Notes to the Financial Statements
December 31, 2015 and 2014

A. PLAN DESCRIPTION

The following description of the Pride of the Hills Manufacturing, Inc. (the “Company” or “Plan Sponsor”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Code (“IRC”) Section 401(k) arrangement. The Plan covers substantially all employees of the Company who have one year of service and are age eighteen or older. One year of service is a twelve consecutive month period during which an employee has at least 1,000 hours of service, as defined in the Plan document and adoption agreement. Effective January 1, 2015, the Plan was amended and restated to allow participation after six months of service. All individuals employed as of January 1, 2014, the date of the inception of the Plan, were eligible for participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions - Participants may contribute up to 100%, limited to the IRC 402(g) limit, of their compensation on a pre-tax or post-tax (“Roth”) basis. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. The Plan Sponsor, however, may be required to limit contributions of certain employees to comply with the IRC.

The Plan requires the Company to make a safe harbor matching contribution equal to 100% of the first 3% of each participant’s deferral contributions and 50% of the next 2% of each participant’s deferral contributions.

The Company may make additional discretionary contributions to the Plan. All eligible employees, as defined, may receive these discretionary contributions after achieving the age of eighteen and completing 500 hours of service. No discretionary contributions have been made to the Plan.

The Plan also permits rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, employer safe harbor matching contributions, allocation of the Company’s discretionary profit sharing contribution, and Plan earnings. The benefit to which the participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants direct the investment of their contributions into the various funds provided. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their contributions and the safe harbor matching contributions, plus actual earnings thereon. A participant is 100% vested in the Company’s discretionary contributions plus actual earnings thereon after five years of service.

Payment of Benefits - A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her vested interest in his or her participant account in the form of a single lump sum payment or in periodic installments. Additionally, the Plan has provisions for an active participant to make withdrawals from his or her account, subject to limitations and restrictions.

Forfeitures - Unvested amounts forfeited by terminated participants may be used by the Plan for the payment of Plan expenses or to reduce the employer discretionary contribution. There were no re-allocated forfeitures during the year ended December 31, 2015.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustees. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid or accrued.

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, may be paid by the Plan or the Company. Participants pay all distribution fees. Investment related expenses are included in net depreciation of fair value of investments.

Recently Issued Accounting Standards - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820), to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The guidance is to be applied retrospectively and is effective for annual periods beginning after December 15, 2015, with early application permitted.

In July 2015, the FASB issued ASU 2015-12, *Defined Contribution Plans (Topic 962), (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient*. Part I removes the requirement to measure fully benefit-responsive investment contracts at fair value, with an adjustment to contract value and permits fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II removes the requirement to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The guidance in Part I and II is to be applied retrospectively. The guidance in Part III is to be applied prospectively. The guidance in Parts I, II and III is effective for annual periods beginning after December 15, 2015, with early application permitted.

Pride of the Hills Manufacturing, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Related Change of Accounting Methods and Presentation - Management has elected to apply the applicable section of the guidance described above to the Plan's financial statements as of and for the years ended December 31, 2015 and 2014. As a result, certain reclassifications have been made to the December 31, 2014 financial statements to conform to the December 31, 2015 presentation. Such reclassifications had no effect on the previously reported net increase in plan assets available for benefits.

Subsequent Events - The Plan has evaluated subsequent events through October 13, 2016, the date that the Plan's annual financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Sponsor has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by MATC, the custodian.

MATC has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

MATC has certified as to the completeness and accuracy of the schedule of assets (held at end of year) for the year ended December 31, 2015.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Pride of the Hills Manufacturing, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2015 and 2014

Money Market Fund: Valued at the net asset value (“NAV”) of shares held by the Plan at year end. The fund’s underlying investments are in U.S. Treasury securities and other securities backed by the full faith and credit of the U.S. government, as well as securities issued by U.S. federal agencies. The fund also invests in other high-quality money market instruments.

Mutual Funds (and Unitized Funds that are invested in Mutual Funds): The fair values of these assets are determined by reference to the funds’ Net Asset Value (“NAV”). Portfolio valuation procedures for these accounts are determined by the mutual fund company. For separate accounts that invest in mutual funds, the asset class provided in correspondences released by the custodian may be that of the primary asset class of the mutual fund. However, for information on the valuations of the underlying mutual funds, you will need to reference the information pertaining to the specific mutual fund company and should not refer to the asset class descriptions in this document for the mutual fund’s primary asset class as these descriptions do not apply to valuations of the mutual funds or Separate Accounts that invest in them.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31:

Assets at fair value as of December 31, 2015			
	Level 1	Level 2	Total
Mutual funds	\$ 875,473	\$ -	\$ 875,473
Money market funds	-	73,243	73,243
Total assets at fair value	<u>\$ 875,473</u>	<u>\$ 73,243</u>	<u>\$ 948,716</u>

Assets at fair value as of December 31, 2014			
	Level 1	Level 2	Total
Mutual funds	\$ 395,860	\$ -	\$ 395,860
Money market funds	-	46,593	46,593
Total assets at fair value	<u>\$ 395,860</u>	<u>\$ 46,593</u>	<u>\$ 442,453</u>

E. PARTY-IN-INTEREST TRANSACTIONS

MATC provides custodial and trustee services for the Plan. MATC may receive revenue from certain mutual funds which is used to offset the custodial and trustee fees.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA.

Pride of the Hills Manufacturing, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2015 and 2014

G. FEDERAL INCOME TAX STATUS

The Pride of the Hills Manufacturing, Inc. 401(k) Plan was originally adopted on January 1, 2014. The Plan has been amended since the prototype received an Internal Revenue Service ("IRS") opinion letter dated March 31, 2014. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

I. PLAN AMENDMENTS

Effective January 1, 2015, the Plan was amended and restated to comply with the Pension Protection Act of 2006 and other legislative and regulatory changes. As part of this restatement, the Plan was amended to change the eligibility period from one year to six months and to allow in-Plan Roth rollovers.
