Carter-Jones Companies 401(k) Retirement Plan

Notes to Financial Statements

1. Description of the plan

The following brief description of the Carter-Jones Companies 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan which was established in 1994 for the purpose of providing retirement benefits to associates of the Carter-Jones Companies (the "Companies") who have completed one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2005, the Plan was amended to include the Holmes Lumber & Building Center, Inc. 401(k) Profit Sharing Plan with respect to the merged Plan as of that date. Effective December 31, 2005 Griggs Lumber & Produce Co., Inc. employees were terminated and effective January 1, 2006 the employees were hired as Carter-Jones Companies employees in order to be merged with the Plan as of that date. Effective September 1, 2006, the Plan was amended to include the Kight Employees' 401(k) Profit Sharing Plan with respect to the merged Plan as of that date.

Contributions

The Plan provides the opportunity for participants to elect to have up to 60% of their pre-tax annual compensation contributed to the Plan under the guidelines provided by the Internal Revenue Service regulations. In addition, employees may make rollover deposits to the Plan from other qualified plans or certain individual retirement accounts.

The Plan provides for discretionary matching contributions for all employees in the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Companies' contributions and Plan earnings. Allocations are based on the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant account balances are fully vested at all times in salary reduction contributions, rollover contributions and earnings thereon. Plan sponsor (employer) contributions and earnings vest in accordance with the following schedule:

Years of Service	Percentage
1	20%
2	40%
3	60%

The loans are secured by the balance in the participant's account and bore interest at 9.50% during 2015 and 2014. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon death, disability, retirement or termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, in accordance with Plan provisions.

Forfeited accounts

Forfeitures are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$22,536 and \$11,901, respectively. Forfeitures used to pay administrative expenses for the years ended December 31, 2015 and 2014 were \$16,678 and \$26,754, respectively.

Plan expenses

Substantially all Plan expenses are paid by the Plan.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on average cost. Interest income is recorded on the accrual basis. Dividend income includes capital gains and is recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncement – Change in Accounting Principles

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for non-public plans for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan has adopted this update during the 2015 Plan year, and accordingly the 2014 disclosures have been adjusted to conform to this new guidance.

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with each adoption permitted. Parts I and II are to be applied retrospectively and Part III is to be applied prospectively. Management has elected to adopt Parts I and II early, and accordingly the 2014 disclosures have been adjusted to conform to this new guidance.

Notes to Financial Statements

Events occurring after the reporting date

The Plan has evaluated subsequent events through October 17, 2016, and has determined that there were no subsequent events to recognize or disclose in these financial statements.

Reclassifications

Certain December 31, 2014 financial statement items have been reclassified to conform to the December 31, 2015 financial statement presentation.

3. Fair value measurements

ASC 820, Fair Value Measurements and Disclosures, (ASC 820) enables the reader of the financial statements to assess the inputs used to develop fair value measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. ASC 820 requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common/collective trust – Stable value fund: A stable value fund that is composed primarily of fully benefit responsive investment contracts that is valued at the net asset value (NAV) of units of the bank collective trust. The net asset value is used as practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

Notes to Financial Statements

Mutual funds: Valued at the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Fair Value Measurements at December 31, 2015 Using			
	Level 1	Level 2	Level 3	Total
Total mutual funds	\$36,871,032	\$ -	\$ -	\$ 36,871,032
Investments measured at NAV*	-	-	-	7,647,598
Balance at December 31, 2015	\$36,871,032	\$ -	\$ -	\$ 44,518,630

	Fair Value Measurements at December 31, 2014 Using			
	Level 1	Level 2	Level 3	Total
Total mutual funds	\$ 36,742,667	\$ -	\$ -	\$ 36,742,667
Investments measured at NAV*	-	-	-	7,196,362
Balance at December 31, 2014	\$ 36,742,667	\$ -	\$ -	\$ 43,839,671

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

4. Plan termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Tax status

The Plan is a volume-submitter plan provided by Findley Davies, Inc. which has received an opinion letter, dated March 31, 2014, from the Internal Revenue Service. The opinion letter states that the volume-submitter plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, qualifies as tax exempt.

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Information certified by the trustee (unaudited)

The financial information included in the Plan's financial statements, except for contributions and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by Wilmington Trust Company, the trustee, as of and for the year then ended December 31, 2015 and 2014, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

7. Transactions with parties-in-interest

The participants have been identified as a party-in-interest. Therefore, participant loans qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
