1. Description of the Plan

The following description of the InGenesis, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document or Summary Plan Description (SPD) for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering substantially all employees of InGenesis, Inc. (the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). The Plan is administered by the Company and the third party administrator, Alliance Benefit Group of Houston, Inc. (ABGH). The custodian of the Plan's assets and recordkeeper is John Hancock Life Insurance Company (U.S.A) (the Custodian).

Eligibility

All employees of the Company are eligible to participate in the Plan on the first day of the month following employment.

Participant Contributions

Participants may elect to contribute up to 100% of their annual compensation as defined in the Plan, subject to the maximum dollar amount allowable under the IRC which was $18,000 in 2015. Participant contributions may be designated as pretax or after tax Roth contributions, subject to IRC limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $6,000 for 2015. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Contributions

The Company may make a discretionary matching contribution equal to a percentage of the participant's elective salary deferral contributions to the Plan. The Company may also make a discretionary profit sharing contribution to the Plan. The Company did not make any discretionary employer matching contributions or profit sharing contributions during 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions, Employer's contributions and earnings or losses, and may be charged with certain administrative expenses. Plan earnings or losses are applied to a participant's account balance based on the investment experience of the funds held and the number of shares owned in each fund by the participant.

1. Description of the Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contributions plus actual earnings or losses thereon is based on continuous years of service as follows:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon death or disability, the participant (or his/her beneficiary in case of his/her death) becomes 100% vested in the Plan. Upon reaching normal retirement age or after six years in the Plan, the participant becomes 100% vested in the Plan.

Forfeitures

Forfeitures of terminated participants' non-vested account balances are retained in the Plan and may be used to reduce employer contributions or to pay administrative expenses. There were no forfeited accounts with balances at December 31, 2015 or 2014. There were no forfeitures applied in the reduction of Employer matching or profit sharing contributions for the year ended December 31, 2015.

Payment of Benefits

The benefit a participant is entitled to equals the value of the participant's vested interest in his or her account. On termination of service due to death, disability, severance, or retirement, a participant may elect to receive a lump-sum payment equal to the vested portion of his or her account. Upon termination of employment, vested account balances of less than $5,000 may be distributed in a lump sum for rollover to another qualified plan or an Individual Retirement Account or Annuity for the benefit of the participant. Account balances less than $1,000 are distributed as a lump sum distribution.

Participant loans receivable

Participants may borrow from their accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a rate set by the plan administrator, currently at 4.25%. Any loan must be repaid within five years unless otherwise approved. Principal and interest are paid ratably through payroll deductions. Participant loans receivable are stated at the unpaid principal balance, plus accrued interest. No allowance is recorded as the loans are secured by the participant's account balance.

1. Description of the Plan (Continued)

Administrative Expenses

Administrative expenses may be paid by the Employer. However, the Plan may pay transaction fees which are charged directly to the specific participant generating the transaction.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the custodians. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the custodians. See note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses for investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

3. Fair Value Measurements

The accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy places the highest priority on unadjusted quoted marked prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of its investments:

Pooled separate accounts: The fair value of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The funds invest in underlying domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation determined by the fund's manager. The pooled separate accounts provide for daily redemptions by the Plan at the reported net asset values per share, with no advance notice requirement.

Fixed income: The fixed interest account consists of accounts issued by the Custodian and backed by its general assets. Contracts available in this fund earn fixed rates of return annually. Contract value represents contributions made under the contract, plus earnings or losses, less participant withdrawals and administrative expenses. The fair value of the fixed fund investment contract is determined using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (level 3 inputs).

Participants may ordinarily withdraw or transfer all or a portion of their investment in the fixed interest account at contract value. Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Custodian. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

3. Fair Value Measurements (Continued)

US GAAP defines the circumstances in which an investment contract is considered fully benefit-responsive and requires such contracts to be reported at fair value in the Plan's statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value. The terms of the fixed interest account cause the investment to be fully benefit-responsive and as such requires it be reported in the financial statements at fair value. The contract value of the fixed interest account and the fair value were the same as of December 31, 2015 and 2014 as the guaranteed yield was 2.09% and the effective yield was 2.02%.

The following tables present the Plan's fair value hierarchy by asset class for those assets measured at fair value:

5. Information Certified by the Custodian (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (U.S.A) (the Custodian), except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

5. Information Certified by the Custodian (Unaudited) (Continued)

The Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

December 31,	**2015**	2014
Investments, at fair value	**$ 2,652,229**	$ 2,199,688
Notes receivable from participants	**17,153**	71,904
	$ 2,669,382	$ 2,271,592

Year ended December 31,	**2015**
Investment income	
Net depreciation in fair value of investments	**$ (50,171)**
Interest on notes receivable from participants	**1,910**
	$ (48,261)

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

7. Tax Status of the Plan

The Employer adopted a prototype plan document sponsored by Alliance Benefit Group of Houston Inc. (ABGH). ABGH received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. Parties-In-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by John Hancock Life Insurance Company (U.S.A) and its affiliates qualify as party-in-interest transactions.

9. Voluntary Fiduciary Correction Program

Subsequent to the year ended December 31, 2015, the Plan Administrator determined that certain procedural errors regarding employee eligibility and enrollment occurred causing the failure to timely remit certain employee contributions to the Plan. The Plan Administrator and its attorney determined that the failures were eligible for self-correction under the terms of the Voluntary Fiduciary Correction Program (VFCP). The Company has calculated an estimate of the cumulative employee contributions and lost earnings on these amounts due to the Plan by the Company totaling $40,000 as of December 31, 2015, and the Plan has recorded this amount as receivable from the employer and a corresponding increase in participants contributions during 2015. The Company is in the process of completing the VCFP requirements, and will remit the funds to the plan upon completion of the process.

10. Subsequent Events

The plan administrator evaluated events or transactions that occurred after December 31, 2015, and through October 14, 2016 the date the financial statements were available to be issued.
