1. Description of Plan:

The following description of Packaging Dynamics Corporation Employee 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which is offered to all eligible employees. Employees are eligible to become participants once they have reached eighteen years of age or older and can enroll in the Plan on the first day of the month after the date of eligibility, as defined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Mergers

On January 2, 2015, the Pac Paper, Inc. Employee 401(k) Investment Plan (the "Pac Paper Plan") was merged into the Plan. Prior to the merger, the plans covered eligible employees at Packaging Dynamics Corporation and its subsidiary, Pac Paper, Inc. The transferred net assets have been recognized in the accounts of the Plan as of January 2, 2015, at their balances as previously carried in the accounts of the Pac Paper Plan. The changes in net assets of the combined plans are included in the accompanying statement of changes in net assets available for benefits.

On December 17, 2015, the Board of Directors of Novolex Holdings, Inc., a controlling party of Packaging Dynamics Corporation, approved the merger of this Plan into the Novolex Holdings, Inc. 401(k) Plan, the Caldwell Ohio Bargaining Unit Retirement Savings Plan, the Chicago Illinois Bargaining Unit Retirement Savings Plan, and the Iuka Mississippi Bargaining Unit Retirement Savings Plan (the "Novolex Plans"), effective December 31, 2015. As a result, all investments were transferred from the Plan into the Novolex Plans on that date.

Contributions

Participants in the Plan may elect to contribute on a pretax basis up to 85% of their eligible compensation, as defined, subject to certain statutory limitations. For 2015 and 2014, the deferred amount may not exceed $18,000 and $17,500, respectively. Additionally, the Internal Revenue Code allows for participants over the age of 50 to make additional contributions (catch-up contributions) in excess of these limits. The maximum catch-up contributions for 2015 and 2014 were $6,000 and $5,500, respectively. Effective March 6, 2013, the participants were provided the option to make Roth 401(k) contributions. The employer contributions consist of a discretionary amount determined by the Board of Directors, determined to be 50% of a participant's contributions up to 8% of a participant's eligible compensation, and certain nondiscretionary employer contributions. International Converter, LLC Iuka union hourly matches 100% of participant contributions up to 5% of eligible compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. Catch-up contributions are not eligible for employer match.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's pretax or Roth contributions, the Company's matching contribution, plan earnings or losses, and administrative expenses which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued):

Vesting

Participants are vested at all times in their pretax contributions and earnings or losses thereon. Participants are 25% vested after two years of service and 100% vested after three years of service in the Company's matching contributions and earnings or losses thereon. Participants will also fully vest upon disability, retirement, or the attainment of the fifty-nine and a half years of age.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance, subject to a minimum of $1,000 and a maximum of $50,000. Loan transactions are treated as a transfer between the investment funds and the loan fund. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. Loans are secured by the balance in the participant's account and bear interest at a rate approximating current commercial lending rates at the time of the loan. Principal and interest are paid ratably through after-tax payroll deductions on at least a quarterly basis. If repayment is not made by payroll deduction, a loan shall be repaid to the Plan by payment to the Employer.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum payment, an installment payment over a fixed number of years, an investment in an annuity, or may elect a deferral option. Participants may withdraw all of their pretax contributions, subject to certain restrictions and tax penalties.

Forfeited Accounts

Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. These accounts will be used first to pay administrative expenses of the Plan, and any remaining amount may be used to reduce employer contributions. In 2015, $7 were used to pay administrative expenses of the Plan and $249,415 were used to reduce employer contributions. Forfeiture balances available for the year ended December 31, 2015 were $-0-.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ significantly from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All Plan assets were transferred to the Novolex Plan before close of business on December 31, 2015. See Note 4 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (continued):

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Excess Contributions Payable
At December 31, 2015 and 2014, amounts payable to participants totaling $-0- and $56,158, respectively, for contributions in excess of amounts allowed by the IRS or by the Plan are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Payments of Benefits
Benefit payments to participants are recorded upon distribution.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Date of Management's Review
Subsequent events have been evaluated through October 14, 2016, the date which the financial statements were available to be issued.

3. Information Certified by the Trustee:

The following information included in the accompanying financial statements as of, and for the years ended December 31, 2015 and 2014, was provided and certified by Fidelity Management Trust Company, the trustee of the Plan (the "Trustee") as complete and accurate:

Investments, at fair value
Interest and dividend income
Net appreciation or depreciation in fair value of investments

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2015 and 2014 are as follows:

	2015	2014
Fidelity Freedom K 2020 Fund*	$ -0-	$ 7,138,082

Fidelity Freedom K 2035 Fund*	-0-	2,777,331
Fidelity Freedom K 2015 Fund*	-0-	2,612,402

* Investment did not meet the five percent threshold as of December 31, 2015, but is presented for comparative purposes.

3. Information Certified by the Trustee (continued):

During the year ended December 31, 2015, the Plan's investments depreciated in value by $2,377,966. The change in value includes gains and losses on investments bought and sold, as well as held during the year.

4. Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements* ("ASC 820") defines fair value, establishes a consistent framework for measuring fair value and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under ASC 820 are described as follows:

Level 1	Unadjusted quoted market prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access at the measurement date.
Level 2	Other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds:	Valued at the daily closing price as reported by the fund. Net assets values (NAV) are generally obtained from The National Securities Clearing Corporation, directly from the fund house, and/or a secondary processing source.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ -0-	$ -0-	$ -0-	$ -0-
Total assets at fair value	$ -0-	$ -0-	$ -0-	$ -0-

	Assets at Fair Value as of December 31, 2014			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 47,655,064	$ -0-	$ -0-	$ 47,655,064
Total assets at fair value	$ 47,655,064	$ -0-	$ -0-	$ 47,655,064

5. Tax Status:

The Internal Revenue Service has determined and informed the Trustee by a letter dated March 31, 2014 that the volume submitter plan on which the Plan is based and the related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The volume submitter plan has been amended subsequent to that date. However, the Plan administrator believes that the Plan, which is based on the volume submitter plan, was at all times during the years ended December 31, 2015 and 2014, designed and operated in compliance with the applicable requirements of the IRC, and that the Plan and related trust continued to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Risks and Uncertainties:

The Plan invests in various investments securities. Investment securities, in general, are exposed to various risks, including interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions:

Certain plan investments are mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $53,050 for the year ended December 31, 2015.

8. Assets Allocated to Terminated Participants:

Net assets available for benefits include amounts allocated to the accounts of persons who were terminated prior to year-end but had not yet received payment. At December 31, 2015, the vested account balances of terminated participants are $-0-.

9. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Statements of Net Assets Available for Benefits per the financial statements	$ -0-	$ 49,874,121
