, subject to certain Internal Revenue Service (IRS) regulations, pretax contributions from 1% to a maximum of 20% of their compensation, as defined, and after-tax contributions up to 10% of their compensation, as defined, not to exceed a combined deferral percentage of 27%. The Plan also permits catch-up contributions up to the IRS maximum ($6,000 in 2015).

The Plan adopted a Safe Harbor compliant structure. The employer matching contribution on eligible employee deferrals is 100% of the first 1%, plus 50% of the next 5% of eligible compensation contributed. In addition, the Company makes a 2% non-elective contribution of eligible compensation for employees who became participants in the predecessor sub-plan on or after January 1, 2008, transferred to a participating employer from an eligible affiliate after June 28, 2013, or transferred to a participating employer from an ineligible affiliate after June 28, 2013, but was not an active participant in such ineligible affiliate's defined benefit plan.

The employer discretionary contribution for the HarperCollins RAP is determined annually at the discretion of the Administrative Committee. In order to receive the employer discretionary contribution, a participant must see (i) an employee on the last payroll date of the Plan year, (ii) deceased during the Plan year, (iii) retired on or after normal retirement age during the Plan year, (iv) retired on or after early retirement age during the Plan year, or (v) determined to have a disability during the Plan year. The calculation of the employer discretionary contribution is based on years of service and a specific percentage of annual compensation as follows:

	Age								
Years of Service	**Under 25**	**25–29**	**30–34**	**35–39**	**40–44**	**45–49**	**50–54**	**55–59**	**60 and Over**

1. Description of Plan (continued)

Participants' voluntary contributions and actual earnings thereon become vested immediately. Participants' interest in the employer matching contribution shall follow a two-year cliff vesting. Participants' interest in the employer nonelective contribution shall follow a three-year cliff vesting.

401k Contributions and Vesting for New York Post Union Employees

Each year, Plan participants are entitled to contribute, subject to certain IRS regulations, pretax contributions from 1% to a maximum of 20% of their compensation, as defined. The Plan also permits catch-up contributions up to the IRS maximum ($6,000 in 2015).

The Company contributes a profit-sharing contribution to each eligible employee's account based on each specific participating union's bargaining agreement. Some of the unions are based on an amount per shift up to a maximum per week and per year. Other unions use a percentage of eligible pay up to an annual maximum. These contributions are independent of the employee's deferral election and are immediately vested, along with the earnings thereon.

Participant Accounts

A separate account is maintained by the trustee for each participant to record his or her pretax and after-tax contributions, the employer's matching contribution and Plan earnings.

Forfeitures

Forfeitures (normally unvested interests of terminated participants' matching contribution accounts) are used to reduce future matching contributions or to pay administrative expenses. Total forfeitures for the year ended December 31, 2015 amounted to approximately $559,000. Forfeitures used during the year ended December 31, 2015 totaled approximately $360,000 and $213,000 for reduction of employer matching contributions and payment of administrative expenses, respectively. The total unallocated forfeitures amount in the Plan at December 31, 2015 and 2014 totaled approximately $462,000 and $470,000, respectively.

1. Description of Plan (continued)

Notes Receivable From Participants

Participants may borrow from the Plan a minimum of $1,000 and a maximum amount not to exceed the lesser of $50,000 or 50% of the participant's vested account balance, except for transferred assets from the RAP. The loans are payable over a period not to exceed five years or, if the proceeds are used to purchase the participant's principal residence, the fixed rate loans are payable over a period not to exceed 20 years, and bear interest at prime plus 1%. The loans are secured by the pledge of the participant's interest in the Plan.

At December 31, 2015, interest rates ranged from 4.25% to 9.50%, with various maturities through October 2035. Participants are required to repay outstanding loan balances when they leave the Company, or the loan balances will be treated as taxable distributions to the participants. Participants may prepay their loans at any time without penalty.

Payment of Benefits

Plan participants or beneficiaries are eligible to receive a benefit payment equal to their vested account balance upon termination of employment, retirement, death or permanent disability, as stipulated in the Plan document. Such benefits shall be made in a lump-sum payment, a qualified rollover to an IRA or another employer's tax qualified retirement plan or an installment payment for retirees, subject to certain restrictions as defined in the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

Recordkeeping fees and loan setup fees of the Plan were charged to the participants' accounts. All other administrative fees were paid by the Company.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments among various investment options outlined in the Summary Plan Description. Additionally, participants may redirect their investment balances among these various investment options.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company may terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event of Plan termination, the accounts of all participants affected shall become fully vested and nonforfeitable. Assets remaining in the trust fund will be distributed to the participants and beneficiaries in proportion to their respective account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable From Participants

Loans are measured at unpaid principal balance, plus accrued but unpaid interest.

Plan's Participation in the Master Trust

The Company established the Master Trust on January 1, 2015. Assets of approximately $451,270,000 and $1,331,995,000 from the Plan and the Savings Plan, respectively, transferred into the Master Trust on January 1, 2015. The assets of the Plan are commingled for investment purposes with the assets of the Savings Plan. Effective December 31, 2015, the Savings Plan was merged into the Plan, and the Master Trust held the assets of only the Plan as of December 31, 2015.

2. Summary of Significant Accounting Policies (continued)

Under the terms of the master trust agreement, participating plans did not have a right or title to any specific assets of the Master Trust, but the plans had an undivided beneficial interest (i.e., accumulated share) in the Master Trust. Additionally, Fidelity determined the current value of the entire Master Trust and the accumulated share of each of the plans in such manner as Fidelity in its reasonable discretion shall prescribe, but in accordance with a method consistently applied. Ownership is represented by a record of proportionate dollar interest.

The fair value of each plan's initial contribution to the Master Trust, as applicable, represented each plan's respective accumulated share at the date the Master Trust was created. The Plan's interest in the net assets and investment income of the Master Trust as of and for the year ended December 31, 2015, as reflected in the financial statements, was determined based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Participants should refer to the Master Trust agreement for more complete information.

Valuation of Investments

The Plan's investments and investment in the Master Trust are stated at fair value and contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 2).

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820) the Plan classified its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value (see Note 9). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

2. Summary of Significant Accounting Policies (continued)

The Company assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting.

Following is a description of the valuation methodologies used for assets measured at fair value by the Master Trust at December 31, 2015 and by the Plan at December 31, 2014:

Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed brokerage accounts primarily consist of mutual funds, common stocks, interest bearing cash, and corporate obligations. Mutual funds are valued at the NAV of shares held by the Plan and common stock is valued at the closing price and both are reported on active markets on which the individual securities are traded. Interest bearing cash is valued at cost plus interest earned, which approximates fair value. Corporate securities are valued using pricing models maximizing the use of observable inputs for similar securities, which include basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold, as well as held, during the year.

3. Information Certified by the Trustee

Certain investment information disclosed in the accompanying financial statements was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity. Such information includes the Plan's interest in the Master Trust and investments held at December 31, 2015 and 2014, respectively, notes receivable from participants at December 31, 2015 and 2014, and the net investment income from the Master Trust and interest income on notes receivable from participants for the year ended December 31, 2015.

4. Risks and Uncertainties

The Master Trust's and the Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Master Trust's and the Plan's concentration of credit risk and market risk is dictated by the Plan's provisions, as well as those of ERISA and the participants' investment preferences.

The Master Trust and the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

5. Contracts with Insurance Company and Banks

Following is a description of contracts with insurance company and banks under the Master Trust at contract value at December 31, 2015:

The Master Trust contains a fund (the News Corp Stable Value Fund, formerly Dow Jones Investment Contract Fund) invested in synthetic guaranteed investment contracts (GICs), which are fully benefit-responsive investment contracts (FBRICs), with various banks and an insurance company and a short-term liquidity fund, which are managed by Fidelity. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. A synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio of high-quality, intermediate term fixed income securities. The Master Trust purchased a wrapper contract from a financial services institution with the intent of maintaining a stable contract value. Synthetic GICs provide for a variable crediting rate and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a

5. Contracts with Insurance Company and Banks (continued)

crediting rate less than zero. There are no contract value reserves established for credit risk of the contract issuers or otherwise as of December 31, 2015. The contract value of the Master Trust's investment in synthetic GICs was $288,570,093 as of December 31, 2015. The crediting interest rate is based on a formula agreed upon with the issuers. Such rates are reviewed on a quarterly basis for resetting.

There are certain events not initiated by participants that limit the ability of the Master Trust to transact at contract value with the issuer of the FBRICs at its contract value. Examples of such events include the following: the Master Trust's failure to qualify under Section 401(a) or 401(k) of the Code; the establishment of a defined contribution plan that competes with the Master Trust for employee contributions; any substantive modification of the Master Trust or the administration of the Master Trust to which the contract issuer has not consented; complete or partial termination of the Master Trust; any change in law, regulation, or administrative ruling applicable to the Master Trust that could have a material adverse effect on cash flow; merger or consolidation of the Master Trust with another master trust, the transfer of Master Trust assets to another master trust, or the sale, spin-off, or merger of a subsidiary or division of the Plan Sponsor; any communication given to participants by the Plan Sponsor or any other fiduciary that is designed to induce or influence participants not to invest or to transfer assets; exclusion of a group of previously eligible employees from eligibility in the Master Trust; any early retirement program, group termination, group layoff, facility closing, or similar program; or any transfer of assets to a competing option.

The Plan Sponsor does not believe that the occurrence of any of the aforementioned events, which would limit the Master Trust's ability to transact with the issuer of the FBRICs at its contract value with participants, is probable.

Contract issuers may terminate a contract at any time; if, however, the market value of covered assets is below contract value at the time of such termination, the Master Trust manager may elect to keep the contract in place until such time as the fair value of covered assets is equal to contract value. An issuer may also terminate a contract if the Master Trust manager's investment management authority over a fund is limited or terminated, as well as if all of the terms of the contract fail to be met. In the event that the fair value of covered assets is below contract value at the time of such termination, the issuer would not be required to make payment.

6. Transactions with Parties-in-Interest

The Master Trust's and the Plan's investments in mutual funds managed by the trustee and loans are considered to be party-in-interest transactions. These investments amounted to approximately $938,111,000 and $365,583,000 as of December 31, 2015 and 2014, respectively. Fees paid by the Plan Sponsor for the year ended December 31, 2015 were not significant.

7. Tax Status

The Plan applied for a determination letter from the IRS, stating that the Plan is qualified under Section 401(a) of the Code. A determination letter was received, dated March 24, 2016, conditioned upon the timely adoption of certain required amendments to the Plan (see Note 10). The Plan administrator believes that the Plan has been designed to comply with and is operating in accordance with the applicable requirements of the Code and therefore, believes the Plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

  (a) Freeze participants' age and years of contribution service for purposes of the RAP contributions as of December 31, 2016;

  (b) Reduce the RAP contributions by 3% per plan year beginning January 1, 2017; and

  (c) Provide that when a participant's RAP contribution for a plan year is reduced to 2% or lower, such participant shall not be eligible to receive a RAP contribution for such plan year. Additionally, beginning the plan year for which a participant is no longer eligible to receive the RAP contribution, such participant will be eligible to receive a 2% employer nonelective contribution to be paid into a separate account under the Plan.

- Effective July 1, 2016, the Plan's three sub-plans with varying terms: the NC Transaction, Inc.
