1. Description of the Plan and benefits

The following description of the Jobvite, Inc. 401(k) Plan (the "Plan"), is provided only for general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Jobvite, Inc. (the "Employer") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"). The Plan provides for a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Employer. State Street, the Trustee, is responsible for administering and holding participant directed Plan Investments. The Plan's Recordkeeper is Automatic Data Processing, Inc. (ADP). The Plan is administered by the management of the Employer and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees must be at least twenty-one years of age to be eligible to contribute to the Plan. Once the employee satisfies the Plan's eligibility requirement, the employee may enter the Plan on the first day of the month after the completion of the eligibility requirement. The Plan adopted an automatic enrollment provision under which new participants are set up with a 3% pretax deferral unless they formally waive participation, or elect a different participation level.

Contributions

Participants may elect to contribute, on a tax-deferred basis, up to 90% of their eligible compensation, subject to certain limitations under the IRC ($18,000 and $17,500 for employees under age 50, and $24,000 and $23,000 for employees age 50 and over for 2015 and 2014, respectively). Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their accounts into a variety of investment options offered by the Plan. A participant may authorize transfers among investment options at any time.

The Plan includes a Roth 401(k) feature available to all participants. The Roth 401(k) vehicle was introduced as an additional deferral source for employees to diversify their retirement income from a tax perspective.

1. Description of the Plan and benefits - continued

Contributions - continued

The Company may make non-elective contributions, at the discretion of the Company's Board of Directors of the Employer. No Company contributions have been made to the Plan year ended December 31, 2015.

Participant accounts

Each participant's account is credited with the participant's voluntary contributions, Employer's non-elective contributions, and allocation of the Plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant ultimately is entitled, is the value of the participant's account, upon separation from the Plan or retirement. Participants select the fund(s) in which they invest.

Vesting

Employee contributions, rollovers, and actual earnings on all such contributions are fully vested at all times. Employer contributions and actual earnings thereon are 100% vested after six years of service with the Employer.

Notes receivable from participants

Participants may borrow a portion of their 401(k) contributions, subject to the Internal Revenue Code regulations. Loans to a participant are secured by the participant's account and may not exceed the lesser of fifty percent of the participant's vested account balance, or $50,000, in the aggregate, for a period not to exceed five years, unless the funds are used to purchase a principal residence. Funds used to purchase a principal residence must be repaid within thirty years. The loans bear fixed interest at 5.25%. Principal and interest are paid ratably throught payroll deductions.

Investment options and management

Participants may direct contributions, as desired, in any of several investments offered by the Trustee. As of December 31, 2015 and 2014, substantially all of the Plan's net assets available for benefits were invested in investment funds under the management of State Street. Participants may change their investment allocation and/or transfer their account balances among the various funds.

1. Description of the Plan and benefits - continued

Benefit payments and withdrawals

Upon termination of employment with the Employer, a participant will receive a lump sum disbursement if his or her vested account balance is $5,000 or less. If the vested account balance is greater than $5,000, the participant is entitled to receive a lump sum amount or installment payments. In the event of death or total and permanent disability, a participant is entitled to the total value of the participant's account.

In-service distributions may be made from any of the participant's vested accounts at any time for a hardship. Events that qualify for a hardship withdrawal are as follows: to cover necessary medical expenses, for costs directly related to the purchase of the participant's primary residence, for expenses related to post-secondary education, for payments necessary to prevent the participant's eviction from or foreclosure of his or her primary residence, for payment of federal, state or local income tax or penalties reasonably anticipated to result from the hardship withdrawal. If a participant takes a hardship withdrawal, generally all contributions to the Plan will be suspended for six months.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts contributed to the Plan shall become 100% vested and the Company would distribute the balance in each participant's account as soon as possible.

Administrative expenses

For the year ended December 31, 2015, the Company incurred administrative expenses of $1,000. These expenses were paid by the Plan and are included in administrative expenses on the accompanying Statement of Changes in Net Assets Available for Benefits. Substantially all other out-of-pocket costs are paid by the Employer.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

2. Summary of significant accounting policies - continued

Valuation of investments

The Plan's investments are reported at fair value. Fair value is defined as the price that would be received for an asset, or paid to transfer a liability (an exit price), in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

If available, quoted market prices are used to value investments. Units in registered investment companies are valued at the net asset value of shares held by the Plan at year-end.

The mutual fund calculates its net asset value by dividing the mutual fund's assets by the number of shares issued by the mutual fund.

The common/collective trusts in the Plan are target date funds valued at the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Unrealized gains and losses on investments are calculated from fair value as of the previous Plan year end, or from cost if acquired during the Plan year, and are included in depreciation in fair value of investments.

2. Summary of significant accounting policies - continued

Valuation of investments - continued

See Note 7 for specific Plan fair value disclosures.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Contributions

Contributions from the employer are accrued in the period when earned.

Payment of benefits

Benefits are recorded when paid.

Investment management and administration

The assets of each fund within the Plan are invested under arrangements with the Trustee. All expenses incurred in maintaining the Plan are paid by the Company. These expenses include fees of the Plan's Trustee and third-party administrators.

Investment options

The Plan provides a variety of investment options with differing risk and growth characteristics. As of December 31, 2015 and 2014, substantially all of the Plan's net assets available for benefits were invested in investment funds under the management of the Trustee. Participants may direct contributions, as desired, in any of several investments offered by the Trustee and may change their investment options daily.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Summary of significant accounting policies - continued

New accounting pronouncements

In May 2015, the FASB issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820)*, which updated guidance on the disclosure requirements for certain investments measured at fair value using the net asset value per share (or its equivalent) practical expedient as defined in ASC Topic 820. The new guidance removes the requirement to categorize such investments within the fair value hierarchy for which fair value is measured using the net asset value practical expedient in Accounting Standards Codification 820. ASU 2015-07 requires retrospective application and is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Company will adopt the new pronouncement for the fiscal year beginning January 1, 2016. The implementation of the pronouncement does not have material effect on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of desegregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively to all periods presented. The Company will adopt the new pronouncement for the fiscal year beginning January 1, 2016. The implementation of the pronouncement does not have material effect on the Plan's financial statements.

2. Summary of significant accounting policies - continued

Subsequent events

The Company has evaluated subsequent events through October 12, 2016, the date which the financial statements were available to be issued.

3. Information certified by the custodian

The Plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments and notes receivable from participants, as reflected on the accompanying Statements of Net Assets Available for Plan Benefits as of December 31, 2015 and 2014;
- Net depreciation in fair value of investments and interest income on notes receivable from participants, as reflected in the Statement of Changes in net Assets Available for Plan Benefits for the year ended December 31, 2015;
- Investment values and changes for 2015 and 2014 disclosed in Notes 4 and 7;
- Current values, as reflected in Form 5500 - Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments (unaudited)

The Plan's investments were held in trust by State Street. Plan investments representing five percent (5%) or more of the Plan's assets are separately identified at December 31, 2015 and 2014 as follows:

Vanguard 500 Index Fund - Admiral Class	$ 323,369	$ -

For the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $(87,638) as follows.

Registered investment companies	$ (202,488)
Interest and dividends	114,698
Interest on participant loans	152
	$ (87,638)

5. Notes receivable from participants

At December 31, 2014, the Plan had an outstanding loan to a participant totaling $3,000. The outstanding loan bore interest at 5.25% and matured in 2015. No outstanding loans existed at December 31, 2015.

6. Income tax status

The Plan is designed to constitute a qualified trust under the applicable sections of the IRC and is, therefore, considered to be exempt from federal income taxes. Participating employees are not subject to federal and state income taxes on employer contributions or on income accruing to their accounts, until they receive distributions from the Plan.

Under a plan qualified pursuant to Sections 401(a) and (k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59 1/2, then certain special tax rules may be applicable.

The IRS has determined and informed the Plan sponsor by a letter dated July 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

6. Income tax status - continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012 for the year ended December 31, 2015.

7. Fair value measurements

The Plan uses fair value measurements to record fair value adjustments to certain investment assets and liabilities and to determine fair value disclosures. For additional information on how the Plan measures fair value refer to Note 2 - Summary of significant accounting policies. The following table summarizes the assets and liabilities of the Plan for which fair values are determined on a recurring basis:

10. Party-in-interest transactions

The Plan invests in registered investment companies managed by State Street. State Street is the Trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions.

11. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
