401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE A – DESCRIPTION OF PLAN

The following description of the Surgical Referral Service, Ltd. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and readers should refer to the Plan document and Summary Plan Description (SPD) for a more detailed description of the Plan provisions. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined contribution plan covering all qualified employees of Surgical Referral Service, Ltd. and its related entities (the "Plan Sponsor") who are at least 21 years of age and have completed one year of service. Participants are eligible to receive employer elective contributions (matching and profit sharing) when they have completed one year of service. Once participants have met the eligibility requirements they will enter the plan on January 1 or the date 6 months later, coincident with or next following satisfaction of the eligibility requirements. The Plan became effective January 1, 1993 and has been periodically amended to conform to new laws and regulations under ERISA.

Contributions

Employee contributions are voluntary and limited to the maximum allowed under the Internal Revenue Code.

The Plan Sponsor may make a discretionary matching contribution equal to a uniform percentage of participant's salary deferrals. Each year, the Plan Sponsor will determine the amount of the discretionary percentage, but will not exceed 6 percent of a participant's compensation. There was no discretionary matching contribution for the years ending December 31, 2015 and 2014.

The Plan Sponsor may make a discretionary profit sharing contribution to eligible employees. The profit sharing contribution for the years ending December 31, 2015 and 2014 was $264,924 and $260,202, respectively.

Additionally, the Plan may accept rollover contributions. Participants will always be 100% vested in their rollover accounts, however those funds will be affected by any investment gains or losses.

Participants' Accounts

Each participant's account is credited with the respective participant's contributions, any employer contributions (elective and profit sharing), and allocated Plan earnings, as set forth in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's set of accounts.

NOTE A – DESCRIPTION OF PLAN (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants become 100% vested in the Plan Sponsor discretionary contributions (profit sharing and matches on elective deferrals) upon completion of 6 years of service.

The participant's vested percentage in their account attributable to matching and profit sharing contributions is determined under the follow schedule:

Years of Vesting Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Hardship Withdrawals

Hardship withdrawals may be made to satisfy certain immediate financial needs, according to specific types of costs and set conditions designated in the Plan. Hardship distributions can only be made from accounts which are 100% vested.

Payment of Benefits

Generally, benefits are paid to participants upon termination of service due to death, retirement, or separation of service. Account balances less than $5,000 are subject to payment in a lump-sum upon termination. While the account and timing of payments will vary depending on the option selected, the total payment will have the same dollar value equivalent to the value of the participant's account at retirement.

Plan Termination

Although the Plan Sponsor has not expressed intent to terminate the Plan, it may do so at any time. If the Plan is terminated, participants become 100 percent vested in their accounts and the net assets would be distributed to the participants according to the balances in the participants' accounts.

Forfeitures

If a participant terminates employment before being fully vested, then the non-vested portion of the terminated participant's account balance remains in the Plan as forfeitures. Forfeitures may be used by the Plan to pay for administrative expenses and or to reduce any discretionary employer contributions. Forfeitures available for use by the Plan Sponsor were $11,649 and $1,208 for the years ending December 31, 2015 and 2014, respectively.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the cash basis method of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year, assets held during the year, and interest and dividend income.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Plan Sponsor, as provided by the plan document. Expenses that are paid directly by the Plan Sponsor are excluded from these financial statements. Certain administrative fees and expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the value in investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE C – CERTIFIED INVESTMENT INFORMATION

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, investment information and related activity certified as accurate and complete by a qualified institution need not be subjected to independent audit.

The Plan administrator has obtained a certification from Great-West Life & Annuity Insurance Company, as trustee of the Plan, that the following information included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Investments as of December 31, 2015 and 2014;
- Plan transactions related to investment income and securities transactions for the year ended December 31, 2015;
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2015.

Accordingly, at the request of the Plan administrator, the Plan's independent certified public accountants performed no procedures on investment information and related activity, other than to agree the information to the trust statements certified by the Plan's trustee and provided to them by the Plan administrator.

NOTE D – INVESTMENTS

All of the investments are funds provided by Great-West Life & Annuity Insurance Company. The following table presents investments that represent five percent or more of the Plan's net assets as of December 31,

	2015	2014
Neuberger Berman Genesis Adv	$ 619,139	$ 627,353
Neuberger Berman Multi-Cap Opp A	$ 787,173	$ 840,447
Oppenheimer Equity Income R	$ 575,132	$ 587,859
Pioneer Fundamental Growth R	$ 1,369,248	$ 1,229,766
Janus Balanced Fund R	$ 366,213	$ 407,744
Key Guaranteed Portfolio Fund	$ 633,400	$ 709,777

NOTE E – FAIR VALUE OF MARKET INVESTMENTS

The Accounting Standards Codification for *Fair Value Measurements* (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE E – FAIR VALUE OF MARKET INVESTMENTS (continued)

Level 2:

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV0 and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for the financial statement reporting purposes only. In determining the reasonableness of the methodology, the Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing market data (for example, swap curve rate).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – FAIR VALUE OF MARKET INVESTMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015

Investments, at fair value	$ 4,925,932	$ 706,777	$ -	$ 5,632,709

The Plan also holds other assets not measured at fair value on a recurring basis, including contributions receivable and unallocated cash. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to either the short maturity of the instruments or the use of the interest rates that approximate market rates for instruments of similar maturity.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Certain plan assets are in investment funds managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions under ERISA guidelines.

Certain administrative expenses of the Plan are paid directly by the Plan Sponsor and are not charged to the Plan.

NOTE G – TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Plan by letter dated March 31, 2008, that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

US GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax position taken by the plan, and has concluded that as of December 31, 2015, there are no uncertain position taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. For federal purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE H – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan assets include a group annuity contract with Great-West Life & Annuity Insurance Company. The group annuity contract, Key Guaranteed Portfolio Fund, is a fixed account that is part of the general account of Great-West Life & Annuity Insurance Company. The methodology for calculating the interest credit rate is based on the earnings of the underlying assets in the entire medium long-term new portfolio compared to the minimum interest crediting rate (which will never be less than 0% as stated in the contract), and prevailing market conditions. Interest crediting rate is reset quarterly. At December 31, 2015 and 2014, the Key Guaranteed Portfolio Fund's fair value equaled its contract value of $633,400 and $706,777, respectively.

The average yield earned by the Plan is derived by averaging the quarterly gross interest rates for the fund over the year. The actual average yield earned by the Plan is derived by averaging the Plan's quarterly interest rates. That average for 2015 was (1.20%).
